Municipal Record

NINETIETH COUNCIL

COUNCIL

JOHN S. HERRON.....President
E. J. MARTIN.....City Clerk
ROBERT CLARK.....Ass't City Clerk

Pittsburgh, Pa.,

Monday, January 7, 1918.

On Monday, January 7th, 1918, at 10 o'clock, a. m., the members elect of the Council of the City of Pittsburgh, together with those holding over, convened in the Council Chamber of said City, in accordance with the provisions of the Act of Assembly of the Commonwealth of Pennsylvania, approved May 31st, 1911.

The Council was called together by Edward J. Martin, City Clerk.

And on motion of Mr. Kerr, Mr. Martin was elected chairman pro tem of the meeting.

The Chair presented

No. 1.

Commonwealth of Pennsylvania,
County of Allegheny. ss:

I, William B. Kirker, Prothonotary of the Court of Common Pleas in and for the County and State aforesaid, do hereby certify that at an election held on the 6th day of November, A. D. 1917, William J. Burke, John H. Dailey, W. Y. English, John S. Herron and Enoch Rauh were duly elected to the office of Council, City of Pittsburgh, County and State aforesaid.

Witness my hand and seal of said Court, the 28th day of November, A. D. 1917.

WM. B. KIRKER.

Prothonotary.

(Seal of County of Allegheny.)

Which was read, received and filed.

And the Chairman requested the following members-elect, Messrs. William J. Burke, John H. Dailey, W. Y. English, John S. Herron and Enoch Rauh to arise in their places to take the oath of office, which was administered to them by the City Clerk, Edward J. Martin.

The roll being called, the following members responded to their names:

Present—Messrs.

Burke	Kerr
Dailey	McArdle
English	Rauh
Garland	Robertson
Herron	

A quorum being in attendance, Council proceeded to the election of a President.

Mr. Robertson arose and said:

Mr. Chairman and Members of City Council:

The man I propose to offer for your consideration as president of this body is no experiment as a presiding officer. He has been the titular head of this municipal legislative assembly for the past two years.

He has proven his ability, fairness and knowledge of parliamentary law.

In the recent mayoralty primaries, opposed by two powerful organizations, practically single handed and alone, he polled over 16,000 votes. A remarkable and emphatic tribute to his independence; an approval by the people, to whom we should all look for guidance, of his acts as a member of this body and an indication to each one of us as to how our votes should be cast on this occasion.

This is a time when politics should be absolutely divorced from our governmental affairs, national, state and local. Our boys at the front are expected to and will be united. There can be no excuse why we at home should be divided. Every member of this body will no doubt utter such sentiments as these. What we say here, however, is not what will count, in the final analysis. What we do will be the standard by which we will be judged.

The man, whom I shall nominate was placed in the chair by the votes

of seven of the present nine members of this body. There can be no reason, other than politics and factionalism for a change. If the members of this body believe what they say and wish to give over proof they will show by their acts that neither politics nor factionalism is to have a place in this assembly at this time.

I present the name of our preent president and hope for the good of the city, we all love so well and are sworn to serve, he will be our future pre-siding officer—Dr. James P. Kerr.

Mr. Rauh arose and said:

"I rise to second the nomination of Dr. Kerr. I wish to state, Mr. Chairman, that Dr. Kerr and I have been members of the Council of Nine ever since the Council of Nine has been inaugurated. There have been occasions on which the Doctor and I have differed on matters of policy, but I wish to state that I have always found him capable and honest. It is with much pleasure, indeed, that I second the nomination."

Mr. Dailey arose and said:

"I arise to place in nomination for the Presidency of this Council the name of a man who has been a member of it for the past four years—a man who has several times gone before the people and received their approval. I am quite sure he is capable of filling this office and will do justice to all people regardless of politics. It is with pleasure that I present the name of John S. Herron."

Mr. English arose and said:

"It is with great pleasure that I rise to my feet to second the nomination of my friend, John S. Herron."

"I have served in this Council with him for four years. I have gone through two of the bitterest political campaigns that the City has ever witnessed. Together with Mr. Herron I have been subjected to all sorts of persuasion and even with threats in our efforts to serve the public of our city."

"Last summer the Mayor attempted to threaten and coerce the entire Council, but there were some members of Council who were strong enough not to follow the Mayor's advice, and, thank God, Mr. Herron was not weak. Mr. Herron stood for the people in the attempted assault upon the City Treasury. What was the result? The people not only approved Mr. Herron and, with pardonable pride, I may say myself, but actually gave each of us more votes than the candidates for Mayor."

"In starting out this new Ninetieth Council it seems to me to be a worthy act by electing a man of the people—a man who has risen from the ranks—a man who has served labor without one criticism—a man who has been tempted and threatened many, many times without wavering from his duty to the people. Even today he has been threatened, but he refused to swerve from his duty."

"Mr. Chairman, this city will benefit under the administration of Mr. Herron

as President of Council, if he is elected."

And on motion of Mr. Garland, the nominations were closed on the names of Dr. James P. Kerr and John S. Herron.

And the result of the voting was as follows:

For Dr. James P. Kerr:

Messrs.

Garland	Rauh
Herron	Robertson

For John S. Herron:

Messrs.

Burke	English
Dailey	McArdle

(Mr. Kerr not voting.)

And Dr. James P. Kerr received four votes.

And John S. Herron received four votes.

And there not being a majority of the votes of Council necessary for a choice, the Clerk proceeded to call the roll as follows:

And there not being a majority of the votes of Council necessary for a choice, the Clerk proceeded to call the roll as follows:

For **Dr. James P. Kerr:**

Messrs.

Garland	Rauh
Herron	Robertson

For **John S. Herron:**

Messrs.

Burke	English
Dailey	Kerr McArdle

When the name of **Mr. Kerr** was called he arose and said:

"Mr. Chairman. I don't intend to hold up the proceedings of this meeting for an indefinite period. The purpose of the opposition to my election as President is simply an attempt to humiliate and punish me. I have always attempted to do the best I could in the interest of the citizens of Pittsburgh, and am not particularly interested in the Presidency of Council, because it carries nothing with it but the right to vote as a member of the body. Therefore, in order to permit the organization to proceed I will vote for Mr. Herron."

And Dr. James P. Kerr received four votes.

And John S. Herron received five votes.

And John S. Herron, having received a majority of the votes of council, was declared duly elected President for the ensuing term.

The Clerk appointed Messrs. Dailey and Kerr to escort Mr. John S. Herron, president-elect, to the chair.

The President, being introduced by the Committee, before taking the chair, said:

Mr. Herron arose and said:

"Ladies and Gentlemen and Members of Council: I appreciate the honor you have conferred upon me. I am sorry that it was impossible for us to unite upon a Chairman. Dr. Kerr has well stated that the Chairmanship of Council amounts to very little. The President is simply one member of the body. His responsibility is no greater than his colleagues.

"I desire to state at this time that I will do everything possible to promote harmony between the Legislative branch and the Executive branch of the City Government. As members of Council we have everything to gain by giving Pittsburgh a real good business administration. It is our duty to do our duty at all times. It is our duty to do everything we can to promote a constructive policy in the City of Pittsburgh. Unfortunately the last four years there has not been the degree of harmony that should have prevailed, and I am absolutely certain that everybody in the City of Pittsburgh desires a closer relation to exist between the Legislative and Executive branches of the Government.

"I hope the members of Council will be as fair with me as I will be with them. If there is anything I can do to help as the presiding officer I will only be too glad to do it.

"The rules of Council can be amended if it is the desire of the majority of members to amend them to go back to the old system of having a Chairman for each committee.

"I desire at no time to assume any more authority than you gentlemen see fit to give me. We must adopt some rules temporarily, but in a day or two they can be amended if it is the desire to do so. This Council is ready for business and if you have any papers to present you can present them now."

PRESENTATIONS.

CITIZENS' POLITICAL UNION

of Pittsburgh and Allegheny County.

Pittsburgh, Pa., January 7, 1918.

To the Council of the City of Pittsburgh.

Dear Sirs—Under the law the appointments to certain city offices by the Mayor are required to be submitted to you for confirmation. This act of confirmation is evidently not merely a formal matter, but is intended to be a vital, influential function of the authority of the Council. The purpose of it being to secure a high order of public servants.

The Executive Committee of the Citizens' Political Union are of the opinion that in order to fulfill the duty which Council owes to the people of the city in reference to confirmation of the appointments of the Executive, such appointments should be taken under advisement, as is customary by most legislative bodies upon whom is cast the duty of confirming appointments, in order that Council and the people may have an opportunity to scrutinize the appointments, and investigate the character of the appointees, and that the people may have an opportunity to be heard by Council either in favor of or against confirmation. Such a practice should of course be free from any spirit of hostility to the Executive, or of any effort for political advantage, and should be adopted solely in the interest of a high order of public service.

In the name of our Committee, I

respectfully petition your Honorable Body to take the appointments of the Mayor which will be submitted to you today under advisement, and to defer action on said appointments until you and the people are fully advised as to the fitness and ability of the appointees.

Respectfully yours,

JAMES H. GRAY,

President Citizens' Political Union.

Which was read.

FEDERATION OF CIVIC BODIES
of the North Side.

Council John S. Herron, City.

Sir—The Federation of Civic Bodies of the North Side takes this opportunity of highly commending the action of Council in making a start in bringing the conduct of the City's business up to a higher standard of efficiency and economy by cutting some of the great number of useless jobs. We are keenly alert in this matter and are watching your actions with great interest. A great opportunity is yours at this time, when war economy demands drastic retrenchment and when every useless position eliminated, releases a man to help WIN THE WAR by productive service.

We also at this time urge you to exercise your statutory obligation to the people of closely scrutinizing the appointments of the Mayor, and of refusing to approve any which do not measure up to the requirements of the office.

The above was adopted at the regular meeting of the Federation January 4th, 1918.

Yours very truly,

WAYNE PAULIN,

Secretary.

Which was read.

Mr. McArdle moved

That the communications be received and filed.

Which motion prevailed.

Also

No. 15.

Whereas, It is alleged that at the primary election held on Wednesday, September 19th, 1917, a large number of city employees were absent from their regular duties; that police beats were unpatrolled; that fire companies were undermanned; that many men were employed and engaged in and about polling places in the various precincts and wards in the city influencing voters for or against certain candidates for public office; and

Whereas, It is further alleged that such persons' names have been certified by their superior officers upon the September payrolls of the various bureaus and departments as having performed their regular service and having earned their salaries and wages from the city upon said day; now, therefore, be it

Resolved, That the City Council make

inquiry through the Finance Committee as to the state of the payrolls for said month of September and also make thorough investigation of the whereabouts and activities of said employees on said day; and be it further

Resolved, That the City Council through the said committee make inquiry into intimidation, fraud, violence or any other matters or things relating to said election that may be brought to their attention during this inquiry.

Which was read and referred to the Committee on Finance.

Mr. McArdle moved

That Council take a recess until 11:45 o'clock a. m., and remain in session until the inauguration ceremony of the Mayor-elect has ended, and then Council to take a further recess until 2 o'clock, p. m., to reconvene to take up any matters that may be presented by the Mayor.

Which motion prevailed.

And Council took a recess until 11:45 o'clock a. m.

AFTER RECESS.

And the time of the recess having expired, Council was called to order, and there were present:

Present—Messrs.

Burke	Herron (President)
Dailey	Kerr
English	McArdle
Garland	Rauh
	Robertson

Dr. Kerr moved

That a committee of three be appointed to escort the Mayor-elect into the Council Chamber to subscribe to the oath of office.

Which motion prevailed.

And the Chair appointed as members of said committee, Messrs. Kerr, Burke and Rauh.

The Committee retired to wait upon the Mayor-elect to escort him to the Council Chamber.

The Committee having returned introduced to Council the Mayor-elect.

The Rev. Maitland Alexander pronounced the invocation.

The Chair presented

ss:

I, William B. Kirker, Prothonotary of the Court of Common Pleas in and for the County and State aforesaid, do hereby certify that an election held on the 6th day of November, A. D. 1917, E. V. Babcock was duly elected to the office of Mayor, City of Pittsburgh, County and State aforesaid.

Witness my hand and seal of said Court the 28th day of November, A. D. 1918.

WM. B. KIRKER,
Prothonotary.

(Seal of Allegheny County.)

Which was read, received and filed.

The Chair introduced Hon. John D. Shafer, President Judge of the Court of Common Pleas of Allegheny County, who administered the oath of office to Mayor-elect, E. V. Babcock.

The Chair said:

"Ladies and Gentlemen and Members of Council—I take pleasure at this time to introduce His Honor, Mayor E. V. Babcock."

Hon. Joseph G. Armstrong arose and said:

"Mr. Mayor, it is with a great deal of pleasure that I turn over to you the key to the Mayor's Office of the City of Pittsburgh."

Hon. E. V. Babcock said:

"Mrs. Babcock, Dorothy, Vose, Freddie and my Friends—I am pleased that so many of you have come here today interested in your city, or, perhaps in me personally, to lend your presence to this occasion."

To the President and Members of City Council:

In taking the oath of office as Mayor of the City of Pittsburgh, I am deeply conscious of the distinction conferred upon me by my fellow citizens. To be the executive head of an \$800,000,000.00 corporation is a great honor, but a greater responsibility.

We are at war. The patriotic instincts of every man, woman and child within the city are stirred as never before in its history. Sons and fathers, by the thousands, have left their homes to fight to maintain the nation's ideals. The national government calls upon every element of our citizenship, rich and poor, high and low, to do his best to help reach a victorious end. Therefore, as chief executive of the City, I feel that this call to national service comes to the municipality as a whole as well as to the individual citizens.

What the next four years will develop as proper subjects for municipal attention and action is uncertain. The positive fact faces us that our primary consideration now should be to make Pittsburgh, the Workshop of the World, as intense in national loyalty and as efficient in national service as possible. To this end, the personal sacrifices which the Government asks every individual to make, must find its counterpart in the conduct of the city's affairs. The conservation of health, of physical resources, of human life and property, of man-power, and internal development for the public good, become the duty of this municipality in this hour of the nation's crisis. Every atom of human and physical power should be harnessed in a patriotic endeavor to uphold the arm of national service.

This does not mean that we are to neglect our local functions affecting the health, comfort, safety and prosperity of our people. In performing these, we must keep in mind the fundamental principles of economy and efficiency

demanding of us as citizens of this great republic. How well this administration shall succeed in so doing will be reflected by the conduct of its officers and employees. As your Mayor, I shall endeavor to bring it about, that these ideals of national obligation shall permeate, so far as possible, from the humblest citizen up.

The unusual times and conditions bring us face to face with new municipal problems. Even before the war the high cost of living was a live issue. It has been aggravated by the developments of the last three years. This affects every citizen of this municipality, and therefore, should become the concern of the government. The problem of food supply and distribution is one that merits the careful study of the city. The steps now being taken by national and state authorities in this direction should find earnest co-operation on our part. This will prove helpful not only for the period of the war, but will lay the groundwork for a municipal activity in the years to come that will have a potent effect upon the future.

In like manner, the City owes consideration to its employees. Every one of them should be given a fair wage, measured by the purchasing power of a dollar. In return, I shall insist that every employee of the City render honest and fair service for the salary that he receives. This is no time for slackers in either national or municipal service.

I will be guided by the principle of rewarding efficiency, or promoting within the service, and of demanding of every man receiving a pay envelope from the City of Pittsburgh, a strict accounting of his responsibilities. There is no good reason why employment in the city service, as well as employment in private business, should not yield reward for loyalty.

The efforts put forth by city employees to protect themselves and their families against misfortune, incapacity and death, merit all the encouragement the municipality can reasonably give. The Municipal Pension Association, well conceived and conducted, is proving a useful institution. The Firemen's Disability Fund has maintained a healthy and prosperous condition for many years and still continues as an object of pride to the Fire Department. The appropriations to its establishment are highly creditable to the City. The Police Pension Fund Association is designed to provide relief for the members of the force after 20 years of service and for their dependents after death. Being vital to 1,000 worthy city employees, this organization should be put on a sound financial basis and its rules and regulations amended to correct what experience has proven is wrong. In this effort the city should assist.

Every citizen of Pittsburgh recognizes that if the municipality is to observe the principle of personal economy demanded by national loyalty, no large expenditure for public improvements can be expected immediately. At the

same time, the facilities of the various bureaus should be used in planning for improvements which can be installed when financial conditions again become normal. It is my earnest hope that through study and conference the executive and legislative departments of the city can adopt a program of improvements to be undertaken over a period of years, the most necessary first, and that in the meantime all of the plans and specifications may be prepared and no delay ensue when the time for action arrives.

I have repeatedly stated that in my judgment improvements, as far as possible, should be paid for out of current revenues. When the need for certain improvements becomes so pressing, and the cost so great, that a bond issue becomes necessary, the term of the bonds should not exceed the life of the improvement.

The need for street improvements must be apparent to all of us. Economy along other lines in order to provide these improvements, without excessive taxation, should be welcomed by every tax-payer.

The need for conservatism in issuing long-term bonds is disclosed by the mere statement that an amount equal to nearly 35 per cent of the entire tax levy for 1917 will be required during this current year to take care of the interest and sinking fund for bonds now outstanding.

This whole question of paying for improvements by bonds is one that appears to me to deserve the most careful study for the reason that even a permanent improvement, financed by 30-year, 4 per cent bonds, costs 38 per cent in interest and only 62 per cent of the proceeds goes into the work. I would advocate that, in view of the financial conditions and uncertainties arising from the war, great caution should be exercised in issuing bonds by councilmanic action, it appearing to me best to conserve our credit for great public emergencies which may be thrust upon us. Certainly, the people should be asked to pass upon bond issues which are going to cut heavily in the tax levy for years to come.

All of the foregoing, relative to public improvements, will help make us sound financially. Important as it is to bring about and maintain this condition, the establishment and maintenance of a clean city morally is greater. The branch of city government which deals with this is the Department of Public Safety.

Every man, woman and child in the City of Pittsburgh is affected by the activities of this department, because it has to do with what the municipality provides in protecting the lives and property of its citizens. There will be no backward step taken by the City of Pittsburgh on moral grounds during my administration. Houses of prostitution will positively not be allowed to open or exist. Public gambling, one-man clubs and slot machines will have the attention of the administration and the laws provided for their suppression will be enforced. The highest de-

gree of efficiency in this important branch of the city service will be aimed at and strict discipline of members of the Police and Fire Departments demanded. Loafing around clubs and saloons and drinking while in uniform not only will be forbidden, but punishment will be meted out to offenders. Only in this way can a thorough-going spirit of efficiency be established and maintained. Automobile stealing and other infractions of the law will be stopped. Police protection is a mockery where there is disregard for the law on the part of the Police Force, and it cannot help but undermine confidence in the ability of the city to afford protection to life and property. Discipline will be insisted upon and maintained, let the chips fly where they will.

I am not unmindful of the fact that the conduct of the Police Courts of the City of Pittsburgh has a bearing upon the moral conditions of the city. The police magistrates appointed will be required to be sufficiently familiar with the law, and sufficiently equipped otherwise, to administer the office according to the provisions of the ordinances of the city and the Acts of Assembly. I shall insist that in the discharge of their duties, however, proper recognition shall be given to the rights of humanity and common decency as well as to the enforcement of law. Everything that I can do to strengthen the Police Court link in the chain of efficiency in the Public Safety Department, will be done; it is my intention to introduce, as rapidly as possible, improvements in the system found from investigation and by the experience of other cities, to be practicable and effective. Such things as the establishment of a Traffic Court and a Delinquent Court will receive my attention.

The safety of the citizens from reckless automobile driving on the boulevards, street corners and highways in general will be aimed at. Traffic regulations will be enforced and strict penalties follow their violation.

The present police force of the City of Pittsburgh is inadequate, even with the highest degree of efficiency. The enlargement of this branch of the service has not kept step with the growth of population and with demands for protection arising through new traffic conditions. There should be more cornermen to protect pedestrians, and especially, the school children. The volume of motorized vehicle traffic is growing by leaps and bounds and introduces a new and urgent need for increased police protection.

The County records of increasing accidents and deaths caused by motorized vehicles prove the necessity for better traffic regulations. Every ounce of energy I possess will be exerted to make Pittsburgh safe for Pittsburghers.

The great problems of street railway transportation, of garbage and rubbish disposal and other public utilities service, now in the process of adjustment, will claim my attention, but are too big and weighty to herein discuss.

There will be transmitted to you, for confirmation, in the manner prescribed

by law, the names of the following to fill the positions designated:

MR. JOHN SWAN—Director of the Department of Public Works.

MR. CHARLES B. PRICHARD—Director of the Department of Public Safety.

MR. STEPHEN STONE—City Solicitor.

MAJOR W. H. DAVIS—Director of the Department of Public Health.

MR. JAMES F. MALONE—Director of the Department of Supplies.

I most respectfully request favorable action at your hands on these nominations because these gentlemen are pledged to carry out the policies outlined in my platform, and referred to above. In your confirmation of them you will be linking arms with me in an endeavor to establish in the City of Pittsburgh a good government, which I assume you desire as much as I do. In fact, the best results cannot be had without active, honest and constant co-operation between the executive and the legislative branches of the city government. Some of us have differed in politics. Let that be forgotten. We are now to the point of attending to the city's business. I shall try to do my full part and expect to be helped, and not hindered, by your honorable body.

With a deep sense of the responsibilities resting upon me personally, and an earnest desire to merit and enjoy your co-operation.

The Chair stated

That Council will take a recess until 2 o'clock p. m., when business will be transacted in the usual manner.

Which was read.

Mr. Burke moved

That the nomination of Mr. Swan, as Director of the Department of Public Works, be confirmed.

Upon which motion, the ayes and noes were ordered taken agreeably to law, and being taken were:

Ayes—Messrs.

Burke	Kerr
Dailey	McArdle
English	Rauh
Garland	Robertson
Herron (President)	

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. McArdle moved

That the consideration of the nomination of Mr. Prichard, as made by the Mayor, be held in abeyance by Council until such time as Council, or a committee of it, shall have an opportunity to meet with Mr. Prichard and discuss with him his policies as he has outlined them in the administration of the affairs of the Department of Public Safety.

Mr. Garland said:

"Mr. Chairman, I don't suppose it is worth while saying much on this subject, but I want this inserted in the record, that having full confidence in the new Mayor and in Mr. Prichard, I will vote against the motion. This morning we heard from the Mayor. Outside of what we have heard I want to say that personally I have full confidence in his sincerity, in his ability, in his integrity and in his word. I feel satisfied that the Mayor will do what he said from the platform that he would do. I also have sufficient confidence in the nominee of this important department not to delay the confirmation one minute. I recognize that I am going to vote in the minority, but I want to place myself on record."

Mr. McArdle said:

"Mr. Chairman, in making this motion I have a number of things in my mind. First, I have in mind that representations have been made to the Council before as to the policies that would be pursued in the administration of the various departments of the City Government and I have in mind with that the fact that this Council as it was constituted during the past two years has had a number of very trying circumstances that were the outgrowth of a public dissatisfaction with the administration of the particular department to which this gentleman has been nominated. I have further in mind the fact that the law that constitutes this Council, in compliance with which this name is now before us, places a very distinct measure of responsibility upon us in the approval of a new director. I take it that there was a purpose, or design, in the Legislature of the State

of Pennsylvania when it made this provision, and that that perhaps was partly at least to give Council some means of having some check upon those upon whom are legally imposed the responsibility of administering the laws the legislative body passes, together with those of the Legislature and the expenditure of the money with which it provides through its power as a tax levying body, to pay for service rendered to the people.

"I have further in mind the fact that the Mayor this morning in his inaugural address made plain certain definite policies that he had of helping the ones that should be pursued in carrying out the administrative functions with which he is charged. And he said that he had consulted with these gentlemen and that he was convinced that they were in harmony with his views on the subject.

"Now, just as he had views, so I take it has the members of Council views, particularly after their experience within the last year and a half and even longer, and that having as a body to share the responsibility for this appointment that it is asking no unreasonable thing when it asks an opportunity of enlightening itself for its members in the very same way in which, no doubt, the Mayor gave himself enlightenment, and brought his mind to a state of satisfaction. We cannot do that in any other way except to meet the gentleman that has been proposed for this office. And I say that, in his case, so far as I am concerned, he differs from the man for whose nomination I have just voted, in that I don't know him except in a casual way. I know nothing of his conception of the manner in which the Department of Public Safety should be operated. I know nothing as to whether he has what I regard as a sufficient grasp of the affairs of that department. I know nothing as to whether he knows anything about the manner in which that department had been operated for the past two or three years, or for the past two years with which I have been familiar with it, and during which time we have had these experiences to which I refer.

"And in making this motion I am doing it for the distinct purpose of providing myself an opportunity of allowing Mr. Pritchard, if he shall become the Director of the Department of Public Safety, to understand some of my views and give me an opportunity to understand his, in order that, if at any future time there should be disagreement between us, it may not be said that it was because we did not have any understanding in the beginning.

"I say frankly now that I don't propose. Mr. Chairman, going through the experience of having any man who sits in the director's seat of a department of this government come in before this legislative body and giving the excuses for inefficient administration of a department that we have listened to heretofore, and I want to meet this man frankly and fairly and openly and so inform him. I want to ask him some

questions. I want to know something about what is in his mind and how he expects to achieve the things he may say he wants to achieve, and I want an opportunity for him to know that there will be no stepping back of the authority vested in him by the law—if he fails to measure up to the requirements of the law and to the representations that he may make to the members of Council—if given that opportunity when on those representations they pass favorable judgment on his nomination."

Mr. English said:

"Mr. Chairman, I second this motion to withhold confirmation of Mr. Pritchard as Director of the Department of Public Safety for the express purpose of permitting the Council to have a conference with Mr. Pritchard.

"As a matter of justice to Mr. Pritchard, I hasten to say that my reason is not based on any personal objection. I have known Mr. Pritchard for several years. I think he is a first-class lawyer. He ought to make a good Director for the Department of Public Safety, but there are some things that I don't know; for instance, whether he appreciates the tremendous responsibility which he assumes if he takes this position.

"There is on the table of Council letters from responsible organizations interested in the proper conduct of the Department of Public Safety. If for no other reason these organizations are entitled to be present at a conference in order that they may be given an opportunity to hear expressions from Mr. Pritchard before the Council confirms his appointment. The Council will recall that in his inaugural address this morning the Mayor referred to gambling houses and one-man clubs and specifically stated that the laws regarding such matters would be strictly enforced.

Mr. Pritchard is a lawyer and is no doubt well acquainted with the laws governing these particular subjects and many others. It seems to me that we should know from Mr. Pritchard whether it is legal for a policeman to enter a one-man club or any other kind of a club where liquor is sold. Also whether the old excuse that because a club was chartered the police had no jurisdiction. In other words, is the police department to be a real department of police and will it suppress infractions of the laws, whether in chartered clubs or in clubs that are not chartered? Another thing that I am anxious to know is, whether or not Mr. Pritchard is actually going to be the directing head of this department, or whether the Mayor is to be the actual head of the department. I don't propose to sit in this Council and have the scenes of the past few years repeated regarding who was the responsible head of this department.

"The mere statement that any person has confidence in any individual is not sufficient, in my estimation, to warrant final action by the Council. It

is my purpose to place the matter squarely before the members of Council so that there will not be any difficulty or confusion in the future."

And the question recurring on the motion, offered by Mr. McArdle, Mr. McArdle demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken, were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	Kerr
English	McArdle

Noes—Messrs.

Garland	Rauh
Robertson.	

Ayes 6. Noes 3.

And a majority of the votes being the affirmative, the motion prevailed.

Mr. McArdle moved

That the same course be taken on the nomination of Mr. Stephen Stone, City Solicitor, as has been taken on the nomination of Mr. Prichard.

Mr. McArdle arose and said:

"I make this motion without thought of questioning the capacity of Mr. Stone to adequately fill the office of City Solicitor if he desires to do so. But at this particular time there is no department of the City Government, the operation of which, during the next few years, is fraught with so much importance to the citizenship of this city as our legal department. We have pending before the Public Service Commission of the State of Pennsylvania certain litigation effecting the rights of the citizens of Pittsburgh in their relationship to the transportation lines of the City and of the lighting utilities company of the city. We have pending and in the course of preparation in this department litigation effecting the title to valuable wharf land, land not only valuable from the viewpoint of its intrinsic worth of millions of dollars, but I might add valuable and vital to the future development, welfare and progress of the City of Pittsburgh.

"Upon these two things, if no others, the future of this City might be determined; whether it progressed or whether retrograded.

"And before giving my sanction to the installation of a new City Solicitor, I want an opportunity to question him as to his policy, as to what will be his program in carrying out the policy already defined and well understood by the citizens; defined by this Council during the past year and a half on both of these questions. I am sure that nobody will say reasonably that on matters of so much importance and so far reaching in their effect, that there is anything at all unreasonable in wanting to understand definitely and clearly just what the views of the new City Solicitor are and how nearly we can expect him to work for the successful

promotion and continuance of the policy to which the City has been committed through the action of the majority of this body as now constituted."

Mr. English arose and said:

"Mr. Chairman, as in the other case, I hasten to say that it is no personal reflection on the gentleman nominated for City Solicitor that I second the motion for a conference before confirmation. It is for the purpose of learning the views of the gentleman nominated for City Solicitor and to give him my views and to see whether they are in harmony with each other. At all events if we are to have hearty co-operation with the executive branch of the City Government as administered by the cabinet officials, it is our sworn duty to meet with these gentlemen before we place our stamp of approval upon their appointment."

And the question recurring on the motion as offered by Mr. McArdle, Mr. McArdle demanded a call of the ayes and noes, and the demand having been sustained, and the ayes and noes were ordered taken, and being taken, were:

Ayes—Messrs.

Burke	English
Dailey	Herron (President)
McArdle	

Noes—Messrs.

Garland	Rauh
Kerr	Robertson

Ayes 5. Noes 4.

And a majority of the votes being in the affirmative, the motion prevailed.

Mr. McArdle moved

That consideration of all further nominations, that have been presented, be held in abeyance until Council has disposed of the bills that were introduced at the meeting this morning affecting in some manner each of the offices to which these nominations have been made.

Mr. English arose and said:

"Mr. Chairman, as the author of the bills referred to by the previous speaker, and speaking particularly for the information of the new member of Council, these ordinances, if enacted into laws, will result in a saving of something like \$28,800 annually to the people of Pittsburgh.

"The ordinances provide for a combination of some positions while in others it will make a reduction in the number of positions. In other words, the law says the City Treasurer may be appointed the Director of the Department of Supplies, and the Director of the Department of Public Health and the Director of the Department of Charities may be the same person. In regard to the Department of Assessors and the Police Magistrates the ordinances provide for a reduction in the number of each.

"It is our duty to consider these ordinances and if Council desires to enact them into law the Mayor's confirmations should be held in abeyance until the ordinances are finally disposed of. Council meets every day and there should be no delay in considering the ordinances. Competent assistants are employed in the departments to conduct the work of the office until the ordinances are either defeated or put on the statute books. There is no desire on my part to block the business of the new administration and for that reason I would suggest that consideration be given these ordinances at the first opportunity."

And the question recurring on the motion as offered by Mr. McArdle.
The motion prevailed.

Mr. Garland presented

No. 20. An ordinance authorizing and directing the issuance and sale of bonds of the City of Pittsburgh in the principal amount of hundred thousand dollars (\$) for the purpose of providing funds for the payment of the current ordinary expenses of conducting the public business of said City, and providing for the redemption of said bonds and the payment of interest thereon, and appropriating the proceeds thereof.

Which was read and referred to the Committee on Finance.

And on motion of Mr. Garland,
Council adjourned.

ROBERT CLARK.....Ass't City Clerk

Pittsburgh, Pa.

Saturday, January 12th, 1918.

Council met pursuant to the following call:

Pittsburgh, January 10th, 1918.

Mr. E. J. Martin,
Clerk of Council.

Dear Sir:

Please call a special meeting of Council for Saturday, January 12th, 1918, at 4 o'clock P. M., for the consideration of Bill No. 20, entitled, "An Ordinance authorizing and directing the issuance and sale of bonds of the City of Pittsburgh in the principal amount of seven hundred thousand (\$700,000.00) dollars, for the purpose of providing funds for the payment of the current ordinary expenses of conducting the public business of said City, and providing for the redemption of said bonds and the payment of interest thereon, and appropriating the proceeds thereof," and such other business as may come before the meeting.

Yours respectfully,

JOHN S. HERRON,
President.

Which was read, received and filed

Present—Messrs.

Burke	Garland
Bailey	Herron (President)
English	McArdle

Absent—Messrs.

Kerr	Rauh
	Robertson.

Mr. **Garland** presented
No. 21. Report of the Committee on Finance for January 9th, 1918, transmitting sundry papers to Council.

Which was read, received and filed.

Mr. **Garland** moved

That, in order to consider Bill No. 20, Rule VIII, which provides that all bills, ordinances and resolutions when returned from committee shall be printed and a copy of each bill mailed to each member at least 48 hours previous to a meeting of Council, be suspended.

Which motion prevailed.

And Mr. **Garland** also presented, with an affirmative recommendation,

Bill No. 20. An Ordinance entitled, "An Ordinance authorizing and directing the issuance and sale of bonds of the City of Pittsburgh in the principal amount of _____ hundred thousand dollars (\$ _____) for the purpose of providing funds for the payment of the current ordinary expenses of conducting the public business of said City, and providing for the redemption of said bonds and the payment of interest thereon, and appropriating the proceeds thereof."

In Finance Committee, January 10th, 1918, Read and amended in Section 1, and the title by inserting the word "seven" before the words "hundred thousand dollars," and after the word "dollars," the amount "(\$700,000.00)." and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. **Garland** moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. **Garland** moved

A suspension of the rule to al-

low the second and third readings and final passage of the bill.

Which motion prevailed.
And the bill was read a second time.

Mr. English arose and said:

"Mr. Chairman, ordinarily I am opposed to the issuing of bonds for the payment of current expenses, but this is a special emergency appropriation due to the unfortunate mismanagement of the past administration. As an evidence of my position in the matter I endeavored to have inserted in this ordinance a preamble setting forth that the cause of the bond issue was the delay or failure of the Executive to furnish Council with the budget estimates within sufficient time to permit the Council to act intelligently on the budget. It is a matter of record before this Council that back in the month of July, 1917, the Council passed a resolution, presented by myself, asking the Executive to have the budget estimates before Council by September 10th. The Council in its wisdom changed the time to read October 1st, by an amendment to that resolution. At subsequent meetings of Council prior to October 1st, I think on three different occasions, I endeavored to have some action taken for the purpose of getting these estimates before the Council, but despite my efforts and despite the several resolutions passed by the Council the budget was not forthcoming. After the municipal election on November 6th, it is true, we began to get piece-meal portions of the budget estimates, and I think the final portion was submitted to the Council on or about the middle of December, 1917. I submit to an intelligent public and to the Mayor who sent this budget to us calling for a 19 mill tax it was manifestly unfair and an outrageous proceeding, if you will, to expect this body or any other individual or body to attempt to check up and correct a 19 mill budget in the short space of two weeks allotted from the middle of December to the first of January. It is for this reason that the budget was delayed, and it is for this reason that it is now necessary for the City to put out temporary loans to keep the business of the municipality moving. In order not to obstruct the business of the city I will vote for the ordinance, but want this explanation put in the record so that the people may know that I did not favor short term bond issues, but that the people may know that this bond issue is the outcome of the mismanagement of the previous administration."

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agree-

ably to law, and were:

Ayes—Messrs.
Burke Garland
Dailey Herron (President)
English McArdle.

Ayes—6.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2. Resolution authorizing and directing the City Controller to transfer the following amounts in appropriations for the Department of City Clerk:
\$2,000.00 from Code Account No. 1006, Council's Investigation Fund, to Code Account No. 1003, Miscellaneous Services, for the purpose of paying November and December advertising bills;
\$1,000.00 from Code Account No. 1004, Supplies, Contract No. 600, Council Files, to Contract No. 601, Municipal Record, same code account, for the purpose of completion of said Municipal Record for the year 1917.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Upon which motion, Mr. Garland demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken, were:

Ayes—Messrs.
Burke Herron (President)
Dailey McArdle
Garland

Noes—Mr. English.

Ayes—5.

Noes—1.

And there not being two-thirds of the votes of Council in the affirmative, the motion did not prevail.

Also

Mr. English arose and said:

"Mr. Chairman, I rise to a question of special privilege and wish this statement printed in the record.

"I regret very much the defeat of the motion to suspend the rules to permit the Council to consider the second and third readings and final passage of my war economy bills. Personally I have made every effort to advance the business of this Council in order to get the administration started. For this reason I desire to have it recorded that a few days ago when I suggested the signing of waivers for a special meeting of Council it did not meet with the approval of all the members. For several days the public has been advised that some members of Council were attempting to harass and embarrass the new Mayor. Inasmuch as the public is not informed as to the real merits of the questions involved I consider it my duty to have this recorded so that the people in the future may be able to determine who was responsible for any delays.

"For the benefit of those members who were in the majority at the beginning of the Armstrong administration on January 5, 1914, I would remind them that four years ago the steam roller was in good working order. A reference to the record of the Council which began January 5, 1914, will show that rules were adopted over my protest and without any consideration whatever to the rights of the minority at that time. In spite of the fact that the rules and the law required 48 hours notice of a Council meeting, it was my pleasure to suspend that rule and sign a notice of waiver in order to permit the Armstrong administration to organize as promptly as possible. In fact, during my entire term I never once held up any honest effort which any person attempted in order to facilitate the business of the City.

"As a matter of justice to me, I wish to state that the same kindness and courtesy has not been shown to me in the consideration of the ordinances which I have introduced as necessary economies on account of the war.

"I think it fitting that a portion of the statement I made at the last meeting of Council on December 31, 1917, be again inserted in the record.

"I had hoped the members would have given some consideration to ordinances I introduced several weeks ago. These ordinances provided for one person to be Director of the Department of Health and Charities; one person to be City Treasurer and Director of Department of Supplies; the number of assessors to be five instead of nine; the number of police magistrates to be five instead of seven. These are all practical and the City would be saved the sum of \$28,800.00 annually. The opinion of the City Solicitor was received sev-

eral days ago and definite action could have been had today. I introduced those ordinances in good faith and in time to prevent any embarrassment or humiliation to the new administration. I propose re-introducing these same ordinances in the new Council next Monday. I here and now disclaim any and all responsibility for any friction or trouble the future may bring by reason of Council's neglect of this opportunity to serve the people."

"In conclusion, Mr. President, I believe it is my duty, as well as the duty of every official of the city to give the public the best service possible. We should sink any personal feelings or political differences and submerge our personality in a general effort for the best welfare of the people of Pittsburgh.

"I wish to emphasize the point I made when I disclaimed any and all responsibility for any friction or trouble the future might bring owing to Council's neglect to serve the people. The friction and trouble being fomented and displayed by certain newspapers could have been avoided had the members of Council given consideration to my proposition. Had the same newspapers displayed one-tenth of the zeal they now display for the new Mayor and his administration in urging consideration of my bills they would not now be engaged in fomenting further friction and trouble."

Mr. Garland also presented

No. 22. Report of the Committee on Finance for January 12th, 1918, returning resolution adopted January 9th, 1918, and asking that it become a part of the record.

Which was read, received and filed.

Also, with the recommendation that it become a part of the record.

No. 23.

Whereas, the Pittsburgh Railways Company which has operated the street railway system of the Pittsburgh district since the year 1901 has never at any time given proper service to the public, has not provided a sufficient number of cars, has maintained an antiquated and inefficient system of routing of its cars, has failed to provide a proper system of transfers so as to facilitate travel between important centers of the district, has neglected to maintain its property in good condition so that interruptions to service have constantly occurred due to defects in track and rolling stock and the policy of making temporary repairs from time to time instead of providing adequate methods of maintaining its property in good condition, and

Whereas, while the property has been mismanaged and inefficiently operated, large sums have been paid in fixed charges to the holders of underlying securities of the system, which are in many cases fictitious and were not issued for cash invested in

the property but represent swollen promoters' and contractors' profits, capitalization of franchises and other improper charges, and

Whereas, during the past six months the service has steadily grown worse, delays and interruptions to service are constantly taking place due to the breaking down of equipment and the fact that sufficient attempt is not made to run the cars on schedule time; several hundred cars have been withdrawn from the service and an appalling accident has taken place on a heavily overloaded car on a dangerous grade and in this accident twenty-one persons lost their lives and several scores were injured, and

Whereas, the Pittsburgh Railways Company has defaulted in the payment of the interest due January 1st, 1918 on mortgage bonds issued by a number of the underlying companies of the system and a bond-holders protective committee has been organized composed of representatives of prominent banking houses in New York, Philadelphia, Baltimore and Pittsburgh, which has inserted advertisements in the Pittsburgh newspapers reciting that the Pittsburgh Railways Company has made such default in the payment of the interest due on the mortgage bonds and further stating as follows:

"These defaults indicate nothing short of a reorganization of the Philadelphia Company's entire street railway system. In such reorganization every holder of any of the above securities has a direct interest and concern"

And also:

"Defaults of such magnitude indicate a situation requiring prompt and effective action for the protection of the interests of bondholders. It would seem to be to the advantage of all that the interests of the bondholders should be represented by a single agency, which can act with promptness and with a knowledge of the whole situation."

"The undersigned have accepted the responsibility of acting as a committee for the protection of holders of bonds already in default and of such as may be in default in the near future. For the convenience of bondholders it has been arranged to have Depositaries in Philadelphia, Pittsburgh and Baltimore. All holders of bonds under which default has occurred are invited to deposit their bonds immediately with one of the Depositaries mentioned below. Protective and assignable receipts will be issued by the Depositary under the provisions of the Deposit Agreement of which copies can be had from the Depositaries on request."

"In the meantime we advise bondholders not to accept any offer which may be made from any source to cash dishonored coupons. If such an offer were to be generally accepted, two consequences would follow: First, control of the situation would thereby be vested, at least for the present time

in the purchaser of the coupons. Second, it might ultimately develop that by selling his coupons the bondholder had sacrificed a part of his principal. Because the terms of many of the mortgages are such that money thus advanced to purchase coupons would be collectible out of the proceeds of any foreclosure sale in priority to the principal of the bonds."

Copies of said advertisements are attached hereto, and

Whereas, it is apparent that the various parties having financial holdings in the system are preparing to protect their own interests, ignoring the rights of the city of Pittsburgh and the paramount duty of the companies under their charters and franchises to render adequate service at just and reasonable rates, and

Whereas, the Pittsburgh Railways Company in its answer filed to the city's complaint before the Public Service Commission has intimated a disintegration of its system into constituent parts and their separate and individual operation, this resulting in two or more fares where one is now collected, the transfer of passengers from car to car, great delays, intolerable crowding and a condition of general chaos, and

Whereas, it is of the greatest importance to the public interest that the city of Pittsburgh have an opportunity to appear and be heard in any proceedings in court tending towards the reorganization of the Pittsburgh Railways Company or any of its subsidiary properties or in any proceedings that may result in the appointment of receivers for the system or in any proceeding in the Federal Government relating to the matter, to the end that the present management will not be permitted to continue in its reckless defiance of the interests of the public, interfere with the manufacture of munitions and necessities and further endanger the lives and safety of our citizens, and

Whereas, in case of reorganization the interests of the city of Pittsburgh and its people will be further endangered if individuals acting for and representing the present control of the system be appointed receivers because this would put them in strategic position to reorganize and remould the financial structure to their own advantage and against the public interest, therefore be it

Resolved, that the Finance Committee of the City Council of Pittsburgh, composed of all the members of the City Council respectfully petition the various courts and public authorities that may have jurisdiction of the appointment of receivers for the Pittsburgh Railways Company or other companies of the system or that may be concerned in any way in the reorganization or control of the system to afford the city of Pittsburgh an opportunity to appear and be heard in any such proceedings before acting thereon, and be it further

Resolved, that a copy of this resolution be sent to the Chief Justice of

the Supreme Court of Pennsylvania, the Chief Justice of the Superior Court of Pennsylvania, the President Judge of the Court of Common Pleas of Allegheny County, the Judges of the Federal District of the Western District of Pennsylvania, the Attorney General of the Commonwealth of Pennsylvania, the Chairman of the Public Service Commission of the Commonwealth of Pennsylvania, the Director General of Railroads and the Secretary of War.

NOTICE

The Philadelphia Company has in the past loaned large sums of money to the Pittsburgh Railways Company to enable it to continue its operations, and is now a creditor of the Railways Company for a very large amount. The Philadelphia Company Directors refuse to make any further loans to the Railways Company but, in order to avoid hardship to security holders whose interest will come due on January 1, 1918, the Philadelphia Company announces that, as the Pittsburgh Railways Company will not be able to pay the interest due January 1, 1918, upon bonds of the following underlying companies in the Pittsburgh Railways system:

The Central Traction Company,
The Duquesne Traction Company,
The Federal Street & Pleasant Valley Passenger Railway Company (General Mortgage).

The Federal Street & Pleasant Valley Passenger Railway Company (Consolidated Mortgage).

Pitcairn & Wilmerding Street Railway Company.

Pittsburgh, Canonsburg & Washington Railway Company.

Pittsburgh, Crafton & Mansfield Street Railway Company.

Pittsburgh Incline Plane Company.

Pittsburgh & West End Passenger Railway Company.

Second Avenue Traction Company.

United Traction Company of Pittsburgh.

Washington & Canonsburg Railway Company.

West End Traction Company.

West Liberty Street Railway Company.

West Liberty & Suburban Street Railway Company.

It has arranged with the Farmers Deposit Trust Company, of Pittsburgh, Pa., to purchase the coupons representing said interest, when properly presented to it by the holders, with the certificates of ownership attached required by the Federal Income Tax Law.

J. H. REED, President.

TO THE HOLDERS OF BONDS OF THE UNITED TRACTION COMPANY OF PITTSBURGH

Notice has been given by the Pittsburgh Railways Company that funds will not be provided to meet the interest due January 1, 1918, under the mortgage dated July 9, 1897, given by the United Traction Company of Pittsburgh to the Maryland Trust Company, of Baltimore, to secure an issue

of \$10,000,000 five per cent. bonds maturing July 1, 1927.

Defaults in interest payments due January 1, 1918, have also been announced in the case of other mortgage bonds of railway companies embraced in the Philadelphia Company system.

These defaults indicate nothing short of a reorganization of the Philadelphia Company's entire street railway system. In such reorganization every holder of any of the above securities has a direct interest and concern.

Although many years have elapsed since bonds of the United Traction Company of Pittsburgh were originally marketed, and although the management of this property has long been the exclusive responsibility of the Philadelphia Company, yet a portion of the Bonds of the United Traction Company of Pittsburgh were in the first instance sold through the undersigned banking houses. This circumstance has led us to determine upon prompt and effective action in an effort to do all that we reasonably can do to insure the protection of the interests of the holders of these bonds. The protection of any one set of bondholders will necessarily involve consideration of the interests of all the holders of bonds in default.

Accordingly, at our request, the following have agreed to become members of a Protective Committee to conserve the interests of holders not only of the bonds of the United Traction Company, of Pittsburgh, but of all bonds affected by the defaults.

Thomas S. Gates, Chairman; B. Howell Griswold, Jr., J. R. McAllister, J. H. Mason, C. S. W. Packard, A. C. Robinson, George H. Frazier.

Immediate notice will be given by the committee of the name and address of the Depositaries. All holders of bonds are advised to deposit their bonds promptly in accordance with such notice.

In the meanwhile we advise bondholders not to accept any offer which may be made from any source to cash dishonored coupons. If such an offer were to be generally accepted, two consequences would follow:

First, control of the situation would thereby be vested, at least for the present, in the purchaser of the coupons.

Second, it might ultimately develop that by selling his coupons the bondholder had sacrificed a part of his principal because the terms of many of the mortgages are such that money thus advanced to purchase coupons would be collectible out of the proceeds of any foreclosure sale in priority to the principal of the bonds.

TO THE HOLDERS OF BONDS OF THE UNITED TRACTION COMPANY OF PITTSBURGH

and of the following Corporations.

The Central Traction Company,
The Duquesne Traction Company,
The Federal Street & Pleasant Valley
Passenger Railway Company (General
Mortgage).

The Federal Street & Pleasant Valley
Passenger Railway Company (Consoli-
dated Mortgage).

Pitts-
burgh & Wilmerding Street Rail-
way Company,
Pittsburgh, Canonsburg and Wash-
ington Railway Company,
Pittsburgh, Crafton and Mansfield
Street Railway Company,

Pittsburgh Incline Plane Company,
Pittsburgh and West End Passenger
Railway Company,

Second Avenue Traction Company,
United Traction Company of Pitts-
burgh,

Washington & Canonsburg Railway
Company,

West End Traction Company,
West Liberty Street Railway Com-
pany,

West Liberty and Suburban Street
Railway Company.

Default has occurred in the payment
of interest coupons maturing January
1, 1918 upon mortgage bonds issued by
the above-named corporations. All of
them are included in the street rail-
way system of the Philadelphia Com-
pany, operated through the Pittsburgh
Railways.

Defaults of such magnitude indicate
a situation requiring prompt and ef-
fective action for the protection of the
interests of bondholders. It would
seem to be to the advantage of all
that the interests of all bondholders
should be represented by a single
agency, which can act with prompt-
ness and with a knowledge of the
whole situation.

The undersigned have accepted the
responsibility of acting as a Commit-
tee for the protection of holders of
bonds already in default and of such
as may be in default in the near fu-
ture. For the convenience of bond-
holders it has been arranged to have
Depositaries in Philadelphia, Pitts-
burgh and Baltimore. All holders of
bonds under which default has oc-
curred are invited to deposit their
bonds immediately with one of the De-
positaries mentioned below. Protec-
tive and assignable receipts will be
issued by the Depositary under the
provisions of the Deposit Agreement,
of which copies can be had from the
Depositaries on request.

In the meanwhile we advise bond-
holders not to accept any offer which
may be made from any source to cash
dishonored coupons. If such an offer
were to be generally accepted, two
consequences would follow—First, con-
trol of the situation would thereby be
vested, at least for the present, in the
purchaser of the coupons. Second, it
might ultimately develop that by
selling his coupons the bondholder
had sacrificed a part of his principal,
because the terms of many of the mort-
gages are such that money thus ad-
vanced to purchase coupons would be
collectible out of the proceeds of any
foreclosure sale in priority to the
principal of the bonds.

No. 24

PHILADELPHIA TRUST COMPANY
415 Chestnut Street

Thomas S. Gates Broad Street Office
President 1415 Chestnut Street

Philadelphia, January 10, 1918.

Hon. John S. Herron,
(Chairman of the City Council)
of Pittsburgh, Pa.

Dear Sir:

I enclose herewith a copy of a com-
munication this day sent to Mr. C. K.
Robinson, Assistant City Solicitor.

It is the desire of our Committee
to work in close cooperation with the
City of Pittsburgh, in order to vindic-
ate the common rights of the public
and of the depositing bondholders
against the Philadelphia Company.

Very truly yours,

THOMAS S. GATES,
Chairman.

Philadelphia, January 10, 1918.

C. K. Robinson, Esq.,
Assistant City Solicitor,
Pittsburgh, Pennsylvania.

Dear Sir:

A meeting was today held of the
Committee which has been formed to
protect the interests of holders of
bonds of Pittsburgh Street Railway
corporations which are in default.

At this meeting attention was called to the resolution adopted yesterday by the City Council of Pittsburgh, proposing vigorous action for the enforcement of community rights and the protection of public interests.

As counsel for the Committee, I was instructed to get into immediate communication with you, and to assure you that the Committee regards the interests of the public and of the depositing bondholders as substantially identical. It will be the desire of the Committee to cooperate with you in every possible way to accomplish the end which you and we alike have in view. Pittsburgh people want modern and efficient Street Railway service at such minimum rates of fare as are consistent with sound operation. The best interests of the security holders cannot possibly be protected unless the desires of the public in this respect are gratified, and we should like you to understand clearly that the bondholders represented by the Committee have had no voice whatever in the management and operation of the Pittsburgh Railways, and are as dissatisfied with the results as the people of Pittsburgh can possibly be.

We perceive, therefore, no diversity of interests between the city and the bondholders. It will accordingly be my pleasure to call upon you at an early date for conference in regard to the situation, if such a conference would be agreeable to you.

A copy of this letter is being sent to the Hon. John S. Herron, Chairman of the City Council of Pittsburgh.

Very truly yours,

GEORGE WHARTON PEPPER
Counsel, Protective Committee

Which was read, and on motion of Mr. Garland, received and filed and ordered printed in full in the record.

UNFINISHED BUSINESS.

Bill No. 5. An ordinance entitled, "An ordinance fixing the number of Police Magistrates after the first Monday in January, 1918." In Council, January 12th, 1918, read and motion, to suspend rule for 2nd and 3rd readings and final passage, failed.

Which was read a second time.

Mr. Kerr moved

That the bill be amended in Section one by striking out the word "five" and inserting in lieu thereof the word "six."

Mr. Kerr arose and said:

"Mr. Chairman, the reason I make that motion is because I believe five magistrates could perform the service—or probably three could do the police business of the City if it were not for the fact that this business should all be done in the early morning hours for the convenience of those citizens who have business with the police courts and the arresting officers. The officers who make the arrests should be allowed to go home in sufficient time to get their rest. The distribution

of the magistrates will show that. I think it will be almost impossible to do the police business efficiently and to the convenience of the public except by the addition of one more magistrate on the list that you now have. For instance, it will take one magistrate to preside at hearings on the North Side; one for the South Side, and one at Central Station or No. 1 Police Station; one man at No. 2 and that the other stations, Lawrenceville, East End and the Oakland and Hazelwood Stations to be presided over by one man under the provisions of this ordinance, which I think would be unfair to the officers making the arrests and so forth; and that is the reason I make the motion for this amendment."

Upon which motion, Mr. Kerr demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.
Garland

(Mr. Robertson not voting.)

And there not being a majority of the votes in the affirmative, the motion did not prevail.

Mr. English arose and said:

"Mr. Chairman, I listened very attentively to the previous speaker's address and I heartily coincide with him up to the point where it is determined to make an advance from 5 to 6 police magistrates. Now, the great extent of the North Side, formerly known as the City of Allegheny, with perhaps a population of 150,000 to 250,000 people, has two immense police districts—Woods Run and one on Federal street at Ohio street. The very fact of the automobile situation as it developed the other days shows lack of efficiency in the police department. The comparison of the automobile patrol service of the Woods Run or Preble Avenue Station with the Central Station on Sixth avenue shows that many more prisoners and nearly three times the mileage was recorded at Central Station. The cost at Central Station was \$265.00 and at Woods Run the cost was \$613.00. Now, if all the business of the North Side can be handled by one police magistrate and if all the business of the South Side can be handled by one police magistrate and if the great business of the downtown section can be handled by one magistrate—by the same token, in the other two sections two police magistrates could handle the business of the four other stations. In fact, I think we should combine, consolidate or abolish some police stations, and the speaker who preceded me clearly pointed out that with the great bulk of business now handled in the three separate stations, a division of the

work in the Eastern section of the city could be placed in care of two magistrates and would be more than sufficient if we considered the number of cases upon which to make a comparison. I feel sure that not one single portion of the city's business will be hampered by effecting this economy. Indeed, if the Act of Assembly did not prevent I would go further and reduce the number still more, if it was in my power.

"We have demonstrated around this table in the budget hearings that we can and should effect such economies as these. I don't know the attitude of the administration. I am only doing my own duty as I see it, which is for the best interest of the City of Pittsburgh.

"If you will go back through the Municipal Record you will find that the present Mayor and other members of Council during the administration of former Mayor Magee passed a motion in Finance Committee on February 4, 1913 reducing the number of police magistrates from eight to five. Unfortunately they were not able to bring about a reduction for the reason that under the law they could not change the number of magistrates during their term of office, which was the same as the Mayor. In other words, the confirmation of that number lasted for the time during which the Mayor served. I believe if the present Mayor had the power when he was a member of Council he would have voted for such a reduction.

"The reason for the passage of the ordinance at this time is to effect a war-time economy for the people of Pittsburgh. The matter of police officers attending the hearings should not enter into this question—that is a detail which can easily be handled. During the last administration we were fooled and bunked by long and lasting statements in reference to night courts and a member of Council, who is absent today, was delighted with that statement. As you all know, nothing was ever done towards establishing night courts. The business of the City of Pittsburgh is done primarily for the great citizenship of the city—not for the members of the police bureau and not for persons who break the law, and consequently a few hours more or incarceration in police stations for offenders of the law should not enter into this discussion.

And the bill, as read a second time, was agreed to.

Mr. Garland moved

Which motion prevailed.

Bill No. 6. An ordinance entitled, "An ordinance providing that the City Treasurer be appointed Director of the Department of Supplies after the first Monday in January, 1918."

In Council, January 12th, 1918, read and motion, to suspend rule for 2nd and 3rd readings and final passage, failed.

Which was read a second time.

Mr. Kerr arose and said:

"Mr. Chairman, I am opposed to the passage of this bill, because I believe the purchasing department of the City of Pittsburgh is big enough and of sufficient importance to the City to command the undivided attention of any man in the City of Pittsburgh. There is no business organization, that I know of, of the size of Pittsburgh that does not maintain a purchasing and financial department. I think it is bad business to combine under one head two departments of the City of such magnitude.

"The Department of Supplies is of such importance to the City as to command the entire time of any man who assumes the responsibilities of the position. The proper man at the head of this department can save hundreds of thousands of dollars a year to the taxpayers. The Council under the provisions of the Acts of Assembly have the right to approve the nominations of the Mayor. If he in your judgment does not nominate the proper man withhold your confirmation, but do not destroy the organization.

"The Department of City Treasurer is also a very important part of the City Government, especially since the Treasurer has become the Delinquent Tax Collector. With the technicalities that go with that part of the Treasurer's duties, I am convinced the best interest of the City would be served by requiring a man to devote all his time to that office. Therefore, let me reiterate, do not destroy the organization in order to prevent the appointment of a man whom you may think is incompetent or unreliable. Exercise your right and refuse a confirmation."

Mr. English arose and said:

"Mr. Chairman, in reply to the gentleman, I want to say that there is no attempt to destroy the organization in

either the City Treasurer's Department or the Department of Supplies. The organizations in both of these departments will not be destroyed if consolidated.

"My reason for introducing the ordinance is to effect a saving by combining certain positions. The law provides that the City Treasurer may be the Director of the Department of Supplies.

"In connection with this, I wish to state, as an example, that the Director of the Department of Public Works is the head of one of the largest organizations in the City. He has a lot of bureaus and divisions under his immediate jurisdiction and control. For instance, the Bureau of Water is a very important function with a man at the head of it receiving \$6,000 a year; the Bureau of Highways and Sewers with a superintendent receiving \$4,000; the Bureau of Engineering with a superintendent receiving \$6,000, and an assistant receiving \$5,000, and there is also the Bureau of Recreation, with a superintendent receiving \$3,000 and the Bureau of Parks with a superintendent receiving \$4,000. Now, if we would listen to sophistry we would conclude that this Director of Public Works must be a wonderful man. He does not spend any more time on the job than does any other Director or head of a department, but he gets results. You would get the same results from the Bureau of Highways and Sewers if it were taken out of the Department of Public Works and placed in the Department of the Mayor. You would not destroy the organization, because it would still retain its district superintendents, under them the district foremen and under them the gang foremen. You have the same thing involved in the consolidation of these two positions. The organization in both of the offices will remain the same.

"I venture to say that if the Mayor was in sympathy with this ordinance and would recommend it Council would be glad to adopt it.

"The only responsibility the City Treasurer has is that of keeping up the proportional share of City deposits in the banks. The method of determining these deposits is fixed by the Council.

"In regard to the Director of the Department of Supplies, I might say that he is not always burdened with the opening of bids and the awarding of contracts for supplies. The quantities and qualities of the supplies are controlled and checked by two competent inspectors in the Department of City Controller.

"I know from my experience and observation of the past four years that the combining of these positions is both possible and practical.

"As I have said many times during the budget sessions, it is idle for us to quibble and argue on small items of \$50.00 for repairs to furniture, for stationery and so forth, and then stumble when we meet with a proposition involving \$6,500. If we are sincere in endeavoring to keep down this 19 mill budget to a reasonable tax rate we

must bring about all possible consolidations, particularly when they do not impair the efficiency of the City's business.

"I want to say further regarding this ordinance that it is not a reflection on the present officials in these offices, as I have the utmost confidence that either gentleman is fully competent to handle the combined positions."

And the bill, as read a second time, was agreed to.

Mr. Garland moved:

A suspension of the rule to allow the second and third reading and final passage of the bill.

Which motion prevailed.

In Council, January 12, 1918, read and motion, to suspend rule for 2nd and 3rd readings and final passage, failed.

Which was read a second time.

Mr. English arose and said:

"Mr. Chairman, my object in introducing this was, as in the other case, a war time economy. My purpose in presenting the ordinance a month ago was to prevent any humiliation to the present administration. The very fact that the members of this Council, sitting in Finance Committee as the Budget Committee, increased the salary of the Superintendent of the City Home and Hospitals at Mayview from \$4,000 to \$6,000 is evidence that they are satisfied with the way the Superintendent of that institution has handled the business of the City.

"I want to say regarding this ordinance that it is not a reflection on the incumbent, Mr. McKelvey. I merely chose the opportunity at the close of one administration to bring about the economy, which will save to the citizens of Pittsburgh \$6,500.00. The outdoor

relief in the Charities Department was abolished a few years ago. This ordinance does not interfere with the personnel of the office, such as physicians, bookkeepers and clerks, which would remain the same as at present. Housed as we are in the one building, the Director of the Departments of Health and Charities can handle both positions.

"I am confident that the people of Pittsburgh sanction this action and the Chief Executive would do well, if in his wisdom he would sign the bill, which would effect an economy without hurting the business of the city."

And the bill, as read a second time, was agreed to.

Mr. Kerr arose and said:

"Mr. Chairman, I want to vote for the bill to reduce the number of Assessors, but I believe that the reduction proposed here is too great at this time. This is the triennial assessment year and if there ever was a justification for nine assessors there certainly is justification at this time for more than five. I am going to move to amend this bill by striking out the word 'five' and inserting the word 'seven.'"

Mr. Kerr moved:

MOTIONS AND RESOLUTIONS.

Mr. McArdle presented:

No. 80.

Whereas, There appears in the afternoon papers of this date what purports to be a statement of Mayor E. V. Babcock concerning Council's attitude toward appointments made by him, in which he says, "Council's failure to confirm them is clogging the wheels of the administration and an injustice is being done to the citizens of Pittsburgh;" in which he also says, "I don't propose to start my administration by playing factional politics or making deals for patronage;" and

Whereas, Said statement is susceptible of the interpretation that Council's attitude has been construed by him as being for the purpose of playing factional politics or making deals for patronage. Therefore, be it

Resolved, That the President of Council be and he is hereby directed to ask Mayor Babcock to meet in public conference with the members of Council and divulge to them and to the public the manner in which the "wheels of the administration are being clogged" and the facts upon which his reference to "playing factional politics or making deals for patronage" are based.

Which was read.

Mr. McArdle moved:

The adoption of the resolution.

Mr. McArdle arose and said:

"Mr. Chairman, as one member who has some responsibility to share for the delay in the final consideration of the nominations made by Mayor Babcock and which are before Council, I want to make it quite clear to the public and to the Mayor that whatever I have done I have regarded as being within my rights as a member of this body and that whatever I have done I have done it with the full knowledge of the responsibility of my final action and that I am quite ready to go before the public or before the Mayor and justify the position I have taken.

"Such a conference as this resolution provides will give ample opportunity to develop not only a one-sided discussion, but a discussion which, if

properly reported, will enable the public to intelligently understand whether anybody's rights have been infringed upon by the action of Council; and on the other hand give the Council a chance to show that it is doing the very thing it is given power to do under the law and for which it must assume a certain responsibility."

Mr. English arose and said:

"Mr. Chairman, I am in hearty accord with the resolution which I have seconded. It seems to me that there should be no misunderstandings or bitter differences between the executive and legislative branches of the City government. I have never yet objected and do not now object to any person criticizing my actions as a councilman, but I do object to the executive issuing statements which have no foundation about members of Council without naming any member and thereby putting me as a member of Council in a false position before the public. It is no new thing for me to ask for a conference with the Mayor on such matters. A reference to the Councilmanic Record of 1914 will show that when Mayor Armstrong attacked the Council in a speech before the Commercial Club in the Fort Pitt Hotel I introduced a resolution similar to the one introduced today. Unfortunately for the Council the members did not give it any consideration whatever. The result was that Mayor Armstrong grew bolder in his attacks upon the Council with the result that in many instances the public was given one-sided views of certain matters relating to the City business.

"For my part, it seems to me that the executive should not complain if the Council is doing its sworn duty which is set forth in Section 6 of Article XIV, of the Act of the Pennsylvania Legislature relating to the powers and duties of the Council. This section reads as follows:

"Section 6. The appointments hereafter to be made of the heads of all executive departments of said city, now by law authorized to be made by the Mayor thereof, shall be subject to the approval of said council, to be evidenced by resolution, which shall receive the affirmative votes of a majority of all the members thereof; failing which approval, the mayor shall again designate another person or persons to fill the position or positions, as to which the former nominations have failed of approval, until the nominations are made which are approved by council in the manner above set forth."

"It is clear that the Legislature intended the Council to have the power to reject appointments not once but many times and in fact it is strictly the duty of the Mayor to continue to designate nominations until such nominations are approved by the Council. I have no quarrel with Mayor Babcock and, for my part, I don't expect to have any in the future. However, in view of the wonderful promises made

for and by the Armstrong administration and in view of the disastrous results of that incompetent administration, it seems to me the duty of this Council to put forth extra precautions in order to avoid a repetition. For this reason in order to prevent any further misunderstandings, I think it well for the Council to pass this resolution for a conference with the Mayor."

Mr. Garland arose and said:

"Mr. Chairman, I think it is making too much out of nothing. It is possible that the Mayor did not say the words as reported in the newspaper; they may not be his exact words. I am not saying this in his behalf, as I think every voter of Pittsburgh could say something for him at this time. I don't think we should bring the Mayor in at this time. It is 'political piffle'."

Mr. McArdle arose and said:

"Let me put something along with that. It is only a newspaper statement; that is true, but I think we have arrived at the time when people should be held responsible for their newspaper statements. If there is honest criticism to be made of the actions of this Council it is to be made to this Council over the boards, in order that we may have a chance to let the public know, whether we can convince anybody else or not, what our position really is. I want a chance to say whether or not the wheels of the government are being clogged. I happen to know, for the most part, the same men are still in the offices. There is no executive office going unfilled; there are no important bills awaiting disposition of any of the matters that are before this body from the Mayor.

"If the Mayor or anybody who makes public statements don't want to be taken seriously then he should not make them. In this instance if the Mayor has any criticism to offer against the Council he should do it in the presence of the members of Council. If he did not make the statements as purporting to come from him I don't hold him responsible.

"This resolution is merely asking for an opportunity to know if he is justified in making such statements. As one member of Council, contributing to this, I will have my day in court as well as the Mayor."

And the question recurring on the adoption of the resolution.

The motion prevailed (Mr. Garland voting no.)

The Chair presented:

No. 81. Communication from R. J. Alderdice, Commission in Command of First Police District, asking for a hearing before Council regarding allegations made relative to his administration of police affairs in the First Police District, and submitting a brief report of his work since his assignment to the First district.

Which was read.

Mr. Kerr moved:

That the communication be received
and filed, and that Mr. Alderdice be
heard on Tuesday, January 15th, 1918,

at 3 o'clock p. m.

Which motion prevailed.

And on motion of Mr. McArdle,
Council adjourned.

The Chair stated that, if there were no objections, the minutes of the previous meeting would be approved.

And there being no objections, the minutes of the previous meeting was approved.

PRESENTATIONS.

Mr. Dailey presented:

No. 82. An ordinance authorizing the Mayor and the Director of the Department of Public Safety to execute a lease to the Duquesne Light Company for a portion of the Public Safety Building, Sixth avenue, Pittsburgh, and fixing the term, conditions and rental thereof.

Which was read and referred to the Committee on Finance.

Also

No. 83. An ordinance fixing the width and position of the roadway and sidewalk of Ravenna street, from Spahr street to Shady avenue, establishing the grades of the roadway and sidewalk, and providing for the sloping and parking of the portions of said Ravenna street lying without the lines of the sidewalk and roadway.

Which was read and referred to the Committee on Public Service and Surveys.

Mr. English presented:

No. 84. An ordinance opening Marlow street, in the Twentieth ward of the City of Pittsburgh, from Ainsworth street to Payne way, and providing that the cost, damages and expenses occasioned thereby be assessed against and collected from properties benefited thereby.

Also

No. 85. An ordinance widening Marlow street, in the Twentieth ward of the City of Pittsburgh, from a point 59.64 feet westwardly from the westerly line of Marena street to Wilhelm street, and providing that the cost, damages and expenses occasioned thereby be assessed against and collected from properties benefited thereby.

Which were read and referred to the Committee on Public Works.

Mr. Garland presented:

No. 86. Whereas, The following bills for materials and equipment were contracted by the Department of Supplies without competitive bids, and certain requisitions presented to said department during the week from December 22nd to December 31st, 1917, to confirm purchases made by the several departments, and consequently can be paid only by authority of a resolution passed by Council in conformity with the Act of 1874, and,

Whereas, Said supplies were furnished, accepted and used by the city, therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to issue and the City Controller to countersign warrants in favor of the firms and persons in payment of the claim scheduled below, and charge the amounts of the appropriation items as shown respectively in said schedule.

President and Members of Council.

Gentlemen—Regarding Council Bill No. 4820, being a resolution asking the Department of Public Works to furnish Council with a list of temporary grants given to the Pittsburgh Railways Company during the cutting of the hump, beg to report as follows:

The following is a list of ordinances passed during the years 1912 and 1913, and granting to the Pittsburgh Railways Company or its subsidiary companies, the right to lay and use tracks on certain streets during the period of the improvement of the Hump District. All these grants were terminable upon the completion of the improvement above referred to and the resumption of traffic on the streets effected.

Ordinance No. 208, approved April 28th, 1912, granting the Duquesne Street Railway Company the right to lay tracks on Diamond street, between Grant street and Smithfield street. The Railway Company did not avail themselves of the grant and no tracks were laid thereon.

Ordinance No. 245, approved May 10th, 1912, granting the Duquesne Railway Company the right to lay single or double tracks on Diamond street from a point 226 feet west of Sixth avenue; thence eastwardly along Diamond street (Old avenue) to a connection with tracks on Fifth avenue. On Ross street, from Diamond street to Fourth avenue; thence westwardly along Fourth avenue to a connection on Grant street; on Shingiss street, a single track from a point on Forbes street to a connection with the track on Diamond street. Under the provisions of this grant no tracks were laid.

Ordinance No. 244, approved May 10th, 1912, granting the Federal Street and Pleasant Valley Railway Company the right to lay tracks on Pentland street from Seventh avenue to Tunnel street, thence along Tunnel street to a connection with existing tracks on Fifth avenue. No tracks were laid under this ordinance.

Ordinance No. 542, approved October 2nd, 1912, granting the Central Transit Company the right to lay tracks and connections and to operate cars thereover on certain streets, and subject to conditions stated in the ordinance,

which were that the grants were to terminate January 1st, 1914, and that the Central Transit Company would procure the agreement of corporations maintaining other tracks and connections to remove said tracks and connections at the expiration of the period covered by the grant.

Under this ordinance tracks and connections were authorized on the following streets:

1. Beginning at a point on its west-bound track on Fifth avenue east of Smithfield street, thence by a curve to the north to a point of connection with the northbound track of the Pittsburgh and Birmingham Passenger Railroad Company on Smithfield street north of Fifth avenue.

This track is still in place and cars regularly routed thereon.

2. Beginning at a point on its west-bound track on Fifth avenue west of Smithfield street, thence by a curve in a southerly direction to a point of connection with the northbound track of the Pittsburgh and Birmingham Passenger Railroad Company on Smithfield street south of Fifth avenue.

This track is still in place.

3. Beginning at a point on its west-bound track on Fifth avenue east of Wood street; thence by a curve leading to the south to a point of connection with the southbound track of the Transverse Passenger Railway Company on Wood street south of Fifth avenue.

This track is still in place but not regularly used.

4. Beginning at a point on its east-bound track on Fifth avenue east of Wood street; thence by a curve leading to the north to a point of connection with the southbound track of the Transverse Passenger Railway Company on Wood street north of Fifth avenue.

This track is still in place but cars are not regularly routed thereover.

Additional tracks and connections installed by other corporations subject to the provisions hereinbefore stated included the following:

A connection at the southeast corner of Sixth avenue and Smithfield street. This track now in place and cars regularly operated thereover.

Another connection was authorized at the southeast corner of Ross and Diamond streets, and tracks on Fourth avenue between Grant and Ross streets, and on Ross street between Fourth avenue and Diamond street were also authorized, all of which grants have been replaced by subsequent franchise ordinances and tracks constructed thereunder.

Ordinance No. 26, approved January 30th, 1913, authorizing the Duquesne Street Railway Company to lay tracks upon and operate cars over the following streets, the grant being terminable January 1st, 1914.

Under this ordinance a track was laid on Ross street from Diamond to Third avenue. The track laid under this ordinance was later removed. The occupation and use of Third avenue from Ross street to Grant street was also authorized together with connec-

tions at Ross street and Grant street. There is at the present time a track on Third avenue between the points mentioned, which is not in use and which I believe was in place prior to the passage of this ordinance.

Yours very truly,

JOHN SWAN,
Director.

BOARD OF TRUSTEES,
THE CARNEGIE INSTITUTE,
Pittsburgh, January 18, 1918.

Mr. John S. Herron, President,
City Council,
Pittsburgh, Pa.

My Dear Sir—Referring to ordinance No. 559, dated January 7, 1918, under which the Mayor and City Council set aside the Anderson property adjacent to the Margaret Morrison Carnegie School, for the use of the Technical Schools, I have the honor to inform you that at a meeting of the Board of Trustees of the Carnegie Institute, held yesterday afternoon, the following resolution was unanimously adopted:

"Resolved, That the Trustees of the Carnegie Institute hereby accept the Anderson property, and express their warm thanks to the Mayor and Council of the City of Pittsburgh for placing at their disposal this important piece of land, for the use of the Carnegie Institute of Technology."

Very truly yours,
AUGUSTUS K. OLIVER,
Secretary.

No. 109

City of Pittsburgh, Penna.,
Office of the Mayor,

January 21st, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Dear Sirs—I return herewith Bill No. 6, being an ordinance "Providing that the City Treasurer be appointed Director of the Department of Supplies after the first Monday in January, 1918, without my approval, for the following reasons:

The functions of the City Treasurer and the Director of the Department of Supplies are entirely different. There is

no good reason apparent to me for combining the two. The City Treasurer collects the city taxes, delinquent taxes, school taxes and disburses the same. The responsibilities of the office appear from the statement that during 1917 he collected the sum of \$19,683,-363.00.

The detail work in connection therewith is enormous. There are accounts with 73,000 taxpayers and 33,700 consumers of water by meter, the latter accounts being exceedingly onerous owing to the monthly system of payments. Accounts are kept in 75 banks. Every two weeks he pays out approximately \$210,000.00 for services of 5,300 city employees. He handles the accounts of 128 bond loans, amounting to over \$33,000,000.00. He handles the collections from the various City Bureaus, the Police Magistrates, the bridge accounts, the dog licenses, vehicles licenses, street vendor's licenses, etc., and for street and sewer improvement.

In addition to this the delinquent tax collections, which were added to the Treasurer's duties in 1914, have added a great volume of work. The records must be watched and the Solicitor notified to file liens. There is maintained a system of personal collection of the delinquent taxes on the outside. The city receives from the School Board \$13,000.00 a year for the services of the City Treasurer in collecting the school taxes. He collects the delinquent school taxes, makes a report weekly to the Board and deposits in 26 banks selected by the Board. It is difficult to see how, in the maze of so many important duties affecting the city's finance, the City Treasurer could be expected to perform the functions of a purchasing agent at the same time.

Every corporation conducted along modern lines has a purchasing agent to perform the function that the title implies. These duties, if properly performed for the \$800,000,000.00 corporation represented by the City of Pittsburgh, require the exclusive services of one man of capacity and adaptability to the work.

A purchasing agent's duties are largely technical. They represent a grand total of little things necessitating discrimination, care and energy. During 1917 there were issued approximately 18,000 requisitions for purchases and 22,000 orders. In round numbers, \$1,500,000.00 were spent by this Department. It is the one place above all others where careful attention should be given to detail and this makes it absolutely impossible, in my opinion, for a man charged with the heavy responsibilities of handling the city's finance to properly perform the functions of a purchasing agent.

This is true as a general principle. Owing to the unusual times and conditions at present, a purchasing agent must also be a "follow-up" agent and see that the purchases he makes are delivered, thus multiplying the volume of detail in the Department of Supplies. Furthermore, I do not regard

it as a good safeguard to have one individual in the city service pay the bills that he himself contracts. This would be the case and the practice if these two offices were consolidated.

Very respectfully yours,

E. V. BABCOCK,
Mayor.

Which was read, an on motion of Mr. Kerr, received and filed.

And

Bill No. 6. An ordinance entitled "An ordinance providing that the City Treasurer be appointed Director of the Department of Supplies after the first Monday in January, 1918."

In Council, January 14th, 1918, Bill read a second time and agreed to, rule suspended, bill read a third time and finally passed.

Was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. English arose and said:

"Mr. President, I listened very attentively to the statement read by the clerk and I agree with His Honor that quite a large sum of money passes through the office of the City Treasurer, but I hope no person present will for one minute assume that the City Treasurer sees all or any part of that money or the various transactions referred to in the Mayor's communication. That is an impossibility.

"Now everybody knows that the Department of City Treasurer has a well established office and has been established for years. They have bookkeepers, cashiers and counter clerks. The office of collector of delinquent taxes is kept separate; it was done so down in the old building; perhaps it is amalgamated now. However, they have two entirely different sets of clerks, one handling the regular city tax and the other set handling delinquent taxes that come in intermittently. The same is true of the school tax. The City Treasurer does not personally supervise the functions of the different clerks. I submit that the City Treasurer does not do any part of the work assigned to the bookkeepers or cashiers, and that the Treasurer's personal presence is not necessary in the office from 9:00 o'clock in the morning until 4:30 in the evening.

"The Department of Supplies is a little different. It is true that the Director of Supplies spends considerable time in buying little things for the various departments and bureaus in the city government. But the contract for those things is provided for in ordinances passed by the Council which go to the Mayor for his approval or disapproval. After the passage of the ordinance the Director of Supplies advertises for bids. After the bids are received he considers them and with the Mayor awards the contracts. In

this connection, I realize that there are a few periods of the year when the Director of Supplies is busy handling contracts. There is attached to the controller's office two inspectors who go out and inspect the merchandise the city purchases to see that it comes up to specifications, so that the Director is not required to even see his purchases.

"I am satisfied after having observed the workings of these two departments that the work is of such a character that the positions can be combined under one head. If such action is taken it would affect a war economy saving, amounting to \$6,500 a year.

"In the four years of Mayor Babcock's term this saving would amount to \$26,000. Here is another opportunity to save considerable money without crippling the business of the city. There is no great executive ability required by the City Treasurer, it is purely a routine office which any average clerk could easily handle and as a matter of fact is handled by capable clerks. The title is all the city gets for the \$8,000 paid to the holder of this position. I am confident that the two positions of Director of Supplies and City Treasurer can be handled by one person.

"I am therefore compelled to vote to make this ordinance a law notwithstanding the veto of the Mayor."

Mr. Robertson arose and said:

"Mr. President, on the Ordinance to consolidate the Department of Supplies with the Department of City Treasurer, I vote to sustain the veto of the Mayor.

"I voted for this measure originally in Council as I favor every effort in behalf of economy which is consistent with efficiency. It was my thought that this and similar measures should be put up to the Chief Executive and that if he could convince me that his administration would be hampered by such enactments I would sustain him.

"In his veto message the Mayor has demonstrated to my satisfaction that, in this case, economy would be practised at the expense of efficiency.

"This, together with the great importance of the Department of Supplies, which the Mayor has pointed out to us, is in my judgment sufficient justification to sustain him in opposing the proposed consolidation."

Mr. Rauh arose and said:

"Mr. Chairman, I carefully listened to the message sent in by the Mayor and I want to say, from a business standpoint, and the way a business man would look at it, it is bad business to combine the heads of these two great departments under one. I heartily concur in what the Mayor has said. The purchasing department of the City is one of the most important functions in the City Government. The money that would be saved by eliminating the position of Director could be lost

by not having the department properly, carefully and safely looked after, I vote to sustain the Mayor's veto."

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle
English	

Noes—Messrs.

Garland	Rauh
Kerr	Robertson

Ayes—5.

Noes—4.

And there not being two-thirds of the votes of Council in the affirmative, the objections of the Mayor were sustained.

Also

No. 110.

Mayor's Office, January 21st, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Gentlemen—I herewith return Bill No. 5, being an ordinance fixing the number of Police Magistrates at five (5) after the first Monday in January, 1918, without my approval, for the following reasons:

By Act of Assembly, approved the 7th day of March, 1901, authority was given the City of Pittsburgh to increase the number of its Police Magistrates from five (5) to eight (8). Advantage was not taken of this provision until the year 1909, during the administration of William A. Magee, when, because of growth both in territory and population, a demand for more police courts was recognized and the number was increased to seven (7). Seven (7) police courts are necessary because each court represents a large district in both territory and population.

The reason advanced for passage of this ordinance is that money will be saved to the taxpayers by the step. This is not the case. Instead of the police court system costing the taxpayers money it produces revenue. During the year 1917, there was paid into the City Treasury the sum of \$100,991.37, or about five (5) times as much as the salaries of the police magistrates, the report in detail being as follows:

Magistrate.	Arrests	Revenue
John J. Sweeney,		
Central Station.....	22,180	\$ 24,586.35
John A. Fugassi, Center Ave., Oakland and Hazelwood Stations	10,689	18,116.47
P. J. Sullivan, Penn Ave. and 43rd St. Stations	8,050	13,147.95
Wallace Borland, Frankstown Ave. and Northumberland St. Stations..	4,566	9,721.55
James R. Watkins, South 13th St., Mt. Washington and West End Stations.	4,627	8,179.39

Walter J. Lloyd, North Side Central Station	6,581	12,801.05
Edward F. Dillon, Woods Run Station	2,512	7,438.79
Total	59,205	\$100,991.37

The Police Magistrate's Court is the poor man's court. Knowledge of human nature and good common sense are presumed to be the equipment of the presiding judges rather than an extensive knowledge of the law. They deal with cases of summary conviction. Those charged with more serious crimes are held for court or discharged as the evidence may warrant. It would be a great injustice to prisoners and witnesses and police officers to cause them to travel greater distances to hearings. At present it is bad enough. Night officers must now endure a hardship in waiting around police courts from two to five hours in the morning to attend hearings, on their own time.

If this ordinance became a law there would not only be less revenue to the city from fines for violations but more laxity on the part of the force. In spite of every attempt to require strict performance of duty, it is only natural for a police officer to condone apparently petty violations of the law, if by causing arrests he will have to give up one-half of the following day to appear against the prisoner.

On an average the police judges are required now to spend about five hours a day in their own courts, hearing cases and keeping records. Central Station alone is furnished a Clerk. The Police Magistrates hold hearings seven days a week. Their cases average 23 per day and occasionally run over 100. Their salary is \$2,500.00 per year. In every case except Central Station, the Magistrate writes out the evidence of the arresting officer in his docket, the testimony of the witnesses and the disposition of the cases; makes out three sheets, one for the Mayor's Office, one for the City Treasurer's Office and a copy for his own office. These contain the names of the arresting officer, of the defendant and the disposition of the case. He draws up such information as are necessary for Court cases, and a copy thereof for his own record. He reports daily, as required by law, his collection of fines to the City Treasurer's Office and his report to the office of the Mayor.

As stated above, this is the Poor Man's Court. The Police Magistrates are called on the phone at all hours of the day and night and are visited by friends of those in trouble.

This ordinance would not save the city money, but would cost the city money; it would not reduce the law-breaking, but would increase it. It would work a hardship upon prisoners, witnesses and officers. At the present time long hauls such as

FROM MT. WASHINGTON AND WEST
END TO SOUTH THIRTEENTH
STATION

FROM SQUIRREL HILL STATION TO
FRANKSTOWN AVENUE STATION
FROM HAZELWOOD STATION TO
OAKLAND STATION
FROM FORTY-THIRD STREET STA-
TION TO PENN AVENUE STATION
AT TWENTY-SIXTH STREET
are necessary. Reducing the number
of police courts would aggravate con-
ditions to such an extent that humane
considerations alone would condemn the
ordinance.

Very respectfully yours,
(Sd.) E. V. BABCOCK,
Mayor.

Which was read, and on motion of
Mr. Robertson, received and filed.

And

Bill No. 5. An ordinance en-
titled, "An ordinance fixing the num-
ber of Police Magistrates after the
first Monday in January, 1918."

In Council, January 14th, Bill read
a second time and agreed to, rule sus-
pended, read a third time and finally
passed.

Was read.

And on the question, "Shall the bill
become a law notwithstanding the ob-
jections of the Mayor?"

Mr. English arose and said:

"Mr. President, I have listened with
great interest to the reading of the veto
message of the Mayor on the subject of
reducing the number of police magis-
trates from seven to five. You will ap-
preciate that it is impossible to answer
completely every statement made by His
Honor in an offhand manner such as
one is compelled to do on account of
taking up the veto message in this
manner. If the members of Council had
a few days time or even a few minutes
time to study carefully the Mayor's
message I feel sure one could point out
many statements which would actually
refute the Mayor's own arguments. I
hope, therefore, that you will bear with
me a little in my endeavor to give my
answer to the Mayor's veto message.

"Before replying specifically to the
Mayor's message, I wish to state and
have it placed in the record that it is
only a few years ago that the present
Mayor, when a member of Council,
made a determined effort to reduce the
number of police magistrates from eight
to five. That was during the adminis-
tration of Mayor Magee. Without in
any way reflecting or insulting His
Honor the present Mayor, I do not hesi-
tate to say that it is rather difficult
for me to harmonize his actions as a
councilman and his present position as
the Mayor in the matter of police magis-
trates. One is compelled to think that
perhaps his efforts as a councilman
were directed at the personnel of the
entire set of police magistrates and
not at the number; while at the present
time his attitude as Mayor would indi-
cate that neither the personnel or the
number is to be allowed to interfere
with places for political favorites as

campaign rewards. The public can draw
its own conclusion.

"In the very first paragraph of the
Mayor's message we find several in-
accuracies. First the message says that
'the number of police magistrates was
increased from five to seven.' As a
matter there were eight magistrates
during the administration of Mayor
Magee and Mr. Babcock made an at-
tempt as a member of Council to re-
duce the number from eight to five.
In the first year of Mayor Armstrong's
administration eight magistrates were
appointed. On the pressure of public
opinion one magistrate either resigned
or was discharged, which reduced the
number to seven. In the second year
of Mayor Armstrong's administration
Council made a further reduction of
one, leaving the number of magistrates
at six. Last year through some political
connivance by certain councilmen the
number was increased by one, so that
the total during the last year of Mayor
Armstrong's administration was put
back to seven.

"In the next paragraph of the Mayor's
veto message he attempts to dismiss
this entire proposition by confusing
the administration of police courts with
the amount of revenue produced through
fines levied on prisoners. Any intel-
ligent student of municipal govern-
ment knows full well that the salary
of the police magistrate has no con-
nection whatever with the magistrates'
decision in the matter of fining
prisoners. For instance, if every
prisoner brought before a magistrate
during the entire year was charged
with a serious crime which would re-
quire holding such prisoner for a court
trial in the county courts there would
not be any fines collected. Consequently
the Mayor's statement in mixing up the
matter of administration with the
matter of fines collected as the result
of the magistrates' decision is posi-
tively misleading.

"If the number of police magistrates
is to be determined by the number of
cases judged by the magistrates the
Mayor's statistics in the next para-
graph not only dispose of his entire
veto message, but are at once complete
arguments for the passage of this ordi-
nance over the veto of the Mayor. For
instance, Magistrate Sweeney in charge
of Central Station disposed of 22,180
cases during the year 1917; Magistrate
Fugassi in charge of three stations,
Central avenue, Oakland and Hazel-
wood, disposed of 10,689 cases; Magis-
trate Sullivan in charge of two sta-
tions, Penn avenue and Forty-third
street, disposed of 8,050 cases; Magis-
trate Borland in charge of two sta-
tions, Frankstown avenue and North-
umberland street, disposed of 4,566
cases. It is evident at a glance that
the three magistrates presiding at seven
police stations disposed of 23,305 cases
as compared with Magistrate Sweeney,
in charge of Central Station, disposing
of 22,180 cases. In other words, the
one magistrate at Central Station has
performed practically as much work as
three other magistrates in charge of

seven police stations. Again Magistrate Watkins, in charge of three stations, South Thirteenth street, Mount Washington and West End, disposed of 4,627 cases; Magistrate Lloyd at North Side Central Stations, disposed of 6,581 cases, and Magistrate Dillon in charge of Woods Run Station, disposed of 2,512 cases. In other words, three magistrates in charge of five police stations, disposed of 13,720 cases. This means that the total work of the three magistrates was only two-thirds of the work performed by one magistrate at Central Station. Again taking the five stations in charge of Magistrates Watkins, Lloyd and Dillon, and adding to them the work performed by Magistrate Sullivan at two stations, Penn avenue and Forty-third street, or 3,050 cases, we have 21,770 cases handled by four police magistrates in seven stations. I submit, Mr. President, that this combination of figures very plainly shows that the Mayor's statement is really an argument that we now have too many police magistrates for the amount of work there is to do.

"In the next paragraph of the Mayor's veto message, the Mayor rather briefly gives opinion as to the qualifications of a police magistrate. In this brief manner he promptly disposes of the entire subject of the mismanagement of the police court system of Pittsburgh and does not attempt a defense. I cannot see his argument at all unless it is a bold attempt to condone the public scandals of the past four years in the matter of police court management. I wish to go on record by stating that I can never agree with the Mayor in his position on this question.

"Regarding the 'injustice to prisoners, witnesses and police officers due to traveling greater distances to hearings, once more I invite inspection to the Mayor's previous paragraph as a complete answer to his own statement.

"If Magistrate Pugassi can preside over Center Avenue Station then travel to Oakland and then to Hazelwood, there is no reason why other police magistrates could not do the same thing. I have never heard of any complaints regarding any injustice in this matter.

"The statement that 'night officers must now endure the hardship of waiting around the police courts from two to five hours in the morning to attend hearings on their own time,' is an indictment of the municipal administrators of the government of Pittsburgh. There is no question but what there is bad management either by the police department in continuing such an unfair practice or else it is lack of attention on the part of the police magistrates in failing to arrange their hearings at proper hours. I do not hesitate to say that in my opinion both the police department and the police magistrates have exhibited bad management in this connection. As to the policemen loss of pay or loss of sleep while waiting on police magistrates' I give my opinion that such proceeding is absolutely unfair. A

policeman acting as a witness in support of the laws of the commonwealth and the city is just as much on duty as he is when patrolling his beat or making an arrest and he should be paid for the time he gives in serving the public. I don't think any fair-minded person could conscientiously challenge this statement. Such rank injustice to the police officers should be corrected immediately.

"In the next paragraph the Mayor's positive statement that 'reducing the number of police magistrates will provide less revenue by way of fines and would also create laxity on the part of the police force,' is unworthy of the Chief Executive of this city. I charge this is a gross libel on the police force, consequently I deem it my duty to challenge the Mayor's statement. I am confident that if the police officers are permitted to do their sworn duty they will arrest any and all violators of the law. The trouble in the past has been that police magistrates through political pressure have nullified the efforts of the honest and conscientious patrolmen and in most cases, the prisoners receive more consideration than the police officers who are doing their duty. This is a mockery on the law, which is supposed to protect the general public. Any police officer who condones any violations of the law by failing to make arrests because he may have to give up one-half of the following day to appear against the prisoner is violating his oath of office. Such practice is due to lack of discipline in the police bureau. In other words, mismanagement at the top of the Bureau of Police is responsible for any violations by the other officials.

"The statement that 'on an average the police judges now spend about five hours a day in their own courts' is another reason why the number of police magistrates should be reduced. We now have seven magistrates and by giving five hours a day to their duties the city then gets 35 hours' service. There is no reason why a police magistrate should not work eight hours a day like the average workman who pays the salaries of the police magistrates. If the police cases require 35 hours a day then by each magistrate working eight hours per day the city would only need the service of four police magistrates. By allowing the additional three hours' work to pass alternatively among five men would show that every magistrate would receive a short vacation once a week.

"In the matter of salary, assuming that they do hold a hearing every day in the week, which would mean 365 days yearly, the daily pay of each would amount to \$6.85. At this rate for five hours work the amount would be \$1.37 per hour. All of this is based on the Mayor's statement that each magistrate now averages about five hours a day in the service of the city. From my own observation I wish to flatly contradict this statement of the Mayor because from my own knowledge

on several occasions the magistrates did not spend over one hour at each police station. On very many days there are no hearings whatever. In the matter of clerks for police magistrates if the Mayor cares for efficiency, I would respectfully suggest that a stenographer from any city office could accompany the police magistrate and do any necessary typewriting or clerical work which may be required. The matter of dockets and triplicate sheets can be disposed of by having printed forms with the various offenses printed thereon. For instance, why waste time writing out the word 'assault and battery,' 'drunkenness,' etc., when for a few dollars several thousand blanks could be printed with all of these terms outlined. The millions of questionnaires now being answered by the registrants under the National Army Law is proof positive that printed forms can be adopted which would cover millions of cases. By use of the typewriter and carbon paper any number of copies could be made, so that the bugaboo held forth of a lot of clerical work is simply camouflage.

"The next paragraph in the Mayor's message is the main point in this entire discussion. The Mayor says, 'that the police magistrates are called on the phone at all hours of the day and night and are visited by friends of those in trouble.' In this paragraph His Honor dismisses the subject of political influence or rather he evades any discussion of it. This is where the dissatisfaction exists. Why should any police magistrate be influenced by any person in discharging his sworn duty? If the person arrested has committed a crime he should be given a fair trial or hearing by the police magistrate and the matter of the degree of the crime and whether or not the prisoner should be punished with a fine or a short jail sentence or be held for court is purely within the jurisdiction of the magistrate. If, however, the time of the magistrate is taken up in giving private audiences to political friends of prisoners the city should not be expected to suffer. If every case were judged on its merits it would not be necessary to invoke any private political pull. I have in mind the case of several men who beat up a policeman in the West End on July 4, 1917. One of the prisoners was and is an inspector in the Department of Public Works. Through the political pull of the ward chairman who is a friend of the inspector, the officer who was beaten up was compelled to withdraw the information he had made against his assailants and all the men were let off scot free. The policeman in question who received the hearing was rewarded by a promotion to the position of sergeant in the West End Police Station. It is just such practices as these which disgust the decent people of Pittsburgh. The magistrate in question who refused to be a party to this proceeding informed me that he thought the opposition of the Ward Chairman was the reason he was not

given a re-appointment by Mayor Babcock.

"Mr. President, I solemnly warn Mayor Babcock that this practice of political pull in the matter of police magistrates and their prisoners must cease. The prisoner should be given a square deal, the arresting officer should be given a square deal and the result will be that the public will be satisfied with the administration. Any deviation from the square deal policy must and will meet with disaster.

"In the statement that the passage of this ordinance reducing the number of police magistrates would not save the city money but would cost the city money, the Mayor is merely making a statement, he offers no proof. Undoubtedly if five police magistrates could do the work of seven the city would certainly save the salary of two police magistrates, or a total of \$5,000.

"The statement that it would reduce law-breaking is ridiculous, for the Mayor ought to know that it is the sworn duty of every police officer on every beat to make arrests for any violations of the law regardless of whether or not the case is heard by a magistrate or any other court in the City or County. The sworn duty of the police officers has no connection whatever with the sworn duty of the police magistrates. Because the practice of the Armstrong administration was wrong, unfair, unjust and positively illegal, is no reason why Mayor Babcock should start his administration in any such way.

"I am forced to conclude that Mayor Babcock is the one who has not given this ordinance careful consideration, but seems to be influenced by some sinister power which ruled the preceding administration. In the matter of long hauls from police stations I need only to say that the records now before the budget committee of the Council show that there were not enough arrests in the West End section of the city to justify continuing the overhead expense now required to operate No. 8 Police Station. The Finance Committee unanimously voted to abolish that police station. This in the face of Mayor Babcock's statement about long hauls!

"Mr. President, the duty of the Council in this matter is very plain. Our duty is to serve the people of Pittsburgh and not help people who violate the laws of the city. I don't mean by that statement that we must be unfair or unjust to any unfortunate prisoner who collides with the law through ignorance or design, as he should be given decent treatment. However, if any burdens are to be borne it seems to me that it is clearly our duty to place such burdens upon the breakers of the law rather than upon the taxpayers who are inconvenienced, annoyed and put to great monetary expense by reason of a certain proportion of the population breaking the laws.

"In conclusion, I regret that Mayor

Babcock does not agree with me as to the wisdom of fixing the number of police magistrates at five. If he carries out the platform promises and pledges he made to the people of Pittsburgh, it will not be very long until he reaches the conclusion that I have reached; that is, that five police magistrates can handle all of the police cases in the City of Pittsburgh. Perhaps years later a great increase in the population would require an additional number.

"I am therefore compelled to vote to make this ordinance a law, notwithstanding the veto of the Mayor."

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	Kerr
English	McArdle
Robertson	

Noes—Messrs.

Garland	Rauh
---------	------

Ayes—7.

Noes—2.

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

Mr. McArdle moved:

That the Clerk notify the Mayor of the action of Council in passing the ordinance to fix the number of police magistrates at five instead of seven, so that he can withdraw his recommendations for confirmation.

Which motion prevailed.

The Chair also presented:

No. 111.

MAYOR'S OFFICE.

Pittsburgh, Pa., January 21st, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Dear Sirs—I herewith return Bill No. 7, being an ordinance "Providing that one person be appointed Director of the Department of Charities and the Department of Public Health after the first Monday in January, 1918," without my approval, for the following reasons:

The only point in common that these two departments represent is that both come in close personal touch with the individual citizens of Pittsburgh and express in a practical way the idea that the city is, after all, a large family where the interest of one is the interest of all. The fact that the city has gained such a splendid reputation through the operation of these two departments in itself should cause us to ponder more seriously than we otherwise would over a proposal to combine

the two. There can be no excuse for trifling with what affects the physical well-being of the people of this city or for taking backward steps in humane effort.

The ramifications of the work of the Department of Health are already such that there is not a man, woman or child in the City of Pittsburgh with which it does not have to do. Good as the department is, it should be maintained at the highest point of excellence and is so important, that no attempt to divert the attention of its directing head from the duties the position requires should be countenanced.

A discussion of the work of this department in detail would necessitate a long treatise of a technical nature. Under its direction there are maintained five Bureaus, whose work is divided into eight Divisions, a Municipal and a Tuberculosis Hospital. In not one of these can Pittsburgh afford to have less than the best results obtainable. Economy is a mockery which is achieved at the expense of the health of the people. This department employs 329 people, of which 37 are physicians. It conducts activities so intricate in detail as to almost beggar description. Any laxity in the direction of this department would be not only serious but inexcusable, and to add to the duties of its directing head the direction of the Department of Charities is not only unwise but dangerous to the welfare of the community.

The Department of Charities has a large and important field of operations, including active supervision of almshouses, asylums, hospitals and dispensation of public charities throughout the city. Full control and responsibility for this work is committed to this department. The Director must make daily returns to the State Board of Lunacy of all insane admitted, condition of patients and asylums. He must make quarterly reports to the Auditor General and the State Board of Charities showing cost of maintenance and medical treatment, the expenditures of the institutions and per capita cost of inmates.

The administration demands very close attention and exacting detail of the above lines, but added to this, the Director of this department has under his care and supervision an immense plant at Mayview, consisting of a thousand acres of tillable farm land on which there are a large number of cows, hogs and chickens, many acres being devoted to raising vegetables of all kinds. These are furnishing, and will continue to furnish, the butter, milk, meat, eggs and vegetables necessary for the institution.

These farm activities require supervision and should produce not only the best for this institution, but be a revenue producer for the city. There are also great buildings and equipment, representing a total investment of almost \$2,000,000. The Director expends nearly half a million dollars

yearly, has 250 employees and a yearly payroll of about \$150,000. I am advised that there is coal under these lands and that Council has appropriated or is considering the appropriation of a large amount of money for its development. The care, maintenance and intelligent operation of this institution with its 1,200 inmates, farm activities and development of the mining of coal are alone sufficient to occupy the time of the Director.

This department deals with the unfortunate poor, indigent and helpless. Its working therefore should be characterized with a high degree of ability and care. To the normal demands upon the department may be added greater responsibilities arising from the World War. We should not allow ourselves to face that emergency in a crippled state.

The importance of this administration cannot be exaggerated and no man charged with its direction can be one hundred per cent efficient where his time and energy are divided with the Department of Health. In view of these facts, so self-evident, I cannot bring myself to believe that your Honorable Body gave the question of consolidating these two departments the consideration which the same deserves.

Very respectfully yours,

(Sd.) E. V. BABCOCK,

Mayor.

Which was read, and on motion of Mr. Robertson, received and filed.

And

Bill No. 7. An ordinance entitled, "An ordinance providing that one person be appointed Director of the Department of Charities and the Department of Public Health after the first Monday in January, 1918."

In Council, January 14, 1918. Bill read a second time and agreed to, rule suspended, read a third time and finally passed.

Was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. English arose and said:

"Mr. President, I heartily concur in what the Mayor says about the Department of Public Health. In his campaign speeches he said that the Department of Public Health was 100 per cent efficient. I didn't agree with him on the percentage, but from my personal observation I can say it is one of the most efficient departments in the city government.

"But I do not agree with the statements the Mayor makes in his veto message regarding the Department of Charities. I don't mean any disrespect to the Mayor. He may hear what I have to say here, but I want him to understand that it is a criticism of his statement as to the functions and duties of the Director of the Department of Charities. He says, 'The Department of Charities has a large

and important field of operation, including active supervision of almshouses, asylums, hospitals and dispensation of public charities throughout the city.' The average citizen would imagine from reading Mayor Babcock's statement that the Department of Charities was a great department having several almshouses in one section of the city; half a dozen asylums in some other direction, several hospitals, perhaps three or four, in various parts of the city, and finally that a charity dispensary of some kind was maintained in each of the 27 wards into which the City of Pittsburgh is divided.

"As a matter of fact this statement of the Mayor is scandalously misleading for this reason; except for the few offices located in the City-County Building the complete operation of the Department of Charities is all located at Mayview (formerly called Marshalsea) on a 1,000 acres farm about 16 miles from the city on the Pan Handle Railroad. All of the buildings which shelter the total population of about 1,900 which includes the 213 employees of the city, are grouped around a central administration building similar to the Carnegie Technical School and the University of Pittsburgh in the Oakland District of the city. There are no other buildings of any kind whatsoever connected with the Department of Charities. The entire work of the institution at Mayview is under the immediate supervision of the Superintendent who resides at Mayview. What is left for any Director to do? If there was ever a useless position it is certainly the position of the Director of the Department of Charities, and I am surprised that Mayor Babcock would even attempt to defend such a job. Some day he will agree with me. I am sorry that any member of Council would defend such a travesty. I have done my duty in pointing out this ghastly joke on the taxpayers and I cannot understand how any member of Council can vote to continue such a fraud on the people of Pittsburgh.

"The dispensation of charities through the city was abandoned several years ago. There is no outdoor relief except such occasional emergencies like that happened the other day and Council being in session authorized the Director of Charities to furnish immediate relief to several families who were made homeless by a fire in Lawrenceville. There is no provision made now for outdoor relief. Each emergency receives immediate attention by the Council.

"This ordinance does not propose to abandon the office in the present City Hall; that is, the number of clerks, bookkeepers, physicians and inspectors will remain. The eleven physicians will continue to do duty in the various parts of the city; that duty is to investigate cases of illness of people who are too poor to employ physicians. All that remains the same under the new ordinance.

"I will submit, Mr. President, and the Mayor will agree with me that if the Director does all the things as the Mayor says he does on page two of his communication, the Director should reside at Mayview where the institution is located. I submit that the Director cannot run back and forth between Pittsburgh and Mayview if he were an efficient, directing head of the Mayview institution; but as it is now he merely goes down there occasionally to give his approval or disapproval to anything that may be needed or contemplated at the institution.

"The Director is required to sign the payroll which is made up by the clerks and only needs his final signature. This I submit could be done very easily by the Director of Public Health, without much trouble.

"I am satisfied in my mind that we would not cripple the city one iota by combining these two departments, by adding the Department of Charities to Health and by having one head over both. The Superintendent at Mayview has absolute control over the employees and everything else down there. He gives his personal supervision to all work done and for that reason I think this \$6,500 should be saved the taxpayers in this war time when savings are required to help win the war. We must look out for the interests of the taxpayers and should make economies where they can be made without crippling the business of the city.

"I am therefore compelled to vote to make this ordinance a law notwithstanding the veto of the Mayor."

Mr. Garland arose and said:

"Mr. Chairman, I don't care whether the Mayor hears what I have to say or not. I don't think a member should so flatter himself as to believe that all he says will go to the Mayor. It is all 'camouflage'."

"I submit, Mr. Chairman, that the two departments under discussion are two of the greatest departments of the city. It has been said that the Doctor in charge at Mayview could possibly do all the things required of a Director. I don't think he could. The doctor, although a good Allenist, is not a general practitioner. He has some 1,600 patients under his charge and care. In addition to that he has probably 300 employees. This doctor must give his personal attention to these patients.

"Then we have the matter of the coal mine under discussion which I don't think should be handled or operated by a doctor. The Doctor's Fraternity would not recognize that as part of his function. Then there is extensive farming done at the City Home, there are 1,000 acres of tillable land.

"We would be asking too much of the Director of Public Health to take charge of these activities, because in the Health Department there are now five bureaus and eight divisions. That man must also supervise the work done at the Tuberculosis Hospital and

the Municipal Hospital. He has considerable to do. He must be at his desk a considerable part of the time and pass upon matters in the exercise of his duty.

"When former Mayor Magee divorced the Department of Charities from the Department of Public Health the city was not as large as it is now, and the institution at Marshalsea was not as large as that at Mayview. We were not engaged in extensive farming and not operating a coal mine.

"When we speak of outdoor relief, there will be considerable of it that to do this year or next year or within the next four years. Just the other day a fire occurred in Lawrenceville and we sent the Director out there, giving him carte blanche, to spend whatever amount was necessary on those people who depended upon the city for immediate relief. Other cases have happened during the incumbency of the Director and there will be many places where relief must be given during the war. It is one man's job.

"I want to say that the man whose name has been sent in by the Mayor is a man of executive ability.

"There are other places to save money. I want to give the gentleman credit for trying to save the people of Pittsburgh the amount of money that is involved in this case. Perhaps there is no politics in the matter. I don't think this is the position to be struck down by Council. I believe this office will be an important one during the next four years, particularly in view of the crisis the country is now facing."

Mr. McArdle arose and said:

"Mr. Chairman, one thought injected into this matter by the Mayor and the last speaker has no place here. The fact that the city is going to open a coal mine at Mayview should not enter into this discussion. The opening of this coal mine is a business proposition. The great bluk of the production is going to be consumed in the Water Bureau. I have taken it for granted right along that when the proper times comes the operation of that coal mine will be placed in the hands where it belongs and that surely is not in the hands of the Charities Department. It will evidently go in the Department of Public Works, as common sense would dictate. The thing that seems plain to me is there is less need for a separate administration of these two departments today than there ever was for the reasons already advanced—that the activities on the one hand have been very, very materially reduced, and on the other hand very materially concentrated. The poor to be taken care of is no greater today than it was four or five years ago. We have heard references from half dozen different sources today, either through the Mayor's message or somebody else over that the size of the city has increased. The size has not increased at all and the more disappointing fact is that its popula-

tion has increased mighty little, all to the disappointment to the City of Pittsburgh, and I don't know but what we might contribute this fact as we have frequently been told that it costs too much to live in the City of Pittsburgh—we are supporting the community but not getting the benefits of it. We can cut down elsewhere, but we cannot do it with good grace or consistency unless we can show that it is the same common sense business why two jobs at a higher price should be maintained instead of one.

"The personality of the gentleman proposed has been injected in it. That has nothing to do with this question. If this ordinance passes over the Mayor's veto the Mayor has the right to name the present incumbent in the city government to administer the affairs of both of these departments. So there is not, as far as this individual is concerned, any personal question involved in this matter. The Mayor will have the right of naming that man if he wants him.

"As far as the Department of Public Health is concerned and the declaration that it is 100 per cent efficient, I don't believe it is. I don't believe it is anything like 100 per cent efficient. But whatever degree of efficiency it has reached it has been able to maintain it for the past year and a half almost without any Director at all. It went on for six months while the Director was on the Mexican Border in the National Guard. It is going on under the Substitute Director many, many months since that time, while he was also performing the functions of another office, and I think the demonstrations have already been given that this can be done if there is a disposition to do it.

"We abandoned a large farm and a large institution at Warner Station and combined all the activities of this department at Mayview where they are centralized and under the direction and observation of one man and we have thought, apparently, so much about the importance of that man that during this budget hearing we have increased his salary from \$4,000 to \$6,000 per annum, because we believed that he was the real factor in operating this department; that it was upon him that we must lean for the successful administration of the City Home and Hospital at Mayview and when I say that it embraces for all practical purposes the Department of Charities and to say that he is only a medical man, does not dovetail with the fact, because it only requires a visit to Mayview, the spending of a day there, to become imbued with the fact that the Superintendent there knows what is going on in that institution and in all its ramifications from the ptery and the hennery to the consumption hospital on the hill. He is the only man that does know and he is the one man that can be depended upon to administer it, whether we have a director

or do not have a director. It gets down to the plain common proposition as to whether in an endeavor to minimize the size of the tax rate now to be fixed we are going to be just as energetic at the top as we have shown ourselves to be in some places of small moment down towards the bottom."

Mr. English arose and said:

"Mr. President, the mere fact that the Department of Public Health has five bureaus and eight divisions is no reason why this war economy measure should not be passed. The Department of Public Works has ten times as much activity as any one of the other departments, or perhaps two or three of them together, and all are handled by way of written reports from various divisions and bureaus. We all know that the matter of street cleaning alone is a municipal activity, the cost of which amounts to as much as is spent by the entire Department of Charities. The appropriation for the single item of street cleaning alone for 1917 was \$375,114.00 and yet cleaning streets is only one division in the Bureau of Highways and Sewers. There are several other divisions in the Bureau of Highways and Sewers, such as repairing highways, cleaning and repairing sewers, boardwalks and steps, asphalt plant, etc. The total appropriation for the Bureau of Highways and Sewers for 1917 amounted to \$1,086,000.00 and yet the entire Department of Charities appropriation for 1917 was only \$421,000.00. No one is urging a director for the million dollar Bureau of Highways and Sewers. Another illustration of cost is the Bureau of Light which is attached to the Department of Public Works. The appropriation for 1917 was \$568,000.00. The Bureau of Parks is also attached to the Department of Public Works. The park appropriation for 1917 was \$323,000.00. I could continue to point out in detail the \$3,768,000.00 spent in the Department of Public Works all under the supervision of one Director and he having about ten superintendents. It is simply ridiculous to even suggest that the Director of the Department of Public Works actively administers a single bureau or division of the entire ten bureaus. The mere amount of the money spent is no argument at all as a reason for opposing this war economy measure. I feel sure that no member of Council would think of carrying a useless position costing \$6,500 on his private pay roll, particularly this year, when every one should avoid waste and extravagance in order to help our country win the war.

"We do not have any outdoor relief in the Department of Charities. The gentleman who followed me was the very man who insisted upon abolishing the outdoor relief formerly granted by the city through the Department of Charities.

"I will submit, Mr. President, and the Mayor will agree with me that if the Director does all the things as the Mayor says he does on page two of his communication, the Director should reside at Mayview where the institution is located. I submit that the Director cannot run back and forth between Pittsburgh and Mayview if he were an efficient, directing head of the Mayview institution; but as it is now he merely goes down there occasionally to give his approval or disapproval to anything that may be needed or contemplated at the institution.

The fact that the city is going to open a coal mine at Mayview should not enter into this discussion. The opening of this coal mine is a business proposition. The great bulk of the production is going to be consumed in the Water Bureau. I have taken it for granted right along that when the proper times comes the operation of that coal mine will be placed in the hands where it belongs and that surely is not in the hands of the Charities Department. It will evidently go in the Department of Public Works, as common sense would dictate. The thing that seems plain to me is there is less need for a separate administration of these two departments today than there ever was for the reasons already advanced—that the activities on the one hand have been very, very materially reduced, and on the other hand very materially concentrated. The poor to be taken care of is no greater today than it was four or five years ago. We have heard references from half dozen different sources today, either through the Mayor's message or somebody else over that the size of the city has increased. The size has not increased at all and the more disappointing fact is that its popula-

tion has increased mighty little, all to the disappointment to the City of Pittsburgh, and I don't know but what we might contribute this fact as we have frequently been told that it costs too much to live in the City of Pittsburgh—we are supporting the community but not getting the benefits of it. We can cut down elsewhere, but we cannot do it with good grace or consistency unless we can show that it is the same common sense business why two jobs at a higher price should be maintained instead of one.

"The personality of the gentleman proposed has been injected in it. That has nothing to do with this question. If this ordinance passes over the Mayor's veto the Mayor has the right to name the present incumbent in the city government, to administer the affairs of both of these departments. So there is not, as far as this individual is concerned, any personal question involved in this matter. The Mayor will have the right of naming that man if he wants him.

"As far as the Department of Public Health is concerned and the declaration that it is 100 per cent efficient, I don't believe it is. I don't believe it is anything like 100 per cent efficient. But whatever degree of efficiency it has reached it has been able to maintain it for the past year and a half almost without any Director at all. It went on for six months while the Director was on the Mexican Border in the National Guard. It is going on under the Substitute Director many, many months since that time, while he was also performing the functions of another office, and I think the demonstrations have already been given that this can be done if there is a disposition to do it.

"We abandoned a large farm and a large institution at Warner Station and combined all the activities of this department at Mayview where they are centralized and under the direction and observation of one man and we have thought, apparently, so much about the importance of that man that during this budget hearing we have increased his salary from \$4,000 to \$6,000 per annum, because we believed that he was the real factor in operating this department; that it was upon him that we must lean for the successful administration of the City Home and Hospital at Mayview and when I say that it embraces for all practical purposes the Department of Charities and to say that he is only a medical man, does not dovetail with the fact, because it only requires a visit to Mayview, the spending of a day there, to become imbued with the fact that the Superintendent there knows what is going on in that institution and in all its ramifications from the ptery and the hennery to the consumption hospital on the hill. He is the only man that does know and he is the one man that can be depended upon to administer it, whether we have a director

or do not have a director. It gets down to the plain common proposition as to whether in an endeavor to minimize the size of the tax rate now to be fixed we are going to be just as energetic at the top as we have shown ourselves to be in some places of small moment down towards the bottom."

Mr. English arose and said:

"Mr. President, the mere fact that the Department of Public Health has five bureaus and eight divisions is no reason why this war economy measure should not be passed. The Department of Public Works has ten times as much activity as any one of the other departments, or perhaps two or three of them together, and all are handled by way of written reports from various divisions and bureaus. We all know that the matter of street cleaning alone is a municipal activity, the cost of which amounts to as much as is spent by the entire Department of Charities. The appropriation for the single item of street cleaning alone for 1917 was \$375,114.00 and yet cleaning streets is only one division in the Bureau of Highways and Sewers. There are several other divisions in the Bureau of Highways and Sewers, such as repairing highways, cleaning and repairing sewers, boardwalks and steps, asphalt plant, etc. The total appropriation for the Bureau of Highways and Sewers for 1917 amounted to \$1,086,000.00 and yet the entire Department of Charities appropriation for 1917 was only \$421,000.00. No one is urging a director for the million dollar Bureau of Highways and Sewers. Another illustration of cost is the Bureau of Light which is attached to the Department of Public Works. The appropriation for 1917 was \$568,000.00. The Bureau of Parks is also attached to the Department of Public Works. The park appropriation for 1917 was \$323,000.00. I could continue to point out in detail the \$3,768,000.00 spent in the Department of Public Works all under the supervision of one Director and he having about ten superintendents. It is simply ridiculous to even suggest that the Director of the Department of Public Works actively administers a single bureau or division of the entire ten bureaus. The mere amount of the money spent is no argument at all as a reason for opposing this war economy measure. I feel sure that no member of Council would think of carrying a useless position costing \$6,500 on his private pay roll, particularly this year, when every one should avoid waste and extravagance in order to help our country win the war.

"We do not have any outdoor relief in the Department of Charities. The gentleman who followed me was the very man who insisted upon abolishing the outdoor relief formerly granted by the city through the Department of Charities.

"It has been pointed out in this body many times that the various church organizations, the Associated Charities and the Improvement of the Poor Association and Salvation Army were well able and as a matter of fact, do handle all outdoor relief. This matter of outdoor relief is an excuse, not a reason, and should not enter into this discussion at all.

"The coal mine question also, Mr. Chairman, should not be injected into this question, because it is a business proposition, and as clearly explained by Mr. McArdle, has no connection whatever with the Department of Charity.

"It is fortunate indeed that I am not accused of trying to bring politics in this matter, as that very frequently is my portion for trying to bring about economies just like this. I want Mr. Garland's statement recorded that he does not accuse me of bringing politics into this matter.

"The purpose of this ordinance is to bring about a war time economy by abolishing the salary of \$6,500 which goes with the empty title of Director of the Department of Charities. The institution at Mayview is running in a very satisfactory manner. That is evidenced by the fact that the budget committee has granted the Superintendent of the institution a 50 per cent increase in salary. As the present salary of the Resident Superintendent is \$4,000.00, a 50 per cent increase, or \$2,000.00 will make the amount \$6,000.00. If the Director was at the institution and did his work at Mayview there might be some slight justification for the position being retained, but he sits in an office in City Hall. He does not do anything at Mayview except to visit the institution occasionally and give his approval to things suggested by the Superintendent.

"Finally the \$6,500.00 annual saving which could and should be effected now would amount to \$26,000.00 in four years. If this ordinance fails to pass you cannot attempt it for four years, as the appointment is for the term of the Mayor unless perchance the incumbent should resign or die. It is idle to speculate on a resignation.

"I am therefore compelled to vote to make this ordinance a law notwithstanding the vote of the Mayor."

And the question recurring, "Shall the bill become a law notwithstanding the objections of the mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
English	McArdle
	Robertson

Noes—Messrs.

Dailey	Kerr
Garland	Rauh

Ayes—5.

Noes—4.

And there not being two-thirds of the votes of Council in the affirmative, the objections of the Mayor were sustained.

PRICHARD AND TRENT.

Attorneys-at-Law.

Pittsburgh, Pa., January 18, 1918.

Hon E. V. Babcock,

Mayor of the City of Pittsburgh.

Pittsburgh, Pa.

Dear Sir—The matter of the confirmation of my appointment by you to the office of Director of the Department of Public Safety has narrowed down to the question of whether a certain person is to be appointed Superintendent of Police.

At the conclusion of my conference with Council on January 9, 1918, it was stated that Council desired to discuss the matter further with me at some future date. A misunderstanding seems to have arisen as to whether Council was to fix a time for this future conference or I was to take the initiative and communicate further as to the proposed appointment of a Superintendent of Police. Subsequent developments seem to indicate that Council is awaiting word from me on this question.

I have already stated to Council my reasons for favoring the appointment to this position of Robert J. Alderdice and have discussed with Council the objections to this appointment. These objections are not based upon any specific allegations of fact; they are not made in any formal shape, but seem rather to be broad and indefinite, and largely the result of innuendo and rumor. I hoped when I learned from the newspapers, which was my first knowledge of the fact, that Mr. Alderdice had requested of Council permission to appear before Council on the charges, that the matter would be gone into fully and completely, and thereby some assistance might be had in clearing up the situation surrounding this proposed appointment.

As is generally known, the invitation to assume the post of Director of the Department of Public Safety came to me entirely unsolicited, and I agreed to accept the same, subject to approval by Council, only after the most careful consideration and with the utmost reluctance on my part to relinquish the post of First Assistant District Attorney of Allegheny County, and to depart from the active practice of my profession. This decision on my part was made with no motive whatsoever other than the desire to perform a public service to the best of my ability and to perform that service strictly in accordance with the principles laid down by you in your inaugural address, and in accordance with the provisions of the oath of office.

Therefore, my reply to the question whether or not I shall assure Council that any particular person will or will not be appointed to any position in the Department of Public Safety can only be made in accordance with those principles. If I am confirmed, before

I assume the duties of the office I will be required to take the oath of office, which includes the following statement:

"That I have not paid or contributed, or promised to pay or contribute, either directly or indirectly, any money or other valuable thing to procure my nomination or election, (or appointment), except for necessary and proper expenses expressly authorized by law."

Under this wording in the oath, I would disqualify myself truthfully to take the oath if I made any pledge that I would or would not appoint any person to any position in the Department of Public Safety as a means of securing the vote or consent of any member of Council upon the question of my confirmation. If Council, or any member thereof, were to insist upon this assurance as a condition precedent to voting in favor of my confirmation, such action would be overstepping the law governing the confirmation by Council of such appointment; and I am sure then when the attention of Council and the members thereof is called to this, neither the Council nor any member thereof would permit Council and the members thereof to be placed in such position. I am determined, however, if my appointment is confirmed by Council, to act only in the most disinterested manner in the exercise of my official authority. I will be actuated only by a desire to serve the city's best interests in the office, and in serving the city's best interests it is my purpose, and it will be my purpose, to co-operate with you as Mayor and the Council in determining what official action best serves that end. In carrying out this purpose, in view of the circumstances that have arisen surrounding the matter of the appointment of a Superintendent of Police, I have concluded to withdraw the statement I made in the conference with Council that it was and is my present intention to appoint Mr. Alderdice Superintendent of Police. In making this statement, I most earnestly insist that I am in no way pledging myself as to my official action, so that I may keep myself in such position that I can honestly and legally take my oath. I am free, however, to make the statement, not by way of a pledge, but merely as a matter of information to you and to Council, that I will defer the appointment of a Superintendent of Police in the Department of Public Safety until such time as I shall have had an opportunity, such I can only have as the Director, thoroughly to look into and investigate the entire situation in the Bureau of Police. No appointment shall be made until I am satisfied that the same, whatever it shall be, will best meet the requirements of the office and of the city's welfare; and in deciding upon this appointment, as well as all other appointments, I will welcome and carefully consider any and all information and assistance that may be offered me by yourself, by Council, and by all

persons interested in the welfare of the city.

I might add here that if I assume the post of Director of the Department of Public Safety, it is my steadfast purpose to assume the entire responsibility for that department, and every branch thereof, including the conduct and administration of those offices to be filled by appointment by me. And in view of this responsibility, I will exercise the most careful and disinterested discretion, and in the event that any person appointed by me should fail to meet the requirements as outlined in your inaugural address, and in the policy I have heretofore discussed with Council, the remedy is apparent and will be unhesitatingly applied.

With reference to the position of Superintendent of Police, permit me to say that this appointment, whoever he may be, is not to be made for the full term of four years, and is in no sense irrevocable, and a mistake in appointing him, if any be made, can and will be promptly corrected.

Yours very truly,

(Sd.) CHAS. P. PRICHARD.

City of Pittsburgh, Pennsylvania,

Office of the Mayor,

January 21, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Gentlemen—I beg to withdraw the list of Police Magistrates submitted to you January 7th for your consideration.

Respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read, and on motion of

Mr. Garland, received and filed.

UNFINISHED BUSINESS.

Bill No. 8. An ordinance entitled, "An ordinance fixing the number of Assessors in the Department of Assessors after the first Monday in January, 1918."

In Council, January 12, 1918, read and motion to suspend rule, for second and third readings and final passage, failed.

In Council, January 14, 1918, Bill read a second time and amended in Section 1 by striking out the word "five" and by inserting in lieu thereof the word "seven," and laid over for reprinting.

Which was read.

Mr. English arose and said:

"Mr. Chairman, I want to say that I think that we should not deviate from the original ordinance fixing the num-

ber of Assessors at five. It was stated in committee that on account of 1918 being the triennial assessment year more assessors are needed. I want to call your attention to Article VI of the Law, which is as follows:

"They shall have the power to make a new assessment in any ward or wards they deem necessary, in any subsequent year, other than triennial years, in the manner prescribed by law for the triennial assessment."

"Mr. Chairman, I submit that the members of Council should know, if they don't know, that the Assessors have been doing that very thing from time to time. They keep going around the city changing the assessment on properties when public improvements are made. The only new work that comes to the Assessors is the matter of new buildings. Council has passed an ordinance requiring persons taking out a building permit to file complete information with the Department of Assessors as to the probable cost of the building. The person doing this takes an oath as to the amount of money he proposes to spend or has spent on the new building, so that when the Assessors come to fix the assessment they will have information they need in fixing the original assessment."

"As we all know they should have information on the old buildings for their records, so that it is not necessary to raise this bugaboo about the triennial assessment."

"At a meeting of the Budget Committee in response to a question, Mr. Hawkins, Chief Assessor, admitted that the Assessors do make continuous assessments and changes."

"I want to add a word of warning to any member of Council that he should not barter or trade his vote in Council for political favors."

"I want to read a few remarks I made at the last meeting of Council on December 31st, 1917."

"I here and now disclaim any and all responsibility for any friction or trouble the future may bring by reason of Council's neglect of this opportunity to serve the people. I would also add a word of caution to any member whether in or out of Council who might be considering these four ordinances as the subject of barter and trade in payment for political favors."

"Mr. President, I solemnly reiterate that warning."

And the bill, as read a second time and amended, was agreed to.

Mr. Robertson moved:

A suspension of the rule to allow the third reading and final passage of the bill.

Which motion prevailed.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	Kerr
Garland	Rauh
	Robertson

Noes—Messrs.

English	McArdie
---------	---------

Ayes—7.

Noes—2.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Garland presented:

No. 114. Resolved, That the name of Charles B. Prichard, as nominated by the Mayor, be confirmed by this Council as Director of the Department of Public Safety.

Which was read.

Mr. Garland moved:

The adoption of the resolution.

Mr. English arose and said:

Mr. President—The following solemn words of Abraham Lincoln briefly express my position in the present difference of opinion now existing in this city on the subject of Mayor Babcock's appointments: "I am not bound to win, but I am bound to be true. I am not bound to succeed, but I am bound to live up to what light I have. I must stand with anybody that stands right; stand with him while he is right and part with him when he goes wrong."

On November 6th, 1917, the voters of Pittsburgh selected their municipal servants for the four years beginning January 7, 1918. Immediately after the election another campaign was started. That campaign was a wicked and sinister desire on the part of disappointed contributors to the \$190,000.00 Babcock campaign fund to defraud the people of this great city. A dastardly attempt has been made to prove that the Council of the city is merely an adjunct to the Mayor's office. The independent men in this Council have been maligned almost daily in the newspapers for daring to do the things the people expected and have demanded from public servants. Every act and expression of any councilman who has the courage of his convictions, and the nerve to assert his rights as a representative of the people, has been denounced by zealous Babcock partisans, as a crime against the welfare of the community.

The truth of the matter is that the political pirates who prey on the public for personal profits are worried. They realize that the Council has more control over the public funds than the Mayor. The first gas attacks were mild soporific sleep producers intended to fool the public mind into believing that the campaign utterances of the Mayor-elect was a complete cure-all

for the rotten mess we have endured for four years under the Armstrong administration. On the failure of the chloroform method the usual bold bluff of taking over one or two councilmen was put out in a desperate effort to stampede the members of Council. The object of this propaganda was to serve the double purpose of splitting the ranks of the independents and at the same time fasten suspicion on the individual member of Council. This second plan of attack did not make the slightest impression on a single councilman. We are all human and being human we are bound to make mistakes and we have certainly had many heated arguments, but no one has ever dared to insinuate that any member of this Council can be corrupted. Finally the 42 centimeter guns were brought up on the day the Mayor's appointments were held up for investigation and examination. These tremendous weapons have been booming constantly for two weeks without interruption. In the meantime the commanding general of the political junkers and autocrats of the State of Pennsylvania was summoned to Pittsburgh. The newspaper reports indicated that this visit was for the purpose of trying to bring about harmony in the ranks of the partisan spoilsmen who could not agree among themselves in the matter of city jobs as rewards for political services in the recent municipal campaign. Not satisfied with bringing the Philadelphia primary murder into the Pittsburgh election, they now bring the town meeting party to Pittsburgh to launch a campaign in the Republican Party for the nomination of Governor. Who would Matthew Stanley Quay and J. P. McNichol say if they knew that the boss of the G. O. P. had lost his grip in Philadelphia and had to bring his town meeting party to Pittsburgh to start anything in the Republican party? Verily a prophet, either with or without honor, is some prophet when Philadelphia chases him. And think of the doubtful honor these worthies have thrust on Pittsburgh which has always been a football for Philadelphia politicians.

I heartily agree with one speaker at the town meeting party banquet when he said, "Woe is me if I do not preach the gospel." Mr. President, the significant remarks at this so-called banquet were those of Auditor General Snyder of the famous pickling committee of the State Senate. He is reported as saying that the new Mayor, Mr. Babcock, wanted some new state laws to give him more power. Evidently another ripper bill for the Council of Pittsburgh, but not a word said about a ripper for the School Board. Nobody suggested a ripper for the Armstrong Council of 1914, but the voters of Pittsburgh took good care of "Our Joe's" candidates for Council in the recent election. As a matter of fact every assault Armstrong made on certain candidates was a great help in electing the men he opposed. Threats of a ripper bill do not worry

me, on the contrary, they offer every encouragement to the independent councilman. With the above preface, Mr. President, as a reason for careful scrutiny by Council of any and all appointments, I will proceed with the argument.

Four years ago a majority of the Council broke the speed records in endorsing the honesty and integrity of Mayor Armstrong's cabinet appointments. The new administration started off with a great blare of trumpets. The committee of 100 had elected "Our Joe," a man of the people. Then the Committee of Nine had given much thought and more time arranging a real (?) cabinet. Every appointment, high and low, was made on the basis of ability and fitness for great service to the people of Pittsburgh. Well the great machine was off at last after the salary of certain cabinet positions had been boosted from \$5,000 to \$8,000 a year. But, woe is me for telling the facts; in four short months the undesirable scandal broke loose and ever since the people of Pittsburgh were waiting for the first opportunity to get rid of the worst set of officials the city has ever had.

In all this riot of mismanagement and extravagance no one has ever questioned the personal honesty or integrity of any city officials. Well then, what caused all this? My answer is, the failure of the majority of Council to measure up to Council's duties, powers and responsibilities from the first day of the Armstrong administration. The majority of the Council of 1914 should have taken a little time to consider each appointment and should have questioned each nominee as has been done so far by this Council of 1918.

Mr. President, the law placing the approval of the Mayor's appointments in the hands of Council is very plain. The meaning of the law is very clear. In my opinion it is evident that if the Council approves the appointments of the Mayor, that very approval carries with it joint responsibility for the results of the administration of the Mayor. If the result is good and beneficial it is because the approval of the Council gave the nominee an opportunity to serve the people. On the other hand, if the result is bad and unsatisfactory, it is because Council's approval gave the nominee the opportunity to produce an unsatisfactory administration.

I regret exceedingly that the Mayor has chosen to throw down a challenge to the Council. It is unfortunate for the people of Pittsburgh that the newspapers, which supported him, continually refer to the Council as blocking and obstructing the public business. It is more regrettable for the Mayor, as he has refused or avoided an answer to Council's resolution asking for a conference to afford him an opportunity to explain his public utterances on this matter. Just for illustration and not as a criticism, permit me to point

out that the business of the city is not blocked at all, for bad as the Armstrong administration was, surely the four years' experience gained by the men who have been holding over for two weeks is, theoretically at least, the equal of new men who have never had any experience in the places for which they have been nominated. Again, the Mayor certainly had notice of the affirmative action of the Finance Committee in approving the War Economy ordinances, relating to City Treasurer and Department of Supplies, Department of Health and Charities, fixing the number of Police Magistrates and fixing the number of Assessors. If the business of the city is being clogged as he is reported as saying it is, why did he not take action on these ordinances as soon as he received the same after final passage by Council last Monday. Finally, how can Council be blamed for the Mayor's failure or neglect to appoint the Board of Water Assessors and the Civil Service Commission and the Sinking Fund Commission? The Council has no voice in the selection or confirmation of these three bodies and yet no public announcement has been made of these appointments. Is it possible that these positions are the political patronage referred to in the newspaper reports of the Mayor's recent speech on clogging the City business? I take this opportunity of placing in the record an absolute and unqualified denial of any knowledge of any deals or attempted deals for political patronage.

Mr. President, I have tried to be as brief as possible in this statement and I hope anybody and everybody interested will understand that I have nothing to hide or conceal. I deem it my duty to set forth my views early in this term, so that future friction may be avoided. I have no hesitancy in saying to the people of Pittsburgh that I propose to serve the people in this term as I did in the last. When Mayor Babcock or any other official or person presents any measure in this council I will support it if I think it right and I will oppose it if I think it is wrong. I will endeavor to avoid any personalities and do not intend to be offensive.

"Mr. President, we have had two meetings with Mr. Prichard, who has been nominated for the position of Director of the Department of Public Safety. I am confident that Mr. Prichard realizes the grave responsibility which rests upon him if his nomination is confirmed. I am satisfied that I have done everything in my power to show him that I realize the responsibility which rests upon me as a member of Council in the matter of his confirmation.

"He answered the questions put to him in a prompt and satisfactory manner, and I think he realizes that the members of Council know something about the Department of Public Safety. I also feel sure that Mr. Prichard realizes that if anything goes wrong in his department the Council intends to look to him and that we will hold

him entirely responsible for any neglect or mismanagement in the Department of Public Safety. I felt that we owed a duty to the public to go into this matter very carefully for the purpose of fixing this responsibility.

"For my part I did not intend any personal reflections upon Mr. Prichard in any questions which I asked him or any statements which I made to him. It was solely for the purpose of having him realize what his duty to the public and my duty to the public is if I voted to confirm his nomination.

"Mr. President, I therefore take pleasure in seconding the nomination of Mr. Prichard for the position of Director of the Department of Public Safety."

And the question recurring on the adoption of the resolution, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.	
Burke	Herron (President)
Dailey	Kerr
English	McArdle
Garland	Rauh
	Robertson

Ayes—0.
Noes—None.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

My answer is, the failure of the majority of Council to measure up to Council's duties, powers and responsibilities from the first day of the Armstrong administration. The majority of the Council of 1914 should have taken a little time to consider each appointment and should have questioned each nominee as has been done so far by this Council of 1918.

Mr. President, the law placing the approval of the Mayor's appointments in the hands of Council is very plain. The meaning of the law is very clear. In my opinion it is evident that if the Council approves the appointments of the Mayor, that very approval carries with it joint responsibility for the results of the administration of the Mayor. If the result is good and beneficial it is because the approval of the Council gave the nominee an opportunity to serve the people. On the other hand, if the result is bad and unsatisfactory, it is because Council's approval gave the nominee the opportunity to produce an unsatisfactory administration.

I regret exceedingly that the Mayor has chosen to throw down a challenge to the Council. It is unfortunate for the people of Pittsburgh that the newspapers, which supported him, continually refer to the Council as blocking and obstructing the public business. It is more regrettable for the Mayor, as he has refused or avoided an answer to Council's resolution asking for a conference to afford him an opportunity to explain his public utterances on this matter. Just for illustration and not as a criticism, permit me to point

out that the business of the city is not blocked at all, for bad as the Armstrong administration was, surely the four years' experience gained by the men who have been holding over for two weeks is, theoretically at least, the equal of new men who have never had any experience in the places for which they have been nominated. Again, the Mayor certainly had notice of the affirmative action of the Finance Committee in approving the War Economy ordinances, relating to City Treasurer and Department of Supplies, Department of Health and Charities, fixing the number of Police Magistrates and fixing the number of Assessors. If the business of the city is being clogged as he is reported as saying it is, why did he not take action on these ordinances as soon as he received the same after final passage by Council last Monday. Finally, how can Council be blamed for the Mayor's failure or neglect to appoint the Board of Water Assessors and the Civil Service Commission and the Sinking Fund Commission? The Council has no voice in the selection or confirmation of these three bodies and yet no public announcement has been made of these appointments. Is it possible that these positions are the political patronage referred to in the newspaper reports of the Mayor's recent speech on clogging the City business? I take this opportunity of placing in the record an absolute and unqualified denial of any knowledge of any deals or attempted deals for political patronage.

Mr. President, I have tried to be as brief as possible in this statement and I hope anybody and everybody interested will understand that I have nothing to hide or conceal. I deem it my duty to set forth my views early in this term, so that future friction may be avoided. I have no hesitancy in saying to the people of Pittsburgh that I propose to serve the people in this term as I did in the last. When Mayor Babcock or any other official or person presents any measure in this council I will support it if I think it right and I will oppose it if I think it is wrong. I will endeavor to avoid any personalities and do not intend to be offensive.

"Mr. President, we have had two meetings with Mr. Prichard, who has been nominated for the position of Director of the Department of Public Safety. I am confident that Mr. Prichard realizes the grave responsibility which rests upon him if his nomination is confirmed. I am satisfied that I have done everything in my power to show him that I realize the responsibility which rests upon me as a member of Council in the matter of his confirmation.

"He answered the questions put to him in a prompt and satisfactory manner, and I think he realizes that the members of Council know something about the Department of Public Safety. I also feel sure that Mr. Prichard realizes that if anything goes wrong in his department the Council intends to look to him and that we will hold

him entirely responsible for any neglect or mismanagement in the Department of Public Safety. I felt that we owed a duty to the public to go into this matter very carefully for the purpose of fixing this responsibility.

"For my part I did not intend any personal reflections upon Mr. Prichard in any questions which I asked him or any statements which I made to him. It was solely for the purpose of having him realize what his duty to the public and my duty to the public is if I voted to confirm his nomination.

"Mr. President, I therefore take pleasure in seconding the nomination of Mr. Prichard for the position of Director of the Department of Public Safety."

And the question recurring on the adoption of the resolution, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.	Herron (President)

Mr. Garland presented:

No. 115.

January 9, 1918.

Public Service Commission,
Harrisburg, Pa.

Gentlemen—In the matter of the complaint of the City of Pittsburgh against the Pittsburgh Railways Company, et al. Complaint Docket No. C-1571, 1917, the appearance of either Stephen Stone or that of Stone & Stone was entered of record for the Federal Street & Pleasant Valley Passenger Railway Company.

Please be advised that it is our desire to withdraw our appearance from said case as representative of said defendant or any other defendant.

Will you kindly make note of such request and advise us at your early convenience that note has been made thereof and the said appearance withdrawn.

Yours very truly,
STONE & STONE.
STEPHEN STONE.

THE PUBLIC SERVICE COMMISSION
OF THE COMMONWEALTH OF
PENNSYLVANIA.

Harrisburg, Pa., January 11, 1918.
File C-1571.

City of Pittsburgh
vs.

Pittsburgh Railways Company, et al.
Messrs. Stone & Stone,
Frick Building, Pittsburgh, Pa.

Dear Sirs—I beg to acknowledge the receipt of your letter of the 9th inst. and note that you desire to withdraw your appearance for the Federal Street

and Pleasant Valley Passenger Railway Company, defendant in the above entitled proceeding, or for any other defendant in said case.

I have so noted of record.

Very truly yours,

A. B. MILLAR,

Secretary.

Which was read, received and filed.

Also

No. 118. Resolved, That the name of Stephen Stone, as nominated by the Mayor, be confirmed by this Council as City Solicitor, with the understanding that he execute in proper form and file with the Council the regular stipulation now in effect as to docket fees.

Which was read.

Mr. Garland moved:

The adoption of the resolution.

Mr. Rauh arose and said:

"Mr. President, it gives me pleasure to second the motion the gentleman offered a few moments ago and I wish to state that I consider Mr. Stone a very strong and able man and a good attorney."

Mr. McArdle arose and said:

"Mr. Chairman, I will vote in favor of this resolution because Mr. Stone has appeared before the committee or the members of Council on two different occasions and satisfied me that it is his purpose to allow the policy of the city in the matter of public utilities litigation to go on undisturbed under the same auspices under which it was started unless, of course, some events transpired which might in his judgment make a deviation from that course wise; and in that event, because I understand it will be his disposition to confer with Council before taking that step and for the further reason that Mr. Stone has satisfied me that he himself is satisfied with the conduct of the city's litigation looking to the recovery of valuable wharf property and that he is satisfied to allow that litigation to remain in the same hands as has brought it to its present stage of development.

"It is for the reason that he has satisfied me upon these two important points that I readily acquiesce in his appointment."

Mr. Burke arose and said:

"Mr. President, I take great pleasure in seconding the motion offered by Mr. Garland confirming the appointment of Mr. Stone to the office of City Solicitor."

Mr. English arose and said:

"Mr. President, I regret very much that I do not have a manuscript of the extempore remarks I made in Finance Committee this forenoon. I wish to have inserted in the record that the remarks I made this forenoon were made in all sincerity of purpose and to show Mr. Stone the reasons for my position in the matter of public utility and wharf litigation. I am confident that Mr. Stone now thoroughly understands my position and as he indicated to me that he was in accord with me on these things, I take great pleasure in stating that I favor the nomination of Mr. Stone for the position of City Solicitor."

And the question recurring on the adoption of the resolution, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Burke	Herron (President)
Bailey	Kerr
English	McArdle
Garland	Rauh
	Robertson

Ayes—9.

Municipal Record

COUNCIL

JOHN S. HERRON, President
E. J. MARTIN, City Clerk
ROBERT CLARK, Asst. City Clerk

Pittsburgh, Tuesday, January 22nd,
1918.

Council met pursuant to adjournment.

Present—Messrs.

Burke	Herron (President)
Dailey	McArdle
English	Rauh
Garland	Robertson

Absent—Mr.
Kerr.

Mr. McArdle presented:

No. 117. Resolved, That the appointment by the Mayor of Mr. James F. Malone as Director of the Department of Supplies be and it is hereby confirmed by Council.

Which was read.

Mr. McArdle moved:

The adoption of the resolution.

Upon which motion, the Chair ordered the ayes and noes taken, and being taken were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle
English	Rauh
Garland	Robertson

When the name of Mr. English was called, he arose and said:

"Mr. President, I deem it my duty at this time to make one statement applying to my action in voting for the confirmation of all the appointments to the Mayor's cabinet which are considered at this meeting. I will take the opportunity of making this statement on my vote confirming the

nomination of Mr. Malone as Director of the Department of Supplies.

"Mr. President, I have done everything in my power to serve the people in my efforts to bring about the appointment of one person as City Treasurer and as Director of the Department of Supplies, in order to effect a war-time economy of \$6,500 per year. Even if the general public do not know everything I have done or said on these matters I feel sure that every member of Council knows, and the records of the Council will show that I have made sincere and earnest efforts to bring about these economies. I have done all that I could even to the extent of voting to make these ordinances laws notwithstanding the veto of the Mayor. However, there are certain limits beyond which one cannot go.

"I have tried to make it clear that my actions in urging consolidation of positions was absolutely an impersonal matter. I have no personal objections to any of the Mayor's nominees. The records of Council will show that I introduced these ordinances in the old Council long before the Mayor-elect had announced his cabinet nominations. At that time I distinctly emphasized that I would not assume any responsibility for Council's failure to give these ordinances careful consideration and that any friction or trouble which might result could not be charged to me. Consequently, I wish to repeat that my actions in Council must not be construed as a personal reflection on any man who had been nominated for any of the positions which I sought to consolidate.

"A majority of the Council having made the decision for the City, I think it is my sworn duty to abide by the decision. In justice to all of the gentlemen nominated for the various cabinet positions, I desire this statement placed in the record. I therefore take great pleasure in voting for the confirmation of Mr. Malone as Director of the Department of Supplies.

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Also

No. 118. Resolved, That the appointment of Mr. W. H. Davis by the Mayor to be Director of the Department of Public Health be and the same is hereby confirmed by Council.

"Mr. Chairman, on Bill No. 51, being a resolution for the payment of \$247.50 to A. E. Cohen for gymnasium suits furnished to female instructors in the Bureau of Recreation, I purpose voting for this bill, but I want it to be noted that in doing so I am fully mindful of the fact that the bill as contracted was purely illegal and placed no legal obligation upon the city to pay it and that its payment now is not to be construed, so far as I am concerned as either condoning the practice which brought the bill to us or as a warrant to the Department of Public Works or the Bureau of Recreation of continuing this practice without specific provisions and authority having been granted to do so by Council."

When the name of Mr. English was called, he arose and said:

"Mr. Chairman, I wish to have recorded my reasons for voting "No" on Bill No. 28. This bill provides for the transfer of money from salaries of regular employees, Bureau of Police, to the Firemen's Disability Fund. The sum involved is only \$193.00, but it is not the sum involved that I am particularly interested in. I object to the principle and practice which has been in vogue of setting up an appropriation for regular wages and salaries of employees in the Bureau of Fire and Police and then later on after defrauding substitute employees out of certain labor the Department of Public Safety comes at the last of the year and seeks by Council's aid to take over money which should not be taken away from the regular wages and regular salaries. Now, in this instance this transfer is probably for a good purpose—the Firemen's Disability Fund. Mr. President, I cannot see my way clear in this worthy cause to change my views in the matter of transfers of money from regular wages and salaries. I know that there is plenty of money and there are a number of funds from which these \$193.00 could be taken if the Firemen's Disability Fund needs the \$193.00.

"So even at the risk of some person misconstruing my motives in this matter I must continue in the position I have taken in the past by voting against any transfers from regular wages and salaries of policemen and firemen. I respectfully issue a warning to the Council this year to guard the money that is set up for regular salaries and see that the money is

properly spent; then if the Firemen's Disability Fund or some other fund such as Music in the Parks needs money it should be properly taken care of through some other fund than wages regular employees. Consequently, I am compelled to vote NO."

Bill No. 48. An ordinance entitled, "An ordinance authorizing and directing the Mayor and the Director of the Department of Public Works to advertise for and to award a contract or contracts for the construction of new market stalls, and other repairs, in the South Side Market, and the setting aside of \$9,000.00 from Code Account 1593, Repairs to South Side Market, Bureau of City Property, for the payment of the costs thereof."

In Public Works Committee, January 16, 1918, read and amended in Section 1 and in the title by striking out the words "and other repairs," and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. McArdle moved:

That the amendments of the Public Works Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. McArdle moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr Chairman, I am not in favor of the passage of Bill No. 48, authorizing and directing the Mayor and the Director of the Department of Public Works to make contracts for the construction of new market stalls in the South Side Market House.

"It was clearly demonstrated to my mind that sufficient information had not been given to the Committee on Public Works. The gentlemen will recall that Mr. Roush, the City Designer, came in before the committee and after a few questions were asked of him we discovered that it was the purpose to repair stairway and plaster the auditorium and other matters that were not essential at this time. This appropriation has been set up for the full year of 1917 and not the slightest effort was ever made during the entire year of 1917 to make any repairs to the market stalls; not only that, they do not now submit any detail or itemized lists of the costs of these proposed improvements.

"Now, I am not willing to vote for \$9,000 or \$9.00 in view of the circumstances which I have related. Now, they talk about toilet rooms. They plainly told us that they had \$5,000 left over from the public comfort station bond issue. Everyone knows that the money set up for comfort stations, for such stations as were built on Smithfield street and Fifth avenue, did not contemplate that it should be used

for such purposes as is now proposed for the market house.

"I cannot see my way clear to vote for these propositions and until more light is given me I must vote NO."

Mr. Burke moved:

That the bill be recommitted to the Committee on Public Works.

Which motion prevailed.

Mr. McArdle presented:

No. 123. Report of the Committee on Public Service and Surveys for January 16th, 1918, transmitting an ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation:

Bill No. 77. An ordinance entitled, "An ordinance repealing an ordinance entitled, 'An ordinance vacating Gordon street, from a point 30 feet north of Lynn way to North Murtland street, as laid out by the Security Investment Company, in Westinghouse Park, in the Fourteenth ward of the City of Pittsburgh, approved February 26, 1916, and recorded in Ordinance Book, vol. 27, page 395.'"

Which was read.

Mr. McArdle moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Garland moved:

That the bill be recommitted to the Committee on Public Service & Surveys for a conference with the Law Department.

Which motion did not prevail.

Mr. English arose and said:

"Mr. Chairman, the reasons for the passage of this bill are very well known to every member of the Council, but for fear of some future complications I deem it of the highest importance to the public that some member of Council should place some kind of a statement in the record, giving his reason for voting for the passage of this bill."

"My first reason is that Mr. Born, the man who is interested in the original vacation of Gordon street obtained quite a large portion of a city street; in return he gave a much smaller portion of his property for the purpose of making a street out of an alley, known as Lynn way; therefore, Mr. Born would receive a great benefit without paying one cent to the City of Pittsburgh. The object, the purpose and the desire of the Council a year and a half ago, perhaps, in originally vacating Gordon street, was for the purpose of assisting Mr. Born in bringing about an improvement for the general good of that section of the city. Unfortunately the city did not tie Mr. Born up with a lot of legal tangles. We took the gentleman at his word that he proposed erecting

beautiful dwelling houses in that section. It was distinctly understood by me, at least as a member of the Council which passed the original vacation of Gordon street, that it was to be a distinctively residence district—not a manufacturing district. We have had a few hearings on this question of repealing the original vacation in the months of November and December of 1917. It was fully considered and it was proven at these hearings that the people who had purchased property in that vicinity had been assured and had been advised by the Real Estate Company (which knew of Mr. Born's proposition and of the city having vacated Gordon street) that there were to be no manufacturing sites or factories erected on this property. When the people discovered that Mr. Born had not kept his word they came into Council with a mighty protest. A building and loan association in the Homewood section, representing 400 people of the community, objected to Mr. Born's attempt to get away from the original idea of dwelling houses and put manufacturing buildings on this property. The Council passed the ordinance to repeal this vacation. Unfortunately, it was vetoed by former Mayor Armstrong. In his veto communication to Council the Mayor presented new information which had not been disclosed by Mr. Born. In the hearing granted to Mr. Born's attorney, Mr. Beatty, yesterday, and to Mr. Craig of the Potter Title & Trust Company, it developed that during the hearing on December 6, 1917, when the committee was endeavoring to get some satisfactory solution of this matter from Mr. Born he did not disclose the fact that he was then negotiating the sale of the property to another person or corporation. In fact it is a part of the minutes of our committee meeting of December 6, 1917, that Mr. Born offered this property to anybody present at the hearing for 75 cents per square foot. In the face of that we have the statement of Mr. Craig that on December 7th the day following the hearing of the committee, a deed was passed conveying this property from Mr. Born to the Atlantic & Pacific Tea Company.

"Mr. President, I think you and every one will agree that the protection of the public demands that some sort of a statement be inserted in the record as the sense of this Council, so in the future if any complications arise or law suits follow in which they city will be compelled to defend or intervene, the people who bought the property from the Real Estate Company will be protected.

Mr. Garland arose and said:

"Mr. Chairman, the gentleman has made statements, some of which are correct and others which are not altogether correct. He is assuming too much. Just because one side comes in and is heard that does not say the case is settled. There are two sides to every question. It is no doubt true

that Council was very lax in not requiring the stipulation referred to by the previous speaker being inserted as part of the record of the city in this matter. There should have been a stipulation filed by Mr. Born, the gentleman who is interested in the matter, setting forth that the property to be vacated was to be used for residential purposes. I cannot say to the best of my recollection that when Mr. Born was here he said that the property was to be used for residence purposes. When he was before the committee he evaded some of the questions asked of him. It might also be stated here than when he was before the committee it was brought out that the property was to be sold to the Atlantic & Pacific Tea Company, if my recollection is correct.

"If Mr. Born when he was before the committee when the original vacation was passed by Council did make the statement that the property was to be devoted to residential purposes the Law Department Council were both lax in not having it put in the stipulation. It is alright to assume that the Real Estate Trust Company, or whatever Company sold the property, told the purchasers that the property would all be used for residential purposes, but did the Trust Company people so state? That is the question.

"We passed the ordinance in good faith. We all knew that statements supposed to be made by men will not hold good in court. I understand the passage of this repeal ordinance will result in a law suit. I understand the Atlantic & Pacific Tea Company have broken ground for their building, and the title to the property was guaranteed by the Potter Title & Trust Company.

"Inasmuch as Mr. Beatty's law has generally been accepted by this Council in times past and I personally never found Mr. Beatty to be wrong on anything he put forward.

"I believe this matter should be referred back to committee for a conference with the Law Department, say for this afternoon or tomorrow, to see whether Mr. Beatty is right in his contention or not. If the Law Department will say the ordinance is alright I will vote for it.

"It is alright for men here to say that Mr. Born made a statement that nothing but residential dwellings would be erected on this property, but we must keep in mind that such statements will not hold good before a judge. The judge decides on the papers before him.

"If we refer it to the Law Department only a few days' time will be lost, and I am going to move that the matter be referred to the committee of public service and surveys for submission to the Law Department or for a conference with the Law Department and for immediate return to Council. (Motion duly seconded by Mr. Robertson.)

"It might be pre-supposed that the Mayor, as was done by Mayor Armstrong, will veto the ordinance on advice of the Law Department, as the Law Department is constituted practically the same today as it was when Mayor Armstrong was in office. In that case we will get nowhere. It will be much better if this matter would be referred to Mr. O'Brien or Mr. Stone, in conference, and show them that you have rights under the law. If that is not done the Mayor in all probability will be guided by his Law Department and veto it again. Mr. Beatty when in here yesterday placed before us certain facts, as did also Mr. Craig of the Potter Title & Trust Company. The Law Department has no knowledge of what Mr. Beatty said nor of what Mr. Craig said. For that reason I believe the matter should be referred to the Law Department before final passage."

Mr. McArdle arose and said:

"Mr. Chairman, I am opposed to the reference of this bill back to committee for the reason that it is not a legal opinion from the Law Department that I think is going to satisfy. I appreciate the fact that the passage of this bill will probably result in a law suit, and I have sufficient feeling about this matter to desire the court to pass upon it rather than the Law Department, for the reason that when this matter was presented to us, my mind is very clear upon one fact and that is that Mr. Born's representations were that he wanted this street vacated in order that he might develop the property that he owned there as a residence property. Now my mind is clear on that because of the fact that it is in a neighborhood where the question of repeal of street locations came before this Council a number of times during the early days of the small Council while I was a member of the body, and that I took the position against the repeal, because of my belief that it was not right to destroy the residence section that had there been developed by the introduction of industrial or mercantile establishments, and that was clear in my mind then and I was influenced to support the vacation of Gordon street because of the very definite opinion I had as to the necessity of encouraging wherever we can the development of vacant property inside the city limits for residence purposes; so that the taxable valuation of the city may be enhanced and a larger opportunity presented for the distribution of the legitimate expense of the government rather than to continue the development of property outside the city limits."

"I remember very distinctly that Mr. Born gave no expression that would indicate that there was a remote possibility of this ground being used for any other purpose and that was the thing that prompted me to support the ordinance."

"Now, we may have made a mistake; we may not have had the ordinance

drawn in the water tight way in which it should have been drawn, but if we made that mistake I am for the city accepting the penalty rather than the property owners in that vicinity accepting the penalty. If it is our mistake we should acknowledge it and we should have the fact very definitely and emphatically passed upon as to whether we have made a mistake. I say that because of my belief that it is necessary to do that in order to do justice to the property holders in this neighborhood and for the additional advantage that it will be to us as a guard against a repetition of this mistake if we have to pay sufficiently dear for this one, if we have made one."

"Now, if we pass this bill somebody takes it into court, either the city to prevent somebody from using the street, which it will contend is a public street, by virtue of the passage of this repealing ordinance, or by the property owner and disposed of finally and the property owners in the neighborhood will know that every measure of protection has been taken to give them protection and in the future put Council on guard against accepting the word of a man. I don't propose for the sake of what is costs the city to prosecute or defend a law suit as the case may be to allow the property owners of that neighborhood who bought property in good faith and developed it, to be the victims of an action of which the city was unwittingly a part."

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	McArdle
English	Robertson

Noes—Messrs.

Garland.

(Mr. Rauh not voting.)

Ayes—6.

Noes—1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

MOTIONS AND RESOLUTIONS.

Mr. Rauh presented:

No. 124. Whereas, The contractors having charge of the collection of garbage and rubbish from houses of our city have become noticeably delinquent; and

Whereas, The city is threatened with terrible unsanitary conditions and the spread of disease when the thaw comes; and

Whereas, The contractors have given notice that they expect to receive a much greater compensation for hauling

garbage and rubbish after February 1st, 1918, which means that the city will have to pay a higher rate to remove the present accumulation, which should be removed under the terms of the present contract, thereby increasing considerable the cost to the taxpayers unless action is taken. Therefore, be it

Resolved, That in order to remove the present unsanitary conditions, to prevent the threatening spread of disease, and in order to save the taxpayers of the city many thousands of dollars, being the difference between the present price of hauling and the contemplated charge after February 1st, 1918, that the Mayor be requested to direct the Department of Health to enforce the present garbage and rubbish contract to the letter and to see that all present accumulations are taken away speedily.

Which was read.

Mr. Rauh moved:

The adoption of the resolution.

Mr. English moved:

That the resolution be referred to the Committee on Health and Sanitation and that the Committee hold a conference with the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation this afternoon, at 3:30 o'clock.

Which motion prevailed.

Mr. Dailey presented.

No. 125. An ordinance opening Bellefield avenue, in the Fifth ward of the City of Pittsburgh, from Center avenue to Bigelow boulevard, and providing that the cost, damages and expenses occasioned thereby be assessed

against and collected from properties benefited thereby.

Which was read and referred to the Committee on Public Works.

Also

No. 126. An ordinance setting aside, annulling and vacating the location of Bellefield avenue, between Center avenue and Bigelow boulevard, as laid out and located on a certain plan approved by Council August 30th, 1869, now on file in the Bureau of Engineering, Division of Surveys.

Which was read and referred to the Committee on Public Service and Surveys.

The Chair announced the appointment of the following committees:

BOARD OF TRUSTEES CARNEGIE INSTITUTE—Messrs. John H. Dailey, William Y. English, Robert Garland, Dr. James P. Kerr, Enoch Rauh and William H. Robertson.

The Chair presented:

No. 127.

MAYOR'S OFFICE.

Pittsburgh, January 24, 1918.
To the Honorable

The Council of the City of Pittsburgh.
Gentlemen—I hereby nominate to
serve during my term of office as Mayor
of the City of Pittsburgh the following
Police Magistrates:

John J. Sweeney
John A. Fugassi
P. J. Sullivan
Wallace Borland
Walter J. Lloyd.

Respectfully yours,

E. V. BABCOCK,
Mayor.

Which was read.

Also

No. 128. Communication from
the Citizen's Political Union regarding
the ability and qualifications of the
men nominated by Hon. E. V. Babcock
for positions of Police Magistrates.

Which was read, and on motion of

Mr. McArdle, received and filed.

Mr. English moved

That Council take a recess until
2:30 o'clock this afternoon, and the
Mayor be notified that it is the desire
of Council to have the men nominated
for the positions of Police Magistrates
here at that time for the purpose of
interrogation.

Which motion prevailed.

(Messrs. Garland and Robertson
voting NO.)

AFTER RECESS.

The hour of 2:30 o'clock, P. M.
having arrived and the time of the
recess having expired, the Council was
called to order and there were:

Present—Messrs.
Burke Herron (President)
Dailey Kerr
English McArdle
Garland Rauh

Absent—Mr.
Robertson.

Bill No. 127. Communication
from Hon. E. V. Babcock, Mayor nomi-
nating John J. Sweeney, John A. Fu-
gassi, P. J. Sullivan, Wallace Borland
and Walter J. Lloyd for positions of
Police Magistrates.

Was read.

Mr. English moved

That the names of the Police
Magistrates as nominated by the Mayor

be called in the order in which they appear in his communication.

Which motion prevailed.

And the following persons were called in order: Messrs. John J. Sweeney, John A. Fugassi, P. J. Sullivan, Wallace Borland and Walter J. Lloyd, who in turn were questioned along the lines of the duties of their office by the members of Council.

And at this time Mr. English arose and asked that Hon. E. V. Babcock, Mayor, be invited to come to the Council Chamber for the purpose of interrogation.

Which was done.

And the Hon. E. V. Babcock, Mayor, appeared before Council.

Mr. English—Mr. Babcock, I wanted to ask you a very important question, in my estimation. You have sent to us for confirmation the names of five persons for Police Magistrates. These men, as we all know, have been acting as Police Magistrates for some time. I asked them a lot of questions and I want to know how you expect these men to break away from the political system of the past and run the magistrate's court in the way you expect them to in order to harmonize with your pledges to have a clean city?

Mr. Babcock—Do you mean that they will stand for anything else but a clean city?

Mr. English—I am not going to make charges against any of them, as there have been enough explosions in the newspapers and talk back and forth that one of these magistrate's courts at least was not conducted properly. We have had two or three hearings before Council relative to the matter, and the resolution looking to the impeachment of Director Hubbard was the outgrowth of one of these explosions. These men may be alright if the policy of the administration is changed. If the Mayor is sincere in what he said to Council in conference and will carry out the things he said there, I will give these nominees the benefit of the doubt in the hope that they, if they are confirmed will administer the laws properly. In your veto message to Council on the ordinance reducing the number of magistrates from seven to five, you said, 'If this ordinance became a law there would not only be less revenue to the city from fines for violations, but more laxity on the part of the force.'

Mr. Babcock—Yes, sir. You are putting a whole lot in one question. This is not a question, it is more like a sermon. Ask me something so I can answer it.

Mr. English—I will make my statement then ask the question. You further say in your veto message, 'In spite of every attempt to require strict performance of duty, it is only natural for a police officer to condone apparently petty violations of law, if by

causing arrests he will have to give up one-half of the following day to appear against the prisoner.' Now, is your information based on cases scattered all over the city where the offenders of the laws have their fines remitted or reduced or the forfeit posted by the offenders is not sufficient to make them come back for a hearing the next morning and in case they come back they are released. I have in mind a certain case. Out in my section of the city several men beat up a policeman in the West End on July 4, 1917. One of the prisoners was and is an inspector in the Department of Public Works. Through the political pull of the ward chairman who is a friend of the inspector the officer who was beaten up was compelled to withdraw the information he had made against his assailants and all the men were let off scot free. The merchants of the district were up in arms and wanted the Director of the Department of Public Safety make an example of the men who beat up the policeman and particularly the city employee. The result of the case was that the whole thing was dropped and the policeman in question who received the beating was rewarded by a promotion to the position of sergeant in the West End Police Station. His name is John Casteel. It seems to me that he was given the promotion as a reward for not prosecuting the case because of some sinister power behind the police system. How are we going to break up such practices when the chairman of the ward is allowed to interfere with the laws of the state and city? How can we expect the Police Magistrates to stand four square and enforce the law if we are going to permit a ward chairman to interfere with the proper administration of justice? If you can satisfy me on this point, well and good, as I have not been satisfied with the system as carried out heretofore?

Mr. Babcock—I don't know whether I can satisfy you of anything or not, but this is a big subject and a long story and even longer than your question. I don't want anything that I said before you at any time to have an inference or a bearing on questioning or criticizing the administration that preceded me. There is nothing to be gained by me in trying to do that. If you want to refer back to the faults or good portion of the past administration, I want to say that I was not responsible for it. I am responsible for what takes place during my administration. I will endeavor to see that the Police Magistrates do their full duty. You say that politics has kept them from doing their duty or possibly interfered with them in doing their duty. I want to say that I can't possibly see how politics can interfere with their doing good work under my administration. While I am Mayor I will not play the kind of politics that will cause the city employees to debase their jobs. If these men do not do their duty under my administration I will take them

out. You have helped me to carry out that program by confirming the nomination of Mr. Prichard as Director of the Department of Public Safety. He is a man with ability and special training to handle the police department. He will know whether the men under him are doing their duty or not. If they do not do their duty and serve the public and he knows it and does not inform me, then he will not be doing his full duty to me. I say that positively and courageously and will carry it out if it can be carried out. I can not do impossibles, but will do as near the possible as I can. In my inaugural address I made it plain what I expected to do and I don't think it is necessary for me to restate those remarks. I believe it is a mistake to reduce the number of Magistrates from seven to five. The expense created by the actual hauling of the prisoners and officers is more than the \$5,000 saved by cutting out the two positions. A great inconvenience will be caused the police officers by having to remain around the station houses waiting for the Magistrate. I know you men want to serve the people of Pittsburgh, but you are not doing that by reducing the number of Police Magistrates. This morning I attended the hearings before Magistrate Fugassi. The prisoners at Hazelwood were hauled to the Oakland Station for hearing. The city is paying for that hauling. By not providing a sufficient number of Police Magistrates the witnesses and friends of those unfortunate people who are in trouble are inconvenienced and put to great hardship by having to wait many hours, which is sometimes the case, for the hearings to begin. I am abiding by your decision and have sent in the names of five persons for the number of positions provided. I think it is a mistake on your part and my part to reduce the number of Police Magistrates. I hope, however, we will be able to work out some

scheme by which the five men will be able to take care of all the police courts. In connection with that we will have to consider the redistricting of the city so as to have the hearings as early as possible and avoid any inconvenience to officers, witnesses and those interested in cases coming up before the Magistrates.

Mr. English—The discussion now is practically on the point of the number of Magistrates Council provided. What I want to know is whether you will allow the Magistrates to listen to ward chairmen and acquiesce in their request to ease up on cases appearing before the Magistrates. Also whether you will see that justice is done both the officer and the prisoner. These men here will all admit talking to men who have influence and who are part of the political system of the city. You and I are parts of the political system, but I never allowed the political system to interfere with my duties. I never asked a Magistrate to reduce a fine; never asked any of them to ease up on any prisoner or be lenient with him. I know the men cannot resist that pressure unless you put a stop to it. I want you to say that it will stop.

Mr. Babcock—Mr. English, I am afraid I cannot satisfy you on that or anything else. I cannot make my statements any stronger. You have my campaign pledges; my inaugural address to the citizens of Pittsburgh through you and what I have reiterated since the election and up to the present time. The oath I took makes me responsible for the administration.

Mr. McArdle moved.

That the Council take a recess until Friday, January 25th, at 2:30 o'clock P. M.

Which motion prevailed.

And the **Chair** declared a recess of Council until that time.

MAYOR'S OFFICE.

Pittsburgh January 24, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Gentlemen—I herewith return Bill No. 45, duly approved by me, and I desire to make the following comment thereon:

The wording of the resolution, as presented to me, does not indicate why the city should pay to the Columbia Ice Company the sum of \$990.80. From investigation, which I have made, however, I am satisfied that this amount should be paid.

Permit me to suggest that in the future when resolutions are presented to me for approval, they should contain sufficient information and data in the way of recitals, so that I can obtain the reasons or payment from the Resolution itself.

Very respectfully yours,

E. V. BABCOCK,
Mayor.

Which was read.

Mr. McArdle moved:

That the communication be received, and filed, and that a copy be furnished to the department in which the resolution originated.

Which motion prevailed.

Mr. McArdle presented:

No. 153. Petition of electrical manufacturers, contractors and dealers asking that the rules laid down in the National Electric Code be adopted by the City of Pittsburgh.

Which was read and referred to the Committee on Public Safety.

REPORTS OF COMMITTEES.

Mr. Garland presented:

No. 160. Report of the Committee on Finance for January 22nd 1918, transmitting sundry papers to Council.

Which was read, received and filed.

Also, with an affirmative recommendation:

Bill No. 104. An ordinance entitled, "An ordinance carrying into effect the Dog Law of 1917, fixing the amount of dog and kennel licenses, providing for the duties of the City Treasurer in connection with the collection thereof, creating the position of Dog License Collector and fixing his duties and compensation."

Which was read.

Mr. Garland moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Kerr
Dalley	McArdle
English	Rauh
Garland	Robertson
Herron (President)	

Ayes—9.

Nones—none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

No. 86. Whereas, The following bills for materials and equipment were contracted by the Department of Supplies without competitive bids, and certain requisitions presented to said department during the week from December 22nd to December 31st, 1917, to confirm purchases made by the several departments, and consequently can be paid only by authority of a resolution passed by Council in conformity with the Act of 1874, and,

Whereas, Said supplies were furnished, accepted and used by the city, therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to issue and the City Controller to countersign warrants in favor of the firms and persons in payment of the claim scheduled below, and charge the amounts of the appropriation items as shown respectively in said schedule.

Pittsburgh, January 28th, 1918.

Mr. E. J. Martin,
Clerk of Council.

Dear Sir—Please call a special meeting of Council for Monday, January 28th, 1918, at 4:15 o'clock, P. M., for the consideration of a communication from the Mayor.

His Honor, Mayor E. V. Babcock, appeared and being given the privilege of the floor, said:

"Mr. President and Gentlemen of Council, this is a voluminous document—27 pages in all—and I have not had time to read it closely. However, I see nothing in it that would cause me to change my mind in presenting the names of the five Police Magistrates. There is nothing in the document that would cause me to withdraw the names of any or all of them. The rest of the subject matter calling attention to the fact that the police courts are probably behind the times is not a new matter. I put it into my inaugural address, I think. I certainly talked about it during the campaign, and at the time I appeared

before Council last week when the question of Police Magistrates was up it was discussed. Certainly there is nothing very new in it.

"Dr. Zahniser called attention to some few cases in which the judgment of the magistrates did not agree with his own views. Two or three cases out of 60,000 is not an unreasonable number to find fault with, admitting that the judgments given were not correct. It does not seem unusual that out of 60,000 cases Dr. Zahniser could pick out a few cases where the judgment of the magistrates did not agree with his own views.

"I can only reiterate what I said in Council before that these men are competent to fill these positions. I have presented their names for your consideration. It is up to you to pass judgment on them. I want to thank you for this opportunity to again speak to you on this subject."

Mr. English arose and said:

"Mr. Chairman, might I suggest in order to have a complete record of this matter, that the Mayor submit in writing the statement he just made. Our past action indicates that we have withheld action on the names of the police magistrates pending such time as we would forward to the Mayor the evidence submitted to the committee last Friday. We should have some knowledge of the receipt of this evidence by the Mayor."

Mr. Babcock said:

"In accordance with your request, I will submit my report in writing."

The Chair presented:

No. 164.

Office of the Mayor,

City of Pittsburgh, Penna.,
January 28th, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Gentlemen—I return herewith, without my approval, Bill No. 8, being an ordinance "fixing the number of Assessors in the Department of Assessors after the first Monday in January, 1918," for the following reasons:

On account of its topography, Pittsburgh is probably the most difficult of all American cities in which to make a proper assessment of land and buildings. It requires years of experience and study for a property assessor to familiarize himself with the many varied and intricate problems which affect assessments in this City.

Until Allegheny was annexed to Pittsburgh there were but five members of the Board of Property Assessors and after the consolidation of the two municipalities there were ten until the year 1909, when former Mayor Magee appointed a new Board consisting of nine members, which number has constituted the Board up until the present time, it would be foolish to assert that there is less work for Assessors now than during the past nine years, during which time several Boroughs have been added. As a matter of fact there are in the City of Pittsburgh, 118,687 taxable parcels of land and 111,326 taxable buildings, or a total of 230,013 parcels which have to be viewed by the Nine Assessors at each triennial assessment. This point is particularly pertinent at the present time and enters to a large extent into my conclusion that this move to reduce the number of Assessors is unwise, because you propose to reduce the number from nine to seven in the year that this triennial assessment must be made. If there were good reason for reducing the number, certainly the reason is less potent in the year when the extra duties devolving upon the Board incident to the triennial assessment have to be faced.

The present number allows One Assessor for every three Wards in the City. Personal investigation is made of every parcel of land and of every building. It would be difficult to maintain that a man could become reasonably expert in covering a larger area of ground than he covers at present. In fact we are very conservative in Pittsburgh in this practice, as well as in the salaries that the Assessors are paid. Philadelphia, with a population three times that of Pittsburgh, has seventy District Assessors, each paid a salary of \$3,000 per year. In addition thereto, they have a Board of Revision and Appeal, consisting of 5 members. In Pittsburgh the Property Assessors not only do the physical work in the valuation of property, but they act also as a Board of Revision and Appeal. Allegheny County with a taxable valuation of \$1,250,000,000 pays out approximately \$200,000 every year for the maintenance of its tax department. Pittsburgh, on the other hand, with a taxable valuation of \$800,000,000, or practically two-thirds that of the County, maintains its Tax Department at a cost of but \$66,000 per year, or one-third that of the County.

As far as my investigations have gone, I find only one American City

where the cost of assessing property is less than that of the City of Pittsburgh.

In assuming the reins of the City Government, I find that this Tax Department is manned by good men. It is so run as to satisfy the tax-paying public. I have as yet to hear the first complaint about that Department of the City Government.

Very respectfully yours,
E. V. BABCOCK,
Mayor.

Which was read, and on motion of Mr. Garland, received and filed.

And

Bill No. 8. An Ordinance entitled, "An Ordinance fixing the number of Assessors in the Department of Assessors after the first Monday in January, 1918."

In Council, January 21st, 1918, Bill as read a second time and amended agreed to, rule suspended, Bill read a third time and finally passed.

Was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. English arose and said

"Mr. President, I must ask you to be a little patient with me while I dissect this letter from the Mayor vetoing the ordinance fixing the number of Assessors at seven. You will appreciate the difficulty of speaking immediately on the first glance. Of all the asinine things I ever heard of is this statement of the Mayor, 'On account of its topography, Pittsburgh is probably the most difficult of all American cities in which to make a proper assessment on land and buildings.' I have heard that so much around City Hall about the topography of the City that I am sick of hearing it any longer. If there is camouflage in anything, it certainly is in using the word topography."

"The topography of the City has nothing to do with assessing property. On various occasions the Chief Assessor has complained that his work was hampered on account of transportation. As a matter of fact the assessors are furnished automobile service from the city garage, and I have been informed by the chauffeurs in this division that the city assessors, some of them, have abused the automobile service provided for the various bureaus in the city. That does not enter into the topography of the city at all, as I know the city has furnished all the automobile service the assessors required."

"Quoting the Mayor, 'It requires years of experience and study for a property assessor to familiarize himself with the many varied and intricate problems which affect assessments in this city.' I must agree with His Honor, the Mayor, and would respectfully suggest that in order to get a property assessor and a real assess-

so that he get some real estate men who have had some real experience in the matter of buying and selling real estate in the City of Pittsburgh and not attempt to educate green men at the expense of the city, men who know very little about the assessing of property.

"Quoting the Mayor, 'Until Allegheny was annexed to Pittsburgh there were but five members of the Board of Property Assessors and after the consolidation of the two municipalities there were ten until the year 1909, when former Mayor Magee appointed a new Board consisting of nine members, which number has constituted the Board up until the present time. It would be foolish to assert that there is less work for Assessors now than during the past nine years, during which time several Boroughs have been added.' That is a mere statement. Every councilman who has been around here for the past five years knows that it is a waste of time for the Mayor to tell us of this. This is merely a statement; it is not an argument for any number of assessors whether it be 6, 7 or 9.

"Quoting the Mayor, 'As a matter of fact there are in the City of Pittsburgh 118,687 taxable parcels of land and 111,326 taxable buildings, or a total of 230,013 parcels which have to be viewed by the nine Assessors at each triennial assessment.' Either the Mayor has been mistaken in making that foolish statement or he does not know what he is talking about. Naturally if 111,326 buildings are taxed they are located on that number of parcels of ground. Does the Mayor mean that the 111,326 buildings are exclusive of the total of 118,687 taxable parcels of land, or does he mean that in addition to the 111,326 buildings on 111,326 parcels of land there are 118,687 parcels of land, making a total of 230,013 separate assessments? Certainly his statement is not clear.

"Quoting the Mayor, 'This point is particularly pertinent at the present time and enters to a large extent into my conclusion that this move to reduce the number of Assessors is unwise, because you propose to reduce the number from nine to seven in the year that this triennial assessment must be made.' Now, the Mayor perhaps does not know that during the Council of the last four years there was passed an ordinance which makes it obligatory upon any person building new buildings or taking out permits for substantial repairs or alterations of present buildings to file with the City of Pittsburgh a statement showing the extent and value of these proposed improvements, alterations or repairs. A copy of this statement is filed with the Board of Assessors and made part of their records. Now I cannot see why if the assessors made a triennial assessment three, six or nine years ago that the great bulk of assessed valuations remain simply an office proposition to transfer from one book to another. Any change or

increase in assessment must be an arbitrary change on the part of the assessor. Perhaps a great public improvement, such as the 'Hump Cutting,' might have taken place which would bring about an adjustment of the assessment of the property surrounding the improvement. Such improvements would require personal inspection of the new condition. There has not been such a great number of public improvements which would have prevented the present nine assessors from making such adjustment within the past three years. Anybody who disputes that is simply hunting an excuse; it is not a reason. Now the law plainly says in addition to that which the Mayor quotes about the assessors being compelled to view properties every three years, the law plainly gives the assessors the power to make re-assessments at any time the same as they do in the triennial year. Every member of Council will remember that during the budget hearings a few weeks ago when Mr. Hawkins, the Chief Assessor, was before us, he admitted to the committee that they were making constant revisions in the matter of assessments. I am going to read that law for the benefit of anyone who may have forgotten about it.

'They shall have the power to make a new assessment in any ward or wards they deem necessary, in any subsequent year, other than triennial years; in the matter prescribed by law for the triennial assessment.'

There isn't any question but what Mr. Hawkins himself admits, and he is the Chief Assessor—I say he admits—that they are making constant changes in the assessed values; consequently any new improvements or alterations to buildings are already taken care of by the fact that the owner must file a statement of cost or value with the Assessors. The fact that the Assessors are constantly reviewing property disposes of the argument of the Mayor that on account of the triennial assessment year they must have nine assessors.

"Again quoting the Mayor, 'If there were good reason for reducing the number, certainly the reason is less potent in the year when the extra duties devolving upon the Board incident to the triennial assessment have to be faced.' This I have answered in my previous remarks about the assessors constantly reviewing properties and making assessments.

"Quoting the Mayor, 'The present number allows one Assessor for every three wards in the City.' If the City were redistricted into 18 wards instead of 27 wards as now constituted, the Mayor in writing his veto message would have to say that one assessor should be allowed for two wards. That is bunk in my estimation. I am surprised that the Mayor would start out to talk about the topography of the

city and then make an arbitrary revision of assigning one assessor for every three wards. So if you are going to depend on the topography of the city and the number of wards in the city his whole argument falls to the ground.

"Quoting the Mayor, 'Personal investigation is made of every parcel of land and of every building. Without any disrespect to the Mayor I challenge that statement. I am positive in my statement that the Assessors do not make an investigation of every building or parcel of ground in the City of Pittsburgh and will stake my position as a Councilman on it if you can get every one of the present assessors to say they personally examined every piece of ground upon which he has made an assessment. If they do I will have them arraigned for perjury, for I know something about the assessor's office.'

"Quoting the Mayor, 'It would be difficult to maintain that a man could become reasonably expert in covering a large area of ground than he covers at present—that is simply another statement, not an argument.'

"Quoting the Mayor, 'In fact we are very conservative in Pittsburgh in this practice, as well as in the salaries that the Assessors are paid. Philadelphia with a population three times that of Pittsburgh, has seventy District Assessors, each paid a salary of \$3,000 per year. In addition thereto, they have a Board of Revision and Appeal, consisting of 5 members.' That is not an argument, Mr. President. The Mayor does not say what the value of the property of Philadelphia is compared with Pittsburgh; he does not say anything about the topography; he does not say anything about the number of wards in Philadelphia or the number of parcels of ground, or the number of buildings. What is the purpose of throwing Philadelphia into this argument? Is it the desire of the Mayor that we increase the number of assessors and their salaries because Philadelphia has seventy assessors and each paid a salary of \$3,000 per year?

"Quoting the Mayor, 'In Pittsburgh the Property Assessors not only do the physical work in the valuation of property but they act also as a Board of Revision and Appeal. Allegheny County, with a taxable valuation of \$1,250,000,000, pays out approximately \$200,000 every year for the maintenance of its Tax Department. Pittsburgh on the other hand, with a taxable valuation of \$800,000,000, or practically two-thirds that of the County, maintains its Tax Department at a cost of but \$66,000 per year, or one-third that of the county.' One of the arguments of the Tax Study Commission that the Council authorized a year ago was the fact that the county and city are duplicating the matter of assessing property and the Commission recommended a change in the tax system in the interest of the public. We know

that 65 per cent of the county taxation is assessed and paid on property within the confines of Pittsburgh. He says that it costs but one-third of that of the county.

"Again quoting the Mayor, 'As far as my investigations have gone, I find only one American city where the cost of assessing property is less than that of the City of Pittsburgh.' Evidently he was in a hurry for he forgot to tell us where that place is. He further says in closing, 'that the reins of the City Government, I find that this Tax Department is manned by good men. It is so run as to satisfy the taxpaying public. I have as yet to hear the first complaint about that department of the City Government.'

"I do not agree with the Mayor. Mr. President, the members of Council know full well that the Council has endeavored to get the present Board of Assessors to bring about some modern, up-to-date system of assessment. The Board has refused just as often as requested. They have again delayed this matter and today are not acting promptly on a motion passed some weeks ago by the Finance Committee asking them to come back to the Budget Committee with further information relating to their departmental estimates.

I want to read you some of the things that were said about the matter of assessments from the report of the Committee on Taxation Study.

'Any discussion of the present taxation system of the City of Pittsburgh and of improvements which should be made would be incomplete without a discussion of assessments.

'A cardinal principle in the fair and equitable distribution of the burden of taxation of real estate is that the tax must be so distributed that no one is compelled to pay a proportionately larger amount on the value of his real estate than any other taxpayer is required to pay on the value of his real estate, subject to the same tax. However equitable the taxation system may be, unfairness will result if the assessment system is faulty. The laws regarding taxation are important, but equally important is the administration of these laws. Unless the administration is scientific and fairly accurate, the purpose of the legislation is defeated, and to remedy this situation new laws, wholly unnecessary, perhaps, are passed.'

"What I wanted to show particularly, Mr. President, is the assessments of several office buildings in the downtown section of the city. If the assessors made a personal visit before making these assessments, then the assessors are either protecting some large property owners or else they are unfair to some other property owner because of the great range in the amounts assessed.

"I do not undertake to say which. I want to present facts in refutation of the Mayor's statement about these matters of personal inspection before making assessments. The table is as follows:

Building	Asses'd value of Building	Contents of Build- ing (cu- bic ft.)	Asses'd val. per cubic ft. (cents)

"You will note that the Arrott Building with 1,076,040 cubical feet contents is assessed at \$580,000, or 53.90 cents per cubic foot; while the Benedum-Tree Building is assessed at 36.09 cents per cubic foot. Evidently the same assessor in making up the assessed value of these buildings was not able to judge between two buildings of practically the same character, because he assessed one at 53.90 cents per cubic foot and the other at 36.09 cents per cubic foot. The Bessemer Building with 2,554,620 cubic feet contents is assessed at 28.38 per cubic foot and the Fulton Building with 3,631,032 cubic feet contents is assessed at 23.41 cents per cubic foot.

"Now, Mr. President, just those two illustrations, the Bessemer Building and the Fulton Building—they are absolutely of the same size, practically the same renting capacity in every respect, on the same street; one on one corner and the other on the other corner. The Bessemer Building is assessed at 28.38 per cubic foot contents

and the Fulton Building of more recent construction is assessed at 23 cents per cubic foot.

"I submit that His Honor, the Mayor, is not familiar with the report of the Committee on Taxation Study with particular reference to assessment of property in Pittsburgh.

"I think it is high time for Council to take hold of this matter. We should see to it that a step is taken to advance the work of assessing property in Pittsburgh. We should assist the Mayor in reconstructing the Board of Assessors so that the people will get real satisfaction in the matter of assessment of their property.

"For the reasons given above, I will vote for the ordinance, notwithstanding the objection of the Mayor."

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Burke	English
Herron (President)	
Noes—Messrs.	
Dailey	McArdle
Garland	Rauh
Kerr	Robertson
Ayes—3.	
Noes—6.	

And there not being two-thirds of the votes of Council in the affirmative, the objections of the Mayor were sustained.

Mr. Dailey moved:
That Council do now adjourn.

Upon which motion Mr. English demanded a call of the ayes and noes, the demand having been sustained, the ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Dailey	Kerr
Garland	McArdle
Herron (President)	Rauh
Noes—Messrs.	
Burke	English
Robertson	
Ayes—6.	
Noes—3.	

So the motion prevailed.

And Council adjourned.

Pittsburgh, Pa., Thursday, January
31st, 1918.

Council met pursuant to the follow-
ing call:

Pittsburgh, January 29th, 1918.

Mr. E. J. Martin,
Clerk of Council.

Dear Sir—Please call a special meet-
ing of Council for Thursday, January
31st, 1918, at 3 o'clock p. m., for the
consideration of such business as may
come before the meeting.

Yours respectfully,

JOHN S. HERRON,
President.

Which was read, received and filed.

Present—Messrs.

The Chair stated:

That if there were no objec-
tions, the minutes of the meeting of
January 21st, 1918, would be approved.

And there being no objections, the
minutes of January 21st, 1918, were
approved.

The Chair presented:

No. 165.

OFFICE OF THE MAYOR,
City of Pittsburgh, Penna.,
January 29th, 1918.

To the Honorable,

The Council of the City of Pittsburgh.

Gentlemen—I return you herewith
Bill No. 47, being an ordinance repeal-

ing an ordinance entitled, "An ordi-
nance vacating Gordon street, from a
point 30 feet north of Lynn way to
North Murtland street, etc.," without
my approval, for the following rea-
sons:

First: The ordinance for the vaca-
tion of Gordon street, which the present
ordinance repeals, was approved Feb-
ruary 26, 1916, and was enacted on a
petition of all the abutting property
owners on said Gordon street, who with
a full release and discharge by said
owners and petitioners of all damages
arising out of said vacation, with an
agreement on the part of said peti-
tioners to pay to the City all expenses
incurred in case a Board of Viewers
should be rendered necessary, and the
same appointed. So far as I am in-
formed, there was no objections or
protest of any sort against the vaca-
tion proceeding.

Second: I am advised by the Legal
Department that it is only because of
a condition in the vacating ordinance
"that it was not to be effective until
the said Lynn way is widened, graded,
paved and curbed between Gordon
street and North Murtland street," that
makes it possible to pass this repeal-
ing ordinance with the effect of re-
storing Gordon street as a public high-
way of the City of Pittsburgh.

I assume that the Council was ad-
vised to the same effect, and must con-
clude, therefore, that its action was
based mainly upon the fact of non-
performance of the condition above
cited. The vacation of Gordon street
was made under an arrangement with
John E. Born to dedicate a 30-foot
strip along the northerly side of Lynn
way for the purpose of widening this
way to a width of 50 feet. This dedi-
cation was made by Born by deed to
the City, duly executed and recorded,
which dedication was accepted by the
City by ordinance approved February
1916.

While not so expressed in the vacat-
ing ordinance, it was agreed by Born
that he was to bear the whole ex-
pense of grading, paving and curbing
of Lynn way. Without assuming that
this transaction between the City and
Born amounted to a contract, it is
plain that if he was not in default in
the matter of performing this condi-

tion of the vacating ordinance, the ordinance should not be repealed for failure of this condition.

The Engineering Bureau reports that Born applied for its necessary action of establishing the grade of Lynn way and other things necessary to be done by that Bureau before it was possible for him to do the work of improving Lynn way. Such delay as has occurred has not been chargeable to Born, and, therefore, if the vacating ordinance was proper when enacted and passed, and it appears not to have been questioned as proper legislation at the time, it would seem to be unjust and unfair to repeal the vacation ordinance for the non-performance of this condition.

Very respectfully yours,

E. V. BARCOCK,
Mayor.

Which was read, and on motion of Mr. Kerr, received and filed.

And

Bill No. 77. An ordinance entitled, "An ordinance repealing an ordinance entitled, 'An ordinance vacating Gordon street, from a point 30 feet north of Lynn way to North Murland street, as laid out by the Security Investment Company, in Westinghouse Park, in the Fourteenth ward of the City of Pittsburgh,' approved February 26, 1916, and recorded in ordinance book, vol. 27, page 395."

In Council, January 22nd, 1918, rule suspended, bill read three times and finally passed.

Was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. Garland arose and said:

"Mr. President and Gentleman—I would like to have placed on the record of today, the remarks I made at the meeting of January 22nd, 1918, on this bill, as follows:

"Mr. Chairman, the gentleman has made statements, some of which are correct and others which are not altogether correct. He is assuming too much. Just because one side comes in and is heard that does not say the case is settled. There are two sides to every question. It is no doubt true that Council was very lax in not requiring the stipulation referred to by the previous speaker being inserted as part of the record of the city in this matter. There should have been a stipulation filed by Mr. Born the gentleman who is interested in the matter setting forth that the property to be vacated was to be used for residential purposes. I cannot say to the best of my recollection that when Mr. Born was here he said that the property was to be used for residence purposes. When he was before the committee he evaded some of the questions asked of him. It might also be stated here that when he was before the committee it was brought out that the property was to

be sold to the Atlantic & Pacific Tea Company, if my recollection is correct.

"If Mr. Born when he was before the committee when the original vacation was passed by Council did make the statement that the property was to be devoted to residential purposes the Law Department Council were both lax in not having it put in the stipulation. It is alright to assume that the Real Estate Trust Company, or whatever Company sold the property, told the purchaser that the property would all be used for residential purposes, but did the Trust Company people so state? That is the question.

"We passed the ordinance in good faith. We all know that statements supposed to be made by men will not hold good in court. I understand the passage of this repeal ordinance will result in a law suit. I understand the Atlantic & Pacific Tea Company have broken ground for their building, and the title to the property was guaranteed by the Potter Title & Trust Company.

"Inasmuch as Mr. Beatty's law has generally been accepted by this Council in times past and I personally never found Mr. Beatty to be wrong on anything he put forward.

"I believe this matter should be referred back to committee for a conference with the Law Department, say for this afternoon or tomorrow, to see whether Mr. Beatty is right in his contentions or not. If the Law Department will say the ordinance is alright I will vote for it.

"It is alright for men here to say that Mr. Born made a statement that nothing but residential dwellings would be erected on this property, but we must keep in mind that such statements will not hold good before a judge. The judge decides on the papers before him.

"If we refer it to the Law Department only a few days' time will be lost, and I am going to move that the matter be referred to the committee of Public Service and Surveys for submission to the Law Department or for a conference with the Law Department and for immediate return to Council. (Motion duly seconded by Mr. Robertson.)

"It might be pre-supposed that the Mayor, as was done by Mayor Armstrong, will veto the ordinance on advice of the Law Department, as the Law Department is constituted practically the same today as it was when Mayor Armstrong was in office. In that case we will get nowhere. It will be much better if this matter would be referred to Mr. O'Brien or Mr. Stone, in conference, and show them that you have rights under the law. If that is not done the Mayor in all probability will be guided by his Law Department and veto it again. Mr. Beatty when in here yesterday placed before us certain facts, as did also Mr. Craig of the Potter Title & Trust Company. The Law Department has no knowledge of what Mr. Beatty said nor of what Mr.

Craig said. For that reason I believe the matter should be referred to the Law Department before final passage."

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	Kerr
English	McArdle
	Robertson

Noes—Mr. Garland (for reasons stated.)

(Mr. Rauh not voting.)

Ayes—7.

Noes—1.

And there being two-thirds of the votes of Council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

The Chair also presented:

No. 166.

OFFICE OF THE MAYOR.

City of Pittsburgh, Penna.,

January 29th, 1918.

To the Honorable,
The Council of the City of Pittsburgh.

Gentlemen—Confirming what I said verbally to Your Honorable Body yesterday and reducing same to writing as requested by Councilman English, beg to say that I have gone over the statements submitted to you by Mr. Gray, Rev. Zahniser and Rev. Marsh and that I do not find anything in the voluminous document that would cause me to withdraw the names of all or any of the Magistrates submitted to you for confirmation.

It largely deals with the fact that these gentlemen think the Police Courts are behind the times and should be improved. I have already promised to give the subject attention, having promised to do this on numerous occasions. Reformation of and improving Police Court conditions is a big proposition and cannot be done in a day.

The fact that these gentlemen call attention to a few cases, less than a dozen of 60,000 does not surprise me. If the particular cases referred to were all mistakes, it is probably as few mistakes as one could reasonably expect.

I am not entirely in sympathy with one statement that was made before Council; that was, "That the Magistrates will conduct themselves in the future as they had in the past." If the administration is able to make some new and better rules, the Magistrates will have to comply or there will be some still further names submitted to you for confirmation. It is my opinion that the Magistrates submitted to you for your consideration will not only go along with such betterments but gladly help to better conditions in their own Courts. This is an age when we are all trying to be

a little better, a little bigger and a little more up-to-date than we ever were before.

I reiterate that I think these men whose names have been submitted to you for consideration can and will fill the positions properly if they are confirmed and see no sufficient reason for withdrawing. I beg to ask your early consideration.

Very respectfully yours,

E. V. BARCOCK,
Mayor.

Which was read, and on motion of Mr. Kerr, received and filed.

And the Chair took up

Bill No. 127

OFFICE OF THE MAYOR.

City of Pittsburgh, Penna.,

January 24, 1918.

To the Honorable,
The Council of the City of Pittsburgh.

Gentlemen—I hereby nominate to serve during my term of office as Mayor of the City of Pittsburgh the following Police Magistrates:

John J. Sweeney

John A. Fugassi

P. J. Sullivan

Wallace Borland

Walter J. Lloyd

Respectfully yours,

E. V. BARCOCK,
Mayor.

In Council, January 25th, 1918, Read and the clerk directed to furnish the Mayor a copy of the representations made by Mr. James H. Gray, of the Citizens Political Union, and that consideration of the nominations made for police magistrates be held in abeyance until the Mayor has an opportunity to read these statements and to communicate further with Council, if he so desires.

Which was read, received and filed.

Mr. Garland moved

That Council vote separately on the confirmation of the nominations of the several police magistrates.

Which motion prevailed.

Mr. Garland presented

No. 167 Resolved, That the nomination by the Mayor of John J. Sweeney as Police Magistrate be and the same is hereby approved and confirmed.

Which was read.

Mr. Garland moved

The adoption of the resolution.

Mr. Burke arose and said

In acting on the matter before this body, I am actuated by but one desire, and that is to do that which is best for the city of Pittsburgh and its people. So far as the men named for these appointments are concerned, I have nothing personally against them, and would be glad to vote to confirm them if I could conscientiously do so. However, there have been charges brought against them of vio-

lation of duty; we have been told of bad conditions growing worse and of Justice miscarrying.

I have taken the office of Councilman with but one object in view, and that is, to do the best I can in every way possible to safeguard the interest of the people; to help give the people so far as I can a good City Government, and in listening to Mayor Babcock's inaugural address, I resolved to help him carry out his good programme, realizing if it was done, and his promises fulfilled, Pittsburgh and its people would come into its own.

I would not be doing my duty to the people of this city; I would not be assisting Mayor Babcock in carrying out his good promises if I helped to confirm these appointments, and therefore until such time as the charges made to this body are proven false, I am against the appointments recommended. It is not a question now of favoring men with public office or appointments—it is a question of our serious duty to the people and to do that which is best for our city.

Mr. English arose and said:

"Mr. President, no other member of this Council has been subjected to the humiliation that has been my portion for the last three months. In the last Council my war economy ordinances were ignominiously killed without any consideration whatever. They were not even commented on by any other member, but were chloroformed by a motion to lay on the table. When Council reorganized on January 7th, 1918, I introduced the four ordinances. The record shows that all were passed finally, and all were vetoed by Mayor Babcock. Three of these war economy ordinances were repudiated by the Council after the Mayor's vetoes. The fourth ordinance did find favor in the sight of Council in spite of the veto of Mayor Babcock. As a result of Council's action we have provided for five Police Magistrates. I would not be human if I did not acknowledge my chagrin and disappointment, but I do not hate any member of Council. Every man's vote is his own. I am sorry that my efforts to save the taxpayers \$28,800.00 a year appeared to have support only to meet with final defeat for the time being. It is the final result which counts. Please note, Mr. President and gentlemen of Council, it was the ordinances which failed. I do not consider for one moment that I personally failed. I persevered to the end although I'll admit it was rather a bitter end. Mr. President, the post mortem reference to the recent decisions of the Council are made for a purpose. My purpose is to call attention to the fact that the recent decisions of Council relate to money values. The decision Council is about to make in either approving or disapproving the nominations for Police Magistrates do not relate to money values alone. On the contrary, the entire social welfare of this great city is hanging in the balance at this

moment. Incidentally the success or failure of Mayor Babcock's administration is also hanging in the balance. Let me recall the inauguration of our Chief Executive on January 7th, 1918. I shall never forget the opening sentence of Mayor Babcock's speech: "Mrs. Babcock, Dorothy, Vose and Freddie and my friends—I am pleased that so many of you have come here today."

With that thrilling address in my mind and the picture of that splendid family before me, I prepared the following:

This is a solemn occasion. The question before this Council is a matter of supreme importance to the people of this great city. The turn of a single vote on this roll call means much more to our beloved city than the mere matter of five jobs.

The Mayor has told us that 60,000 prisoners were before the Magistrates of Pittsburgh during the year 1917. Do the members of Council realize that this means that fully 10 per cent of the population of Pittsburgh was arrested last year? Can you not realize that indirectly the other 90 per cent was affected also? Can you not appreciate that every prisoner had a mother or a father, a sister or a brother or perhaps a wife or children or child. Do we not know that in addition to blood relations perhaps there was a neighbor or an employer or a friend for every prisoner. Why if you could get a history of the 60,000 cases of last year I think you would find this subject to be the very heart of Father Pitt himself. Now what are we up against? My answer is the Moral Law. This is not a political question, and it cannot even be distorted into a factional question.

The great Moral Issue which has been presented to us is an issue no member of Council can afford to straddle, for I say with all the earnestness I can command, that no excuse will satisfy the conscience. I feel so strongly on this matter, Mr. President, that I plead with you, one and all, to think of your dear ones at home. With but one exception every member of Council is the father of at least one darling child. The exceptional member is blessed with a nephew. I have seen him in company with that loved one. No word from me could begin to describe this uncle's pride and joy in that boy. Men of Council, let us rise to this occasion with a vision of a better city. Let us stand for God and Country and City. Just this once. It will help us in future decisions. Let me urge you to view this serious question as I view it.

In his recent veto messages Mayor Babcock has vigorously challenged many of my statements and in reply I have criticised Mayor Babcock's statements. I expect to criticise him again, but I do not think either of us can be accused of having unworthy motives.

But on this occasion there can be no compromise. I regret exceedingly

the unfortunate position in which the Mayor has been placed. He may think he is capable of bringing about a reformation because he places his hopes in the Director of the Department of Public Safety. I say he is undertaking a task far greater than the power of any human being to overcome.

Surely the Mayor does not realize the conditions existing in the City of Pittsburgh. Does he have any idea of the underlying motives which have obstructed justice and humanity in the political operation of the police courts in past years? If we sit by and permit him to attempt the impossible, what reward can we have? Are we not cowards if we shrink from our duty in this crisis? Dare we try to chloroform our consciences with mental reservations that we do not want to hamper him by opposing his nominations? I have been urged to quit criticising the Mayor; these anxious persons tell me I am hurting my future political career; they say the Mayor will discharge my friends who are on the city pay roll; they predict all sorts of disaster. Mr. President, such predictions instead of weakening my determination to do the right thing, only serve to strengthen and encourage me. My answer is that the people of Pittsburgh expect us to vote for the best interests of the city. If the Mayor's policies will advance the welfare of the city we should support his policies. When in our judgment his policies do not advance the welfare of the city we should not support his policies. If he becomes petty and personally resentful when we do not agree with him, he becomes an instant failure. I have no such unworthy opinion of Mayor Babcock.

Mr. President, it is my solemn conviction that Mayor Babcock has made a terrible mistake in this matter. I, for one, am not willing to lightly pass this tremendous question as a matter of political expediency. Four years ago I did approve Mayor Armstrong's appointments and I said and believed it too, that I did not care to hamper Mr. Armstrong's administration. In the light of four years' experience I would be a moral coward and worse than that, I would be a traitor to my city if I were to keep silent and approve these nominations. My sincere desire is to save Mayor Babcock from the same or similar mistakes his predecessor made. Anticipating some partisan political reply to my remarks, I say without any hesitation whatever, that if there is any politics in this entire proceeding, it is on the other side. If any partisan, whether in or out of Council, or any newspaper, or even the Mayor himself cries politics, my answer will be this: I accept their challenge to make these Magistrates a political issue and the fight will be

Politicians Against the People.

I will continue on the side of the people and I confidently predict right now the political defeat of any candidate or faction who champions the

continuation of any system which permits or sanctions the appointment of Police Magistrates who are active ward politicians."

Mr. Kerr arose and said:

"Mr. President, I regret very much, indeed, that I am forced to take issue with the Mayor at this time on the nominations he has submitted for the office of police magistrate. I am convinced that there are many, many men in the City of Pittsburgh who are more capable of administering these important positions than the names of those that have been submitted by His Honor, the Mayor.

"Police Magistrate's office is one of the most important offices in the City of Pittsburgh. It is important because it deals with the justice of the poor people of the community and those positions should, therefore, be filled by men of vision, by men of judicial mind, and by men of humanitarian spirit.

"And I submit to you, Mr. President, that the past performances of the gentlemen whose names have been submitted here do not meet any of these requirements. I have said to the people of Pittsburgh on numerous occasions that the Police Magistrate's Court should be made a real court of justice and should not be used in any particular as a part of a political organization and I cannot see how the Mayor is going to carry out the pledges that he has made to the people by appointing to these very important positions men whom we all know to be of the political type and without any further qualifications.

"I am sorry, as I said before, that I am forced to take this position, but I have said to the people of Pittsburgh that I will use whatever effort I have and whatever influence I may possess to make Pittsburgh safe for decency, and I shall, therefore, be compelled to vote against the confirmation of all of these men because the law makes the Council equally responsible with the Mayor in the filling of these important positions."

Mr. Dalley arose and said:

"Mr. President, one week ago specific allegations were made against three of the five men whose names were submitted by the Mayor and general allegations made against two others. Up to this time I have no knowledge of one of these men coming before Council to ask for a hearing either to prove or disapprove these allegations. If I were one of these men I would have demanded a hearing and insisted upon the men making the charges to substantiate them. I for one cannot see my way clear to vote for the confirmation of any man with the serious allegations hanging over his head as have been made against them and no effort made to clear themselves."

Mr. Garland arose and said:

"Mr. President, whether these names

are approved or not, it seems to me the proper thing is to give these men a chance. As one member has said in his remarks general allegations have been made against some of these men and others of them are not referred to. It is my purpose to vote for all of the Mayor's appointees. I hold the Mayor responsible for sending in the appointments and hold myself also responsible for their actions in the future. I say you can't always judge the future by the past. In this case I consider the matter in this way that the Mayor of Pittsburgh is the Chief Executive of the city and assumes more than any other man the responsibility of conducting the affairs of the municipality in the city. It is not necessary for me to make a long speech as to how intimately I know the Mayor and how I know his family and how I feel he is going to conduct the affairs of the city. I want to say this that he will not allow for any infraction of the law or any leniency that should not be allowed in the conduct of these men. He has already visited these Police Magistrate Courts, has given suggestions and I think the fear of God is in their hearts. I think it can be done; I don't say they cannot be reformed. The Mayor can decide this.

"Give the men a chance. If these men don't do right I shall be one of the first to vote to kick them out. We have our process of law to do that. I desire to say this that people cannot come before Council and ask that men be discharged without any specific allegations for mismanagement or malfeasance in office being preferred against them and proven. These men were put in office by Mayor Armstrong. Without referring to the records, I want to say that out of 60,000 cases brought before the Police Magistrates within the last year, only a few cases have been cited by the people opposed to their confirmation that their judgment did not agree with their own. A great majority of those brought before the Police Magistrates were cases of loiterers, vagrancy, or trifling matters, such as disorderly conduct and drunkenness.

"I hope the Morals Court will be established in Pittsburgh if under the law it can be established. I think it can be established if we have to slightly infringe upon the law. Nobody should attack it and it will take a strong man to attack such a measure. I intend to vote for the ordinance, and when that court is established—I believe every member of Council will vote for the ordinance—all the cases of the kind which earned animadversion for these men will be brought before the new court, not before them. All cases of prostitution, disorderly houses and gambling will be brought before the judge who will sit in this court. I don't know who the man will be. It is up to the Mayor.

"I want to say this that I stand four square on this proposition and will

stand back of the Mayor. I have confidence in the Mayor to do everything he says he will. It is proper that these men be given a chance."

Mr. McArdle arose and said:

"Mr. President, what I am going to say on this resolution will suffice and have equal application on all the other resolutions or motions that may be presented later.

"I propose supporting this resolution. If I were submitting the names of Police Magistrates to City Council for confirmation I would not submit those that are here. I am not going to plead for a chance for any of these men. I am merely going to take the position that these names having been submitted here by the Mayor of the City to serve in a capacity which I regard as real substitutes for himself for the reason that I really believe that the Police Courts are the outgrowth of the fact that the duties of the Mayor along with the growth of the city has become such as to preclude the possibility of him doing the work which he used to do—the functions exercised by these Police Magistrates, and I am disposed to do this because the Mayor of the City went before the people of Pittsburgh and asked for their suffrage and he was supported by various elements of the citizenship of Pittsburgh—prominent among which was that faction or part of the citizenship that is represented politically, particularly by these very men here and I contend that no one either as a member of this Council or anywhere else has any reasonable cause to express surprise that these names should be submitted here. I take it to be the most reasonable thing in the world that they are here.

"In expressing opposition to these men not only before Council, but in public discussion of it, those good people who set themselves up to express the will and the thought of the moral forces of the city, as they term it, have repeatedly emphasized their confidence in the Mayor of the City and their expectation that he is going to do the things that he has promised today. They believe he is sincere, they believe he is honest and the city itself through its citizenship has passed judgment not only upon his fitness but upon his business capacity, his grasp of big things, his ability to deal with all the various ramifications of city government and to give the city a sound financial administration and to give the people a clean city morally. However, much surprised some people may have been, he has chosen these as his tools to do a most important work with and as I said, it is my belief that he has chosen them to do his own work, because they stand in the capacity that few stand in—with nobody between them and the Mayor. They are not under any other directing force; nobody over them but the Mayor who is vested with any legal responsibility for their action and he has repeated and he has been applauded by the public and

by the press and by a goodly number of those who ask that these men be rejected because of the declaration that he has made concerning his intention to give the public a clean city morally. I think he has taken on somewhat of a job, but he is on record as no other chief magistrate has been on record as to what he intends to do and how he intends to do it. Those who will work closest with him are on record as nobody in their particular capacity has been put on record. They have determined as they have expressed it to us 'hew to the line and let the chips fly where they will.'

"These are the tools with which he expects to do the huge work before him and I am willing to take the risk that goes with the approval of these men to allow the Mayor to go in unhampered in carrying out this policy, which he has assumed fully the responsibility for. I shall do everything I can, as a member of Council, to enable him to give that kind of an administration. I shall expect him to do the things that he says he will and when I say that I am not voicing the same extraordinary degree of faith in the possibilities of his achievement as others have done, but I shall be willing to give him all the help I can as a member of Council to enable him to get to the goal to which he aspires and to which we aspire; and if he fails I shall be glad to go along with the other members of Council to recognize the mistakes after they are made to take the initiative to recommend a change for him. It will be my duty as a member of Council to undo any wrong that may have been done, so far as our power and responsibility go.

"I know what has transpired in this city within the past year, but I know also that those who proclaim the loudest against these conditions did not have the courage to go to the root of the evil but wanted Council to do something that Council could not do. I think they knew the root of the evil in the last administration was in the Mayor's office and if they had gone there I believe more success would have been attained. The present Mayor has outlined a different course for himself. I confess my belief in the great proportion of that job that he has taken over, but as long as he is willing to undertake it, I am willing to go somewhat out of my road to allow him to carry out his pledges. He has said 'these are the men wanted' and with some knowledge of the shortcomings of some of them at least, I am willing to hold judgment on these things in abeyance and allow him to do what he says he surely can do and if he does not do it, I shall be glad to join with the other members who have expressed themselves to exercise their full power to bring about the best conditions possible in the city."

BOARD OF ASSESSORS.

Thomas J. Hawkins, Chief Assessor.
John C. Hetzel,
John G. Hastings,
Leo McShane,
Charles A. Martin,
F. A. Dohrman,
Joseph W. Brandner,
James M. McKee,
J. D. Walker.

Assessors.

Mr. Dailey presented:

No. 172. Resolved, That the
nomination of Thomas J. Hawkins as
Chief Assessor, and John C. Hetzel,
John G. Hastings, Leo McShane, Charles
A. Martin, F. A. Dohrman, Joseph W.
Brandner, James M. McKee and J. D.
Walker, as Assessors, be and the same
is hereby approved and confirmed.

Which was read.

Mr. Dailey moved:

The adoption of the resolution.

Mr. Rauh arose and said:

"Mr. President, I desire to sec-
ond the motion made by Mr. Dailey.
I want to say it is my desire to sup-
port the motion to confirm the nomi-
nees whose names have been submitted
by the Mayor."

Mr. English arose and said:

"Mr. President, I am going to
vote NO not because I have any per-
sonal objection to any of the men whose
names have been submitted by His
Honor, the Mayor, but for the reason
that the number of Assessors fixed at
nine finally is not right in my esti-
mation. I cannot very well pick out
five men to correspond with the num-
ber fixed in my original ordinance at
five that I deemed sufficient to handle
the work of the Department of As-
sessors. Therefore I must vote NO on
all of them"

No. 207
Department of City Controller,
City of Pittsburgh, Penna.,
February 11th, 1918.

The Council,
City of Pittsburgh.

Gentlemen—We hereby certify that the ordinances presented to your body today, fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof, and making ap-

propriations to pay the expenses of the fiscal year of 1918, are to the best of our knowledge and belief in accordance with the action of the Finance Committee sitting as a budget committee and with the records of such action maintained by ourselves.

Very respectfully.

Chas. F. Weible
Clerk Finance Committee.
H. S. Breitenstein
Statistician.

Which was read, and on motion of Mr. Garland, received and filed and made part of the record.

Also, with an affirmative recommendation,

Bill No. 10. An Ordinance entitled, "An Ordinance levying and assessing taxes and water rent for the fiscal year beginning January 1st, 1918, and ending December 31st, 1918, upon all property subject to taxation within the limits of the City of Pittsburgh."

In Finance Committee, February 6th, 1918, read and amended in Section 1 by inserting in the first blank space the words "fourteen and five-tenths (14.5)" and in the second blank space the words "eleven and six-tenths (11.6)," and as amended ordered returned to council with an affirmative recommendation.

Which was read.

Mr. Garland moved

That the amendments of the Finance Committee be agreed to

Which motion prevailed.

And the bill, as amended in committee and agreed to by council, was read

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Rauh arose and said

"As a Councilman and a taxpayer, I desire to strenuously protest, against the excessive water rates affecting both the small and large consumer. Also some of the unnecessary positions that have been created in the Budget.

"I particularly refer to the \$6,000.00 'investigator job.' In doing my own investigation I find this \$6,000.00 would pay the interest on \$150,000.00 worth of necessary city work at 4 per cent. There are other items that I object to in the Budget.

"But rather than to be termed an obstructionist I vote for the tax levy and appropriation bill under strong protest and wish to be recorded as such."

Mr. McArdle arose and said:

"Mr. President, I want to point out that the gentleman protesting against the water rents as set up in this ordinance is not on record, if the record is correct, as voting against the water rents in committee."

Mr. Haub arose and said:

"Mr. President, I want it distinctly understood that I voted No in committee on the water question. At the time of the adoption of the water rent schedule some member stated that that the vote was unanimous. I cannot help what the record shows. I want to say that I voted against the water rents. Even if I had voted yes, I feel the longer that I think over same the more positive am I that the water rates are too high."

Mr. English arose and said:

Mr. President—In many respects the appropriation bill No. 11 with its companion bills No. 10 fixing the millage and No. 12 fixing the salaries of the city employees do not meet with my approval. Many suggestions made by me were ignored and many motions made by me were defeated. However, I personally feel that I made every possible effort to keep down the cost of the city business for the year 1918. Some of the loudest critics of the council as a body and of the individual members are so biased and so bitterly partisan that it appears to be a hopeless task to ask such critics to be fair. To expect them to give the council or any of its member any credit or praise for anything at all is futile. However we can find some comfort and consolation from the bible in the Gospel of St. John, first chapter and forty-sixth verse. As Nathaniel was brought to his senses so we may hope to see our critics change their opinions and criticisms, I think we should have arranged the salary and wage increases in a different manner. My opinion frequently expressed was and still is that the increases granted are due to the abnormal time in which we live. Hence I think we should have set up such increases as a bonus and not as a fixed addition to regular salaries or wages. When the slump and reaction comes the city will find it a hard matter and well nigh impossible to bring about fair readjustments. The greatest mistake any council could make and this council is no exception, is to ruthlessly cut out certain positions and then reinstate the positions before closing the Budget. It would be much better to have complete information on such matters before taking any action whatever. A little care and caution would prevent so many flip flaps and somersaults. Unfortunately for the council the public are fully informed about the flip flap but frequently the detailed information as to the cause of the reversal is either deliberately withheld or as is generally the case overlooked entirely. Take the law department for example. The Budget Committee struck out one \$4,000.00 position before the new administration was inaugurated. Pending the confirmation of Mr. Stone as City Solicitor for the members of council were conferring with Mr. Stone regarding Utilities and Wharf litigation. After confirmation of Mr. Stone, it was necessary in my

opinion to put back the \$4,000.00 position if the council expected results from the law department. Otherwise it would not be just or fair to Mr. Stone who was trying to be fair and just with council. Every member of council knows of other positions of a similar nature but the public has not been informed and I dare say never will be informed regarding the reversal of former action.

The entire matter of budget making and fixing the millage is now and always has been a hard problem. How may we expect the people of Pittsburgh to understand the matter of responsibility and authority when some members of council either deliberately or ignorantly evade the responsibility and assume the authority or else assume the responsibility and evade the authority. Theoretically the Mayor as the active head of the executive or administrative branch of the Municipal government is responsible for the estimates and his authority is not questioned. He has the power to alter or change at will any estimate made by any department director either before or after the estimates are submitted to the council. As a matter of fact the council is held responsible for the final appropriation and tax levy although the Mayor can intervene with a veto of any item in particular or the entire list if he so desires. I still insist that the Mayor should sit with the council when the Budget is under consideration. This is rendered absolutely necessary at this time on account of a change in the Mayor's office. How can Mayor Babcock be expected to know of the many matters set forth in these ordinances. The proof of my claim is found in the few matters discussed in conference with him. As the Budget now stands, the Mayor and the council are in agreement on the matters discussed in the conference. For example take the Division of Motor Vehicles. This division was created in the Budget of 1914 on the recommendation of the New York Bureau of Municipal Research. The various items in the 1914 estimates for motor vehicles showed a total of \$58,000. The New York Bureau suggested that all these items be centralized in a new bureau and the sum of \$33,000.00 was set up for 1914. The cost kept on increasing from the original \$33,000.00 for 1914 until we were confronted with a request for \$89,000 for 1918. Every member of council was satisfied that this division was fast exceeding the speed limit in the matter of cost. When this was explained to the Mayor in conference he agreed. Now what is the result of the conference. Instead of allowing \$89,000 for the division of Motor Vehicles for 1918 the amount is only \$67,000. And better still only \$50,000 is to be spent in the Division of Motor Vehicles because \$17,000 will be spent on the repair of the River Avenue Pumping Station. This is a further step to provide a sufficiently large machine shop to take care of the motorized fire apparatus in addition to the other automobiles

owned by the city. The Mayor and the council agree that further economies will be effected.

The Bureau of Recreation is another illustration which adds proof to my claim of joint budget making. The Mayor and council considered this Bureau in conference. The result is complete harmony on this important city function. We have made a start in the right direction by conferences on a few items in the Budget. Why not keep on going in the same direction and see if we cannot accomplish something for our city. Neither the Mayor or the council have any right to assume the authority or prerogatives of each other. However the law plainly directs us to confer on the matter of the public business. We perhaps cannot always agree on everything but we can try. In any event a majority must decide all these questions one way or another and the decision having been made it is the sworn duty of every one concerned to comply with the decision in good faith.

There are many good items in the appropriations for 1918 and there are some doubtful items in my opinion. I think every member of council can say the same thing. For my part I can truthfully say that the items I favored as well as the items I opposed were done of my own free will and were not swayed by any influence either in or out of council.

And the bill as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Mr. Garland also presented

No. 208. Report of the Committee on Finance for February 8th, 1918, transmitting an ordinance to council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 12. An Ordinance entitled, "An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof."

In Finance Committee, February 8th, 1918, read and amended by adding the following to the title "providing for the increase of salary or wages of at least one hundred fifty dollars per annum to all employees of the city engaged in any service or occupation whatsoever and receiving a salary of fifteen hundred dollars or less on June 7, 1917 and not in excess thereof on January 1, 1918, as required by the Act of Assembly approved on June 7th, 1917," and as amended ordered returned to council with an affirmative recommendation.

Which was read.

Mr. Garland moved

That the amendment of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by council, was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. McArdle arose and said:

"Mr. President, of course I am not going to offer any opposition to the salary bill, but I am going to point out again in Council the same things

that I pointed out a number of times, during the budget committee hearings, which were greatly misunderstood. This matter to which I have just called attention and which is clearly a typographical error looked bad when we looked at it first, but there are a number of cases even worse, as the result of our method in making up this salary ordinance of making blank motions without reference to all other positions in the same class being embodied in the motion. There is scarcely a department of the city government where there are persons employed whose compensation has been substantially the same for many years past where the inconsistencies are not now in evidence of the higher paid positions receiving the lower rate of wage, or, as in many instances, the same rate of wage.

"You can turn to almost any place in the Department of Public Safety set up and almost in all the various bureaus and divisions of the Department of Public Works, particularly the Bureau of Parks, where this typographical error was pointed out, and you find these inconsistencies. In the Bureau of Water, for example you will find any number of places where men are now being paid 25 and 50 cents a day less than the price provided for common labor.

"I call this to your attention and offer the prophesy that the bill will not be out of the hands of the Mayor when Council will be besieged by city employees who will be asking for an adjustment of their wages upon the same basis—not the same earning basis, but upon the same relative compensating basis as they were heretofore. I have in mind, and which furnishes a good example, a number of skilled laborers in the Bureau of Water. We have provided a price of \$3.25 per day for common labor and for five skilled laborers in this bureau we have provided a price of \$3.00 each per day. The very title of their position carries with it the implication that these men are in a class, either of service or of ability, above the men in the common labor class and for years have been so recognized, and this title had been provided as a justification for having provided a higher compensation for them than the men engaged in the common labor class.

"As the result of our program, which the committee adhered to throughout its hearings these five skilled men's salary has been fixed at \$3.00 each per day and the price of \$3.25 fixed for common labor. It looks as though these men are being penalized because they are skilled laborers and doing the class of work above that of the common laborer. This is noticeable in numerous bureaus and departments and for that reason we need not be surprised to hear these employees coming in from time to time and wanting further increases in salary."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—8.

Noes—None.

And a majority of the votes of council being in the affirmative, the bill passed finally.

Mr. Robertson presented

No. 211. Report of the Committee on Filtration and Water for February 5th, 1918, transmitting two resolutions to council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 186. Resolution authorizing the issuing of a warrant in favor of John F. Casey Company for \$2,628.21 for labor furnished the Bureau of Water at Pumping Stations during month of December, 1917, and charging same to Account No. 1653, Wages Temporary, Mechanical Division, Bureau of Water.

Which was read.

Mr. Robertson moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke (Pres. Pro tem.)	Kerr
Dailey	McArdle
English	Rauh
Garland	Robertson

Ayes—8.

Noes—None.

And there being two-thirds of the votes of council in the affirmative, the resolution passed finally.

Also

Bill No. 187. Resolution authorizing the issuing of a warrant in favor of Tate-Jones & Company, Inc., Pittsburgh, Pa., in the amount of \$367.50, for payment of 1 S-1 Pumping System and 3 B-8 Oil Burners, the amount to be taken from Code Account 182-A, Bureau of Water, Mechanical Division.

Which was read.

Mr. Robertson moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

DEPARTMENT OF LAW.
Pittsburgh, February 18, 1918.

To the Honorable,
The Council of the City of
Pittsburgh.

Gentlemen:

On Bill No. 134, being a resolution authorizing and directing the Law Department to enter into negotiations with the Farmers Deposit National Bank for the lease of the Verner property on Penn avenue, I beg to say:

Pursuant to the resolution, I wrote to Mr. T. Hart Given, President of the Farmers Deposit National Bank, upon the subject and in reply to my letter received a communication from Mr. F. F. Nicola, under date of February 15, 1918, declining to lease the premises for the consideration mentioned in the resolution of Council.

Copy of the letter to Mr. Given, as well as copy of the letter from Mr. F. F. Nicola, herewith enclosed.

Respectfully yours,

STEPHEN STONE,
City Solicitor.

Accompanied by copy of letter to Mr. T. Hart Given, as well as copy of letter from Mr. F. F. Nicola.

Which was read.

Mr. Garland moved.

That the communication be received and filed.

Which motion prevailed.

No. 222.

City of Pittsburgh, Penna.
February 14th, 1918.

To the Honorable, the Council of
The City of Pittsburgh.

Gentlemen:

In pursuance of Section 10 of the Act approved May 31, 1911, I am returning herewith Bill No. 11, an Ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1, 1918, and ending December 31, 1918, with my disapproval of the following items and parts of items, to-wit:

No. 1010 A 1, Salaries, regular employees, Division of Investigation, Council and City Clerk, \$9,510.00. I object to \$6,000.00 of this item providing salary for an Investigator for the reason that the position is unnecessary.

1014 A 1, Salaries, regular employees, Mayor's Office, \$28,710.00. I object to \$1,350.00 of this item providing salary for a Messenger for the reason that the position is unnecessary.

1038 A 1, Salaries, regular employees, City Architect, \$9,010.00. I object to appropriation of \$7,060.00 of this item providing salary for City Architect, Chief Draftsman and Stenographer for the following reason: I find the City has two architects, one in the Department of Public Works and a general City Architect, with insufficient work at the present time for them both to do and am of the opinion that the Architect, and staff in the Department of Public Works can do all of the City work for this year.

1041 A 1, Salaries, regular employees, Transit Commission, \$2,700.00.

1042 B Miscellaneous services, Transit Commission, \$100.00.

1043 C Supplies, Transit Commission, \$3,000.00.

1044 F Equipment and Machinery, Transit Commission, \$200.00.

These items are disapproved for the reason that this unit has been in existence for one and one-half years and it has completed its report, which report has been reduced to typewritten form. I am opposed to this and similar commissions being needlessly continued forever. I find that the City has another activity with an appropriation of \$75,000.00 to carry on the work of regulating transportation conditions and other public utilities.

1073 A 1, Salaries, regular employees, Department of Law, \$51,380.00. I object to \$1,110.00 of this amount which is set up for the salary of a Messenger, for the reason that the position is unnecessary.

1126 A 1, Salaries, regular employees, Department of Public Safety, General Office, \$36,240.00. I object to \$2,220.00 of this item providing salary for two (2) Social Workers for the reason that the positions are unnecessary and can

be dispensed with. The positions never have been filled and other Social Workers are ready and anxious to perform this work without cost to the City.

1389 N Maintenance Fund, Flood Commission, \$5,000.00. I object to \$2,500.00 of this item for the following reason: I am informed that it will be impossible for the Flood Commission to carry on its usual work owing to the unusual times we are in and for other reasons and that the amount remaining will keep it in existence until a more propitious time arrives for it to extend its work.

42 D. M. National Guard Contingent Fund, Contingent Funds, \$11,500.00. I object to \$8,000.00 of this item for the reason that the National Guard are to the Front doing war duty and will probably not be home for the balance of this year. The only other military activity that this can be applied to is the Pennsylvania Militia Reserve and some similar organizations and the amount reserved is sufficient for their needs.

All items in said Bill not disapproved are hereby approved.

All of which is respectfully submitted.

E. V. BABCOCK,
Mayor.

Which was read, and on motion of

Mr. Kerr received and filed.

And,

Bill No. 11. An Ordinance entitled, "An Ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1st, 1918, and ending December 31st, 1918."

In Council, February 11th, 1918, Rule suspended, read three times and finally passed.

Was read.

Mr. English moved.

That when Council adjourns it takes a recess until Thursday, February 21, 1918, 2:00 o'clock P. M., in order to give the Mayor and Council an opportunity to consult with the Law Department as to the legal status of the matter in view of the fact that the Mayor has not attached his signature to the bill nor has he stricken out the items which he vetoes.

(Which motion was seconded by Mr. Burke.)

Mr. McArdle arose and said:

"Mr. President, before passing upon this motion may I ask the clerk if the bill as sent to the Mayor has been duly signed by him, making note of the exceptions which are set forth in his veto message?"

Mr. Martin (clerk) replied:

"No, sir; the bill is not signed."

The Chair

"Gentlemen, you understand

that it is necessary if the items as set forth in the Mayor's veto are to be stricken out the veto of the Mayor must be sustained by the votes of Council. It is up to the members of Council, by their votes, to signify what action should be taken."

Mr. McArdle arose and said:

"Mr. President, let us understand each other. This whole question hinges on what the legal status of the matter is. This ordinance has been submitted to the Mayor after passage by Council for his approval or disapproval. He returns the ordinance with a veto message, disapproving of certain items, but does not sign the bill as to the other items. I question whether the whole bill therefore, would not become a law within ten (10) days after submission to him by his failure to approve or disapprove it."

The Chair:

"The bill, with the Mayor's veto message is before you for action."

Mr. McArdle:

"Mr. President, my contention is that legal procedure is not complied with in the message from the Mayor to the Council. It is properly done by attaching his signature to the certified copy as furnished to him and noting in the bill the reductions which he makes in the specific appropriation items set forth in his veto message. None of the objections as stated in his veto message are noted in the ordinance. The object of the veto message is merely to submit his reasons why he withholds his approval of certain items or part of items. The question that confronts us is, it seems to me, whether, if Council takes no further action on this bill and three more days elapse without any further action taken by the Mayor the whole bill as presented does not become a law because the Mayor has failed to approve or disapprove it within the ten (10) days, after having been sent to him, in accordance with the provisions of the law. I contend that if he does not get this back in a legal manner and there is no further action on his part and Council adjourns without taking any action, the whole bill becomes a law notwithstanding the objections the Mayor sets forth in his message to Council."

Mr. Rauh arose and said:

"Mr. President, it seems to me that this is going through a lot of red tape. By approving the items vetoed by the Mayor we would be saving a certain sum of money to the taxpayers of Pittsburgh. We should act on the bill today and not cause any further delays. The Mayor in his message points out that the position of messenger in his office as well as that in another department should be eliminated as the positions are unnecessary. It seems to me the Council should sustain the Mayor's veto

on these items, for the reason that the Mayor states that it is not necessary to have a messenger in his own office. We have the City Solicitor with us and if there are any legal technicalities to be straightened out now is the time to do it. We should pursue the quickest course in order to make this bill a law."

Mr. McArdle arose and said:

"Mr. President, you may distinguish this by calling it red tape and by reverting to some other questions that have nothing to do with it, but the very fact that the Mayor has not acted rightly in this matter is no fault of ours. We have followed out the course laid down by the law and it is expected that the Mayor will do the same. The question in my mind is whether he has followed the course the law provides that he should follow. It is not a question of any conditions that we make at all. We are not making the conditions. I think it ought to be plain to any one that his signature must be attached to the bill, or in absence of its being attached the whole bill becomes a law without his signature. It involves a question if no action is taken on these items which the Mayor vetoes, or any of them, whether or not they do not stand and the whole bill become a law if ten (10) days passes after his receipt of the bill without him following out the provisions of the law. So it seems to me we should get back to the question as to what legal status of this whole thing is."

The Chair said:

"The clerk tells me that the communication was attached to the ordinance when presented to Council."

Mr. Robertson arose and said:

"May I ask the clerk a question?"

The Chair:

"Yes, sir."

Mr. Robertson:

"How long a time has the Mayor got in which to sign the bill?"

Mr. Martin (clerk):

"Ten (10) days from the date of its transmission to him."

Mr. Robertson:

"When was this ordinance transmitted to him?"

Mr. Martin (clerk):

"On the twelfth day of February?"

Mr. Rauh arose and said:

"Mr. President, I repeat that it is not at all necessary to delay action on this matter. We have with us the City Solicitor. We can get the law from him in two seconds. It is

just a delay so that some members of Council can consult with the 'Invisible Government.'"

Mr. McArdle arose and said:

"Mr. President, I don't know of any member of Council who has given so much evidence of the good use a few days could be put as the gentleman who has just taken his seat. After what has been said concerning this matter, if it is not plain to him that this is a very unusual proposition that we are confronted by and that this proposal to delay is the most reasonable thing that could be done for the Mayor then it seems to me that it is due to a lack of understanding of a very plain proposition. The record of Council is before him and every other member of Council that this thing has not gotten here in the proper shape; that it is plain that it is a legal proposition and we owe it to the Mayor to give him an opportunity to correct a mistake which he has made."

"Talk about the City Solicitor being here. Yes, he is here and the gentleman proposes to throw over a proposition like this to the City Solicitor, who is now on the job in dealing with these questions of municipal government, and ask him to pass on that rather than do the reasonable thing and allow him an opportunity to consult the authorities and Council's precedents, in order to give an intelligent interpretation of the law when he finally gives it."

"It seems to me to be a plain appeal to common sense, if the new Mayor has made a mistake because of lack of familiarity with this subject, to give him a chance to correct the mistake. It seems to me that he has made a mistake."

Mr. Kerr arose and said:

"Mr. President, I agree with what Mr. McArdle has said. This is a serious thing. The thing I had in mind was that I understand the Mayor is out of the city and the question arises whether Thursday will be sufficient time to allow him to get back home and go over the bill and return it to Council. I think the whole matter should go over until next Monday. The ten (10) days time will not be up until Monday."

Mr. English arose and said:

"Mr. President, with the consent of the seconder I withdraw my motion."

Mr. Garland arose and said:

"Mr. President, if you allow the matter to go over until next Monday it will come within the ten days allowed by law if you do not count the two holidays."

Mr. Kerr presented:

No. 223. Resolved, That Bill No. 11, An Ordinance making appropriations to pay the expenses of conducting

the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1st, 1918, and ending December 31st, 1918, and Bill No. 222, Communication from the Mayor returning the same without his approval of certain items, be returned to the Mayor for his further consideration.

Which was read.

Mr. Kerr moved the adoption of the resolution.

Which motion prevailed.

The Chair also presented:
No. 224.

MAYOR'S OFFICE.

Pittsburgh, Pa., February 14, 1918.
To the Honorable, the Council of the
City of Pittsburgh.
Gentlemen:

I return herewith Bill No. 12, an ordinance fixing the number of officers and employes of all departments of the City of Pittsburgh, and the rate of compensation thereof; providing for the increase of salary or wages of at least one hundred fifty dollars per annum to all employes of the City engaged in any service or occupation whatsoever and receiving a salary of fifteen hundred dollars or less on June 7, 1917, and not in excess thereof on January 1, 1918, as required by the Act of Assembly, approved on June 7, 1917, without my approval, for the reason that it carries certain positions and salaries which I deem unnecessary and the appropriations for which I have vetoed and specifically referred to in my objections to Bill No. 12.

I note with satisfaction the increases awarded the employes of the City, not on account of any requirements of any specific law, but in line with our obligation to see to it that our working force may have a competent living wage. I regret that for the reasons hereinbefore stated my disapproval of this ordinance becomes necessary.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read.

Mr. Garland moved

That the communication be received and filed, and a copy be sent to each member.

Which motion prevailed.

And

Bill No. 12. An Ordinance entitled, "An Ordinance fixing the number of officers and employes of all departments of the City of Pittsburgh and the rate of compensation thereof; providing for the increase of salary or wages of at least one hundred fifty dollars per annum to all employes of the city engaged in any service or occupation whatsoever and receiving a salary of fifteen hundred dollars or less on June 7, 1917, and not in excess thereof on January 1, 1918, as required by the Act of Assembly, approved on June 7, 1917."

In Council, February 11, 1918. Committee amendments agreed to, rule suspended, bill read three times and finally passed.

Was read.

Mr. Garland arose and said:

"Mr. President, it does not seem proper that we should act on this ordinance when we have withheld action on the appropriation ordinance until next Monday. I have never known of an instance where the salary ordinance was passed before the appropriation ordinance. I would like to ask the clerk a question. Is it proper for this Council to pass the salary ordinance before the appropriation bill has been considered?"

Mr. Martin (Clerk) said:

"Council has never passed the salary ordinance prior to the appropriation ordinance."

Mr. McArdle arose and said:

"Mr. President, there is no relation between the salary bill and the appropriation bill other than that the amounts set up in this bill must be provided for in the appropriation ordinance. If we delay the passage of the salary ordinance the net result will be to deprive all other employes not affected by the bill passed by the Legislature of just that long a time before they enjoy the advance in wages or salaries that have been given them."

"The objections of the Mayor to the salary bill cannot be met on next Monday. We must finally pass upon it in its present form or we must sustain the veto of the Mayor and allow the whole bill to fall. If that were done a new bill would have to be introduced and passed over again and amended in such a way as council sees fit. If the Council finally sustains the Mayor's objections there is only one reasonable way of meeting them and that is by the necessary amending ordinance to the salary ordinance after we pass it."

"The peculiar thing about the Mayor's message to me lies in the fact that during the long drawn out budget hearings antedating by some weeks the Mayor's inaugural and continuing for five weeks after his inauguration none of the suggestions came to us that we find embodied in this veto message. I recall that prior to the Mayor taking office a motion was adopted that he be furnished a copy of the budget asked to make any suggestions he cared to and none were made. His department heads were asked to make suggestions in order to reduce their budget estimates and in some cases reductions were made. I do not recall one instance where the Mayor suggested a reduction such as outlined in his veto message either directly to the committee by communication in the number of conferences that we held with him concerning the budget at his request. There may be logic or reason why he has done this, but there does not seem to me to be any."

"It is a peculiar thing to me that three or four days after the closing of the budget he should find fault with these things. So far as I am concerned I am ready to vote for its passage now and listen to what he may have to say later concerning amendments to it covering the specific instances he refers to in his message."

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (President)
Dailey	Kerr
English	McArdle
Garland	Robertson

Noes—Mr. Rauh.

Ayes—8.

Mr. Garland presented

No. 229. Resolution authorizing the Director of the Department of Supplies to purchase, through the Adjutant General of Pennsylvania, a machine gun of the same type as those issued to machine gun companies, the City of Pittsburgh to donate same to the Pittsburgh Battalion of the Third Regiment, and charging the same to Appropriation No. 42-D, National Guard Contingent Fund.

Which was read and referred to the Committee on Finance.

Mr. English presented

No. 230

Whereas, the great shortage of coal, iron ore, coke and many other commodities and the consequent large increase in prices from which the country has been suffering and which has occasioned a loss to the people of several hundred million dollars, as well as much delay in the production of munitions of war for the Government; and

Whereas, These losses and delays would have been very largely, if not altogether, prevented had the Ohio river been fully improved and the Lake Erie and Ohio River Canal been in operation, thus providing a continuous great interior waterway from the Mississippi Valley to the Great Lakes and thence by the New York barge canal and the Hudson River to New York Harbor, by which many millions of tons of material, including much needed war supplies, could have been moved promptly and cheaply; Therefore, be it

Resolved, That the Council of the City of Pittsburgh hereby respectfully requests the National Congress to at once appropriate sufficient money for the early completion of the work of improving the Ohio river and also to enact the bill introduced by Hon. Guy E. Campbell providing for the immediate construction of the Lake Erie and Ohio River Canal by the Government as a war measure.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

And the Clerk was instructed to mail copies of the resolution to the President of the United States; the Vice President; the Speaker of the House of Representatives; the Secretary of the Treasury; the Secretary of War; the Secretary of the Navy; and to the two United States Senators and all members of Congress from Pennsylvania.

Mr. Robertson presented

No. 231. Resolution directing the Constructing Engineer to proceed at once to have the Architect for the City-County Building, prepare plans and specifications for an entrance to the City-County Building from Fourth avenue, and authorizing and directing the Constructing Engineer to have the said entrance constructed at once.

Which was read and referred to the Committee on Finance.

Mr. Rauh presented

No. 232

Whereas, during the months of December and January, the Contractor allowed large amounts of garbage and rubbish to accumulate on the several premises in the City of Pittsburgh; and

Whereas, the contract expired on February 1st; and

Whereas, an increased rate was asked by the Contractor for collection after the 1st of February; but

Whereas, the said contractor has agreed to collect at the old contract prices all of the accumulation which was allowed to pile up under the old contract; Therefore, be it

Resolved, That the Mayor be requested to direct the Director of the Department of Public Health to ascertain as nearly as possible the amount of accumulation occurring during December and January and take precaution to see that the Contractor be not allowed to collect at an increased rate any garbage or rubbish which should be taken away at the old rate.

Which was read.

Mr. Rauh moved

The adoption of the resolution. Upon which motion, Mr. Rauh demanded a call of the ayes and noes, and the demand having been sustained,

the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Garland
Kerr

McArdle
Rauh
Robertson

Noes—Messrs.

Burke
Dailey

English
Herron (President)

When the name of Mr. Barke was called, he arose and said

"Mr. President, I desire to explain my vote. I am confident that the Mayor will see that the garbage contract is carried out."

When the name of Mr. Dailey was called, he arose and said

"Mr. President, I have confidence in the Mayor that he will see that the terms of the contract are carried out."

When the name of Mr. English was called, he arose and said

"Mr. President, I am voting No and wish my reason for so doing recorded. I wish to state that I made a similar motion in the Committee on Finance, at which meeting the Mayor, the Director of the Department of Public Health and representatives of one of the contractors were present. The Mayor promised that he would attend to the matter. The Director of the Department of Public Health stated that he would address a communication to the North Side contractor on the subject. You all heard the statements of the representative of the contractor who said that they would collect the December and January accumulations at the old price. I am of the opinion that this resolution is punk, bunk and camouflage and do not propose, by my vote, to burden the records with anything coming from the representative spokesman of the 'Invisible Government.'"

Ayes—5.

Noes—4.

And a majority of the votes of council being in the affirmative, the resolution was adopted.

Also

No. 233. Resolution requesting the Mayor to make an investigation and prompt report on the feasibility of municipal collection and disposal of garbage and rubbish.

Which was read, and on motion of Mr. McArdle, referred to the Committee on Finance.

Mr. Kerr presented

No. 234. Resolution authorizing and directing the Board of Water Assessors to issue an exoneration to Charles Spandau in the sum of \$17.69, being one-half of the excess of the metered rate over the former flat rate on property at 1207 Fifth avenue.

Which was read and referred to the Committee on Finance.

And on motion of Mr. Garland,

Council adjourned.

That the amendment of the Finance Committee be agreed to.

Which motion prevailed.

And the resolution, as amended in committee and agreed to by Council, was read.

Mr. Garland moved:

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dailey	Kerr
English	McArdle
Garland	Rauh
Herron (Pres.)	Robertson

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Also

Bill No. 223. Resolution authorizing the Director of the Department of Supplies to purchase, through the Adjutant General of Pennsylvania, a machine gun of the same type as those issued to machine gun companies, the City of Pittsburgh to donate same to

the Pittsburgh Battalion of the Third Regiment, and charging the same to Appropriation No. 42-D, National Guard Contingent Fund.

In Finance Committee, February 19th, 1918, read and amended by inserting preamble as shown in red, and by striking out the words "the City of Pittsburgh to donate same to the Pittsburgh Battalion of the Third Regiment," and by inserting in lieu thereof the words "which, with the consent of the City of Pittsburgh by the Mayor and the City Council, may be loaned to any machine gun company regularly organized and recognized as a company of the Reserve Militia of Pennsylvania, and which shall, at the close of the war, be returned to the City of Pittsburgh in as good repair as when loaned, natural wear and tear excepted," and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Garland moved:

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the resolution, as amended in committee and agreed to by Council, was read.

Mr. Garland moved:

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dalley	Garland
English	Herron (Pres.)
	Rauh

Noes—Messrs.

Kerr	McArdle
	Robertson

Ayes—5.

Noes—3.

And there not being two-thirds of the votes of Council in the affirmative, the resolution failed to pass finally.

Also

Bill No. 213. Resolution authorizing the issuing of a warrant for the sum of \$— in favor of Robert Doran in adjustment of his damages to his property by the improvement of Arbor street, the amount of said warrant to be charged to Appropriation No. —.

In Finance Committee, February 19th, 1918, read and amended by inserting in the blank space the amount "\$1096.00" and after the words "Appropriation No." the words "42, Contingent Fund; provided, however, the said Robert Doran shall file with the City Solicitor a re-

lease waiving any further claim for damages caused by the making of said improvement," and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Dalley moved:

That the resolution be recommended to the Committee on Finance.

Which motion prevailed.

Mr. Kerr presented:

No. 258. Report of the Committee on Public Works for February 19th, 1918, transmitting an ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation:

Bill No. 218. An ordinance entitled, "An ordinance authorizing and directing the construction of a public sewer on Hackett way, from a point about 30 feet south of Inglenook Place to the existing sewer on Nimick Place, and from a point about 30 feet south of Nimick Place to the existing sewer on McKee street, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby."

Which was read.

Mr. Kerr moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dalley	Kerr
English	McArdle
Garland	Rauh
Herron (Pres.)	Robertson

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

The Chair presented:

No. 259.

City of Pittsburgh, Penna.,

February 25th, 1918.

To the Honorable, the Council of

The City of Pittsburgh:

Gentlemen—By direction of Mayor Babcock, I herewith deliver to you Bill No. 11, being an ordinance making appropriations to pay the expenses of

conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1st, 1918, and ending December 31st, 1918; also communication approving said ordinance with the exception of certain items which are disapproved as therein set forth.

Very respectfully yours,

M. H. GOTTSCHALL,
Secretary.

No. 260.

DEPARTMENT OF LAW.

Pittsburgh, February 25, 1918.
To the Honorable, the Council of
The City of Pittsburgh:

Gentlemen—I have been informed by the Mayor's Secretary that Bill No. 11, being Appropriation Ordinance for the present fiscal year which was sent by the Mayor to your body at your meeting of February 18th, with a message disapproving certain items and parts of items and approving all other items in said bill, has been returned to the Mayor for further consideration. This action on the part of Council is not in conformity to the course of legislative procedure prescribed by the Act of May 31st, 1911, governing your body, and, is therefore wholly irregular and of no legal effect. In legal contemplation this bill, having been duly received from the Mayor by the Council within ten days from its presentation to him with a veto message, is in your body for final action on the veto. As the return of the bill by the Mayor with his accompanying message to your body was in entire accordance with the requirements of the Act of 1911, no legal action remains for Council, except to put the vetoed items on repassage, as provided by the terms of the said Act.

The Council by returning the ordinance to the Mayor for further consideration was in all probability not of the opinion that the Mayor had used a correct method when he failed to sign the ordinance at the end thereof before returning it to Council. The duties of the Mayor, as well as Council, after ordinances and resolutions have passed Council, are fully set forth in Section 10 of the Act of Assembly hereinbefore referred to. Said section, after directing what must be done before presenting a resolution or ordinance to the Mayor, provides:

"****The Mayor shall sign the said resolution or ordinance within ten days, if he approves it; but if he shall not approve it, he shall, within said time return it, with his objection, to Council, which shall, at its next meeting after said return, consider it. If, upon reconsideration, Council shall pass the ordinance or resolution over the veto of the Mayor, by a two-thirds vote of all the members thereof, it shall be a binding ordinance or

resolution of the city. It shall become effective should the Mayor fail to sign the said ordinance or resolution, or return the same to Council, with his reasons for disapproving the same, within ten days from the time said ordinance or resolution has been delivered to him by the City Clerk. The Mayor may disapprove any item or items (or part, or parts, of the same) of any bill making appropriations and the part or parts of the bill approved shall be the law; and the part or parts disapproved shall be void, unless repassed according to the rules and limitations prescribed above for the passage of resolutions and ordinances over the Mayor's veto."

In applying the proper legal rules of construction of said section with respect to appropriation ordinances, I conclude that the Mayor is directed to sign such an ordinance only if he approve it in its entirety. The Mayor having disapproved several items and parts of items and also having given his reasons therefor as required, he could not properly have signed the ordinance in the usual place and form, for such an act on his part would have indicated an approval of the entire ordinance, which was contrary to his intentions.

No authority is given to the Mayor, to on the ordinance, itself, and opposite a specific item, indicate his disapproval thereof; he, therefore, could not properly do that.

Having transmitted to Council the appropriation ordinance, accompanied by his veto (within the time specified by law), disapproving certain definite items and parts of items and giving his reasons for such disapproval, and also having over his signature approved the entire balance of said appropriation ordinance, the Mayor has complied literally and specifically with the mandate of the law in such cases made and provided.

I beg further to advise you in the premises that the message of the Mayor, which was drawn with the full approval of the Law Department, being in proper form, definitely specifying the vetoed items and parts of items, will make void all the disapproved items and parts of items unless said vetoes are overridden by action taken at your next meeting. The appropriation bill is up to Council for definite and final action.

Respectfully yours,
STEPHEN STONE,
City Solicitor.

Which were read, and on motion of
Mr. Kerr, received and filed.

And the Mayor having returned:

Bill No. 222.
City of Pittsburgh, Penna.,
February 14th, 1918.

To the Honorable, the Council of
The City of Pittsburgh:

Gentlemen—In pursuance of Section 10 of the Act approved May 31, 1911, I am returning herewith Bill No. 11, an ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1, 1918, and ending December 31, 1918, with my disapproval of the following items and parts of items, to-wit:

1010 A1 Salaries, regular employees, Division of Investigation, Council and City Clerk, \$9,510.00. I object to \$6,000.00 of this item providing salary for an Investigator for the reason that the position is unnecessary.

1014 A1 Salaries, regular employees, Mayor's Office, \$28,710.00. I object to \$1,350.00 of this item providing salary for a Messenger for the reason that the position is unnecessary.

1038 A1 Salaries, regular employees, City Architect, \$9,010.00. I object to appropriation of \$7,060.00 of this item providing salary for City Architect, Chief Draftsman and Stenographer for the following reason: I find the City has two architects, one in the Department of Public Works and a general City Architect, with insufficient work at the present time for them both to do and am of the opinion that the Architect, and staff in the Department of Public Works can do all of the City's work for this year.

1041 A1, Salaries, regular employees, Transit Commission, \$21,700.00.

1042 B Miscellaneous Services, Transit Commission, \$100.00.

1043 C Supplies, Transit Commission, \$3,000.00.

1044 F Equipment and Machinery, Transit Commission, \$200.00.

These items are disapproved for the reason that this unit has been in existence for one and one-half years and it has completed its report, which report has been reduced to typewritten form. I am opposed to this and similar commissions being needlessly continued forever. I find that the City has another activity with an appropriation of \$75,000.00 to carry on the work of regulating transportation conditions and other public utilities.

1073 A1, Salaries, regular employees, Department of Law, \$51,380.00. I object to \$1,110.00 of this amount which is set up for the salary of a Messenger, for the reason that the position is unnecessary.

1126 A1, Salaries, regular employees, Department of Public Safety, General Office, \$36,240.00. I object to \$2,220.00 of this item providing salary for two (2) Social Workers for the reason that the positions are unnecessary and can be dispensed with. The positions never have been filled and other Social Workers are ready and anxious to perform this work without cost to the City.

1389 N Maintenance Fund, Flood Commission, \$5,000.00. I object to \$2,500.00 of this item for the following reason: I am informed that it will be impossible for the Flood Commission to carry on its usual work owing to the unusual times we are in and for other reasons and that the amount remaining will keep it in existence until a more propitious time arrives for it to extend its work.

42 D M National Guard Contingent Fund, Contingent Funds, \$11,500.00. I object to \$8,000.00 of this item for the reason that the National Guard are to the front doing war duty and will probably not be home for the balance of this year. The only other military activity that this can be applied to is the Pennsylvania Militia Reserve and some similar organizations and the amount reserved is sufficient for their needs.

All items in said Bill not disapproved are hereby approved.

All of which is respectfully submitted.
E. V. BABCOCK,

Mayor.

In Council, February 18th, 1918, read and ordered returned to the Mayor for further consideration.

Which was read.

Mr. McArdle arose and said:

"Mr. President, I would like to ask the clerk a question. Is the ordinance in the same condition as it was when returned by the Mayor the first time?"

Mr. Martin (clerk) replied:

"It is in the same condition except that the Mayor's communication is now attached to the ordinance."

Mr. McArdle said:

"It was not so attached when it was returned the first time?"

Mr. Martin said:

"No, sir; the communication was a separate paper."

Mr. McArdle said:

"Mr. President, I raise the question that this is not in accordance with the opinion of the City Solicitor. This is an attempt to give this proposition some appearance of regularity. I don't think anybody who has been dealing with legislative affairs in the city government will seriously take the City Solicitor's opinion on this question. To my mind it plainly indicates one thing; it indicates that the Law Department has given to the Mayor a bad decision as to the method of procedure he should follow in submitting a veto message and disposing of a bill submitted to him for his action. After the facts were developed at the last meeting of Council that the action of the Mayor was not regular the Law Department has taken the bit in its teeth on a technical matter rather than face the

wrath of the Mayor when he returns home. In the face of the law the bill must be signed by the Mayor or it becomes a law without his signature. The Law Department attempted to make an exception on this bill, because this is the one bill that goes before the Mayor that he is allowed to dissect and act on separate items or parts of items. Because of that fact they are interpreting the law so as to relieve him of the same responsibility that attaches to the other bills. There is no bill that goes before the Mayor for his action of such vital importance as the appropriation bill, and yet he is advised by the Law Department and we are asked to accept it that he can practically play horse with the law, because the Law Department has seen fit to so interpret it. They have set aside all past decisions of the same department and all procedures of every legislative body, of which they had knowledge, and say that it can be done this way, not because of a communication vetoing certain items being attached, but by a separate communication. They had no business attaching this communication to the bill, because, forsooth, our act in sending it back, if it was irregular, ought to get back to us in the form it started on its irregular course.

"The question arises now, although this may not be the time to bring it up, as to what manner this bill is to be recorded in the ordinance books of the city; what authority the clerk will have for attaching to this reported bill a copy of the Mayor's signature. It isn't attached to the bill now. The bill has not been signed and nowhere does he attach his signature to the bill. It's got to be recorded as becoming a law without the Mayor's signature except for these few items which he vetoes. The ordinance will become a law because the Mayor has not signed it and his signature is always attested by his Secretary or a clerk in his office. If he approves an ordinance his signature is required by the law, and by virtue of the fact that he failed to sign it within ten (10) days it becomes a law without his signature. One course is open to the City Clerk, notwithstanding the opinion from the City Solicitor, that the bill has not been signed, with the exception of these vetoed items, and which therefore becomes a law without his signature."

Also

Bill No. 11. An ordinance entitled, "An ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1st, 1918, and ending December 31st, 1918."

In Council February 18th, 1918, read and ordered returned to the Mayor for further consideration.

Which was read.

And the Clerk read:

Dailey	Robertson

Noes—Messrs.	
Garland	McArdle

Ayes—6.
Noes—3.

And there being two-thirds of the votes of Council in the affirmative, the item became a law notwithstanding the objections of the Mayor.

Mr. McArdle arose and said:

"Mr. President, what I say on this item will have application to the one we just passed and to some others we will act on. I propose voting to pass this over the Mayor's veto with-

out being able to determine definitely whether the merit attaches to the Mayor's reasoning which he thinks does, and I am compelled to take this position because of the fact, as I stated at the meeting a week ago today, that the Mayor had ample opportunity, both personally in his official capacity and through his various directors to pass upon whether or not these numerous places and activities were needed. If I recall correctly in this particular place he was the one man who pointed out that he wanted this one man to perform some important work, that of City Architect. The Mayor held a number of conferences with the members of Council, each one of which we left with the understanding that we were going to supply more money than when we went into the conference. He did not at any of these conferences make one single suggestion for the reduction of any activity in the city government.

"Now, Council, upon that course proceeded to fix the tax levy, which includes the amount of money set up here and there is no action on our part that will save the taxpayers of Pittsburgh from going down in their pockets for the full amount to be paid into the City Treasury. The only net result of this is that it would create an addition to the cash balance if some remains or to lessen a deficit if a deficit is created at the end of the year. Council has taken upon itself the responsibility of providing for this activity, or continuing an activity that was already in existence. We received no recommendation from the Mayor or any of his department heads about it, it therefore seems to me we ought to allow it to stand until such time that it is clearly demonstrated to Council that there is nothing for the employees to do. This would naturally come to Council in the form of an amendment to the salary ordinance to do away with these positions and the money would be available to transfer to whatever activity or purpose the Council and Mayor decide it should be provided for. If we don't do that, as I said before, it would revert back to the treasury without any opportunity of making use of the money."

Mr. Rauh arose and said:

"Mr. President, the Mayor says that there is an architect in the Department of Public Works with a staff that can do all of the city's work for this year. The money provided for the City Architect's Office could be saved to the taxpayers of Pittsburgh. The money provided for this office could be turned over as free cash at the end of the year. For the reason that this office is not necessary this year I am going to vote to sustain the Mayor's veto."

"The Mayor also notifies us that he needs no messenger in his office. It is sinful to waste the taxpayers' money forcing an unnecessary position. I am going to vote to sustain the Mayor's veto in this also."

And on the question, "Shall the item become a law notwithstanding the objections of the Mayor, the ayes and noes were taken agreeably to law, and were:

I find that the City has another activity with an appropriation of \$75,000.00 to carry on the work of regulating transportation conditions and other public utilities."

Mr. McArdle arose and said:

"Mr. President, I want to point out the apparent lack of any understanding that is involved in this appropriation as indicated in the Mayor's veto message. The attempt to confuse the Transit Commission with the activities of the Law Department before the Public Service Commission and the courts does not speak of a very careful study of this subject on the part of the Mayor. I know that every member of Council and most all of the public, with the exception of the Mayor, understands now that the matter to which he refers as the \$75,000 appropriation is a legal proposition being fought out before the Public Service Commission and the Courts of Pennsylvania and has nothing to do with the study of the possible development of rapid transit in the City of Pittsburgh, which is a big function assigned to this Transit Commission. We were told that this subject of rapid transit ought to be studied and investigated until it is thoroughly completed and the recommendations of the Commission put into effect."

"There is an attempt to lead the public into the belief that we are trying to duplicate the activities of these two commissions. They are two different commissions and were created

for two different purposes, one in the Law Department to protect the City in its cases before the Public Service Commission and the Courts, and the Transit Commission to study and investigate and make recommendations as to the future development of rapid transit in Pittsburgh. They are different subjects and ought to be treated so."

And the Clerk read

"1126 A 1. Salaries, regular employees, Department of Public Safety, General Office, \$36,240.00. I object to \$2,200.00 of this item providing salary for two (2) Social Workers for the reason that the positions are unnecessary and can be dispensed with. The positions never have been filled and other Social Workers are ready and anxious to perform this work without cost to the city."

Mr. Garland arose and said:

"Mr. President, I wish to say on this subject that these positions were not asked for by the Department of Public Safety and when the question was put up to the department by the Finance Committee, sitting on the budget, the committee received word that the positions were not required.

There is no reason for having them. I think it is apparent to the members of Council that they are not necessary. When the matter was brought up in the committee I was not present. I intend to support the Mayor in his veto of this item and think the members of Council should join with me. There is no reason why these two women should be foisted on the city. The department has not asked for them and there is no necessity for them. I have heard no reason why they should be appointed."

Mr. McArdle arose and said:

Mr. President, I just want to call attention to the fact that when these positions were created there wasn't any question asked as to whether the department wanted them or not. Council decided to put them in there. Now, the objection has arisen from a few women who have taken it upon themselves to see that these jobs be not filled. They were successful last year, despite the fact that Council had created the positions and provided for their payment.

"The Mayor signed the bill last year creating these positions, but the department in which the positions existed did not fill them. They had no right to leave them out of the budget any more than they had the right to leave out an equal number of patrolmen that had already been provided. They are set up there as a continuation of the positions. I don't know whether they are needed or not. Possibly they could be gotten along without as could many other positions.

"No doubt the two or three women who have taken it upon themselves to see that these positions were not filled interviewed the Mayor and he, no doubt, on their representations vetoed the item. The women who object to the creation of the positions appeared before the committee and by reason of the item being included in the budget their objections did not meet with the approval of a majority of the committee.

"If these positions are to be abolished, it seems to me it ought to be done after the Mayor has had time to know what is involved in it and discuss it with Council, and then decide what is the wise thing to do."

Mr. Garland arose and said:

Mr. President, in answer to that I want to say that the former Mayor did sign an ordinance for these two positions. Not only three women, but many women protested against the filling of the positions. There were many organizations represented. They came in here and said the positions were not a necessity. They said that 50 women were engaged in this work, doing it voluntarily, without compensation. The various organizations which appeared before Council did not see the necessity of having two paid social workers. The Department had

informed us that there was no necessity for these workers.

"I am standing by the action of the budget committee. Anything I voted for in the budget committee I will vote for now. I voted for the appropriation for the Transit Commission. I agree with what Mr. McArdle has said about it and if I had gotten up to say anything I would merely have duplicated the sentiment expressed by him. In the matter of messengers I voted to put them in and I stand by my vote in committee. I voted against the Division of Investigation in committee and have again in Council.

"I say again there is no necessity for these social workers and the reason they were not appointed was because of non-necessity. It is simply forcing something in the budget."

Mr. Robertson arose and said:

"Mr. President, the fact is that when this ordinance was passed a year ago Mr. Garland voted for it after it was amended to read two instead of one at his suggestion.

"I am familiar with the work done by these workers. I have been in every police station in Pittsburgh and have seen but two social workers during all my time as Police Magistrate. During my term of office as Police Magistrate it was often necessary to send for a social worker and on these occasions it was necessary to accept the services of some charitable worker who would take the girls to some home. It was necessary for them to defray the expenses of transporting these girls to the home out of their own pocket.

"I think these two social workers are very essential and should become a part of the Department of Public Safety. I am going to vote for this item to become a law notwithstanding the objections of the Mayor."

Mr. Garland arose and said:

"Mr. President, it is true that I did support the ordinance, when first presented by Mr. Robertson. Prior to its passage a large delegation of women came in and made their statements. They stated that many women of the organizations which they represented were visiting these station houses and doing the work which these two paid social workers were to do. They convinced me that it was not necessary to have these two social workers. A man can change his mind. At that time I took Mr. Robertson's word that these women were necessary. These women came in later and said they were not necessary. The department says they are not necessary, and I think there are some members of Council who think they are not necessary."

And on the question, "Shall the item become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke	Herron (Pres.)
Dailey	McArdle
English	Robertson

Noes—Messrs.

Garland	Kerr
	Rauh

Ayes—6.

Noes—3.

And there being two-thirds of the votes of Council in the affirmative, the item became a law notwithstanding the objections of the Mayor.

And the Clerk read:

"1389 N. Maintenance Fund, Flood Commission, \$5,000.00. I object to \$2,500.00 of this item for the following reason: I am informed that it will be impossible for the Flood Commission to carry on its usual work owing to the unusual times we are in and for other reasons and that the amount remaining will keep it in existence until a more propitious time arrives for it to extend its work."

Mr. McArdle arose and said:

"Mr. President, I took it upon myself to consult Mr. Kelly, who is a leading spirit in the Flood Commission, and he told me that he had discussed this matter with the Mayor and that he had told the Mayor that it would be possible for the Flood Commission to get along with the same appropriation that it had last year. Of course, we know that it could get along if it got no appropriation from the City. The Council gave it what it asked for. The Mayor cut it in two, making it \$2,500.00. Mr. Kelly told me that it would need \$3,500.00, thus leaving \$1,500.00 of a balance.

"I am going to vote to pass this over the Mayor's veto with the understanding that it will leave \$1,500.00 available to be transferred to some other activity in the judgment of Council that should be done. And that will be agreeable to the Flood Commission, as indicated in the statement of Mr. Kelly to the Mayor. I am therefore going to vote for the whole amount."

And on the question, "Shall the item become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Garland	Robertson
Herron (Pres.)	

Ayes—9.

Noes—None.

And there being two-thirds of the votes of Council in the affirmative, the item became a law notwithstanding the objections of the Mayor.

And the Clerk read:

"42 D M. National Guard Contingent Fund, Contingent Funds, \$11.-

500.00. I object to \$8,000.00 of this item for the reason that the National Guard are to the front doing war duty and will probably not be home for the balance of this year. The only other military activity that this can be applied to is the Pennsylvania Militia Reserve and some similar organizations and the amount reserved is sufficient for their needs."

And on the question, "Shall the item become a law notwithstanding the objections of the Mayor?"

When the name of Mr. English was called, he arose and said:

"Mr. President, having voted in favor of the items which have been vetoed by the Mayor, I wish to give my reasons at this time.

"Before doing so I must express dissent from the opinion of the City Solicitor regarding the manner in which the Mayor has attempted to approve and disapprove the appropriation bill. Last year we had an opinion from City Solicitor O'Brien advising that it was proper for Mayor Armstrong to sign the entire appropriation bill and then send an accompanying letter in which he vetoed one item in the bill. This year we have an opinion from City Solicitor Stone advising that it is proper for Mayor Babcock to return the appropriation bill without any signature, but approving and disapproving in a letter accompanying the bill itself. In my opinion City Solicitor O'Brien, as well as City Solicitor Stone, have not given us correct legal advice.

"A search of the records of veto messages by former mayors confirms my personal opinion that it is the duty of the Mayor to sign the appropriation bill if he approves and part of it and on the bill itself make the notation that certain items were disapproved and would be treated in a separate veto letter. Under Section 10 of the law it plainly states that the Mayor shows his approval by his signature and I contend that that signature must appear on the appropriation bill itself and refer to the items which he has approved. The notation that certain items have been disapproved should also appear on the bill, or at least some reference that a veto message accompanies the bill. It is then very evident that the only thing before the Council would be the veto message. Under the opinions of Messrs. O'Brien and Stone we would have before us not only the items that were disapproved by the Mayor but also the approved items. It is manifestly absurd that we could give any further consideration to items which the Mayor had approved, because his approval is

the final action necessary to make the approved items a law for the ensuing year. I am forced to conclude that the present Mayor as well as former Mayor Armstrong have been misinformed.

"Regarding my reasons for voting approval of the items vetoed by the Mayor, I make the following statement:

"I favor the item of Investigator for the reason that Council has no separate check of its own on the activities or work of the thousands of employees working for the city. Every member of Council knows full well that we cannot obtain the services of any employee owing to the fact that most of the employees consider their allegiance is to the head of the administration. Consequently it is necessary, if Council is to have any check whatever upon the operations of the city business, that such a check be within the Council's own hand. Certain things transpired during the administration of Mayor Armstrong that were not in the interest of the taxpayers. I am informed that Mr. Babcock is familiar with some of them. I therefore deem it my duty to do everything in my power to avoid a repetition in this or future administrations. I believe the Council can accomplish this by having a competent investigator attend to the matters for the Council or any member of the Council.

"On the item of messenger for the Mayor's Office, I would say that the Mayor has not been in office long enough to know whether or not he needed a messenger. Consequently I think there must be some personal aversion to the messenger. The action of the Mayor on this item bears evidence of petty personality. I am frank to say that he should not allow this to interfere with the successful conduct of his office.

"In the matter of the City Architect's Office, we know that there are certain things to be done by some person in the employ of the City in the way of architectural designing and planning, and we felt in placing this item in the budget it was done for the best interest of the City. It was passed in committee by a sufficient number of votes. This architect has been in the employ of the City for a long time and has had considerable experience in the preparing of plans and specifications for the erection of buildings. The City has at its disposal a real architect, a man who knows how to draw plans and specifications and to take bids and get the contractors to do the work in a satisfactory manner. When Mayor Babcock was a member of Council he approved the selection of Mr. Brennan to the position of City Architect. Consequently I cannot find any reasonable excuse in the statement of the Mayor that there is a man in the Department of Public Works who can do this work. We know that the Mayor has reference to is a designing draftsman, a man who was appointed to prepare plans

and specifications for bridge portals and such ornamental structures as the fountain in Schenley Park which is to be erected in honor of Mrs. Mary Schenley. The matter of public works is a different subject than the erection of buildings and we must have an experienced architect to do this work. Consequently I cannot agree with the Mayor that the position of City Architect is not necessary.

"In the matter of the Transit Commission it seems to me that the Mayor comes far short of understanding the real needs of the City of Pittsburgh. Where would this City be in the matter of the miserable service of the Pittsburgh Railways Company if we did not have a well-defined plan for attacking the matter of transportation service. I say to you, Mr. President, that this Council in the last three years has done great work in its efforts to secure better street car service for Pittsburgh. In the initiation of a Transit Commission we have proposed a remedy which ought to be put into effect for the elimination of the miserable condition now existing in the matter of street car transportation. Every progressive city has recognized the necessity of having a competent force of engineers whose business is to check up the operations of the street car companies. A division of transit or transportation should be installed in one of the city departments, carrying enough employees to check as well as checkmate not only the street railways or surface lines, but also the steam railroad companies. Right now there is a crying need for a belt line to connect all of the railroads of the city; and yet there is no particular division or office in the City of Pittsburgh which has control over the study of this important belt line. As you all know the railroad companies charge from \$5.00 to \$10.00 for transferring a freight car, from the Baltimore & Ohio Railroad to the Pennsylvania Railroad. If we had a belt line this enormous cost of switching would be eliminated, and the manufacturers, wholesalers, retailers and consumers in Pittsburgh would receive the benefit.

"The trouble has been in the past that we have not spent enough of the public's money in the proper advertising of this function. If we would insert an advertisement in the newspapers telling the people what we are doing with their money there would not be any question but what the public would unanimously vote that this item is a good thing for the City of Pittsburgh. No member of Council should hesitate to vote for this item in the budget notwithstanding the veto of the Mayor.

"In the matter of the messenger in the Law Department applies the same statement as regards the messenger in the Mayor's Office, applies to this position. The City Solicitor has not been in office long enough to know whether or not he needs a messenger.

"In the matter of the social workers in the Department of Public Safety, I

would say that the Mayor has it within his province to appoint or not appoint these social workers. It is clearly a matter for him to determine through his Department of Public Safety. I want to say from my own personal knowledge of conditions which prevailed during the last administration that the two social workers will not begin to do the work of reclaiming some of the unfortunate victims of the panhandling and manhandling of the Department of Public Safety.

"In the matter of the Flood Commission, I think we can all accept the statement made by Mr. McArdle after his conversation with Mr. Kelly of the Flood Commission.

"The matter of the conservation of the flood waters will result in a benefit to the community. The elimination of the dangers from floods in the Pittsburgh district and the elimination of the damage resulting therefrom is worth to the citizens of Pittsburgh many, many times the \$5,000.00 which it appropriates for this purpose. The amount we appropriate will bring many returns if the plans of the Commission are put into operation.

"The matter of the item of \$8,000 for the National Guard: it seems to me that if there is one thing we can do to lighten the hearts of the boys of the National Guard who are at the front—they may be in camps in this country; they may be on the firing line in Flanders, but wherever they are, it seems to me little for this Council and the Mayor to set up \$8,000.00 as an evidence that the City as a corporation, that all of the people through their duly elected representatives are behind our National Guard as well as behind our National Army. Suppose there is no call for any money from this appropriation, then no harm will come. The money cannot run away unless the Council approves it by vouchers in the Finance Committee.

"In conclusion I think the Mayor has acted unfairly to the members of Council. I want to remind the members of Council that he was before us on several occasions. Not only that, but prior to taking the oath of office as Mayor a copy of the budget was sent to him with a request that he communicate with the budget committee and give his views as to any reductions or alterations in the estimates of the departments. He did not do this, nor did he after taking the oath of office make one single suggestion for reducing the budget estimates. On the contrary, when he wanted anything such as extra policemen, he summoned us to meet in his office and also appeared before our committee in public. He did this also in the matter of an additional stenographer for his office. He did the same thing in regard to the Assistant Director of the Department of Public Safety; he did the same thing when he wanted extra guards for the water department. All these things were asked for by the Mayor and granted. But not in one single in-

stance did he appear before our committee and suggest the elimination of the items which he now vetoes out of the millions of dollars appropriated. The items he vetoes are small in comparison with the amounts set up in the appropriation ordinance. None of these items that he has vetoed will effect the tax levy. In view of all these circumstances I think Mayor Babcock has not been fair to the Council, and I can only conclude that it was through bad advice from some of his friends or lack of knowledge that he vetoed any or all of these items."

Ayes—6.

Noes—3.

And there being two-thirds of the votes of Council in the affirmative, the item became a law notwithstanding the objections of the Mayor.

Mr. English presented:

No. 261. Resolved, That Council, notwithstanding the opinion of the City Solicitor, hereby expresses its approval of all items in Bill No. 11 not specifically referred to in the Mayor's Veto message of February 14th, 1918.

MOTIONS AND RESOLUTIONS.

Mr. Rauh presented:

No. 311. Whereas, The Department of Law, in connection with preparing and prosecuting the litigation against public service companies has employed certain foreign experts; and

Whereas, During the period from June 1, 1917, to January 1, 1918, Bion J. Arnold was employed for 4 days at \$250.00 per day, or a total cost of \$1,000.00; J. B. Bibbens was employed for 37 1-2 days at \$50.00 per day, plus \$339.61 for sundry expenses, or a total of \$2,214.61; H. C. Lummis was employed for 2 days at \$50.00 per day, plus \$43.43 for expenses, or a total of \$143.43; D. B. Rush was employed for 82 days at \$25.00 per day, plus \$752.14 for expenses, or a total cost of \$2802.14; C. J. Kastrup was employed for 3 days at \$15.00 per day, or a total cost of \$45.00, and certain sundry local assistants were employed at a total cost of \$2168.00; and the total cost of the above expert services amounts to \$8,373.18; now, therefore, be it

Resolved, That the Department of Law be requested to advise Council as to how long it will be necessary to continue the services of such foreign experts.

Which was read.

Mr. English moved:

That the resolution be referred to the Committee on Finance, and Mr. C. K. Robinson asked to appear before the committee to explain about the resolution.

Mr. Rauh arose and said:

"Mr. President, I presented the resolution for the reason that I want to know how much longer the Law Department is going to employ foreign experts. Everybody knows that I am not here defending the Pittsburgh Railways Company. I don't know a thing about their affairs in any way, shape or manner. This is a very simple resolution. The resolution winds up this way: 'Resolved, That the Department of Law be requested to advise Council as to how long it will be necessary to continue the services of such foreign experts.'

"I contend, Mr. President, that we have men in Pittsburgh who can do this work who do not get \$250.00 a day, \$50.00 a day, or anything like it. I have consistently fought these foreign experts on the ground that we were paying too much for this kind of service.

"My idea in presenting this resolution is to find out from the Law Department how long it is necessary to have these high-priced men do this work. I know if we don't look into these matters frequently these high-priced people are kept on the payroll indefinitely. We have had this happen time and time again."

Which was read.

And the question recurring on the motion, as offered by Mr. English, Mr. Rauh demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Burke
Dailey

English
Rauh
Robertson

Noes—Messrs.
Garland

The Chair presented:

No. 348.

MAYOR'S OFFICE,

Pittsburgh, March 6, 1918.

To the Honorable, the Council of

The City of Pittsburgh:

Gentlemen—Under date of April 23,

1917, my predecessor in office addressed a communication to the Council, advising it that under the powers vested in the Mayor by Section 1, Article 3 of the Charter Act of 1901, relating to emergencies, he had appointed fifty (50) Special Patrolmen, (subsequently increased to fifty-two (52), to act as guards on and at the various water plants of the city at the regular compensation allowed first-year patrolmen; and in said communication, further requested your honorable body to immediately provide the proper appropriation for the payment of said patrolmen.

In response to said advice and request, Council, by ordinance appropriated the sum of \$30,196.81 for the payment of said Special Patrolmen for the balance of the fiscal year, 1917.

I am advised that no provision has been made in the budget for further payment of these officers.

As the war with Germany still continues, and is likely to continue during the entire present year, I consider that existing conditions and the dangers arising therefrom of depredations and injuries to our water basins and system of water supply demand the retention of these special patrolmen for the purpose of guarding and protecting these city properties of immense value and importance.

I, therefore, request the Council to appropriate the necessary sum for the payment of these special officers for the entire fiscal year, 1918, to-wit:—the sum of \$56,242.80.

Respectfully yours,

E. V. BABCOCK,

Mayor.

Mr. McArdle also presented:

No. 366.

City of Pittsburgh, Pennsylvania,
Department of Law,

March 11, 1918.

Committee on Public Service and Surveys:

Gentlemen—On Bill No. 269, being an ordinance repealing Ordinance No. 146, entitled, "An ordinance locating Shakespeare street, from Shady avenue to Denniston avenue," approved October 1, 1888, I beg to report as follows:

Shakespeare street was originally laid out and dedicated at a width of thirty (30) feet in the Plan of Henry Landwehr Property in 1882, and a portion of it was laid out at a width of thirty (30) feet in J. G. Davis' Orchard Addition Plan.

The City of Pittsburgh passed an ordinance, which was duly approved October 1, 1888, relocating Shakespeare street at a width of forty (40) feet. This ordinance was repealed by an ordinance approved March 2, 1896, relocating Shakespeare street at a width of thirty-five (35) feet. This ordinance repealed the ordinance of October 1, 1888.

An ordinance repealing the relocating ordinance of March 2, 1896, was duly enacted and approved January 18, 1899. This ordinance, describing the ordinance of January 18, 1899, was a repealing enactment of the ordinance of March 2, 1896.

The earlier ordinance of October 1, 1888, under which Shakespeare street was located at a width of forty (40) feet, was repealed by the ordinance of March 2, 1896, and was not revived by the ordinance of January 18, 1899, repealing the relocating ordinance of March 2, 1896.

By legislative enactments under the exercise of the arbitrary power of eminent domain, the city had relinquished its hold on the location of Shakespeare street at a width of forty (40) feet, as fixed by the lines of the ordinance of October 1, 1888. The ordinance of October 1, 1888, is no longer in force, and the rights that the city legally enjoyed under it fell when it was repealed by the ordinance of March 2, 1896.

Shakespeare street is now a street thirty (30) feet in width, and the titles to the properties abutting thereon are not affected by the ordinance of October 1, 1888.

The City of Pittsburgh will lose nothing by passing Bill No. 269, and by its passage all question as to the

clouding of titles will be removed forever, and title examiners will be relieved from passing upon the legal effect of the various ordinances enacted and approved by the City of Pittsburgh in relation to Shakespeare street. Respectfully submitted,

STEPHEN STONE,
City Solicitor.

Which was read, and on motion of Mr. McArdle, received and filed, and ordered printed in full in the record.

Mr. McArdle moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—9.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Robertson presented:

No. 367. Report of the Committee on Filtration and Water for March 7th, 1918, transmitting a resolution to Council.

Which was read, received and filed.

Also, with an affirmative recommendation:

Bill No. 290. Resolution authorizing the issuing of a warrant in favor of John F. Casey Company for \$4,194.26, for labor furnished the Bureau of Water at Pumping Stations during the month of January, 1918, and charging same to Account No. 1653, "Wages Temporary," Mechanical Division.

Bureau of Water.

Which was read.

Mr. Robertson moved:

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Burke	Herron (Pres.)
Dailey	Kerr
English	McArdle
Garland	Rauh
	Robertson

Ayes—9.

Noes—None.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

MOTIONS AND RESOLUTIONS.

Mr. Robertson presented:

No. 368.

Whereas, The Secretary of War has given orders to postpone the raising of the bridges over the Allegheny and Monongahela rivers until the close of the war; and

MAYOR'S OFFICE.

Pittsburgh, March 16th, 1918.

To the Honorable, the Council
of the City of Pittsburgh.

Gentlemen—I hereby appoint the fol-

lowing gentlemen as members of the
Sinking Fund Commission:

George W. Snaman,
W. A. Nimick,
J. Harry Letsche,
F. R. Babcock,
William Price.

Reg to advise that I have investi-
gated to some extent the work of the
Commission and find that it has been
well done and I have reappointed the
old members of the Commission and
nominated Mr. William Price, a promi-
nent banker and one of Pittsburgh's
best citizens, to succeed Mr. James J.

Donnell, the deceased and highly respected member of the Commission. The responsibilities of the members of this Commission are great. They do not receive pay for their services and are to be commended, under the circumstances, for the way they perform their duty.

Very respectfully yours,
E. V. Babcock,
Mayor.

No. 397

City of Pittsburgh, Penna.,
March 16, 1918.

To the Honorable, The Council
of the City of Pittsburgh:

Gentlemen—I return herewith Bill No. 239, an ordinance "Creating a Division in the Office of the City Clerk to be known as the 'Division of Investigation,' and providing for the appointment of the employees thereof," without my approval for the following reasons:

First: Every unnecessary position created in the City Government is a waste of taxpayers' money, and I have a very strong conviction based upon observation and personal experience that these positions are not necessary.

The Charter Act, the Councilmanic Act of 1911 and various special Acts of Assembly give to the Council the fullest powers of acquiring information and knowledge in all details of municipal operations. The Council can call upon the Mayor, the head of any department and of any bureau or division for a report upon any subject concerning the conduct of such department, bureau or division. If not satisfied with the reports obtained, investigation can be instituted and a searching inquiry made by the Council on the subject and information obtained from every source. With these facilities and opportunities for advising themselves on all matters requiring legislative action and with a salary adequate to compensate for their full time, there is no justification for creating a special agency of this kind, to do what the Councilmen can and should do themselves.

Second: While the fifth section of the Act of May 23, 1911, creating the Council, does authorize that body by ordinance to appoint such employees as may be necessary for the discharge of its duties, the legislature certainly did not contemplate the creation of expensive annex such as this, to perform duties which properly belong to the members themselves.

Doubtless, in view of the fact that the office of City Clerk, as created by the Act of March 7, 1873, was preserved by the Act of 1911, and thereby the Council had a full equipment for all the necessary functions of a clerk's office, it was intended by the terms of said fifth section to permit Council to add in the way of further employment possibly a messenger and pages for their service.

As the office of City Clerk is a statutory office with the powers of the clerk largely defined in the Act itself, there is considerable doubt of the right of Council to impose upon said clerk powers of appointment and additional functions not necessarily connected with the duties of the office. Further this ordinance, even assuming the Council's right to create the positions, invests the City Clerk with the power of an important appointment or appointments, and it is very questionable whether such delegation is a legal execution of the power conferred by the fifth section of the Act of 1911.

Respectfully yours,
E. V. Babcock,
Mayor.

Which was read, and on motion of Mr. Kerr, received and filed.

Mr. English arose and said:

"Mr. President, I desire to have placed in the record as my remarks this editorial from The Gazette Times of Thursday, March 14, 1918:

MAKE IT A REAL MORALS COURT.

A police court of morals organized and manned with a view to bringing under sympathetic reformatory influences certain classes of offenders not yet become hardened criminals would be a good thing for Pittsburgh. That branch of the County Court which deals with juvenile delinquents and domestic relations has blazed a trail clearly indicating the individual and community benefits to be derived from enlightened treatment of the cases within its jurisdiction. It was popularly supposed when Councilman P. J. McArdle introduced an ordinance for a morals court that the object was to remove from the demoralizing atmosphere of existing police courts the classes of delinquents susceptible of reformation through application of proved methods of humane treatment. The basic theory upon which such an agency would be organized is that it were better for society to reclaim those who can be saved. Where it has been put in practice the theory has proved correct and invaluable. Therefore, if we are to have a morals court it is important that the subject be very care-

fully considered in advance; that the scope of its duties be prescribed with an eye single to the great object to be achieved. A serviceable morals court would be as different from the police courts we know as day is from night.

The so-called morals court provided for in the pending ordinances would be a cheat. It would have jurisdiction in all cases involving charges against minors, against keepers of disorderly houses and speakeasies and illegal liquor sellers. The two classes of offenders last named should be eliminated. There can be no compromising with them under the statutes. Their cases ought never to be disposed of summarily. They should be tried before juries and punished as provided by law in accordance with the magnitude of their crimes. The same might be said of keepers of disorderly houses, were it not that in their cases others properly subject to the system which a morals court should practice usually are involved. But if illegal liquor sellers are to be taken into the morals court the chief object of erecting such an agency will be defeated. Beside that, Council will stultify itself in that it will have simply added another police court after having by formal action declared five enough.

"Mr. President, this editorial expresses in fewer words than I could, what was in my mind, when I opposed the creation of the Morals Court at this time. I think, perhaps, after we get through discussing the five police magistrates (whose confirmations have not yet been approved by Council) we may find some things for the Morals Court to do, but until that time I must agree with that editor.

"Certainly no one can disagree with him that illegal liquor selling or disorderly house and bawdy house cases should be disposed of summarily. I agree with the editor that these cases should be held for the court to be tried before juries and punished as provided by law in accordance with the magnitude of the offense. We had the spectacle last year of 101 persons charged with keeping disorderly houses on the North Side being summarily discharged by the presiding magistrate. In this case it was shown that the persons involved were manhandled, aided and abetted by the police department and the police magistrate. Instead of the magistrate holding the cases over for court where the evidence warranted it the cases were dismissed, with the exception of possibly five to ten cases which were held over for court.

"That is one reason why we have held up the appointment of the police magistrates and no doubt was the principal reason for their rejection. The mayor has not submitted new names of persons to act as police magistrates, and until that is done it would seem wise on the part of Council to withhold action on this ordinance. We should see what the Mayor does in

the matter of the appointment of the five police magistrates before we add another position at \$4,000 a year. This ordinance does not set up the qualifications for this magistrate and in order to make myself plain I will speak on the two bills now pending before Council, that is, the bill requiring police officers to make charges in certain cases before the Morals Court. I think it would be better to lay these ordinances on the table until we dispose of the appointment of the five magistrates.

"You will recall that I attempted by motion to have action on these ordinances postponed until we disposed of the new police magistrates.

"I say that we may have to have the Morals Court and it might be necessary for this Council to step in and interfere with the administration of the police department before one or four years are over. We did have to interfere with the last administration during the last year and an impeachment resolution was presented to Council. I hope such interference on the part of Council will not be necessary during this administration.

"At that time we did not have an Assistant Director in the Department of Public Safety. The duty of the new Assistant Director is to keep in touch with the Magistrate's Courts and see if the officers are appearing against the prisoners brought before these courts, and to see if the magistrate is leaning toward the offender in a political way or whether he is administering the law and seeing that justice is done all parties. This Assistant Director was sworn into office on last Saturday. I say hold this Morals Court ordinance in abeyance until we get the names of the five police magistrates. They may be the right kind of men. I hope they will be and that it will be my pleasure to vote for all of them. If the Mayor does not submit the names of new magistrates we should compel him by mandamus proceedings. I hope the other members of Council see this in the light I see it."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

No. 403.

DEPARTMENT OF LAW,

City of Pittsburgh, Penna.,

March 15, 1918.

To the Honorable, the Council of
The City of Pittsburgh:

Gentlemen—In reply to your inquiry as to whether or not the passage of Bill No. 312, an ordinance authorizing the Mayor and the Director of the Department of Public Works to enter into an agreement with the Pittsburgh and Lake Erie Railroad authorizing the company to enter upon Water street for the purpose of laying tracks, etc., we beg to say:

That in our opinion, neither the elimination of the rent clause nor the passing of this ordinance in its present form, will in any manner prejudice the rights of the city in and to Water street, or will it prejudice the city's right in the suit now pending in the Court of Common Pleas for the establishment of Water street as a public highway of the city.

The ordinance specifically recites that the agreement with the railroad shall in no wise prejudice the city's right in the premises.

Respectfully yours,

B. J. JARRETT,

Assistant City Solicitor.

STEPHEN STONE,

City Solicitor.

Which was read, and on motion of Mr. McArdle, received and filed and made part of the record.

Mr. English arose and said:

"Mr. President, I think the Council will make a mistake if they pass the ordinance the way it has been

amended notwithstanding the communication from the City Solicitor in which he states that the bill as drawn is all right, and that the rights of the city are not prejudiced in any manner whatsoever. We have on the other hand Attorney Shaw, representing the Pittsburgh & Lake Erie Railroad, who gives us exactly an opposite opinion as far as his client the Railroad is concerned.

"Mr. President, I respectfully call attention to the reason which has influenced the Council in its policy of instituting suits in the courts against the Pittsburgh & Lake Erie Railroad and other Corporations now using wharf property. The only purpose of Council was to reclaim wharf property for the benefit of all the people of Pittsburgh, regardless of any and all corporations to the end that the city's rights may be established and that all wharf property be made to bring in some income to the City of Pittsburgh and that persons who were unlawfully occupying city streets be made to pay a proper rental.

"Now, this Council by a majority vote withheld approval of the present City Solicitor, Mr. Stone, until he gave us satisfactory assurances in the matter of wharf litigation as well as public utility litigation. Since Mr. Stone decided to keep Mr. Jarrett as the city's attorney in the wharf litigation, the City has won this particular case against the Pittsburgh & Lake Erie Railroad. The Railroad Company first attempted to get an injunction to prevent the City from exercising ownership of this property. They wanted to put down their tracks and they did not ask permission of the city, but went to court to get permission; in other words, to override the city's right. The court denied that injunction. Judge Evans rendering the opinion. Then followed the trial of the case and Judge Miller rendered an opinion in favor of the city.

"In other words, Mr. President, by decision of the court the City is the owner of this wharf property and the Lake Erie Railroad is a squatter on that property.

"Now, the Lake Erie Railroad comes before the Council and plainly tells the Council that by inserting the rental clause in the ordinance the Lake Erie's case is prejudiced. The City's special attorney, Mr. Jarrett, sent to the Council from the Law Department this ordinance containing a clause stipulating that the City should exact a rental until such time as the case has been decided by the Supreme Court.

"Now, I will submit that any member of Council ought to know and I am surprised Mr. Stone, the head of the City Law Department does not say that it is absolutely unnecessary to make an agreement with any property owner to pay taxes upon his property. To my mind it is the worst kind of bunk to insert in the ordinance that the Pittsburgh and Lake Erie

Railroad Company should pay taxes on the property. It is absolutely unnecessary for this reason: If the Railroad Company owns the property and refuses to pay the taxes the City by authority given it under the Acts of Assembly will file a lien against it and take it over and can then sell it at Sheriff's sale.

"If the Lake Erie Railroad Company does not own the property the City should not expect to receive tax money from the Railroad Company. On the other hand, if the City owns the property it should require the Railroad Company to pay rent and not taxes.

"You will recall that Mr. Shaw said when before committee that if you put in the ordinance the rental clause you are prejudicing the rights of the Lake Erie Railroad. I say we are not concerned with any prejudices one way or the other. But if the Railroad Company's rights are prejudiced by putting the rental clause in, then I say by the same token, using Mr. Shaw's argument, that if you do not put the rental clause in it prejudices the case of the City of Pittsburgh, whose ownership is disputed. We should not give the Lake Erie the victory in Council, which the City won in the courts after an expensive trial. Why go to the extreme of expensive litigation if we tacitly agree to the Lake Erie's ownership which is acknowledged in this ordinance. We actually agree that they own the property by writing the tax clause in the ordinance and I say we should not do it.

"It would be much better for us to refuse to make any agreement with this company and use one of the clauses in this agreement, that 'under the present traffic emergency it will be helpful to the successful prosecution of the war to allow the Pittsburgh and Lake Erie Railroad Company to construct tracks upon said property.' I say that as patriotic citizens of this country we should pass a resolution turning the property over to the government for the period of the war and keep the Lake Erie Railroad out of it. That is the thing to do, in my estimation, or insert a rental clause and cut out the tax clause."

Mr. McARDLE arose and said:

"Mr. President, I want to point out this, that Mr. Shaw never presented the proposition as it is presented to us here. What we are interested in is litigation between the Lake Erie Railroad Company and the City of Pittsburgh, and Mr. Shaw in discussing that litigation never said that the introduction of a provision into this ordinance for the payment of rent would jeopardize the interests of the Pittsburgh and Lake Erie Railroad Company in its litigation with the City of Pittsburgh. He made it quite clear that his interest was in possible litigation that they must engage in after the city had definitely been in control of this property. While it might

be good business or bad, there is nothing unusual in this proposition, and we are fortified by the judgment of the Law Department, particularly by the very man that Council thought was the best equipped to pass upon how the interests of the city in the wharf cases could be protected, and he has said that they are not jeopardized by the passage of this ordinance and there could not be in the light of that, unless they be mistaken, and it would not overcome his mistake to charge a rental. There cannot be anything in it except a proposition to get more money during the life of this agreement. And Council loses nothing as far as its policy is concerned, because it has gone on with that policy in other cases.

"The rights given under this ordinance are merely temporary, during the life of which the Pittsburgh and Lake Erie Railroad Company could not profit by it financially, because of the conditions laid down by the government in assuming control of all railroads, they being paid a fixed sum on their business."

Mr. Rauh arose and said:

"Mr. President, I wish to say that the attorney (Mr. Jarrett) who won the case for the city against the Pittsburgh and Lake Erie Railroad Company is the attorney in this case."

Mr. Burke arose and said:

"Mr. President, I followed the advice of City Solicitor Jarrett when this bill was before the committee and I am doing the same thing now. He advised Council that the granting of this temporary right would not jeopardize the city's rights to this property. Therefore, I propose to vote for the ordinance."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Burke	Kerr
Dalley	Rauh
Garland	McArdle
Herron (Pres.)	Robertson

Noes—Mr. English.

Ayes—8.

Noes—1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 339. An ordinance entitled, "An ordinance vacating Cantee street, from Second avenue to the southerly line of Hike way; Hike way, from Cantee street to Brady street,

and an unnamed 10-foot way, from Brady street eastwardly for the distance of 77.635 feet, in the Fourth ward of the City of Pittsburgh."

Which was read, and on motion of Mr. Burke, recommitted to the Committee on Public Service and Surveys.

Also

Bill No. 340. An ordinance entitled, "An ordinance accepting the dedication of certain property in the Fourth ward of the City of Pittsburgh, for public use for highway purposes, opening and naming the same Cantee way, and establishing the grade thereon."

Which was read, and on motion of Mr. Burke, recommitted to the Committee on Public Service and Surveys.

MOTIONS AND RESOLUTIONS.

Mr. Garland presented:

No. 404. Whereas, Congress has passed what is generally known as the "Daylight Saving Bill," therefore, be it

Resolved, That the Mayor be and he is hereby requested to give reasonable notice and to issue at the proper time a proclamation to the people of Pittsburgh calling their attention to the fact that at a certain time, as provided in the Act, all clocks and watches shall be set forward one hour.

Which was read.

Mr. Garland moved:

The adoption of the resolution.

Which motion prevailed.

Mr. English presented:

No. 405. Resolved, That His Honor, the Mayor, be advised that Council expects him to submit the names of Police Magistrates without any further delay.

Which was read.

Mr. English moved:

The adoption of the resolution.

Which motion prevailed.

Mr. English presented:

No. 406. Resolved, That Mr. E. J. Martin, the City Clerk, be and he is hereby directed to appoint Franklin P. Booth as Investigator in the Division of Investigation, City Clerk's Office, as provided in section 5 of the 1918 Salary Ordinance, No. 24; and be it further

Resolved, That appointments to the other positions in the Division of Investigation, namely, Assistant Investigator and Stenographer-Clerk, be postponed until the Investigator has had sufficient time to make a report to Council regarding these other positions.

Which was read.

Mr. Garland moved:

To amend the resolution by striking out in the first section thereof the word "directed" and by inserting

in lieu thereof the word "requested."
Which motion prevailed.

Mr. Garland moved:

To amend the resolution by striking out the following: "Resolved, That appointments to the other positions in the Division of Investigation, namely, Assistant Investigator and Stenographer-Clerk, be postponed until the Investigator has had sufficient time to make a report to Council regarding these other positions," and by inserting in lieu thereof the following: "Resolved, That it is the sense of Council that the Clerk be requested to name P. P. Shevlin as Assistant Investigator."

Mr. English arose and said:

"Mr. President, I think it comes with very bad grace for the gentleman to make this motion when he consistently and persistently fought this bill. We all know that the administration tried to impress upon the public that the Council in the passage of this bill was to make trouble for the new administration. I am confident that the passage of this bill will help rather than hinder the administration, but certain people in this Council have said that this ordinance was introduced for the purpose of making trouble for the administration. I say it is not. Certain people have been opposed to the hiring of high priced investigators and when the ordinance was vetoed by the Mayor they voted to sustain the veto of the Mayor. By their action they signified that they did not want any position created for the use of the Council. They did not think it was necessary for Council to have an investigator.

"Now, I think it comes with very bad grace from such person or persons to be parties to underhand deals as to the persons Council should employ. The gentleman consistently fought the passage of this bill and on every occasion voted against it. He now expects to dictate to Council who shall be placed in one of these positions. This is simply a political move of his—a little skulduggery, in other words.

"I want to pay my respects to some of the gentlemen who have openly opposed Mr. Shevlin many, many times.

"Mr. Shevlin has been at the head of the Efficiency Division of the Council for over a year and in all that time the men who are now so anxious to take care of him not only were not interested in seeing that Mr. Shevlin made any reports, but, in my estimation, were anxious that he should not make any reports. This is no reflection on Mr. Shevlin, but it is a serious reflection on those members of Council who are now so anxious to do something for Mr. Shevlin. I have nothing against Mr. Shevlin, but I do say that the Chief Investigator should be given an opportunity to look over the field and then make recommendations to the Council. Since you have had the service of Mr. Shevlin for over a year and never availed yourselves of those services as

far as the records of Council or any of its committees are concerned, why get in such a hurry to appoint Mr. Shevlin to this place? In any event the skulduggery that is pulled off here today must come to light sooner or later and, in my estimation, it will not be to the credit of any of the men concerned in this transaction.

"When Mr. Levy was at the head of the Efficiency Division he brought in many reports to Council, which were laid on the table by members of Council who were afraid to act on them.

"I am opposed to this motion for the reason that I believe the appointment of the Assistant Investigator should be withheld until the Chief Investigator has had time to look into the matter. It might be that he has some idea as to who should be appointed to this position."

Mr. Garland arose and said:

"Mr. President, the gentleman said that I had no right to make a motion to amend this resolution. You will agree with me that I have that right."

Mr. English arose and said:

"Mr. President, the gentleman does not speak the truth when he charges me with saying that he had no right to make a motion or amendment to my resolution. I emphatically deny that statement particularly as I did not say any such thing. As a member of this Council the gentleman has the right to make any amendment or motion that he cares to make. What I did say and what I repeat with emphasis is this, that it comes with very poor grace for any man or men who fought this measure consistently when the appropriation was originally made, who voted against the ordinance on its original passage and who again voted against the ordinance after the Mayor had vetoed it, to attempt at this late date to force his views on the other members of Council who are responsible for these positions. The gentleman may not see this at this time, but when he thinks the matter over quietly and calmly at his own fireside he will remember that he has not acted fairly in this matter. I have no hesitancy in saying that actions of this kind will rise to rebuke men who indulge in such petty, foggy skulduggery."

Mr. Raub arose and said:

"Mr. President, I move that this resolution be referred to the proper committee."

Mr. Garland arose and said:

"Mr. President, I am within my rights in making this motion, and I have a perfect right to be for whom I care. It is a well known fact that I was opposed to the creation of the positions. The positions are now created and if Council is going to take it upon itself to say who shall hold the

positions I have a perfect right to make my motion."

Mr. McArdle arose and said:

"Mr. President, I want to oppose both the amendment and the original motion. Speaking of things that come with bad grace I don't know that I ever witnessed anything in my career as a member of Council that came as near meeting that suggestion as this motion and the pending amendment.

"Section two of the ordinance says that 'the City Clerk shall be and he is hereby authorized and empowered to appoint the number of employees at salaries set up in Section 5 of Salary Bill No. 24, etc.' Now, what does this motion and amendment mean? It means the repeal of that section, and it means the very thing that has caused more criticism to be aimed at heads of departments and superintendents of bureaus in this Council than any one thing brought in contact with it—the usurpation of power on the part of people who had some power over those whose power they were usurping. If the sponsors of this bill wanted Council to select the men why didn't they say so? Why didn't they provide by law that Council should elect the investigator and that Council should elect the other man.

"Now, we have passed a law giving power to the City Clerk to fill certain positions which that law creates, and now we propose to nullify that law which has created these positions by taking out of the City Clerk's hand the power given to him by the ordinance, and making a figurehead out of him after giving him the power to make the appointments.

"Now, if this is where this belongs and it is such an important and progressive measure, why not leave it with the judgment of the man who was given the power under the ordinance to make the appointments. If he wants the judgment of the members of Council as to whom he wants to appoint let him get it.

"It is a complete reversal of the former action and it takes a directing motion to the City Clerk, who incidentally comes before the Council in a few weeks for re-election, to do something without even asking him whether that is his notion as to what should be done. If we pass either the amendment or the motion as originally presented we ought never again criticize the head of a department, the director, for having submitted to the will of the Mayor who appoints him and we ought not to criticize any man serving under any director who does something for him who holds the destiny of his job in his hand. I want to say that I shall not vote upon this resolution because I believe it has no place in this body."

Mr. Garland arose and said:

"Mr. President, on the original motion I think the word should be

request instead of direct. I think Mr. McArdle is entirely right on what he says. However, if Council is going to take upon itself the power of naming the appointees, I move that the Clerk be requested by the members of Council to favorably consider the appointment of Peter P. Shevlin to the position of Assistant Investigator."

Mr. English arose and said:

"Mr. President, we might just as well have a test vote now as at any other time. There is no attempt in this resolution to take any power or authority from the City Clerk. The gentleman who makes such a ridiculous charge is merely trying to throw dust. Every one present, including the newspaper men, know that the City Clerk was never consulted about the appropriation for the office of investigator, as to whether or not he wanted such positions attached to the office of City Clerk; consequently the City Clerk should not be offended or worried as to who is placed in these positions.

"The purpose of this motion is to relieve the City Clerk of any and all responsibility in the matter. As far as the word to 'direct' the City Clerk to make certain appointments is concerned, I will cheerfully change it to the word 'request' if that will help matters any. As a matter of fact I had written the word request originally, but at the suggestion of another member of Council I changed it to the word 'direct,' so that the City Clerk would be relieved of any responsibility in the matter."

And the question recurring upon the motion, the Chair ordered a call of the ayes and noes, and the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	Kerr
Bailey	Rauh
Garland	Robertson

Noes—Mr. English.

(Messrs. Herron (Pres.) and McArdle not voting.)

When the name of Mr. English was called, he arose and said:

"Mr. President, I vote NO on this amendment naming Mr. Shevlin as Assistant Investigator. My reason is because it opposes and reverses my resolution to defer appointment of an assistant until the Chief Investigator has had enough time at the new work to bring in a report to Council."

Ayes—0.

Noes—1.

And a majority of the votes being in the affirmative, the motion prevailed.

Mr. Garland moved:

That the resolution, as amended, be adopted.

Upon which motion, the Chair ordered a call of the ayes and noes, and the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke	Herron (Pres.)
Dailey	Kerr
English	Rauh
Garland	Robertson

When the name of Mr. McArdle was called, he arose and said:

"Mr. President, not having any requests to make of the City Clerk in the filling of any of these positions, I refrain from voting."

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

The Chair presented:

No. 407. Resolved, That the Mayor be and he is hereby requested to return to Council, without action thereon, for the purpose of recommitting to the Committee on Finance, for further consideration, Bill No. 264. An ordinance amending a portion of Sections 109, 110, 111, 112, 113, 114 and 115, of an ordinance entitled, "An ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof, etc." which became a law February 18, 1918.

Which was read.

Mr. McArdle moved:

The adoption of the resolution. Which motion prevailed.

And the Mayor having returned, without action thereon:

Bill No. 264. An ordinance entitled, "An ordinance amending a portion of Sections 109, 110, 111, 112, 113, 114 and 115 of an ordinance entitled, 'An ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof; providing for the increase of salary or wages of at least one hundred fifty dollars per annum to all employees of the city engaged in any service or occupation whatsoever and receiving a salary of fifteen hundred dollars or less on June 7, 1917, and not in excess thereof on January 1, 1918, as required by the Act of Assembly approved June 7, 1917,' which became a law on February 18th, 1918."

In Council March 4th, 1918, rule suspended, bill read three times and finally passed.

Which was read.

Mr. McArdle moved:

To reconsider the vote by which the bill was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring, "Shall the bill be read a second and third times and finally passed?"

The motion did not prevail.

Mr. McArdle moved:

That the bill be recommitted to the Committee on Finance. Which motion prevailed.

Mr. Kerr called up:

Bill No. 349. An ordinance entitled, "An ordinance appropriating the sum of \$56,242.80 for the payment for the fiscal year 1918 of 52 policemen appointed by the Mayor in pursuance of the provisions of Section 1 of Article 3 of the Charter Act of 1901."

In Council, this day, bill read a first time and laid over for the present.

Which was read.

Mr. Kerr moved:

That Council take a recess for 15 minutes.

Which motion prevailed.

Mr. English moved:

That the City Solicitor be requested to give an opinion on Bill No. 349 during the recess and before the final passage thereof.

Which motion prevailed.

And at the hour of 5:45 o'clock, p. m., Council took a recess until 6 o'clock p. m.

AFTER RECESS.

The hour of 6 o'clock p. m. having arrived and the time of the recess having expired, Council reconvened and there were present:

Messrs.

Burke	Kerr
Dailey	McArdle
English	Rauh
Herron (Pres.)	Robertson

Absent—Mr. Garland.

And the Chair took up:

Bill No. 349. An ordinance entitled, "An ordinance appropriating the sum of \$56,242.80, for the payment for the fiscal year 1918 of 52 policemen appointed by the Mayor in pursuance of the provisions of Section 1 of Article 3 of the Charter Act of 1901."

In Finance Committee, March 13th, 1918, read and amended in Section 1 by inserting after the words "set aside" the words "from current revenues," by striking out the word "from" and by inserting in lieu thereof the words "to" and by inserting in the blank space after the word "No," the figures "1144½," and as amended ordered returned to Council with an affirmative recommendation.

In Council, March 18th, 1918, bill read a first time and laid over for the present.

Which was read.

The Chair presented:

No. 408.

FINANCE COMMITTEE OF COUNCIL.

March 16, 1918.

Gentlemen—On Bills No. 348 and No.

349. a communication from the Mayor on special police patrol, and an ordinance for appropriation for the same. I beg to report:

That in the communication from the Mayor under date of March 6, 1918, he advises Council that in his judgment present conditions justify the continuance of the special patrolmen for guarding City Water Works appointed by his predecessor.

This is an exercise of the authority conferred by Section 1, Article 3 of the Charter Act of 1901, and does not come within the provisions of Section 13 of the Act of 1911 where emergency appropriations are to be certified by the Mayor and the Controller. This is the basis upon which the appropriation was made for this purpose for the year 1917.

Respectfully yours,

STEPHEN STONE,

City Solicitor.

Which was read, received and filed.

Mr. Kerr moved:

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. Kerr moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr. President, I have grave doubts about the constitutionality of this bill. Now, it seems to me that if we are going to make this emergency appropriation we should have an opinion from the City Solicitor, because this ordinance is not in accordance with law. I am voting for this ordinance under protest because in my opinion it is not in proper form. There are three ways of making appropriations, as you will find from Section 13 of the Act of Assembly, which reads as follows:

'All taxes shall be levied and appropriations made annually, by general ordinances, prior to the first Tuesday of February, except such taxes as may be levied and

appropriations as may be made to provide for the payment of the principal and interest of any bonds to be issued, and except also in cases of emergency, when, on a certificate signed by the Mayor and Controller that such emergency exists, a special appropriation may be made to meet the same.'

"Permit me to remind you that the annual appropriation has been made and this item was not included. Secondly, it is not a bond ordinance; consequently does not fall within the Section of the Act of Assembly just quoted, and finally in spite of the fact that the City Solicitor has declared that the Mayor in his letter has stated that this is an emergency ordinance the law requires that payment should be made on joint certificate by the Mayor and Controller that such an emergency exists. I submit that the Controller has not signed such a joint certificate.

"The Mayor did not follow out any of these three ways of making this appropriation. My recollection is that when the message was submitted to Council the Mayor thought he was signing an emergency message. The City Solicitor ruled that it was not an emergency under the law. My opinion is that this opinion is very weak and someone is likely to get into trouble, because the City Controller did not sign the certificate that an emergency exists."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Burke

Dailey

English

Herron (Pres.)

Kerr

McArdle

Rauh

Robertson

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

And on motion of Mr. Robertson

Council adjourned.

PRESENTATIONS.

Mr. Burke presented:

No. 409. Resolution authorizing the issuing of warrants in favor of Loretta Collins and Katherine Greenaway for \$20.09 each, for nine days' salary as cleaners in the general office, Department of Public Health,

and charging the same to Appropriation No. 1189, Salaries, Regular Employees, General Office, Department of Public Health.

Which was read, and referred to the Committee on Finance.

Mr. McArdle presented:

No. 410. An ordinance providing for the employment of C. Elmer Bown to perform special service for the Council of the City of Pittsburgh in relation to public utilities, fixing his salary, and providing for the payment of said salary and the necessary stenographic and office expenses in relation thereto.

Also

No. 411. An ordinance amending the title and Sections 1, 2 and 3 of an ordinance entitled, "An ordinance authorizing the filing of complaints before the Public Service Commission of this State against the Pittsburgh Railways Company and the Duquesne Light Company, providing for the engagement of Special Assistant City Solicitors, appropriating the necessary funds for their salaries, and for engineers and witnesses, and other expenses incidental thereto," which was approved by the Mayor February 17th, 1917.

Which were read and referred to the Committee on Finance.

Mr. McArdle moved:

That the Clerk be notified to call a meeting of the Committee on Finance for Friday, March 22nd, 1918, at 1:30 o'clock p. m.

Which motion prevailed.

Mr. Burke arose and said:

"Mr. President, I would like at this time to rise to a question of personal privilege. I have a previous engagement to attend an important meeting tomorrow, which will prevent me from attending the meeting of the Finance Committee. Therefore, I would like to say at this time, for the benefit of the members of Council, what I would have said tomorrow. If there are no objections I will make my statement now."

The Chair:

"There are no objections."

Mr. Burke arose and said:

"Mr. President, it is a serious and critical time in the public affairs of Pittsburgh when the interests of the people are jostled and jeopardized for political enmity and for political prejudice.

"The removal of Mr. Bown from office for an avowed political reason is nothing less than a crime committed against the taxpayers of this city. There has been no denial of his efficiency, no denial of the fact that he is competent and that he has well and ably fulfilled the duties of his office; and let me say here, too, the fact that he was obnoxious to the street railway company has caused the impression to go broadcast that he was removed from office not so much because he was a political opponent of Mr. Babcock's, but because he was offensive to this corporation. God help the people of the city if the time has come when faithful public servants are removed from office because they have carried out their trust and protected and conserved public interest in preference to corporate interest.

"There is no denial that the people of this city are vitally interested in the street car situation; they are dissatisfied and disheartened with existing conditions; they are hoping and praying for relief and redress; the man who was making good on the people's side has now been ousted for no just cause, for no valid reason. Don't forget, if corporation influence secured, or helped secure, his removal, other men holding public office, who cannot be swayed or controlled by corporation power, can have and probably will have their scalps taken. That is the danger that confronts the people of this city, and that is the danger Council must take action to guard against and overcome.

"And now I just want to say a final word. I voted to confirm the appointment of Mr. Stone as City Solicitor because I believed in his sincerity and that he would make good in looking after and conserving the city's and the people's interests. He assuredly led this body to believe he would make no change in his office and certainly gave the impression and inference that Mr. Bown was safe. He also stated, in reply to a question put to him by myself, that the Mayor had not asked for the

removal of Mr. Bown. Mr. Stone is in an unenviable position and in justice to the people of this city should rescind his action regardless of any orders he might have received. If he has broken faith (as he apparently has) so soon after going into office, how can this Council trust him for the next four years? What confidence can they have in his advice or counsel? What justice and what service can the city and the people expect of him?"

Mr. Rauh arose and said:

"Mr. President, I would like to ask the gentleman one question."

Mr. Burke said:

"With pleasure."

Mr. Rauh:

"Wasn't Mr. Robinson in the same political camp as Mr. Bown?"

Mr. Burke:

"You ask the Mayor about that. He will tell you."

Mr. Rauh:

"I ask you because you make the statement that Mr. Bown was removed for political reasons?"

Mr. Burke:

"I don't know."

Mr. Rauh:

"I asked you whether Mr. Robinson was in the same political camp as Mr. Bown; that is for Mr. Magee?"

Mr. Burke:

"I don't know; I don't know whether Mr. Bown was for Mr. Magee or not."

Mr. Rauh:

"You say in your statement that Mr. Bown was removed on account of politics?"

Mr. Burke:

"I take it from what Mr. Babcock has publicly said, and the threat that others would be dismissed."

Mr. Rauh:

"That is the only question I desire to ask."

And on motion of Mr. McArdle
Council adjourned.

When the name of Mr. English was called he arose and said:

"Mr. President, I regret very much that I cannot see my way clear to vote for this exoneration, in view of the fact that the city, through Council, has adopted the policy of making every user of city water to pay for such water. It is necessary that this policy be maintained.

"In this particular case, the Council fixed a rate for hospitals at 7 cents per thousand gallons, which is the approximate cost to the city.

"Some years ago the Water Department was instructed to install water meters in all hospitals, laundries, railroads, saloons, hotels and restaurants. It is not the amount of money involved, as that is a small matter, in this particular case being only \$32.00. To my mind, if this exoneration is allowed, every other hospital in the city will be justified in presenting its claims to the City Council for exoneration.

"If the Council is ready to adopt another policy of furnishing water to the hospitals free of charge, I am perfectly willing to enter into a discussion of such proposed change. Until such a change is proposed, however, I deem it of the highest importance that we continue with the policy already in force. I regret, therefore, that I am unable to vote for this exoneration."

No. 453.

City of Pittsburgh, Penna.,
Department of Public Works,
March 19th, 1918.

Committee on Public Works:

Gentlemen—For your information I am sending you herewith copy of a report from N. S. Sprague, Chief Engineer of the Bureau of Engineering, relative to authorization for the letting of a contract for making repairs and adjustments to the rocker bearings under the shoes of the river spans of the Manchester bridge. This is on Bill No. 377, which your body passed on Monday, March 18, 1918.

Yours very truly,

JOHN SWAN,
Director.

Mr. John Swan, Director,
March 19th, 1918.

Department of Public Works:

Dear Sir—Herewith I return you an ordinance, Council Bill No. 377, and also a letter from the City Clerk transmitting the bill to the department, which relates to the authorization for the letting of a contract for making repairs and adjustments to the rocker bearing under the shoes of the river spans of the Manchester bridge.

In connection with this bill I have to report that owing to the extreme temperatures which prevailed last Winter, the contraction and resultant movement of the southerly span was so great as to tip over one of the rocker bearings which was placed under the shoe, upon which the span would slide. As a consequence of this condition the span has dropped about 5 inches, and the present rigid condition of the rocker will introduce excessive stresses in the steel span for which it was not designed. It is imperative in order to avoid damage to the bridge that repairs should be made at once.

Yours truly,

N. S. SPRAGUE,
Chief Engineer.

Which was read, and on motion of Mr. **Burke**, received and filed, and made part of the record.

Mr. **McArdle** presented

No. 454. Report of the Committee on Public Service and Surveys for March 20th, 1918, transmitting several ordinances to council.

In Committee on Public Service & Surveys, March 20th, read and amended in section 3 by striking out the words "Twelve thousand five hundred (\$12,500.00) dollars," and by inserting in lieu thereof the words "Fifteen thousand (\$15,000.00) dollars," and as amended ordered returned to council with an affirmative recommendation.

Which was read.

Mr. **McArdle** moved

That the amendment of the Public Service and Surveys Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by council, was read.

Mr. McArdle moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

MAYOR'S OFFICE,

Pittsburgh, April 8, 1918.

To the Council of the
City of Pittsburgh:

Gentlemen—A serious emergency has arisen in the partial destruction of Federal Dam No. 2 across the Allegheny River at Aspinwall so that said dam no longer performs its functions of maintaining the river at a certain elevation, and these conditions make the possible water stage very uncertain.

As the City of Pittsburgh draws its supply of water from the river above this dam, the ability to secure this supply depends on a certain stage of water, and any failure to obtain this supply would result in extensive damage to property and danger to health and life.

We, therefore, join in recommending the passage of an appropriation ordinance to immediately make all necessary repairs, and thus obviate the danger indicated.

E. V. BABCOCK,
Mayor.

E. S. MORROW,
City Controller.

Also

No. 545. An ordinance declaring that an emergency exists, owing to the partial destruction of the dam across the Allegheny River at Aspinwall and providing that the Director of the Department of Public Works be authorized to let a contract or contracts for the purpose of performing such work as may be deemed necessary to protect the City's water supply, without advertising for bids, and making appropriations for said contracts.

Which were read and referred to the Committee on Finance.

Mr. Garland also presented
No. 548
CITY OF PITTSBURGH,
PENNSYLVANIA,
Civil Service Commission.

April 2, 1918.

To the Finance Committee of
Council, City of Pittsburgh.
Gentlemen:

You have before you for consideration an ordinance transferring the sum of \$2,400.00 from the Contingent Fund, Code Account 42-M, to Code Account 1100-M, Maintenance Fund, Civil Service Commission, and, in explanation of presentation of this ordinance, we beg to submit the following:

In order that the increase granted under the Burke Act or the Pennsylvania Legislature may be given to employees of this Commission, there will be required the sum of \$900.00.

We find, also, that on account of moving the physical examinations to our new quarters in the City-County building, we are compelled to buy some new apparatus because of the fact that some of the old apparatus did not belong to the Commission; and the further fact that the character of it should be changed to avoid mutilating the walls and ceilings of the new quarters. This will require in the neighborhood of \$350.00.

It is becoming imperative that the examinations for many positions be advertised, in order that we may receive sufficient applicants to establish proper eligible lists; and it is also absolutely essential, in the case of examinations for applicants requiring a high degree of technical training, that some expert assistance be gotten, and it has in the past created considerable difficulty for us, because we find that we were compelled to request such service without compensation. In order that these two items may be properly taken care of, the Commission will require about \$350.00 for the current year.

It is the desire of the Commission, also, to grant a larger compensation to the Chief Examiner and Secretary, in order that his salary may be commensurate with the duties and responsibilities involved in his work, in comparison with like service in other departments of the city government.

It is also necessary, in order to com-

plete card roster records already in process of compilation, that we have sufficient money to employ a clerk for at least six months' time, which latter items will make up the full amount required.

We trust Your Honorable Body will give favorable consideration to the above items, as there is not one dollar of expenditure outlined that is not becoming more pressing necessary as each day goes by.

This communication is sent to you with the full knowledge and approval of His Honor, Mayor E. V. Babcock.

Most respectfully submitted,
F. H. FREDERICK,
President.

Which was read, and on motion of Mr. Garland, received and filed and made part of the record.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken, were:

Ayes--Messrs.	
Burke	Herron (Pres.)
Dailey	Rauh
English	Robertson
Garland	

Noes--Mr. McArdle.

Ayes--7.

Noes--1.

And a majority of the votes of council being in the affirmative, the resolution passed finally.

Also

Bill No. 456. An Ordinance entitled, "An Ordinance providing for the appointment of 22 additional Detectives in the Bureau of Police, Department of Public Safety, and fixing the rate of compensation therefor."

Which was read

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr. President, I would like to ask the gentleman who introduced the ordinance a few questions"

The Chair said:

"There are no objections."

Mr. English said:

"Mr. Burke, was it your idea that we would be increasing the number of policemen by passing this ordinance?"

Mr. Burke said:
"The number of policemen?"

Mr. English said:
"Yes?"

Mr. Burke said:
"If the department desired them, yes, sir."

Mr. English said:
"You realize that we set up \$50,000 for the purpose of increasing the number of policemen—not detectives?"

Mr. Burke said:
"Yes, sir."

Mr. English said:
"If this ordinance is passed, do you appreciate that you will be taking away some 22 men from the Police Department and putting them under the Captain of Detectives without increasing the number of uniformed men?"

Mr. Burke said:
"Yes, sir; and I will vote for 22 more policemen."

Mr. McArdle moved
To amend the bill by making a new Section to be known as Section 2, as follows:

"Section 2. No person or persons shall be eligible to appointment to any of the positions of detective created by this ordinance except such person or persons who shall have served the City of Pittsburgh in the capacity of detective, secret service operative or plainclothes patrolman for a period of three years. Said service to have been rendered within five years next prior to the passage and approval of this ordinance. Provided, further, however, that if the qualifications for appointment to the positions created by this ordinance provided for in this Section be for any reason invalidated all the other provisions of this ordinance shall also be invalidated and of no force; it being the intention of the council to make the provisions of Section 1 dependent upon the validity of the provisions of the first paragraph of Section 2," and to make the present Section 2 read "Section 3."

Mr. Burke arose and said:
"Mr. President, I haven't any objection to the amendment offered by Mr. McArdle. My mind is not yet clear as to the functions of council and whether it is within the duty of council to say just who shall fill these positions and fixing their qualifications. On this I am not clear, but I am of the opinion that council has the right to create the positions and to fix the salary therefor. Beyond that I am not clear as to our responsibility. If the amendment passes, I would like to ask the mover of the amendment a

question, because that will have some bearing upon me in voting for the ordinance as amended."

Mr. McArdle arose and said:

Mr. President, I would like the gentleman to pass upon the merits of the amendment as I shall do on the ordinance when it comes to a vote."

Mr. Burke arose and said:

"Mr. President, I have no objection to the amendment if it is offered in good faith. I am told that some of the members are to be absent from the city for two or three weeks, and if that is the case, there would not be sufficient members present at the next meeting or two to pass the ordinance finally if the amendment prevailed and the ordinance went over for reprinting.

"I realize and the people of Pittsburgh realize that we need more detectives and more policemen. It is a serious matter and I think we ought not to put it off more than one week provided it will get the support of a majority of the members. If the gentleman will indicate whether or not he is favorable to the ordinance with the amendment in it as he suggests I am for the amendment. I believe it is the intention of the men at the head of the Safety Department to transfer the plainclothes men to these positions of detectives. I have every confidence in the Director that this will be done."

Mr. English arose and said:

"Mr. President, I must enter my protest against the attempt of any member of council to ascertain how another member is going to vote on a measure pending in order that he himself might judge the merits of an amendment. I don't believe there should be any criss-crossing on this matter behind the curtain; this matter should be discussed openly and freely above board.

"I am opposed to the passage of the ordinance. I voted for the \$50,000 additional for more policemen in the Department of Public Safety. This amount was asked for by the Mayor. I asked the author of the ordinance if he realized what he was doing, and I confess, although his answers appear to be clear and intelligent, there is something in his mind that he has not disclosed to the public. Perhaps we should wait until the Department comes in and suggests that we rewrite the ordinance, stipulating the number of policemen, how many shall be cornermen, how many shall be motorcycle officers, how many shall be patrolmen and how many shall be special watchmen. No request has been made of council by the Department of Public Safety, as far as I know, to increase the number of detectives. There is no written request or verbal request by the Director on file with the council or any committee of council advising council that these 22 addi-

tional detectives are wanted. If these detectives are appointed from the ranks of the Police Bureau that many positions will be open and the Department would be deprived of that number of uniformed officers. I have been told that some men who have been ordered to put on a uniform refused to do so, and that some of the men who have been let out of the Detective Bureau have flatly stated that if they had to wear the uniform of a policeman they would quit the service. I want to say that I will not take part in backing such men in this insubordination against the Department of Public Safety. This is a direct slap at the Department of Public Safety, and I am not prepared to do this. I am willing to go along in peace and harmony and help this administration as far as lies within my power. I will support all measures coming from the administration that are good and with equal force will oppose all such measures that, in my opinion, are not for the welfare of the citizens of Pittsburgh.

"This ordinance did not come from the Department of Public Safety, and I have no hesitancy in saying that it has been represented to me that if we did not create 22 jobs in the Detective Bureau for the men who formerly held positions in the Detective Bureau they were going to quit the city service. I don't propose to be swayed by any such threats. I am one of the members of Council who stood up in this Council and defied Mayor Armstrong at the head of a mob of city employees last year when he and they demanded that the wages of city employees be advanced, or in other words, to put into effect the provisions of an Act of Assembly which was not to go into effect until the first of January, 1918. Mayor Armstrong as well as the city employees knew at that time they could not receive the benefits of the Act of Assembly because there was no money with which to pay these advances in salary. I was re-elected to a seat in Council and I am satisfied that my action in opposing Mayor Armstrong at that time met with the approval of the people of Pittsburgh. It is well known that the payroll was vicious in its efforts to defeat me at the polls. I have not attempted to burn any of them by using my official position to do the burning. I don't care whether a man voted for or against me. I want to see justice done to every city employee.

"I will submit that if the men are not competent in the opinion of the Director to be detectives we should not interfere and assume the prerogatives of the Director of the Department of Public Safety and put every man back on the detective force. I am perfectly willing to vote for the men if they are needed and the department asks for them, but I am not willing to be forced or coerced to do something against my best judgment."

Mr. Burke arose and said:

"Mr. President, I have only been a member of Council a short time, but this is the first time since I have had the honor and privilege to sit in Council that I heard any man presume to speak for another. I think Mr. McArdle took pretty good care of himself when I asked him the question, and as far as any threats were made upon the gentleman who preceded me, I don't know anything about them. I have not heard anything about it; and, as far as this side show and this meeting in the dark is concerned, I have not had any such meetings with anybody, not even a member of this Council.

"What I am trying to do is from the heart and for the best interests of the taxpayers of Pittsburgh. It may be an error of judgment but it comes from myself and nobody needs speak for me.

"Let me state for the information of the members of Council that the 22 additional detectives will not be paid entirely out of the \$50,000 additional set up by Council in the Bureau of Police Appropriation. The ordinance will mean an increase to the taxpayers of something over \$6,000. This is the amount of the difference in pay of 22 plain-clothesmen drawing the salary of patrolmen at \$1,350 and 22 detectives drawing a salary of \$1,650. It is up to the discretion of the Director of the Department of Public Safety to fill these positions. By transferring the 22 men from the junior detective bureau to the Detective Bureau will only reduce the \$50,000 by a little more than \$6,000. If the 22 plain-clothesmen are transferred to the Detective Bureau that would leave 22 places to be filled in the Bureau of Police. If the 22 additional policemen are needed I will vote for their appointment.

"I will go along with the amendment suggested by Mr. McArdle, because I think these men should be taken care of who are in the service, and I believe every faithful city employee should be taken care of and ought not to be removed from his position because of politics. But great God, when are we going to get through talking about Mayor Armstrong! He is not in this question; he has nothing to do with it. All that is involved in this question is the transfer of 22 men from the junior detective bureau to the Bureau of Detectives and an additional increase in the appropriation of a little more than \$6,000. Under this ordinance the Director of the Department of Public Safety has the right to fill the 22 places created. Let me say here that if it is necessary tomorrow to set up more policemen with the money provided for Council will do it. All we are doing by our action today is leaving the matter in the hands of the head of the department, the Director of the Department of Public Safety. I for one am willing to leave it in his hands because I think he is competent and have confidence in him that the proper

thing will be done. I am willing to do without the amendment suggested by Mr. McArdle, because I believe the Director of the Department of Public Safety will take care of those men who are qualified or fit for the positions. Those are the elements in this case; and Mayor Armstrong and the meeting in the dark and the question I asked Mr. McArdle are all foreign to this question. Let us meet the question squarely. I say the department needs 22 detectives and needs 22 additional policemen."

Mr. English arose and said:

"Mr. President, I am glad the gentleman agrees with me that instead of providing 22 additional detectives it is the idea to transfer the 22 plainclothesmen to the Detective Bureau. If this is the idea I would say revise the Detective Bureau. I thought we did that during the budget making. We reduced the number of detectives, and we ordered some men to be put in uniform. I want to know whether the Director has asked for these 22 detectives. Have we a communication from Director Prichard suggesting that we add 22 detectives to his force?"

Mr. Burke arose and said:

"Mr. President, I don't want to do all the talking, but for fear of being misunderstood and in view of the fact that so many things and questions have been brought into this matter, I want to say that I am opposed to any amendment to the original bill. I will stand or fall on the ordinance as presented."

The Chair:

"Is there an official communication from the Director, Mr. Clerk?"

The Clerk:

"No, sir; I never received any." And the question recurring on the motion to amend, Mr. McArdle demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.	McArdle
English	
Herron (Pres.)	

Noes—Messrs.	Garland
Burke	Rauh
Dailey	Robertson

Ayes—3.

Noes—5.

And a majority of the votes of Council being in the negative, the motion was rejected.

Mr. McArdle arose and said:

"Mr. President, I want to record my objections to the ordinance. As it has been developed by Mr. English's question there has not been a communication or representation made by the Department of Public Safety saying that they needed this number of additional detectives. There has

been as yet no move by the department to make available the number of policemen that Council tentatively agreed to give them when it provided the appropriation of \$50,000.00, which was set up in the budget. The positions were not provided for, because it was decided that they should first present to Council a statement showing where and how these additional patrolmen were to be used. Now, I attempted to amend this bill. I don't believe there is any crying need for additional detectives. I don't gainsay possibly the department might be able to use more detectives than they now have, but the department at least is not handicapped over last year and it has not availed itself, as I just stated, of the opportunity to strengthen its position by showing how it proposes to use the additional number which the \$50,000 was set up for to pay their salary for the balance of the year. I believe if they are going to get detectives they ought to get them insofar as they are available and detectives don't grow on trees nor in barber shops. And the talk here now in support of this bill that they have confidence in the department and are going to make use of the men trained in the city service does not carry much force with it in the light of recent events in that department. We know that they did not do it by the men declared here now who are to be appointed under the provisions of this ordinance. We know that the men in the city service were not given preference to the men who were new to the city service and who are absolutely new to the police business in all of its aspects.

"There is no story as old as the oft repeated story told to Council that 'more policemen are needed.' I have stood on that question since I have been a member of Council for the last two years or more, ready to yield when those in charge of it came in making full use of the department that they had. There has been no handicap, because they have the same kind of organization that they had four years ago; and if they wanted plainclothesmen and wanted to assign more men to the duty assigned to the Detective Bureau they have all the power required to allow those men rendering that service to render it. There is something much different back of this proposal to come in here now, within three months, and pass upon this question after much discussion and propose turning over to the department an opportunity to bring 22 absolutely new men in the department and have us expect that the action is done in the interest of protection, detection and punishment of crime.

"There is nothing in it and we know it. The whole action of the Department of Public Safety in treating with this Council as on other questions has not been one of good faith either with the Council or with the public so far as that is concerned; and those who like bad faith and what they are going to do are quite welcome to it. I have

no faith in what this bill proposes to do.

"The gentleman who spoke in favor of it said that it only meant an expenditure of some \$6,000. That is what it may mean; but it means an addition to the payroll of \$36,300, and not \$6,000. Let us presume in the face of the fact that it is a matter that the department is in control that it shall or shall not appoint all of the patrolmen that the ordinance provides for. In the first place there is no justification for a failure to appoint, in the face of repeated demands for more policemen, the number that has been provided, and secondly and more important is that the law requires that they shall fill the places, and this is a clean-cut addition to the operation of the Detective Bureau of \$36,300, and the figures cannot be reduced. And nobody's word need to be taken for it. This is a plain example of addition, to be taken from the records of this Council."

Mr. Burke arose and said:

"Mr. President, I desire to interrogate Mr. McArdle."

Mr. McArdle arose and said:
Certainly."

Mr. Burke arose and said:

"If they transfer the 22 men under this ordinance after its passage and they don't fill their places, how much will it cost the City of Pittsburgh?"

Mr. McArdle said:

"Mr. President, that is an impossible supposition for the reason that the ordinance does not provide for a transfer of men. The question before us is a simple proposition of creating 22 new positions and we are not dealing with men—we are dealing with positions. The men who may fill these positions we have no control over, except we might indirectly do it through the passage of an amendment such as I offered. Supposing this was a further answer that the men who would receive these positions under this new ordinance should happen to be men all of whom are now in the service of the Bureau of Police as patrolmen then the obligation rests upon the Director of the Department of Public Safety to immediately fill those positions. That is the legal obligation upon him; and if it were not a legal obligation it would be, it seems to me, an obligation of judgment in view of the fact that the present Director and the present Mayor as well as the preceding Director and the preceding Mayor have all asked for more policemen and they could hardly find a legitimate excuse for allowing 22 places to remain vacant when they have the authority to fill them; and when they had the right to assume that when a deficit of \$36,300, or a pro rata appropriation would face them that Council would meet that deficit because it had been responsible

for its creation by the passage of this bill."

Mr. Burke arose and said:

"I will ask him the question once more. After the passage of this bill the Director of the Department of Public Safety transfers the 22 men from the junior detective department into the Detective Bureau and don't fill their places, how much will it cost the City of Pittsburgh?"

Mr. McArdle arose and said:

"Mr. President, I prefer to deal with this in a logical way that can be supported by both the law and the facts."

Mr. Burke arose and said:

"I am not asking him about the law and facts. If he does not want to answer my question, I am satisfied."

Mr. McArdle arose and said:

"I will answer the gentleman in this way. According to the gentleman's own argument as to the tremendous need for more detectives, it would probably cost the city through the loss of valuables through lack of adequate police protection many thousands of dollars. If we presume that the Director is going to ignore the law and set aside the judgment that he has already expressed that more police are needed and leave the 22 places unfilled it would only cost the city in money to meet the payroll the difference between 22 places at \$1,350 each and 22 places at \$1,650, or a total of \$6,600 per annum, or about three-fourths of that to meet the payroll for the balance of the year from now on."

Mr. English arose and said:

"Mr. President, I cannot let this opportunity slip by without pointing out that people who were fooled once are going to allow themselves to be fooled again. I am sorry that men of equal intelligence with me will allow themselves to be fooled more than once. I am watching this administration, and don't propose to be cheated more than once. They must come clean and play fair with Council, and I for one will not interfere with the Department of Public Safety by adding 22 detectives until the Director expresses his opinion and can show me the need for 22 additional detectives."

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Garland
Rauh
Robertson

Noes—Messrs.
English

Herron (Pres.)
McArdle

Ayes—5.

Noes—3.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Burke presented:

No. 549. Report of the Committee on Public Works for April 2nd, 1918, transmitting sundry papers to Council.

Which was read, received and filed.

Also, with an affirmative recommendation:

Bill No. 472. An ordinance entitled, "An ordinance authorizing and directing the grading, paving and curbing of Middletown road, that portion now in the City of Pittsburgh, from Ashtola way to Ladoga street, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefitted thereby."

Which was read.

No. 550.

City of Pittsburgh, Pennsylvania,
Department of Law,
March 28, 1918.

Committee of Public Works:

Gentlemen—Replying to your further question in the matter of the repeal of the ordinance opening Archon way, as to whether if Mr. Scott being the only party to whom damages were awarded by the Board of Viewers, would release his claim, it would then be in the power of Council to pass a valid repealing ordinance, I beg to report:

That Section 7 of the Act of 1891 providing that the city may repeal an opening ordinance if no actual entry has been made and the repealing ordinance passed within thirty days, is not an absolute limitation but relates only to the right of the city to be relieved from damages arising out of the proposed improvement.

It is clear, therefore, in the present case, that if Mr. Scott, the only damage claimant, releases the city from all damage awarded or in any way incurred by the opening proceeding, the Council has the power to repeal the ordinance.

Mr. Scott has agreed to make such release, and if a repealing ordinance is passed, before the same is approved by the Mayor, this Department will see that he files of record a duly executed legal release of all claims.

At the date of the formal report on this matter to your Committee, no such proposal was made by Mr. Scott and it was assumed that the city would not elect to repeal the ordinance and pay the damage.

Respectfully yours,
STEPHEN STONE,
City Solicitor.

In Public Works Committee, April 2, 1918, read and referred to Council to be made a part of the record.

Which was read, and on motion of Mr. Burke, received and filed and made part of the record.

And the bill, as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

And there not being a majority of the votes of Council in the affirmative, the bill failed to pass finally.

Mr. McArdle presented:

No. 551. Report of the Committee on Public Service and Surveys for April 2nd, 1918, transmitting an ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation:

Bill No. 459. An ordinance entitled, "An ordinance changing the names of Burd avenue and Wheeler avenue, in the Twenty-seventh ward of the City of Pittsburgh, to Wilksboro avenue."

Which was read.

Mr. McArdle moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

Which was read.

Also

No. 553.

April 8, 1918.

To the President and Members of Council:

Gentlemen—With reference to Bill No. 481, being an ordinance repealing an Ordinance No. 320, entitled, "An ordinance providing for the making of a contract or contracts for the furnishing and installation of Turbine Centrifugal Pump and Appurtenances in Ross Pumping Station, Contract No. 5-D," approved October 1st, 1914, beg to report as follows:

I respectfully recommend that this ordinance be favorably considered, in order that the money provided therein for the purchase of a pump, may be returned to the general fund and become available for further use.

The need for this money arises from difficulties encountered due to river troubles resulting from the destruction of the Aspinwall Dam.

The repeal of this ordinance does not mean that the purpose of installing the pump has been abandoned, but rather that there is an immediate and pressing need for this money at the present time for other purposes.

Yours very truly,

JOHN SWAN,

Director.

Which was read, received and filed.

Mr. Robertson moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Bill No. 544.

City of Pittsburgh, Penna.,

April 8, 1918.

To the Council of the

City of Pittsburgh:

Gentlemen—A serious emergency has arisen in the partial destruction of Federal Dam No. 2 across the Allegheny river at Aspinwall so that said dam no longer performs its functions of maintaining the river at a certain elevation, and these conditions make the possible water stage very uncertain.

As the City of Pittsburgh draws its supply of water from the river above this dam, the ability to secure this supply depends on a certain stage of water, and any failure to obtain this supply would result in extensive

damage to property and danger to health and life.

We, therefore, join in recommending the passage of an appropriation ordinance to immediately make all necessary repairs, and thus obviate the danger indicated.

E. V. BABCOCK.

Mayor.

E. S. MORROW,

City Controller.

In Finance Committee, April 9th, 1918, read and referred back to Council to be placed in the record.

Which was read, received and filed, and ordered printed in full in the record.

Also

Bill No. 545. An ordinance entitled, "An ordinance declaring that an emergency exists, owing to the partial destruction of the dam across the Allegheny river at Aspinwall and providing that the Director of the Department of Public Works be authorized to let a contract or contracts for the purpose of performing such work as may be deemed necessary to protect the city's water supply, without advertising for bids, and making appropriations for said contracts."

In Finance Committee, April 9th, 1918, read and amended by striking out Section 2 and in the title by striking out the words "and making appropriations for said contracts," and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Garland moved:

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. Garland moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And a majority of the votes of Council

being in the affirmative, the bill passed finally.

Also

Bill No. 533. An ordinance entitled, "An ordinance authorizing the Mayor and the Director of the Department of Public Works to execute a lease for a portion of the main corridor in the City-County Building for cigar and news stand purposes, fixing the annual rental thereof, and providing for the fixing of the other terms and conditions thereof."

In Finance Committee, April 9, 1918, read and amended in Sections 1 and 2 as shown in red, and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Garland moved:

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. Garland moved:

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Dalley moved:

To amend the bill by striking out the name "Sol S. Goldstein."

Mr. Dalley arose and said:

"Mr. President, I want to say at this time that I don't believe the ordinance is fair to the merchants of the City of Pittsburgh, because it makes it an exclusive proposition to Mr. Goldstein. You have a letter from a man who offers to pay a rental of \$600.00 a year—\$100.00 more than provided in this ordinance. I understand that Reymer Brothers, the United Cigar Stores Company and Russell Brothers have indicated their willingness to bid for the space. I have no objection to Mr. Goldstein getting the lease, but if one man is willing to pay \$600.00 for the space so should Mr. Goldstein. I don't think it is fair to the taxpayers of Pittsburgh to lease this space at the figure named in the ordinance when a higher rental is offered."

Mr. McArdle arose and said:

"Mr. President, as I remember the history of this bill it was introduced and a motion made in Finance Committee to affirmatively recommend it to Council as amended. My memory may be faulty, but the gentleman who makes the motion now did not make known any of the provisions which are included in his amendment at the time the ordinance was up in committee. His purpose now is to let the space to the highest bidder."

"The ordinance previous to being

amended simply provided that the Mayor and the Director of the Department of Public Works should execute a lease; the only limitations placed upon it was that the amount of money paid for this privilege should not be less than \$500.00 per annum. Some business man who is interested in this or the public, perhaps, may be misled, but nobody in this Council ever assumed that anybody else was ever considered except the gentleman whose name has been written in it. It was quite well understood that he was the man to get the privilege and everybody knows that if the bill had passed in accordance with the provisions of the Finance Committee, unless somebody broke faith with Mr. Goldstein, he would have been given the lease and for \$500.00, and would have been given to him by the Mayor and the Director instead of by the provisions of this ordinance. The question was raised as to whether this was a legal procedure and some of the newspapers thought it was out of the ordinary in naming the man. It is not anything out of the ordinary at all. If you will remember, just a few days ago, a lease was executed to the American Express Company for use of a portion of the Duquesne Market, and some time ago Council authorized the execution of a lease to the Epping-Carpenter Company for valuable property in the Ninth ward, and also authorized the execution of a lease to the Crucible Steel Company. These things were not all executed, but Council is on record in the matter. The same is true of the Oliver Iron & Steel Company on the South Side and the same is true in the case of the Duquesne Light Company for a rental of part of the Public Safety Building. There was no question of competition at all in these cases, and negotiations were carried on until satisfactory terms were agreed upon. I believe the ordinance before us now should be passed in its present form."

Mr. English arose and said:

"Mr. President, I think the Council should exercise its prerogatives and not only insert the name, but the terms it desires to impose upon anybody seeking a lease or franchise from the City of Pittsburgh. It seems to me that the Councils of the past overlooked their rights and the power given them and failed to put sufficient terms into lease. The street car franchises for one thing lack terms, and for that reason we have no control over them now. The Council in this instance by a majority vote in the Finance Committee did insert the name of the man who is to get the lease and fixed the term of the lease at \$500.00 per annum and the time at 18 months. Of course, we want to save money for the taxpayers of Pittsburgh, but is it fair to the Council to allow some one at this late date to come in and suggest an offer of \$100.00 more than fixed in the ordinance? This matter has been in the hands of the

Council for some time, but no offer was ever made to this body by any person except the man whose name appears in the ordinance. If the gentleman desires to save the taxpayers of Pittsburgh some money I would suggest that he do so by voting against the ordinance to pay for the uniforms of the elevator operators."

"As one member of Council has just stated—this ordinance was assured of enough votes to pass before any amendments were made. The price as originally fixed was \$500.00 and this sum has not been changed. The only changes made in committee were the insertion of the name of the man who was to get the stand, Mr. Goldstein, and the time was changed from 5 years to 18 months. Surely any member of Council who intended to vote for the ordinance in blank knowing who was to get the stand, should not hesitate to vote for the ordinance when the name is inserted. Surely the Council has the right to determine every point in connection with any franchise given by the Council. The amount involved is small, but the principle is great, and it is high time for Council to assert its rights."

And the question recurring on the motion to amend the bill, the motion did not prevail.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Bill No. 415. Resolution authorizing the Director of the Department of Public Works to purchase uniforms for the watchmen and elevator operators employed in the City-County Building, the same to be paid from Code Account No. 1572, Equipment and Machinery, City-County Building.

Which was read.

Mr. Garland moved:

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

Mr. English arose and said:

"Mr. President, I think we should defeat this bill for one big reason; that is, that for many years past the police and firemen have been compelled to purchase their own uniforms. Several years ago the Sanitary Inspectors were placed in uniforms and they are compelled to purchase their own uniforms it seems to me that if this ordinance is passed and uniforms were purchased for the elevator operators and not for the policemen, firemen and sanitary inspectors, it would be unfair to this latter class of employees who are as much entitled to the uniforms as the elevator operators. It is not fair that the city should pay for uniforms for one class of employees and expect others who are in uniform to pay for their own.

"The elevator operators were glad to get the positions; they did not come in here to beg the Council to get the uniforms for them. They will not quit if they do not get the uniforms. The elevator operators never had uniforms and if it is the rule of the department to have the men wear uniforms they could purchase a neat blue suit and hat, and if they had any pride in their jobs they would keep the uniform neat and clean. I don't think the men operating the elevators should expect the city to purchase their uniforms. The time is not ripe for such a gratuity."

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.
Garland Rauh

Noes—Messrs.
Dailey Herroa (Pres.)
English McArdle

Mr. English presented:

No. 604. Report of the Committee on Health and Sanitation for April 10, 1918, transmitting Specifications for the collection, removal and disposal of garbage and rubbish to Council.

Which was read, received and filed.

Also

No. 605.

SPECIFICATIONS.

For the collection, removal and disposal of garbage, offal, dead animals and condemned meat in that part of the City of Pittsburgh comprising the First to the Twentieth wards, both inclusive, from February 1st, 1918, to December 31st, 1918.

First: All the provisions of the following Act of Assembly shall be deemed, taken, included and made part of the specifications, to-wit: An Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March A. D. 1901, and an Act entitled, "An Act amending and supplementing an Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March A. D. 1901, in the following particulars, etc., approved the 20th day of June A. D. 1901; and an Act entitled, "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class, defining the powers and duties thereof and of the officers thereunder, prescribing rules and regulations and laws respecting the public health, and authorizing and imposing fines, penalties and punishments for violations thereof," approved the 26th day of June A. D. 1895. And an Act approved April 1st, 1909, amending Article Two, Section Six, Article Sixteen and paragraph twenty-four of Article Nineteen, of an Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March A. D. 1901. Ordinance No. 180 of the City of Pittsburgh, approved June 30, 1915, shall also be deemed, taken, included and made part of the specifications.

Second: The liability of the City of collecting, removing and disposing of garbage, offal, dead animals and condemned meat under these specifications shall be limited by the amounts provided by the provisions of the ordinance making annual appropriations.

Third: The manner, mode and form of the disposal of garbage, offal, dead animals and condemned meat in and throughout the City under these specifications shall be by that process known as the reduction process, incineration method, or by some other equally as good method, subject to the approval of the Director of the Department of Public Health, who shall

be the sole and absolute judge as to what might be termed any other approved method.

Fourth: Any reduction, incineration or other plant or plants as may be necessary for carrying out these specifications in their entirety, if located within the limits of the City of Pittsburgh shall be at such point or points as the Director of the Department of Public Health shall select and approve, but the contractor may locate his plant or plants outside of the corporate limits of the City of Pittsburgh, if he so desires.

Fifth: If, in the disposal of garbage, offal, dead animals and condemned meat in the City of Pittsburgh by reduction or any other method that may be used, there shall be any residuum, refuse matter or materials of any kind whatever of any offensive character arising or resulting from or remaining after said disposal, said residuum, refuse matter and material shall, within twenty-four hours, be removed from and beyond the limits of the City of Pittsburgh by the contractor.

Sixth: The term "garbage," wherever it occurs in these specifications, means all refuse of animal and vegetable matter which has been used for food for man, and all refuse, animals and vegetable matter which was intended to be so used, and includes condemned food. The term "dead animals" wherever it occurs in these specifications, means all dead animals or parts thereof, not intended to be used as food for man.

Seventh: The contractor shall collect, remove and dispose of all garbage and dead animals, as defined in these specifications, from all places wherever the same may accumulate within the corporate limits of the City of Pittsburgh, namely: from the First to the Twentieth Wards, both inclusive, except from storage and produce commission houses.

Eighth: No person other than the contractor shall carry, convey or transport through the streets, alleys or public places of the City from the First to the Twentieth wards, both inclusive, any garbage, offal, condemned meat or dead animals, without permission from the Director of the Department of Public Health.

Ninth: Collections shall be made daily, except Sunday, from all public markets, hotels, restaurants, fish markets, butcher shops, hospitals and places where animal, game or fowls are killed or dressed within the City providing, however, that the removal of dead animals and animal offal shall be at such hours as shall be prescribed by the Director of the Department of Public Health.

Tenth: Garbage shall be collected and removed twice each week throughout the year from all places where the same may accumulate in the following specified wards, viz: First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh,

Twelfth, Thirteenth, Fourteenth, and all that portion of the Sixteenth and Seventeenth, Eighteenth and Nineteenth wards, respectively, situated north of the Pennsylvania and Panhandle Railroads. In all other portions of the City from the First to the Twentieth wards, both inclusive, garbage shall be collected and removed twice each week during the months of May, June, July, August, September and October, and once each week during the months of January, February, March, April, November and December. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth in paragraph nine.

Eleventh: Dead animals, lying upon any of the streets, alleys or public highways, or elsewhere, must be removed immediately to the disposal plant upon receiving notification thereof, either from the Department of Public Health or the Bureau of Police; and if the contractor fails, neglects or refuses to have the same removed within four (4) hours after receiving notice, either by telephone or otherwise (excepting in cases where such notices shall be given between the hours of 9 P. M. and 6 A. M., on which instance the reckoning of the four (4) hours shall be computed from 6 A. M.) the sum of \$10.00 per day for every day of failure, neglect or refusal to comply herewith shall be deducted from the next monthly bill of said contractor, which deductions shall be deemed, taken and treated as liquidated damages and not as penalties.

Twelfth: Garbage, offal and condemned meat shall be collected in and transported through the streets of the city in vehicles in watertight, closed metal boxes, the same to be approved by the Director of the Department of Public Health, and shall not be changed without the approval of the aforesaid Director. These receptacles or wagons shall have closely fitted lids, which lids must be at all times closed and kept closed except when loading or unloading garbage, offal and condemned meat and must not at any time be driven over the public streets or highways in an overcrowded or overloaded condition. The wagons shall be thoroughly washed and disinfected in a manner approved by the Director of the Department of Public Health, each day during the period from November 1st to May 1st, immediately after the close of the day's hauling and after each load during the period from May 1st to November 1st, and shall not appear in the public streets and highways of the City of Pittsburgh in an insanitary or unsightly manner. For any failure, neglect or refusal on the part of the contractor or any of his agents or employees to thoroughly wash and disinfect daily the wagons as herein provided, there shall be deducted from the next monthly pay due said contractor, until improper conditions are remedied, the sum of \$5.00 per day

for each and every wagon not so washed and disinfected, which deduction shall be deemed, taken and treated as liquidated damages and not as penalties.

Thirteenth: The entire work of collecting, removing and disposing of garbage, offal, dead animals and condemned meat shall be at all times accessible to the Director of the Department of Public Health, or his authorized representatives, and the said Director may reserve the right to cause the contractor to deliver any portion of garbage, offal or dead animals at any point within the city limits for the purpose of experimentation.

Fourteenth: Each bidder shall submit with his bid drawings distinctly and clearly showing his method by which it is intended to dispose of the garbage, dead animals and animal offal; but no bid will be considered which contemplates the dumping of such material either within or without the corporate limits of the city, or feeding the same to animals, except as herein previously provided in case of residuum.

Fifteenth: All receptacles, carts or conveyances of whatever kind used for the collection and removal of garbage, offal, dead animals and condemned meat shall be so constructed and loaded as to prevent any part therefrom from falling on any of the streets, alleys, lanes or public highways of the city, and must have the name of the contractor and the number of the wagon printed on each side of the same in letters of a size to be easily read, and shall thereon have at least one gallon of good quality of disinfectant for use in cases of emergency, and should any driver or employee of the contractor, by his carelessness or negligence, allow any garbage, offal, dead animals or condemned meat to fall upon any public streets, lanes, alleys, highways or sidewalks of the City of Pittsburgh, he shall immediately clean up the same and place it in the wagon or receptacle, and thoroughly disinfect the place on which said garbage, etc., was dropped; and for any failure on his part to comply herewith, there shall be deducted from the next monthly payroll or sum due the said contractor, the sum of \$10.00 for each and every offence, which sum shall be deemed, taken and treated as liquidated damages and not as penalties.

Sixteenth: No money, gratuity, reward, fee or other valuable consideration, except the compensation agreed to be paid by the city, shall be charged, received or taken by the contractor, or any of his agents or employees, for doing or failing to do any part of the work required to be done under these specifications.

Seventeenth: The contractor shall at all times use such appliances and employ such or so many men for the performance of all the operations connected with the work embraced under these specifications as will secure

a satisfactory rate of progress and quality of work, and in case it shall appear at any time that the work, or any part thereof, is not being properly done, the same shall be immediately corrected upon the demands of the Director of the Department of Public Health, or his authorized representative, but no omission on the part of the said Director to notice or call attention to such defect shall be held to be a waiver of said rights of said Director to do so, or from directing the same to be corrected as aforesaid.

Eighteenth: In case of failure by the contractor to comply in any respect with the specifications or with the contract, the Director of the Department of Public Health shall have the right and power and is authorized to provide for the collection, removal and disposal of garbage, offal, dead animals and condemned meat which the contractor shall fail to collect, remove or dispose of, and to charge the expense to the contractor, and the contractor and his sureties shall be liable for the expense incurred therein.

Nineteenth: The contractor shall make monthly reports on blanks approved by the Director of the Department of Public Health which shall show the number of all loads and parts of loads and tonnage collected, or in case of dead animals, the number of species collected, together with the weights thereof, and shall be sworn to before the City Controller.

Twentieth: All the work shall be done under the supervision of the Director of the Department of Public Health, and all details of such work as are not herein particularly specified shall be done in a manner acceptable to him.

Twenty-first: The contractor shall have and maintain telephone communication with the office of the Department of Public Health, and be prepared to receive orders between the hours of 6 A. M. and 12 P. M., said telephone communication to be at said Contractor's own proper cost and expense.

Twenty-second: All wagons for hauling dead animals shall have a lid or covering of an approved design or style, which lid or covering must be at all times thrown over the wagon so as to cover up all carcasses or dead animals, except when loading or unloading.

Twenty-third: Any official or employee of the contractor for removing garbage, offal, dead animals or condemned meat, using improper or vile language, being under the influence of liquor while on duty, filling his wagon with water or other foreign matter, or demanding or accepting pay from citizens for services rendered, or falsifying any report he may be called upon to make, or if refusing to collect or remove garbage, offal, dead animals, and condemned meat without being paid for same, except as is provided and allowed as compensation

by the City of Pittsburgh, shall immediately be discharged and debarred from further employment in said work. Should the contractor keep in his employ or at any time re-employ any person or persons in violation of this paragraph, there shall be deducted from the next monthly sum due him five (\$5.00) dollars for each person for each and every day so employed, which sum shall be deemed, taken and treated as liquidated damages and not as penalties. Only adult men shall be employed in said work, and each of said employees shall wear in a conspicuous place a badge showing his number and marked "Garbage Collector."

Twenty-fourth: The contractor shall indemnify and hold harmless the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation of the City of Pittsburgh against any and all claims which may be made by reason of any infringement of any patent right in the use of any machinery or apparatus necessary in the disposal of garbage, offal, dead animals and condemned meat under these specifications; and said bond shall also indemnify and hold harmless the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation of the City of Pittsburgh, its officers, agents and servants, and each and every one of them, against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants; and each and every one of them against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants; and also from damages and costs to which it, they or any of them may be put by reason of injury to the person or property of any other, resulting from negligence or carelessness, or otherwise, in the performance of its obligations under the contract, or from any defective or improper appliances used in the performance of same.

Twenty-fifth: The city shall direct all persons having garbage to be collected by the contractor to provide and maintain suitable receptacles therefor in which nothing but garbage shall be deposited and all such receptacles shall be required to be kept or placed in a location accessible to the employees of the contractor for the purpose of collection and removal of the garbage. The size, type, character and the location of said receptacles shall be prescribed and approved by the Director of the Department of Public Health. The contractor shall provide at his own proper cost and expense eight (8) inspectors, whose appointment shall be

approved by the Director of the Department of Public Health, and the duties of said inspectors shall be to co-operate with the Director of the Department of Public Health in the enforcement of any ordinance of the City of Pittsburgh now in effect or which may hereafter be enacted for the purpose of carrying out the requirements of these specifications as set forth in this paragraph; provided that should the contractor for the removal of garbage and the contractor for the removal of rubbish be one and the same person, firm or company, the total number of inspectors to be employed by such contractor shall be eight (8.)

Twenty-sixth: The Director of the Department of Public Health shall print, at the expense of the contractor, a notice or notices to be left at each and every dwelling house and all other buildings in the City of Pittsburgh where garbage may accumulate, stating that the collector will call for garbage on certain days mentioned in the notice or notices, and requesting that such garbage be ready in prescribed and suitable vessels for the collector when he calls for the same. Each notice shall have appended thereto a statement, based on Section 20 of an Act of Assembly entitled, "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class," defining the powers and duties thereof, and of the officers thereunder, prescribing rules and regulations thereunder respecting the public health, and authorizing and imposing fines and penalties for the violation thereof, approved June 26, A. D. 1895, and the various amendments and supplements thereto. The said notice shall also contain the name, address and telephone number of the contractor and the address and telephone number of the Department of Public Health. It shall also contain the official definition of the term "Garbage" and the term "Rubbish," and directions for and the manner of preparing the garbage and rubbish for the collector, and such other information as may be necessary, based upon Ordinance No. 180, or other ordinances referring to the same subject. In case of any failure to collect garbage on the day or days specified in the notice, there shall be deducted from the next monthly payroll or sum due said contractor the sum of \$2.00 for each and every said failure, which sum shall be taken and deemed as liquidated damages and not as a penalty, except, no deductions shall be made if the contractor shall remove the garbage within twenty-four hours after receipt of notice of such failure from the Superintendent of the Bureau of Sanitation.

Twenty-seventh: Each bid shall be accompanied with a bond in the sum of ten thousand (\$10,000.00) dollars, with two sureties executed before the City Clerk, or the bond of a Surety Trust Company, for the acceptance of the contract if awarded by the City of Pittsburgh, or in lieu of such bond, a certified check or bank certificate of

deposit payable to the City of Pittsburgh, may be filed with proposals, and the person or persons, firm or corporation to whom the contract is awarded shall file a bond to the City of Pittsburgh within ten days after the contract has been awarded, in the sum of fifty per centum of the cost of said contract to faithfully carry out its provisions.

Twenty-eighth: All labor and equipment of every kind necessary to carry on the provisions of these specifications, shall be furnished by and at the expense of the contractor.

Twenty-ninth: When the contract has been entered into it shall not be assigned, transferred or set over to any other person or persons, firm or firms, corporation or corporations, nor will any power of attorney to collect monies due be recognized, and any party assuming the direction of the work, or taking part therein, shall be considered as an employe under these specifications and under the contract. Any violation of the Acts of Assembly or the ordinance or these specifications shall be sufficient cause for the immediate cancellation of the contract by the Mayor, and the Director of the Department of Public Health, who may thereupon employ the necessary labor to perform the work, or re-advertise and relet the work at the expense of the offending contractor and his sureties.

Thirtieth: All parts of these specifications are intended to be explanatory of each other, but in case any misunderstanding or doubt as to the meaning of any of the provisions thereof shall arise, the same shall be submitted to the Mayor and the Director of the Department of Public Health for their decision, and their interpretation shall be final, binding and conclusive, without exception or appeal.

Thirty-first: Monthly payments shall be made to the contractor within the first ten days of each and every month, said payment to be made after the contractor has filed proper vouchers, according to law for the same, and upon the certificate of the Director of the Department of Public Health, in such sums as may be agreed upon and fixed in the contract hereinafter to be entered into between the City of Pittsburgh and the contractor, said payments to be made subject to the provisions of these specifications.

Thirty-second: The provisions of these specifications as set forth in paragraph twenty-sixth (26th) shall be suspended for such period or periods of time as the shipment or delivery of garbage by railroad to the disposal plant of the contractor may be prevented by reason of: Acts of the United States Government, priority orders, railroad embargo, insufficient car supply, railroad congestion or inability or failure, otherwise, upon the part of any railroad used to transport such garbage to furnish proper and adequate transportation facilities for said purpose. Or if the river transportation

is used, or if the disposal plant is located upon the river bank, the provisions of these specifications as set forth in paragraph 26 shall be suspended at such period of time as high water in the river may interfere with transportation or proper operation of the disposal plant. All questions of fact relating to what shall constitute proper and adequate transportation facilities within the meaning of this paragraph, or all questions of fact as to what shall constitute interference by reason of a high river with the proper operation of a reeduction plant within the meaning of this paragraph, shall be decided by the Director of the Department of Public Health.

Thirty-third: The Director of the Department of Public Health shall notify the contractor within forty-eight (48) hours after each and every assessment of liquidated damages or fines imposed under the provisions of these specifications.

Thirty-fourth: If the contract for the work herein provided shall be let on a tonnage basis, the City of Pittsburgh shall provide a suitable person or persons who shall weigh all garbage, offal, dead animals, condemned meat, etc., collected or removed by the contractor, and file with the Superintendent of the Bureau of Sanitation daily a report setting forth the number of loads and weights of garbage, offal, dead animals, condemned meat, etc., collected during said day. The Superintendent of the Bureau of Sanitation shall verify such reports on or before the filing of the claim for the preceding month's services, and no claim for services rendered will be approved until such verification has been made. Each person so employed to take such weights shall be bonded by the City of Pittsburgh in the sum of one thousand (\$1,000.00) dollars for the faithful performance of his duties. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth.

No. 606.

SPECIFICATIONS.

For the collection, removal and disposal of garbage, offal, dead animals and condemned meat in that part of the City of Pittsburgh comprising the Twenty-first to the Twenty-seventh wards, both inclusive, from February 1st, 1918, to December 31st, 1918.

First: All the provisions of the following Act of Assembly shall be

deemed, taken, included and made part of the specifications, to-wit: An Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March, A. D. 1901, and an Act entitled, "An Act amending and supplementing an Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March, A. D. 1901, in the following particulars, etc., approved the 20th day of June, A. D. 1901; and an Act entitled, "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class, defining the powers and duties thereof and of the officers thereunder, prescribing rules and regulations and laws respecting the public health, and authorizing and imposing fines, penalties and punishments for violations thereof," approved the 26th day of June, A. D. 1895. And an Act approved April 1st 1909, amending Article two, Article six, Article sixteen and paragraph twenty-four of Article nineteen, of an Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March, A. D. 1901. Ordinance No. 180 of the City of Pittsburgh, approved June 30, 1913, shall also be deemed, taken, included and made part of the specifications.

Second: The Liability of the city of collecting, removing and disposing of garbage, offal, dead animals and condemned meat under these specifications shall be limited by the amounts provided by the provisions of the ordinance making annual appropriations.

Third: The manner, mode and form of the disposal of garbage, offal, dead animals and condemned meat in and throughout the city under these specifications shall be by that process known as the reduction process, incineration method, or by some other equally as good method, subject to the approval of the Director of the Department of Public Health, who shall be the sole and absolute judge as to what might be termed any other approved method.

Fourth: Any reduction, incineration or other plant or plants as may be necessary for carrying out these specifications in their entirety, if located within the limits of the City of Pittsburgh shall be at such point or points as the Director of the Department of Public Health shall select and approve, but the contractor may locate his plant or plants outside of the corporate limits of the City of Pittsburgh, if he so desires.

Fifth: If, in the disposal of garbage, offal, dead animals and condemned meat in the City of Pittsburgh by reduction or any other method that may be used, there shall be any residuum, refuse matter or materials of any kind whatever of any offensive character arising or resulting from or remaining after said disposal, said residuum, refuse matter and material shall, within twenty-four hours, be removed from and beyond the limits of the City of Pittsburgh by the contractor.

Sixth: The term "garbage," wherever it occurs in these specifications, means all refuse of animal and vegetable matter which has been used for feed for man, and all refuse, animals and vegetable matter which was intended to be so used, and includes condemned food. The term "dead animals" wherever it occurs in these specifications, means all dead animals or parts thereof, not intended to be used as food for man.

Seventh: The contractor shall collect, remove and dispose of all garbage and dead animals, as defined in these specifications, from all places wherever the same may accumulate within the corporate limits of the City of Pittsburgh, namely: from the Twenty-first to the Twenty-seventh wards, both inclusive, except from storage and produce commission houses.

Eighth: No person other than the contractor shall carry, convey or transport through the streets, alleys or public places of the city from the Twenty-first to the Twenty-seventh wards, both inclusive, any garbage, offal, condemned meat or dead animals, without permission from the Director of the Department of Public Health.

Ninth: Collections shall be made daily, except Sunday, from all public markets, hotels, restaurants, fish markets, butcher shops, hospitals and places where animal, game or fowls are killed or dressed within the city providing, however, that the removal of dead animals and animal offal shall be at such hours as shall be prescribed by the Director of the Department of Public Health.

Tenth: Garbage shall be collected and removed twice each week throughout the year from all places where the same may accumulate in the following specified wards, viz: that portion of the Twenty-first ward south of Liverpool street, Twenty-second ward, Twenty-third ward, and that portion of the Twenty-fifth ward west of Federal street. In all other portions of the City of Pittsburgh, known as the North Side, not specified above, garbage shall be collected and removed twice each week during the months of May, June, July, August, September and October, and once each week during the months of January, February, March, April, November and December. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth in paragraph nine.

Eleventh: Dead animals, lying upon any of the streets, alleys or public highways, or elsewhere, must be removed immediately to the disposal plant upon receiving notification thereof, either from the Department of Public Health or the Bureau of Police; and if the contractor fails, neglects or refuses to have the same removed within four (4) hours after receiving notice, either by telephone or otherwise (excepting in cases where such notices shall be given between the hours of 3 P. M. and 6 A. M., on

which instance the reckoning of the four (4) hours shall be computed from 6 A. M.) the sum of \$10.00 per day for every day of failure neglect or refusal to comply herewith shall be deducted from the next monthly bill of said contractor which deduction shall be deemed taken and treated as liquidated damages and not as penalties.

Twelfth: Garbage, offal and condemned meat shall be collected in and transported through the streets of the city in vehicles in watertight, closed metal boxes, the same to be approved by the Director of the Department of Public Health, and shall not be changed without the approval of the aforesaid Director. These receptacles or wagons shall have closely fitted lids, which lids must be at all times closed and kept closed except when loading or unloading garbage, offal and condemned meat and must not at any time be driven over the public streets or highways in an overcrowded or overloaded condition. The wagons shall be thoroughly washed and disinfected in a manner approved by the Director of the Department of Public Health, each day during the period from November 1st to May 1st, immediately after the close of the day's hauling and after each load during the period from May 1st to November 1st, and shall not appear in the public streets and highways of the City of Pittsburgh in an insanitary or unsightly manner. For any failure, neglect or refusal on the part of the contractor or any of his agents or employees to thoroughly wash and disinfect daily the wagons as herein provided there shall be deducted from the next monthly pay due said contractor until improper conditions are remedied the sum of \$5.00 per day for each and every wagon not so washed and disinfected which deduction shall be deemed taken and treated as liquidated damages and not as penalties.

Thirteenth: The entire work of collecting, removing and disposing of garbage, offal, dead animals and condemned meat shall be at all times accessible to the Director of the Department of Public Health, or his authorized representatives, and the said Director may reserve the right to cause the contractor to deliver any portion of garbage, offal or dead animals at any point within the city limits for the purpose of experimentation.

Fourteenth: Each bidder shall submit with his bid drawings distinctly and clearly showing his method by which it is intended to dispose of garbage, dead animals and animal offal; but no bid will be considered which contemplates the dumping of such material either within or without the corporate limits of the city, or feeding the same to animals, except as herein previously provided in case of residuum.

Fifteenth: All receptacles, carts or conveyances of whatever kind used for the collection and removal of garbage, offal, dead animals and con-

demned meat shall be so constructed and loaded as to prevent any part therein from falling on any of the streets, alleys, lanes or public highways of the city, and must have the name of the contractor and the number of the wagon printed on each side of the same in letters of a size to be easily read, and shall thereon have at least one gallon of good quality of disinfectant for use in cases of emergency, and should any driver or employee of the contractor, by his carelessness or negligence, allow any garbage, offal, dead animals or condemned meat to fall upon any public streets, lanes, alleys, highways or sidewalks of the City of Pittsburgh, he shall immediately clean up the same and place it in the wagon or receptacle, and thoroughly disinfect the place on which said garbage, etc., was dropped; and for any failure on his part to comply herewith, there shall be deducted from the next monthly payroll or sum due the said contractor, the sum of \$10.00 for each and every offense, which sum shall be deemed, taken and treated as liquidated damages and not as penalties.

Sixteenth: No money, gratuity, reward, fee or other valuable consideration, except the compensation agreed to be paid by the city, shall be charged, received or taken by the contractor, or any of his agents or employees, for doing or failing to do any part of the work required to be done under these specifications.

Seventeenth: The contractor shall at all times use such appliances and employ such or so many men for the performance of all the operations connected with the work embraced under these specifications as will secure a satisfactory rate of progress and quality of work, and in case it shall appear at any time that the work, or any part thereof, is not being properly done, the same shall be immediately corrected upon the demands of the Director of the Department of Public Health, or his authorized representative, but no omission on the part of the said Director to notice or call attention to such defect shall be held to be a waiver of said rights of said Director to do so, or from directing the same to be corrected as aforesaid.

Eighteenth: In case of failure by the contractor to comply in any respect with the specifications or with the contract, the Director of the Department of Public Health shall have the right and power and is authorized to provide for the collection, removal and disposal of garbage, offal, dead animals and condemned meat which the contractor shall fail to collect, remove or dispose of, and to charge the expense to the contractor, and the contractor and his sureties shall be liable for the expense incurred therein.

Nineteenth: The contractor shall make monthly reports on blanks approved by the Director of the Depart-

ment of Public Health which shall show the number of all loads and parts of loads and tonnage collected, or in case of dead animals, the number of species collected together with the weights thereof, and shall be sworn to before the City Controller.

Twentieth: All the work shall be done under the supervision of the Director of the Department of Public Health, and all details of such work as are not herein particularly specified shall be done in a manner acceptable to him.

Twenty-first: The contractor shall have and maintain telephone communication with the office of the Department of Public Health, and be prepared to receive orders between the hours of 6 a. m. and 12 p. m., said telephone communication to be at said contractor's own proper cost and expense.

Twenty-second: All wagons for hauling dead animals shall have a lid or covering of an approved design or style, which lid or covering must be at all times thrown over the wagon so as to cover up all carcasses or dead animals, except when loading or unloading.

Twenty-third: Any official or employee of the contractor for removing garbage, offal, dead animals or condemned meat, using improper or vile language, being under the influence of liquor while on duty, filling his wagon with water or other foreign matter, or demanding or accepting pay from citizens for services rendered, or falsifying any reports he may be called upon to make, or if refusing to collect or remove garbage, offal, dead animals, and condemned meat without being paid for same, except as is provided and allowed as compensation by the City of Pittsburgh, shall immediately be discharged and debarred from further employment in said work. Should the contractor keep in his employ or at any time re-employ any person or persons in violation of this paragraph, there shall be deducted from the next monthly sum due him five (\$5.00) dollars for each person for each and every day so employed, which sum shall be deemed, taken and treated as liquidated damages and not as penalties. Only adult men shall be employed in said work, and each of said employees shall wear in a conspicuous place a badge showing his number and marked "Garbage Collector."

Twenty-fourth: The contractor shall indemnify and hold harmless the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation of the City of Pittsburgh against any and all claims which may be made by reason of any infringement of any patent right in the use of any machinery or apparatus necessary in the disposal of garbage, offal, dead animals and condemned meat

under these specifications; and said bond shall also indemnify and hold harmless the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation of the City of Pittsburgh, its officers, agents and servants, and each and every one of them against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants; and each and every one of them against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents, or servants; and also from damages and costs to which it, they or any of them may be put by reason of injury to the person or property of any other, resulting from negligence or carelessness, or otherwise, in the performance of its obligations under the contract, or from any defective or improper appliances used in the performance of same.

Twenty-fifth: The city shall direct all persons having garbage to be collected by the contractor to provide and maintain suitable receptacles therefor in which nothing but garbage shall be deposited and all such receptacles shall be required to be kept or placed in a location accessible to the employees of the contractor for the purpose of collection and removal of the garbage. The size, type, character and the location of said receptacles shall be prescribed and approved by the Director of the Department of Public Health. The contractor shall provide at his own proper cost and expense three (3) inspectors, whose appointment shall be approved by the Director of the Department of Public Health, and the duties of said inspectors shall be to cooperate with the Director of the Department of Public Health in the enforcement of any ordinance of the City of Pittsburgh now in effect or which may hereafter be enacted for the purpose of carrying out the requirements of these specifications as set forth in this paragraph; provided that should the contractor for the removal of garbage and the contractor for the removal of rubbish be one and the same person, firm or company, the total number of inspectors to be employed by such contractor shall be three (3).

Twenty-sixth: The Director of the Department of Public Health shall print, at the expense of the contractor, a notice or notices to be left at each and every dwelling house and all other buildings in the City of Pittsburgh where garbage may accumulate, stating that the collector will call for garbage on certain days mentioned in the notice or notices, and requesting that such garbage be ready in prescribed

and suitable vessels for the collector when he calls for the same. Each notice shall have appended thereto a statement, based on Section 20 of an Act of Assembly entitled, "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class," defining the powers and duties thereof, and of the officers thereunder, prescribing rules and regulations thereunder respecting the public health, and authorizing and imposing fines and penalties for the violation thereof, approved June 26, A. D. 1895, and the various amendments and supplements thereto. The said notice shall also contain the name, address and telephone number of the contractor and the address and telephone number of the Department of Public Health. It shall also contain the official definition of the term "Garbage" and the term "Rubbish," and directions for and the manner of preparing the garbage and rubbish for the collector, and such other information as may be necessary, based upon Ordinance No. 180, or other ordinances referring to the same subject. In case of any failure to collect garbage on the day or days specified in the notice, there shall be deducted from the next monthly payroll or sum due said contractor the sum of \$2.00 for each and every said failure, which sum shall be taken and deemed as liquidated damages and not as a penalty, except, no deductions shall be made if the contractor shall remove the garbage within twenty-four hours after receipt of notice of such failure from the Superintendent of the Bureau of Sanitation.

Twenty-seventh: Each bid shall be accompanied with a bond in the sum of ten thousand (\$10,000.00) dollars, with two sureties executed before the City Clerk, or the bond of a Surety Trust Company, for the acceptance of the contract if awarded by the City of Pittsburgh, or in lieu of such bond, a certified check or bank certificate of deposit payable to the City of Pittsburgh, may be filed with proposals, and the person or persons, firm or corporation to whom the contract is awarded shall file a bond to the City of Pittsburgh within ten days after the contract has been awarded, in the sum of fifty per centum of the cost of said contract to faithfully carry out its provisions.

Twenty-eighth: All labor and equipment of every kind necessary to carry out the provisions of these specifications, shall be furnished by and at the expense of the contractor.

Twenty-ninth: When the contract has been entered into, it shall not be assigned, transferred or set over to any other person or persons, firm or firms, corporation or corporations, nor will any power of attorney to collect monies due be recognized, and any party assuming the direction of the work, or taking part therein, shall be considered as an employee under these specifications and under the contract. Any violation of the Acts of Assembly or the ordinance or these specifications

shall be sufficient cause for the immediate cancellation of the contract by the Mayor, and the Director of the Department of Public Health, who may thereupon employ the necessary labor to perform the work, or re-advertise and re-let the work at the expense of the offending contractor and his sureties.

Thirtieth: All parts of these specifications are intended to be explanatory of each other, but in case any misunderstanding or doubt as to the meaning of any of the provisions thereof shall arise, the same shall be submitted to the Mayor and the Director of the Department of Public Health for their decision, and their interpretation shall be final, binding and conclusive, without exception or appeal.

Thirty-first: Monthly payments shall be made to the contractor within the first ten days of each and every month, said payment to be made after the contractor has filed proper vouchers, according to law for the same, and upon the certificate of the Director of the Department of Public Health, in such sums as may be agreed upon and fixed in the contract hereinafter to be entered into between the City of Pittsburgh and the contractor, said payments to be made subject to the provisions of these specifications.

Thirty-second: The provisions of these specifications as set forth in paragraph twenty-sixth (26th) shall be suspended for such period or periods of time as the shipment or delivery of garbage by railroad to the disposal plant of the contractor may be prevented by reason of: Acts of the United States Government, priority orders, railroad embargo, insufficient car supply, railroad congestion or inability or failure, otherwise, upon the part of any railroad used to transport such garbage to furnish proper and adequate transportation facilities for said purpose. Or if the river transportation is used, or if the disposal plant is located upon the river bank, the provisions of these specifications as set forth in paragraph 26 shall be suspended at such period of time as high water in the river may interfere with transportation or proper operation of the disposal plant. All questions of fact relating to what shall constitute proper and adequate transportation facilities within the meaning of this paragraph, or all questions of fact as to what shall constitute interference by reason of a high river with the proper operation of a reduction plant within the meaning of this paragraph, shall be decided by the Director of the Department of Public Health.

Thirty-third: The Director of the Department of Public Health shall notify the contractor within forty-eight (48) hours after each and every assessment of liquidated damages or fines imposed under the provisions of these specifications.

Thirty-fourth: If the contract for the work herein provided shall be let on a tonnage basis, the City of Pittsburgh shall provide a suitable person

or persons who shall weigh all garbage, offal, dead animals, condemned meat, etc., collected or removed by the contractor, and file with the Superintendent of the Bureau of Sanitation daily a report setting forth the number of loads and weights of garbage, offal, dead animals, condemned meat, etc., collected during said day. The Superintendent of the Bureau of Sanitation shall verify such reports on or before the filing of the claim for the preceding month's services, and no claim for services rendered will be approved until such verification has been made. Each person so employed to take such weights shall be bonded by the City of Pittsburgh in the sum of one thousand (\$1,000.00) dollars for the faithful performance of his duties. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth.

SPECIFICATIONS.

For the collection, removal and disposal of rubbish in that part of the City of Pittsburgh comprising the First to the Twentieth wards, both inclusive, from February 1st, 1918, to December 31st, 1918.

First: All the provisions of the following Acts of Assembly shall be deemed, taken, included and made part of the specifications, to-wit: An Act entitled, "An Act for the government of cities of the second class" approved the 7th day of March, A. D. 1901, and an Act entitled, "An Act amending and supplementing an Act entitled, "An Act for the government of cities of the second class approved the 7th day of March, A. D. 1901, in the following particulars, etc., "approved the 20th day of June, A. D. 1901; and an Act entitled "An Act creating a Bureau of Public Health in the Department of Public Safety in cities of the second class, defining the powers and duties thereof and of the officers thereunder, prescribing rules, regulations and laws respecting public health, and authorizing and imposing fines, penalties and punishments for violation thereof" approved the 26th day of June, A. D. 1895. And an Act approved April 1, 1909, amending Article two, Article six, Article sixteen, and paragraph twenty-four of Article nineteen, of an Act entitled, "An Act for the government of cities of the second class" approved the 7th day of March, A. D. 1901. Ordinance No. 180 of the City of Pittsburgh, approved June 30th, 1915, shall also be deemed,

taken, included and made part of the specifications.

Second: The liability of the city for the expense of collecting, removing and disposing of rubbish under these specifications shall be limited to the amounts provided for by the provisions of the ordinance making annual appropriations.

Third: The manner, mode and form of the disposal of rubbish under these specifications, shall be by that process known as the incineration method, or by some other equally as good method, subject to the approval of the Director of the Department of Public Health, who shall be sole and absolute judge as to what might be termed any other approved method.

Fourth: Such incineration, or other plant or plants as may be necessary for carrying out these specifications in their entirety, if located within the limits of the City of Pittsburgh, shall be at such point or points as the Director of the Department of Public Health shall select and approve, but the contractor may locate his plant or plants outside of the corporate limits of the City of Pittsburgh if he so desires.

Fifth: If, in the disposal of rubbish in the City of Pittsburgh, by incineration or any other method that may be used, there shall be any residuum, refuse matter or materials of any kind whatever, of an offensive character arising or resulting from or remaining after such disposal of said residuum, refuse matter or material shall, within twenty-four (24) hours, be removed from and beyond the limits of the City of Pittsburgh, by the contractor.

Sixth: The term "rubbish," wherever it occurs in these specifications, means all paper, pasteboard, rags, mattresses, wornout furniture, old clothes, old shoes, old rubbers, leather, carpets, broken glass, crockery, bottles, straw, excelsior, floor sweepings, old metal, packing boxes and barrels and broken parts thereof, tin cans, Christmas trees, leaves, grass cuttings, and household refuse generally, exclusive of garbage and ashes.

Seventh: The rubbish shall be removed at least once each week from all dwellings and apartment buildings, all public buildings, religious, educational and charitable institutions and hospitals; also small stores connected with living apartments.

Eighth: Rubbish shall be collected in and transported through the streets of the city, in vehicles to be approved by the Director of the Department of Public Health, and shall not be changed without the approval of the aforesaid Director. These receptacles or wagons shall have canvass coverings, which covering at all times must be closed, except when loading or unloading rubbish, and must not at any time be driven over the public streets or highways in an overcrowded or overloaded condition; and for any failure, neglect or refusal on the part of the contractor, or any of his agents or

employees, to comply with the same as herein provided, there shall be deducted from the next monthly pay due the said contractor until improper conditions are remedied, the sum of five (\$5.00) dollars for each and every offense, which deduction shall be deemed, taken and treated as liquidated damages, and not as penalties.

Ninth: The entire work of collecting, removing and disposing of rubbish shall at all times be accessible to the Director of the Department of Public Health and his authorized representatives, and the said Director reserves the right to cause the contractor to deliver any portion of the rubbish at any point within the city limits for the purpose of experimentation.

Tenth: Each bidder shall submit with his bid drawings distinctly and clearly showing the method by which he intends to dispose of the rubbish; but no bid will be considered which contemplates the dumping of such material either within or without the corporate limits of the city except as herein previously provided in case of residuum.

Eleventh: All receptacles, carts and conveyances of whatever kind, used for the collection or removal of rubbish, shall be so constructed and loaded as to prevent any part therein from falling on any of the streets, alleys, lanes, or public highways of the city, and must have the name of the contractor and the number of the wagon printed on each side of the same, in letters of a size to be easily read; and for any failure on his part to comply herewith there shall be deducted from the next monthly payroll or sum due the contractor, the sum of ten (\$10.00) dollars for each and every offense, which sum shall be deemed, taken and treated as liquidated damages, and not as penalties.

Twelfth: No money, gratuity, reward, fee or other valuable consideration, except the compensation agreed to be paid by the city, shall be charged, received or taken by the contractor or any of his agents, or employees, for doing or failing to do any part of the work required to be done under these specifications.

Thirteenth: The contractor shall at all times use such appliances and employ such or so many men for the performance of all the operations connected with the work embraced under these specifications, as will insure a satisfactory rate of progress and quality of work, and, in case it shall appear at any time that the work or any part thereof is not being properly done, the same shall be immediately corrected upon the demand of the Director of the Department of Public Health, or his authorized representative, but no omission on the part of the said Director to notice or call attention to such defect shall be held to be a waiver of the right of said Director to do so, or from directing the same to be corrected as aforesaid.

Fourteenth: In case of failure by the contractor to comply in any re-

spect with the specifications or with the contract, the Director or the Department of Public Health shall have the right and power and is authorized to provide for the collection, removal and disposal of such rubbish as the contractor shall fail to collect, remove or dispose of, and to charge the expense to the contractor, and the contractor and his sureties shall be liable for the expense incurred therein.

Fifteenth: The contractor shall make monthly reports on blanks approved by the Director of the Department of Public Health, which shall show the number of all loads and parts of loads and tonnage collected, and shall be sworn to before the City Controller.

Sixteenth: All work shall be done under the supervision of the Director of the Department of Public Health, all details of such work which are not herein particularly specified, shall be done in a manner acceptable to him.

Seventeenth: The contractor shall have and maintain telephone communication with the office of the Department of Public Health, and be prepared to receive orders within the hours of 6 A. M. and 12 P. M. Said telephone communication to be at said Contractor's own proper cost and expense.

Eighteenth: Any official or employee of the contractor for removing rubbish, using vile language, being under the influence of liquor while on duty, or demanding or accepting pay from citizens for services rendered, or falsifying any report he may be called on to make, or refusing to collect or remove rubbish, and refuse without being paid for same, except as provided or allowed as compensation by the City of Pittsburgh, shall immediately be discharged and debarred from further employment in said work. Should the contractor keep in his employ, or should he at any time re-employ any person or persons in violation of this paragraph, there shall be deducted from the next monthly sum due him, \$5.00 for each person, for each and every day so employed, which sum shall be deemed, taken and treated as liquidated damages, and not as a penalty. Only adult men shall be employed in said work and each of said employees shall wear in a conspicuous place a badge showing his number and marked "Rubbish Collector."

Nineteenth: The contractor shall indemnify and hold harmless the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, of the City of Pittsburgh, against any and all claims which may be made by reason of any infringement of any patent right in the use of any machinery or apparatus necessary in the disposal of rubbish under these specifications; said bond shall indemnify and save harmless the Mayor, the Director of the Department of Public Health, the Superintendent of the Bureau of Sanitation, of the City of Pittsburgh, its officers, agents or servants, and each and every one of them against and from all suits and actions of every kind and description brought

against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants of the City, and each and every one of them against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents, or servants, and also from damages and costs to which it, they or any of them may be put by reason of injury to the person or property of any other resulting from negligence or carelessness or otherwise in the performance of its obligations under the contract, or from any defective or improper appliance used in the performance of same.

Twentieth: The city shall direct all persons having rubbish to be collected by the contractor to provide and maintain suitable receptacles therefor in which nothing but rubbish shall be deposited and all such receptacles shall be required to be kept or placed in a location accessible to the employees of the contractor for the purpose of collection and removal of the rubbish. The size, type, character and the location of said receptacles shall be prescribed and approved by the Director of the Department of Public Health. The contractor shall provide at his own proper cost and expense eight (8) inspectors whose appointment shall be approved by the Director of the Department of Public Health, and the duties of said inspectors shall be to cooperate with the Director of the Department of Public Health in the enforcement of any ordinance of the City of Pittsburgh now in effect, or which may hereafter be enacted for the purpose of carrying out the requirements of these specifications as set forth in this paragraph; provided that should the contractor for the removal of rubbish and the contractor for the removal of garbage be one and the same person, firm or company, the total number of inspectors to be employed by such contractor shall be eight (8).

Twenty-first: The Director of the Department of Public Health shall print at the expense of the contractor a notice or notices to be left at each and every dwelling, apartment building, all public buildings, religious, educational and charitable institutions, small stores in connection with apartments and living conditions, stating that the collector will call for rubbish on a certain day each week mentioned in the notice or notices, and requesting that such rubbish be ready in prescribed and suitable vessels for the collector when he calls for same. Each notice shall have appended thereto a statement based on Section 20 of an Act of Assembly entitled "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class," defining the powers and duties thereof and of the officers thereunder, prescribing rules and regulations thereunder respecting

the public health and authorizing and imposing fines and penalties for the violations thereof, approved June 26, A. D. 1895, and the various amendments and supplements thereto.

The said notice or notices shall also contain the name, address and telephone number of the contractor and the address and telephone number of the Department of Public Health. It shall also contain the official definition of the term "rubbish" and the term "garbage" and directions for and the manner of preparing the rubbish and garbage for the collector, and such other information as may be necessary, based upon Ordinance No. 180 or other ordinances referring to the same subject. In case of any failure to collect rubbish on the day or days specified in the notice, there shall be deducted from the next monthly payroll or sum due said contractor, the sum of two (\$2.00) dollars for each and every said failure, which sum shall be deemed and taken as liquidated damages and not as a penalty, except no deduction shall be made if the contractor shall remove the rubbish within twenty-four (24) hours after receipt of notice of such failure from the Superintendent of the Bureau of Sanitation.

Twenty-second: Each bid shall be accompanied with a bond in the sum of ten thousand (\$10,000.00) dollars, with two sureties, executed before the City Clerk, or the bond of a Surety Trust Company, for the acceptance of the contract if awarded by the City of Pittsburgh, or in lieu of such bond, a certified check or bank certificate of deposit payable to the City of Pittsburgh, may be filed with proposals, and the person or persons, firm or corporation to whom the contract is awarded shall file a bond to the City of Pittsburgh within ten (10) days after the contract has been awarded, in the sum of fifty per centum of the cost of said contract to faithfully carry out its provisions.

Twenty-third: All labor and equipment of every kind, necessary to carry out the provisions of these specifications, shall be furnished by and at the expense of the contractor.

Twenty-fourth: When the contract has been entered into, it shall not be assigned, transferred or set over to any other person or persons, firm or firms, corporation or corporations, nor will any power of attorney to collect monies due be recognized, and any party assuming the direction of the work, in taking part therein, shall be considered as an employee, under these specifications and under the contract. Any violation of the Acts of Assembly or the ordinance or these specifications, shall be sufficient cause for the immediate cancellation of the contract by the Mayor and the Director of the Department of Public Health, who may thereupon employ the necessary labor to perform the work, or re-advertise and re-let the work at the expense of the offending contractor and his sureties.

Twenty-fifth: All parts of these

specifications are intended to be explanatory of each other, but in case any misunderstanding or doubt as to the meaning of any of the provisions shall arise, the same shall be submitted to the Mayor and the Director of the Department of Public Health for their decision, and their interpretation shall be final binding and conclusive, without exception or appeal.

Twenty-sixth: Monthly payments shall be made to the contractor, within the first ten (10) days of each and every month, said payments to be made after the contractor has filed proper vouchers according to law for same, and upon the certificate of the Director of the Department of Public Health, in such sums as may be agreed upon and fixed in the contract hereinafter to be entered into between the City of Pittsburgh and the contractor, said payments to be made subject to the provisions of these specifications.

Twenty-seventh: The provisions of these specifications as set forth in paragraph twenty-first (21) shall be suspended for such period or periods of time as the shipment or delivery of rubbish by railroad to the disposal plant of the contractor may be prevented by reason of: Acts of the United States Government, priority orders, railroad embargo, insufficient car supply, railroad congestion or inability or failure, otherwise, upon the part of any railroad used to transport such rubbish to furnish proper and adequate transportation facilities for said purpose. Or if the river transportation is used, or if the disposal plant is located upon the river bank, the provisions of these specifications as set forth in paragraph twenty-first (21) shall be suspended at such period of time as high water in the river may interfere with transportation or proper operation of the disposal plant. All questions of fact relating to what shall constitute proper and adequate transportation facilities within the meaning of this paragraph, or all questions of fact as to what shall constitute interference by reason of a high river with the proper operation of a disposal plant within the meaning of this paragraph, shall be decided by the Director of the Department of Public Health.

Twenty-eighth: The Director of the Department of Public Health shall notify the contractor within forty-eight (48) hours after each and every assessment of liquidated damages or fines imposed under the provisions of these specifications.

Twenty-ninth: If the contract for the work herein provided shall be let on a tonnage basis, the City of Pittsburgh shall provide a suitable person or persons who shall weigh the rubbish collected and removed by the contractor and file with the Superintendent of the Bureau of Sanitation daily a report setting forth the number of loads and the weights of rubbish collected during said day. The Superintendent of the Bureau of Sanitation shall verify such reports on or

before the filing of the claim for the preceding month's services, and no claim for services rendered will be approved until such verification has been made. Each person so employed to take such weights shall be bonded by the City of Pittsburgh in the sum of One Thousand (\$1,000.00) dollars for the faithful performance of his duty. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth.

In Health and Sanitation Committee, April 10, 1918, read and approved, and referred to Council to be printed in full in the record.

No. 608.

SPECIFICATIONS.

For the collection, removal and disposal of rubbish in that part of the City of Pittsburgh comprising the Twenty-first to the Twenty-seventh wards, both inclusive, from February 1st, 1918, to December 31st, 1918.

First: All the provisions of the following Acts of Assembly shall be deemed, taken, included and made part of the specifications, to-wit: An Act entitled "An Act for the government of cities of the second class" approved the 7th day of March A. D. 1901, and an Act entitled, "An Act amending and supplementing an Act entitled "An Act for the government of cities of the second class" approved the 7th day of March A. D. 1901 in the following particulars, etc., "approved the 20th day of June, A. D. 1901; and an Act entitled "An Act creating a Bureau of Health in cities of the second class, defining the powers and duties thereof and of the officers thereunder, prescribing rules, regulations and laws respecting public health, and authorizing and imposing fines, penalties and punishments for violations thereof" approved the 26th day of June A. D. 1895. And an Act approved April 1, 1909, amending Article Two, Article Six, Article Sixteen, and paragraph twenty-four of Article Nineteen, of an Act entitled, "An Act for the government of cities of the second class" approved the 7th day of March A. D. 1901. Ordinance No. 180 of the City of Pittsburgh, approved June 30th, 1915, shall also be deemed, taken, included and made part of the specifications.

Second: The liability of the city for the expense of collecting, removing and disposing of rubbish under these specifications shall be limited to the amounts provided for by the provisions of the ordinance making annual appropriations.

Third: The manner, mode and form of the disposal of rubbish under these specifications, shall be by that process known as the incineration method, or by some other equally as good method, subject to the approval of the Director of the Department of Public Health, who shall be sole and absolute judge as to what might be termed any other approved method.

Fourth: Such incineration, or other plant or plants as may be necessary for carrying out these specifications in their entirety, if located within the limits of the City of Pittsburgh, shall be at such point or points as the Director of the Department of Public Health shall select and approve, but the contractor may locate his plant or plants outside of the corporate limits of the City of Pittsburgh, if he so desires.

Fifth: If, in the disposal of rubbish in the City of Pittsburgh, by incineration or any other method that may be used, there shall be any residuum, refuse matter or materials of any kind whatever, of an offensive character arising or resulting from or remaining after such disposal of said residuum, refuse matter or material shall, within twenty-four (24) hours, be removed from and beyond the limits of the City of Pittsburgh, by the contractor.

Sixth: The term "rubbish," wherever it occurs in these specifications, means all paper, pasteboard, rags, mattresses, wornout furniture, old clothes, old shoes, old rubbers, leather, carpets, broken glass, crockery, bottles, straw, excelsior, floor sweepings, old metal, packing boxes and barrels and broken parts thereof, tin cans, Christmas trees, leaves, grass cuttings, and household refuse generally, exclusive of garbage and ashes.

Seventh: The rubbish shall be removed at least once each week from all dwellings and apartment buildings, all public buildings, religious, educational and charitable institutions and hospitals; also small stores connected with living apartments.

Eighth: Rubbish shall be collected in and transported through the streets of the city, in vehicles to be approved by the Director of the Department of Public Health, and shall not be changed without the approval of the aforesaid Director. These receptacles or wagons shall have canvass coverings, which covering at all times must be closed, except when loading or unloading rubbish, and must not at any time be driven over the public streets or highways in an overcrowded or overloaded condition; and for any failure, neglect or refusal on the part of the contractor, or any of his agents or employees, to comply with the same as herein provided, there shall be deducted from the next monthly pay due the said contractor until improper conditions are remedied, the sum of five (\$5.00) dollars for each and every offense, which deduction shall be deemed, taken and treated as liquidated damages, and not as penalties.

Ninth: The entire work of collect-

ing, removing and disposing of rubbish shall at all times be accessible to the Director of the Department of Public Health and his authorized representatives, and the said Director reserves the right to cause the contractor to deliver any portion of the rubbish at any point within the city limits for the purpose of experimentation.

Tenth: Each bidder shall submit with his bid, drawings distinctly and clearly showing the method by which he intends to dispose of the rubbish; but no bid will be considered which contemplates the dumping of such material either within or without the corporate limits of the city, except as herein previously provided in case of residuum.

Eleventh: All receptacles, carts and conveyances of whatever kind, used for the collection or removal of rubbish, shall be so constructed and loaded as to prevent any part therein from falling on any of the streets, alleys, lanes or public highways of the city, and must have the name of the contractor and the number of the wagon printed on each side of the same, in letters of a size to be easily read; and for any failure on his part to comply herewith there shall be deducted from the next monthly payroll or sum due the contractor, the sum of ten (\$10.00) dollars for each and every offense which sum shall be deemed, taken and treated as liquidated damages, and not as penalties.

Twelfth: No money, gratuity, reward, fee or other valuable consideration, except the compensation agreed to be paid by the city, shall be charged, received or taken by the contractor or any of his agents or employees, for doing or failing to do any part of the work required to be done under these specifications.

Thirteenth: The contractor shall at all times use such appliances and employ such or so many men for the performance of all the operations connected with the work embraced under these specifications, as will insure a satisfactory rate of progress and quality of work, and, in case, it shall appear at any time that the work, or any part thereof, is not being properly done, the same shall be immediately corrected, upon the demand of the Director of the Department of Public Health, or his authorized representative, but no omission on the part of the said Director to notice or call attention to such defect, shall be held to be a waiver of the right of said Director to do so, or from directing the same to be corrected as aforesaid.

Fourteenth: In case of failure by the contractor to comply in any respect with the specifications or with the contract, the Director of the Department of Public Health shall have the right and power and is authorized to provide for the collection, removal and disposal of such rubbish as the contractor shall fail to collect, remove or dispose of, and to charge the expense to the contractor, and the contractor and his sureties shall be liable

for the expense incurred therein.

Fifteenth: The contractor shall make monthly reports on blanks approved by the Director of the Department of Public Health, which shall show the number of all loads and parts of loads and tonnage collected, and shall be sworn to before the City Controller.

Sixteenth: All work shall be done under the supervision of the Director of the Department of Public Health, all details of such work which are not herein particularly specified, shall be done in a manner acceptable to him.

Seventeenth: The contractor shall have and maintain telephone communication with the office of the Department of Public Health, and be prepared to receive orders within the hours of 6 a. m. and 12 p. m. Said telephone communications to be at said contractor's own proper cost and expense.

Eighteenth: Any official or employee of the contractor for removing rubbish, using vile language, being under the influence of liquor while on duty, or demanding or accepting pay from citizens for services rendered, or falsifying any report he may be called on to make, or refusing to collect or remove rubbish, and refuse without being paid for same, except as provided or allowed as compensation by the City of Pittsburgh, shall immediately be discharged and debarred from further employment in said work. Should the contractor keep in his employ, or should he at any time re-employ any person or persons in violation of this paragraph, there shall be deducted from the next monthly sum due him, \$5.00 for each person, for each and every day so employed, which sum shall be deemed, taken and treated as liquidated damages, and not as a penalty. Only adult men shall be employed in said work and each of said employees shall wear in a conspicuous place a badge showing his number and marked "Rubbish Collector."

Nineteenth: The contractor shall indemnify and hold harmless the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, of the City of Pittsburgh, against any and all claims which may be made by reason of any infringement of any patent right in the use of any machinery or apparatus necessary in the disposal of rubbish under these specifications; said bond shall indemnify and save harmless the Mayor, the Director of the Department of Public Health, the Superintendent of the Bureau of Sanitation, of the City of Pittsburgh, its officers, agents or servants, and each and every one of them against and from all suits and actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants of the city, and each and every one of them against and from

all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants, and also from damages and costs to which it, they or any of them may be put by reason of injury to the person or property of any other resulting from negligence or carelessness or otherwise, in the performance of its obligations under the contract, or from any defective or improper appliance used in the performance of same.

Twentieth: The city shall direct all persons having rubbish to be collected by the contractor to provide and maintain suitable receptacles therefor in which nothing but rubbish shall be deposited and all such receptacles shall be required to be kept or placed in a location accessible to the employees of the contractor for the purpose of collection and removal of the rubbish. The size, type, character and the location of said receptacles shall be prescribed and approved by the Director of the Department of Public Health. The contractor shall provide at his own proper cost and expense three (3) inspectors whose appointment shall be approved by the Director of the Department of Public Health, and the duties of said inspectors shall be to co-operate with the Director of the Department of Public Health in the enforcement of any ordinance of the City of Pittsburgh now in effect, or which may hereafter be enacted for the purpose of carrying out the requirements of these specifications as set forth in this paragraph; provided that should the contractor for the removal of rubbish and the contractor for the removal of garbage be one and the same person, firm or company, the total number of inspectors to be employed by such contractor shall be three (3).

Twenty-first: The Director of the Department of Public Health shall print at the expense of the contractor a notice or notices to be left at each and every dwelling, apartment building, all public buildings, religious, educational and charitable institutions, small stores in connection with apartments and living conditions, stating that the collector will call for rubbish on a certain day each week mentioned in the notice or notices, and requesting that such rubbish be ready in prescribed and suitable vessels for the collector when he calls for same. Each notice shall have appended thereto a statement based on Section 20 of an Act of Assembly entitled "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class," defining the powers and duties thereof and of the officers thereunder, prescribing rules and regulations thereunder respecting the public health and authorizing and imposing fines and penalties for the violations thereof, approved June 26, A. D. 1895, and the various amendments and supplements thereto.

The said notice or notices shall also contain the name, address and telephone number of the contractor and the address and telephone number of the Department of Public Health. It shall also contain the official definitions for and the manner of preparing the rubbish and garbage for the collector, and such other information as may be necessary, based upon Ordinance No. 180 or other ordinances referring to the same subject. In case of any failure to collect rubbish on the day or days specified in the notice, there shall be deducted from the next monthly payroll or sum due said contractor, the sum of two (\$2.00) dollars for each and every said failure, which sum shall be deemed and taken as liquidated damages and not as a penalty, except, no deduction shall be made if the contractor shall remove the rubbish within twenty-four (24) hours after receipt of notice of such failure, from the Superintendent of the Bureau of Sanitation.

Twenty-second: Each bid shall be accompanied with a bond in the sum of ten thousand (\$10,000.00) dollars, with two sureties, executed before the City Clerk, or the bond of a Surety Trust Company, for the acceptance of the contract if awarded by the City of Pittsburgh, or in lieu of such bond, a certified check or bank certificate of deposit payable to the City of Pittsburgh, may be filed with proposals, and the person or persons, firm or corporation to whom the contract is awarded shall file a bond to the City of Pittsburgh within ten (10) days after the contract has been awarded, in the sum of fifty per centum of the cost of said contract to faithfully carry out its provisions.

Twenty-third: All labor and equipment of every kind, necessary to carry out the provisions of these specifications, shall be furnished by and at the expense of the contractor.

Twenty-fourth: When the contract has been entered into, it shall not be assigned, transferred or set over to any other person or persons, firm or firms, corporation or corporations, nor will any power of attorney to collect monies due be recognized, and any party assuming the direction of the work, or taking part therein, shall be considered as an employee, under those specifications and under the contract. Any violation of the Acts of Assembly or the ordinance or these specifications, shall be sufficient cause for the immediate cancellation of the contract by the Mayor and the Director of the Department of Public Health, who may thereupon employ the necessary labor to perform the work, or re-advertise and re-let the work at the expense of the offending contractor and his sureties.

Twenty-fifth: All parts of these specifications are intended to be explanatory of each other, but in case any misunderstanding or doubt as to the meaning of any of the provisions shall arise, the same shall be submitted to the Mayor and the Director of the Department of Public Health for

their decision, and their interpretation shall be final, binding and conclusive, without exception or appeal.

Twenty-sixth: Monthly payments shall be made to the contractor, within the first ten (10) days of each and every month, said payments to be made after the contractor has filed proper vouchers according to law for same, and upon the certificate of the Director of the Department of Public Health, in such sums as may be agreed upon and fixed in the contract hereinafter to be entered into between the City of Pittsburgh and the contractor, said payments to be made subject to the provisions of these specifications.

Twenty-seventh: The provisions of these specifications as set forth in paragraph twenty-first (21) shall be suspended for such period or periods of time as the shipment or delivery of rubbish by railroad to the disposal plant of the contractor may be prevented by reason of: Acts of the United States Government, priority orders, railroad embargo, insufficient car supply, railroad congestion or inability or failure, otherwise, upon the part of any railroad used to transport such rubbish to furnish proper and adequate transportation facilities for said purpose. Or if the river transportation is used or if the disposal plant is located upon the river bank, the provisions of these specifications as set forth in paragraph twenty-first (21) shall be suspended at such period of time as high water in the river may interfere with transportation or proper operation of the disposal plant. All questions of fact relating to what shall constitute proper and adequate transportation facilities within the meaning of this paragraph, or all questions of fact as to what shall constitute interference by reason of a high river with the proper operation of a disposal plant within the meaning of this paragraph, shall be decided by the Director of the Department of Public Health.

Twenty-eighth: The Director of the Department of Public Health shall notify the contractor within forty-eight (48) hours after each and every assessment of liquidated damages or fines imposed under the provisions of these specifications.

Twenty-ninth: If the contract for the work herein provided shall be let on a tonnage basis, the City of Pittsburgh shall provide a suitable person or persons who shall weigh the rubbish collected and removed by the contractor and file with the Superintendent of the Bureau of Sanitation daily a report setting forth the number of loads and the weights of rubbish collected during said day. The Superintendent of the Bureau of Sanitation shall verify such reports on or before the filing of the claim for the preceding month's services, and no claim for services rendered will be approved until such verification has been made. Each person so employed to take such weights shall be bonded by the City of Pittsburgh in the sum of one thousand (\$1,000.00) dollars for the

faithful performance of his duty. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth.

The Chair presented:
No. 633.

DEPARTMENT OF LAW,

Pittsburgh, April 20, 1918.

To the Honorable, the Council of
the City of Pittsburgh:

Gentlemen—With reference to the claim of the City of Pittsburgh against the Epping-Carpenter Company, please be advised:

This case was decided in favor of the City of Pittsburgh and against the said Company on August 5, 1899, the case being reported in the Pennsylvania State Supreme Court Reports, volume 134, page 318. The property, which is the subject matter of that case, has been decreed to belong to the City of Pittsburgh. It consists of 24,244 square feet, more or less, situate at the easterly corner of Forty-first and Water streets, extending along said Water street, a distance of 205.44 feet and along Forty-first street, a distance of 220.68 feet; being triangular in shape, the inside line measuring 365.68 feet in length.

Recently, we have had a number of conferences with counsel representing the Epping-Carpenter Company, and as a result thereof have received a communication under date of April 20, 1918, which is attached hereto. The said communication makes a proposition to the City of Pittsburgh to lease said property for an annual rental of one thousand (\$1,000.00) dollars, and in addition thereto, to pay the total sum of fifty-four hundred (\$5,400.00) dollars for the use and occupancy of said property during the last six years.

After thorough consideration of this matter, this department is satisfied that the proposition made by the Epping-Carpenter Company, through its counsel, as referred to, is fair and reasonable and just under the peculiar circumstances of the case, and we, therefore, recommend its acceptance.

Agreeable thereto, we have prepared an ordinance for your consideration, which is likewise handed you herewith.

Respectfully yours,

STEPHEN STONE,
City Solicitor.

No. 634.

Pittsburgh, April 20, 1918.

Stephen Stone, Esq.,
624 Frick Building,
Pittsburgh, Pa.:

Dear Sir—Confirming conversation with you yesterday, I wish to state that the Epping-Carpenter Company is willing to enter into a lease with the City of Pittsburgh for the term of ten years, for land now occupied by that company at Forty-first street and A. V. R. R., at the annual rental of \$1,000.00, provided the city will accept

the sum of \$900.00 per annum for six years for back rent for said premises.

My client believes that this is a reasonable and fair proposition, considering all the circumstances of the case, and I am of the same belief.

Trusting that this proposition may meet with your approval, and that of the City Council, I am,

Very truly yours,

C. A. FAGAN.

Also

No. 635. An ordinance authorizing and empowering the Mayor and the Director of the Department of Public Works to enter into a lease with the Epping-Carpenter Company for a portion of the public land along the Allegheny river in the Ninth ward of the City of Pittsburgh, and fixing the terms and compensation of said lease.

DEPARTMENT OF LAW,

Pittsburgh, March 29, 1918.

Finance Committee of Council:

Gentlemen—Replying to your request of March 19, as follows: "That the City Solicitor inform us if the Director of the Department of Public Safety has charge of all the Public Safety Building," I beg to advise that since the Public Safety Building still houses Police Station No. 1 and the Police Magistrates' Court Rooms and the fire alarm activity, all of which are under the jurisdiction and control of the Department of Public Safety, it would appear that the Director of said Department by virtue of the provisions of the Act of 1901 and ordinances in force, still has charge of the whole of the Public Safety Building.

Since, however, a very large portion of said building is no longer used by the Department of Public Safety, it would appear to me that the custody and care of such portion thereof as is not used by said Department, should be logically placed in the Bureau of City Property which Bureau under provisions of an ordinance approved January 7, 1902, has charge "of all public property belonging to said city not otherwise conferred upon some other department, including markets, city buildings, wharves, docks and such other property of the city as is not specifically conferred elsewhere."

It would, in my opinion, be perfectly consistent for Council to pass an ordinance imposing the custody and care of such portions of said building as are not now used by the Department of Public Safety and which may be vacated or relinquished by that Department in the future, upon the Bureau of City Property.

I have taken the liberty of preparing such an ordinance which may be introduced and passed by Council, should

that body deem it expedient to take such action.

Very truly yours,
STEPHEN STONE,
City Solicitor.

Also

No. 637. An ordinance imposing the charge, custody and care of such portions of the Public Safety Building in Sixth avenue, City of Pittsburgh, as are not now occupied and used by the Department of Public Safety, and which may in the future be vacated by said Department, upon the Bureau of City Property in the Department of Public Works.

Also

No. 638. An ordinance amending Section 62, Line 1, Department of Public Works, Bureau of Highways and Sewers, of an ordinance entitled, "An ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof, etc." which became a law February 18th, 1918.

Mr. English presented.

No. 651.

Whereas, The Pittsburgh Railways Company have joined in a petition to the United States Court asking that Receivers be appointed; and,

Whereas, The Council of the City of Pittsburgh as the regularly elected representatives of the people are desirous of having competent Receivers appointed and feel that the names of persons having a knowledge of the difficulties which have confronted the City of Pittsburgh in the efforts to obtain better service from the Pittsburgh Railways Company should be submitted for the consideration of the Court; therefore, be it

Resolved, That Council respectfully suggests to the Honorable Court of the United States that the names of William A. Magee and Charles K. Robin-

son be given consideration in the appointing of Receivers for the Pittsburgh Railways Company.

And Be It Further Resolved, That the President of Council is hereby requested to deliver a copy of this resolution to the Honorable Court.

Which was read.

Mr. English arose and said:

"Mr. President, I would like to say this: After many years' effort it would now seem that the Pittsburgh Railways Company themselves through their regularly appointed or elected officials acknowledge the handwriting on the wall. It will be a sorry thing for the people if the officials of the City of Pittsburgh do not rise to this occasion and look forward to the interests of not only this generation, but those which follow.

"Everyone here is well aware of the difficulties which have confronted our people for many years due to the miserable handling of the street car problem. We are not here to make charges against these officials; we haven't any charge to make against their personal honor, integrity or honesty; but we do charge, Mr. President, with all solemn, serious attention that the people of Pittsburgh have not received from this corporation and its underlying companies the service to which they have been entitled. And for that reason, it seems to me, this is a most critical time in the history of Pittsburgh.

"The transportation of the people of a great community is of great importance to the welfare, the peace, the prosperity and the progress of the community. As a member of this Council I have been compelled to vote to take action against these corporations at Harrisburg, not because I had any personal feeling or animosity against the companies or their officials, but simply because I recognize as one of the common, plain citizens of this community that the people have not been given the service to which they are

entitled, and for that reason we were compelled to enter proceedings against them before the Public Service Commission and resist with all our might the encroachment of the corporations against the rights and welfare of the people. We are at the point where the Court of the United States, the sovereign power of the country, is invoked in a final effort to help in this great problem. I think we must rise to this occasion and I think in offering this resolution we should have the hearty co-operation of the Mayor and the Law Department, because every one will admit that the men whom I have named in my resolution have as good knowledge of this subject as it is possible for anyone in Pittsburgh to have; and viewing it as I do from the people's standpoint I feel sure that if the Honorable Court will listen to this suggestion if it is passed by this Council, it will result in great good to the citizens of Pittsburgh.

"There is no politics attached to this resolution. Every one knows the ability of the men I have named and recognize that this is one time to lay aside any and all political consideration and enter into this for the purpose of getting good service for the people of Pittsburgh."

Mr. English moved.

The adoption of the resolution.

Upon which motion, the Chair ordered a call of the ayes and noes, and the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Burke
Dailey

English
Herron (Pres.)
McArdle

Ayes—5.

Noes—None.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

And on motion of Mr. Dailey,

MAYOR'S OFFICE.

Pittsburgh, April 29th, 1918.

To the Honorable the Council of the City of Pittsburgh.

Gentlemen:

In answer to your second request for information relative to the Police Magistrates' connection with the banquet of the Justices of the Peace of Allegheny County. The subject is one that I have no personal knowledge of.

I might answer your communication or resolution asking for information satisfactory to you by saying that it is my opinion that no public official should use his position to collect money for any purpose whatsoever, barring possibly the war activities of the day that claim our attention.

No police magistrate could use his position to collect money for the organization known as "City Magistrates" with my approval.

Very respectfully yours,

E. V. BABCOCK,

Mayor

Which was read and referred to the Committee on Finance.

Also

No. 690.

MAYOR'S OFFICE.

April 26th, 1918.

To the Honorable, the Council of the City of Pittsburgh.

Gentlemen:

I hand you herewith copy of a communication, which I have transmitted to the Receivers of the Pittsburgh Railways Company.

Very truly yours,

(Signed) E. V. BABCOCK,

Mayor.

MAYOR'S OFFICE.

April 25th, 1918.

Messrs. J. D. Callery, H. S. A. Stewart and Charles A. Fagan, Receivers for the Pittsburgh Railways Company, Pittsburgh, Pa.

Gentlemen:

In behalf of the City of Pittsburgh,

I beg to call your attention to certain matters which should receive your prompt consideration.

First: The City of Pittsburgh has filed with the Public Service Commission of the State two complaints; one dealing comprehensively with the question of service and rates, and the other dealing specifically with the increase in fares and effective January 22nd, 1918. It has been agreed between the City, the Company and the Public Service Commission that to expedite the consideration of these complaints, these matters should be referred to two conferences of engineers; one on valuation, the other on service and facilities. The service conference has carried on its work for over six months and has made several interim reports to the Commission, and the valuation work has been under way for about two months. I would recommend that these conferences be continued and the organizations be maintained, and that the Receivers secure the necessary approval of the Court to become proper parties in these matters.

Second: No definite agreement has been reached between the Company and the City relative to the improvement of highways which involve the reconstruction of tracks. In order that this work may be taken up and completed during the present working season, an immediate decision must be reached. This is particularly true of such places as Chartiers and Warrington avenues, where contracts have been let by the City for its share of the work and the contractors cannot proceed until some definite arrangement has been made with respect to the work within the railway area.

Third: With regard to the matter of service, I desire to impress upon you the importance of rehabilitating the properties of the Company, so that adequate service may be furnished at all times, including the Winter, as well as the Summer months, and to remind you that the preparation for next Winter must not only begin now, but that this work must be vigorously prosecuted during the present season so that we may not have a recurrence of the service conditions of last Winter. I cannot insist too strongly that everything should be done to prepare the equipment and properties of the Railways Company for reasonable service and to meet the requirements of the winter season.

I would suggest that these matters be taken up at a conference with you at your early convenience, and I further desire to express our willingness to assist and co-operate in every way possible to improve the service and facilities of the Railways Company.

Very truly yours,

(Signed) E. V. BABCOCK,

Mayor.

Which was read.

Mr. McArdle moved.

That the communication be re-

ceived and filed, and a copy furnished each member of Council.

Which motion prevailed.

REPORTS OF SPECIAL COMMITTEES.

Mr. McArdle presented.

No. 695.

Pittsburgh, April 29th, 1918.
To the Council.

Gentlemen:—Your Committee, to which was referred the matter of the burning coal at Beacon and Wightman streets on private property, beg leave to report that we have personally investigated the conditions there and have discussed the matter with the owner of the property and the contractor, as well as with the Director of the Department of Public Health and the Director of the Department of Public Works.

We have been advised that the Director of the Department of Public Health has referred the matter to the Law Department with the request that it take the necessary steps to suppress the nuisance.

It is the committee's belief that all the Council can do in the circumstances at this time is to pass a resolution instructing the Law Department to proceed in accordance with the requirements of the law to have the nuisance suppressed. For that purpose a resolution is herewith presented, which the Committee recommends that the Council adopt.

Respectfully submitted,

Enoch Rauh,
W. Y. English,
P. J. McArdle,

Chairman.

Which was read, received and filed.

Also.

No. 696.

Whereas, There is now and has been for some time a condition prevailing at the corner of Beacon and Wightman streets resulting from the burning of coal on private property, which constitutes a public nuisance; and

Whereas, Numerous complaints have been made to the various departments of the City Government and many conferences have been held looking to the abatement of this nuisance without definite results so far; and

Whereas, It is the judgment of the council that the City should take all reasonable steps within its power to furnish relief to the residents of the neighborhood; therefore, be it

Resolved, That the Law Department be directed to take such steps as may be necessary under the law governing the case to bring about an abate-

ment of this condition at the earliest possible moment.

Which was read.

Mr. McArdle moved.

The adoption of the resolution.
Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. English presented.

No. 697.

Whereas, The patriotic women's parade of Saturday, April 20th, 1918, was the greatest demonstration ever held in the City of Pittsburgh; and

Whereas, The City of Pittsburgh and the surrounding district is represented in the Army and Navy of the United States by many thousands of patriotic men; and

Whereas, It would help our soldiers and sailors to know that the women of Pittsburgh and surrounding districts are doing their part to help our country win the war; therefore, be it

Resolved, That the President of Council appoint a committee of three members of Council to find out what it would cost to have moving picture films made of the parade of April 20th, 1918, and have same exhibited to the Pittsburgh Soldiers and Sailors in the camps in the United States and Europe and on the ships of the United States.

Which was read.

Mr. English moved.

The adoption of the resolution.
Which motion prevailed.

And the Chair appointed as members of said committee, Messrs. English, Burke and Garland.

Also.

No. 698.

Whereas, The newspapers of April 28th, 1918, carried a list of names purporting to be a committee in the interests of Messrs. Sproul, Beidleman and Woodward; and

Whereas, The names of eight members of the Council of the City of Pittsburgh were included; and

Whereas, The members of Council were not consulted and therefore did not give their consent to act as members of such campaign committee; therefore, be it

Resolved, That Charles H. Kline be notified by the City Clerk that the Council hereby repudiates the use of the names of any members in furthering the campaign of the persons above named and that Council desires the same publicity be given to this resolution so that the people of Pittsburgh and also the State of Pennsylvania may be informed that the members of Council are not in sympathy with this method of naming campaign committees.

Which was read.

Mr. English moved.

The adoption of the resolution.

Mr. English arose and said:

"Mr. President, my reason for introducing this resolution is for the purpose of having the members of Council repudiate this style of campaign. It seems to me in this enlightened age and in particular in the shadows of a great war we should repudiate any organization of men who attempt to use our names indiscriminately as was done in this case.

"For my part I am not for the men named by this committee for which we are supposed to represent. My name was no doubt used because I was a member of the Pittsburgh City Council. I am opposed to the candidacy of the men named by this campaign committee because I do not wish to continue the rule of Mr. Penrose at Harrisburg. We have suffered enough in Pittsburgh from this crowd of politicians, and I can recall to the members of Council when we went to the last Legislature with bills to help Pittsburgh we were treated with contempt by certain members of the Penrose organization. The twenty-one bills prepared and introduced by the Committee on Taxation were given very scant consideration. The men who were interested in the passage of these bills had to consult a man who was not a member of the Legislature. Mr. Max Leslie, who said that the bills would never come out of the committee. The bills, however, were reported out of committee, but met defeat in the House.

"I have no doubt if this machine crowd gets away with this election, inasmuch as the people are interested in the war, the same people or gang entrenched with the same power behind them will be in control of the legislation at Harrisburg. I know if Mr. Leslie is elected to the State Senate it is his purpose to rip off the Council of Nine. If I am ripped out of office as a councilman I will come back to devil them more.

"I have faith in the people of Pittsburgh. The members of Council have a right to interest themselves in politics. We should repudiate the whole crowd. For my part I wish to make this public announcement that I am for J. Denny O'Neil and John R. K. Scott."

Mr. Raub arose and said:

"Mr. President, did I understand the gentleman to say he is non-partisan in politics?"

The Chair:

"He did not at this time."

Mr. Dalley arose and said:

"Mr. President, I want to say that I am against the adoption of the resolution. If I want to repudiate any statements appearing in the public press I will do it in the proper manner. This body does not need to repudiate any action for me."

Mr. Garland arose and said:

"Mr. President, did he receive any information that he was put on the committee?"

Mr. English arose and said:

"Mr. President, that is the reason why I am insulted. Every newspaper in Pittsburgh carried an item that I was for Mr. Sprout for Governor of Pennsylvania. At the very top of the list appeared the names of eight members of council. It is very evident that the gentleman was not consulted as to the use of his name on this committee, and for that reason he should vote for the resolution."

Mr. Garland arose and said:

"Mr. President, I am not like the gentleman who preceded me. I am not for the resolution. We should not take these matters so seriously. I asked him if he received any notice of being placed on the committee. I am sure that those who put him on the committee will be glad to take his name off. It would not look right there. We see things in the newspapers that we should not pay any attention to. Did he get any official notice? It may be a newspaper error. No matter what it is he is bringing something before the Council that is entirely out of order. He can be for J. Denny O'Neil and Mr. Scott, but I would remind him that this is a non-partisan body, and he is injecting politics into it."

Mr. English arose and said:

"I was not consulted about this publication. I have no communication from Mr. Kline, Leslie or Armstrong, or the other cohorts that my name was to be used. One member of Council happened to see the list of names before it was published, and he had his name stricken off. If I had seen the list before it was published I would have had my name stricken off too." Did they consult you about the use of your name on this committee?"

Mr. Garland arose and said:

"Mr. President, I am glad to answer the gentleman. I want to say that I was not consulted and I further want to say that this resolution should not be here. It is simply taking a story out of the newspaper. It is playing politics. I think his name could have been taken off that list to the entire satisfaction of everybody concerned. He has no official notice that he is a member of the committee. He is assuming too much. In a body such as this, it is playing politics for a man to say who he is for for Governor of Pennsylvania."

Mr. English arose and said:

"Mr. President, the gentleman plainly stated that he was not consulted. Consequently he should vote for the resolution."

Mr. Raub arose and said:

"Mr. President, if the gentle-

man is terribly hurt why does he not notify the different people to take him off the committee. If he wants to be sure of the proper persons receiving his notice of withdrawal from the committee he should put a special delivery stamp on it and then if he wished to be doubly sure that the letter would not be miscarried let him register it. This is a non-partisan body and partisan politics should not be brought into the deliberations of the body."

Mr. Garland moved.

That the resolution be laid on the table.

Upon which motion, Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dalley Rauh
Garland Robertson

Noes—Messrs.

Burke Herron (Pres.)
English

When the name of Mr. McArdle was called, he arose and said:

"Mr. President, I am not voting for the reason that the subject matter of the resolution concerns itself of things about which the Council has nothing to do, and it seems to me to call for no action upon my part as a member of this public body."

Ayes—4.

Noes—3.

And a majority of the votes being in the affirmative, the motion prevailed.

Mr. Robertson presented.

No. 699. Whereas, Major James P. Kerr has volunteered his services, has been accepted and is in service in the United States Army; therefore, be it

Resolved, That the City Clerk be and he is hereby authorized and directed to have the desk of Major James P. Kerr decorated with the American flag and a Service flag during his absence.

Which was read.

Mr. Robertson moved.

The adoption of the resolution. Which motion prevailed.

The Chair presented.

No. 700. Resolution authorizing the Mayor to execute and deliver to Peter McGovern a proper deed of conveyance of a tract or strip of land on Morningside avenue, conveyed to the City of Pittsburgh by Mrs. Josephine W. Garber, upon the payment by said McGovern to the City of the verdict of \$20,000.00 and costs entered at No. 1586 October Term, 1916, Court of Common Pleas of Allegheny County.

Which was read and referred to the Committee on Finance.

And on motion of Mr. Garland.

City of Pittsburgh, Penna.,
May 6th, 1918.

President and Members of Council
of the City of Pittsburgh.

Gentlemen:

Bill No. 621 "An Ordinance authorizing the Mayor and the Director of the Department of Charities to place the entire herd of cattle of the City of Pittsburgh at Mayview under the supervision of the State Livestock Sanitary Board, etc." is returned herewith without my approval.

I do not see the necessity of delegating any of the activities of this well managed department to any one outside the department. Neither do I approve of the stipulations and conditions under Section 2 of the ordinance. Section 2, Caption 1, provides for an annual test of all animals over six months by a veterinarian approved by the State. A tuberculosis test of the animals is right, but it should be made by veterinarians in the employ of the City of Pittsburgh, and not left to the State Livestock Sanitary Board to name outside veterinarians. The City has competent veterinarians and they should be expected to attend to the City's business.

Section 2, Caption 2, provides for the removal of all reactors, which is right. Section 2, Caption 3, provides for an annual test and special re-tests for certain individual animals, which is right. Section 2, Caption 4, provides for the making of no additions to the herd without the consent of the State Board and to add no animals to the herd who shall not have passed two officially approved examinations and tuberculin tests. This is unnecessarily drastic. New animals should be thoroughly tuberculin tested but one test is considered sufficient. I can see no reason for the necessity of having the State Live Stock Sanitary Board approve or disapprove of our adding to the herd.

Section 2, Caption 5, provides for disinfecting and keeping the premises in a sanitary condition, which is right. The department of Charities in managing and running their dairy should cooperate with the State Live Stock Board and keep the herd in healthy condition and produce healthy sanitary milk, but I can see no reason for their turning the management or the supervision of that activity over to the State Board, and, therefore, return the ordinance without my approval.

Very respectfully yours,

E. V. BABCOCK, Mayor.

Which was read, and on motion of Mr. Rauh, received and filed.

And

Bill No. 621. An Ordinance entitled, "An Ordinance authorizing the Mayor and the Director of the Depart-

ment of Charities to place the entire herd of cattle of the City of Pittsburgh at Mayview under the supervision of the State Livestock Sanitary Board for the purpose of eradicating tuberculosis and maintaining a tuberculosis free herd under certain stipulations and conditions."

In Council, April 29th, 1918, Rule suspended, bill read three times and finally passed.

Was read.

Mr. English moved

That further action be deferred until the next meeting of Council and that the Director of the Department of Charities be furnished a copy of the veto message of the Mayor and the Director be requested to reply thereto at that time.

Which motion prevailed.

City of Pittsburgh, Penna.,
May 6th, 1918.

President and Members of Council
of the City of Pittsburgh.

Gentlemen:

Bill No. 362, "An Ordinance repealing an Ordinance entitled, 'An Ordinance extending and opening Archon way, etc.', "is herewith returned without my approval.

In studying this Ordinance I find that the subject was before Pittsburgh Council December, 1917, and was vetoed by my predecessor in office, Joseph G. Armstrong.

Extending a street or an alley a short distance—only 50 feet, the width of one lot—is an unusual thing to do, but in this case one of the interested owners, Fannie Lewin and her husband, Robert Lewin, have this day entered into an agreement to protect the City from all expenses, including not only the opening but the grading, curbing, paving and all possible expenses connected with the same, holding the City harmless from any expense whatever. This being the fact I can see no objection to extending this alley to accommodate the people interested. The desire of the people is to have the alley extended so that they can have use of the back entrance for a garage and other alley advantages, for which privilege they are willing to pay all the expense of the extension of Archon way.

I personally visited Archon way and find it a well paved alley and the extension of it would give use 50 ft. more alley without cost to the City.

Very respectfully yours,

E. V. BABCOCK, Mayor.

Which was read, and on motion of Mr. Garland, received and filed.

And

Bill No. 362. An Ordinance

entitled, "An ordinance repealing an ordinance entitled, 'An ordinance extending and opening Archon way, in the Eighth ward of the City of Pittsburgh, from the southerly line of Lot No. 23, as shown in Dr. A. H. Gross Plan of Friendship Grove, northwardly for the distance of 50 feet; establishing the grade thereof, and providing that the cost, damages and expenses occasioned thereby be assessed against and collected from properties benefited thereby,' approved March 15th, 1917."

In Council, April 29th, 1918, Bill read and passed finally.

Was read.

Mr. English moved

That further action on the bill be deferred for one week.

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. English presented

No. 741.

Whereas, The newspapers of this City in the past few days printed statements purporting to be those of the Receivers of the Pittsburgh Railways Company, in which it is said that a further increase in fares will be necessary in order to operate the Pittsburgh Railways Company's street car system; and

Whereas, No statements have appeared regarding the advisability of stopping payment of the interest charges on stocks and bonds in excess of legitimate capital charges as set forth in the complaint of the City of Pittsburgh against the Pittsburgh Railways Company, now pending before the Public Service Commission of the State of Pennsylvania at Harrisburg; therefore, be it

Resolved, That it is the sense of Council and the Mayor, the duly elected representatives of the taxpayers of the City of Pittsburgh, to have the City Solicitor inform the Receivers of the Pittsburgh Railways Company that the Council does not view with favor any further increase in fares unless it can be shown that the interest on capital charges are legitimate investments and do not cover value of franchises, mistakes and errors due to the mismanagement of underlying companies in past years, whether prior to formation of the holding company or since the organization of the holding company now known as the Pittsburgh Railways Company; and be it further

Resolved, That a copy of this resolution be forwarded to the Receivers of the Pittsburgh Railways Company and also the Pennsylvania Public Service Commission.

Which was read.

Mr. English moved

The adoption of the resolution. Which motion prevailed.

Also

No. 742.

Whereas, The five appointees of the Mayor for the office of Police Magistrates have been rejected and confirmation refused by the Council; and

Whereas, From January 25th, 1918, to May 6th, 1918, is more than a reasonable time for the Mayor to make new appointments and submit same to Council; therefore, be it

Resolved, That the President of the Council be directed to take up with the Attorney-General of the State of Pennsylvania the advisability quo warranto proceedings to compel the Mayor of Pittsburgh to comply with Section 6 of Article 14 of Act of May 31st, 1911, No. 192, P. L. 461, which reads as follows:

"The appointments hereafter to be made of the heads of all executive departments of said City, now by law authorized to be made by the Mayor thereof, shall be subject to the approval of said Council, to be evidenced by resolution, which shall receive the affirmative votes of a majority of all the members thereof; failing which approval, the Mayor shall again designate another person or persons to fill the position or positions, as to which the former nominations have failed of approval, until the nominations are made which are approved by Council in the manner above set forth."

Which was read.

Mr. English moved

The adoption of the resolution. Upon which motion, Mr. Garland demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

An Ordinance entitled, "An Ordinance authorizing and empowering the Mayor and the Director of the Department of Public Works to enter into a lease with the Epping-Carpenter Company for a portion of the public land along the Allegheny river, in the Ninth ward of the City of Pittsburgh, and fixing the terms and compensation of said lease."

In Council, May 6th, 1918, rule suspended, read three times and failed to pass finally for lack of a legal majority of votes.

Which was read.

Mr. Rauh moved

To reconsider the vote by which the bill was read a second and third times and failed to pass finally for lack of a legal majority of votes.

Which motion prevailed.

And the question recurring, "Shall the bill as read a second and third times be agreed to?"

The motion did not prevail.

Mr. Rank moved

That the bill be recommitted
to the Committee on Finance.
Which motion prevailed.

Mr. McArdle presented

No. 743. Whereas, There are
extremely dangerous conditions exist-
ing at the corner of Federal street and
North Canal street and also at the in-
tersection of Washington Place and
Fifth avenue, due to the great amount
of traffic and the lack of a traffic of-
ficer at these points; therefore, be it

Resolved, That the Director of the
Department of Public Safety be re-
quested to place cornermen at the in-
tersection of Federal street and North
Canal street and at the intersection of
Washington place and Fifth avenue.

Which was read.

Mr. McArdle moved

Whereas, The competition of the various railroads in Pittsburgh in past years has prevented the building of a terminal belt line which would provide quick transfer of freight from any one Railroad Line to the other lines in the city; and

Whereas, The United States Government is now managing and operating all the Railroads in the country and welcomes any suggestion which would help to relieve the freight congestion now existing; and

Whereas, It is a patriotic duty to do anything and everything to help our country win the war; therefore, be it

Resolved, That the Mayor and the Council of the City of Pittsburgh, join in respectfully calling to the attention of Director General McAdoo that a belt line connecting the various railroads in the city would be a great help to the badly congested railroad systems; and, be it further

Resolved, That we earnestly recommend the construction of a belt line railroad connecting the various railroad systems in Pittsburgh as an urgent war necessity.

No. 782

Department of Charities,
Pittsburgh, May 10, 1918.

Honorable Members of Council,
City of Pittsburgh, Pa.

Gentlemen:

In answer to the Mayor's veto message, Bill No. 735, returning to Council without his approval, Bill No. 621. A short time ago the State Live Stock Board submitted to me an agreement as per Bill No. 621. I felt that it would be well to have same placed before your Honorable Body and the Mayor for your consideration.

If the Veterinarians employed by the City of Pittsburgh will take care of this work, as the Mayor suggests, we would no doubt accomplish the same results.

Yours very truly,

JOHN J. McKELVEY, Director.

Which was read, and on motion of Mr. Burke, received and filed.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	Herron (Pres.)
Burke	McArdle
Dailey	
English	

Noes—Messrs.	Rauh
Garland	Robertson

Ayes—5.

Noes—3.

And there not being two-thirds of the votes of Council in the affirmative, the objections of the Mayor were sustained.

The Chair presented

No. 785

May 13, 1918.

Committee on Public Works:

Gentlemen—I am enclosing herewith copy of a report from Mr. N. S. Sprague, Chief Engineer of the Bureau of Engineering, on Council Bill No. 719, being an ordinance authorizing and directing the construction of a public sewer on Nansen street.

I agree with Mr. Sprague in his recommendations.

Yours very truly,

JOHN SWAN,

Director.

May 11, 1918.

Nansen Street Sewer,

Council Bill No. 719.

Mr. John Swan, Director Department of Public Works:

Dear Sir—Herewith I return you copy of Council Bill No. 719, which is an ordinance authorizing and directing the department to advertise for bids and to award a contract for a public sewer on Nansen street, from a point about 200 feet northwest of Flowers avenue to the existing sewer on Flowers avenue, and in response to your request, the following report is submitted in connection with this bill:

There are six houses located upon Nansen street, which at the present time are without drainage facilities although there is an existing sewer on Nansen street. It appears that the present sewer was constructed in the year 1894, and is laid in a rock tunnel about 26 feet below the surface of the ground. It is therefore impracticable to make connections to this sewer.

The necessity for providing drainage to these houses was called to the at-

tention of the department by Mr. Frank D. Baker, owner of one of the properties on Nansen street. The bill provides for a 12-inch pipe sewer laid at a reasonable depth below the surface of the street, so as to provide drainage facilities for the houses which have been erected on Nansen street.

I therefore recommend the passage of the bill in the interest of public health and sanitation.

Yours truly,

N. S. SPRAGUE,

Chief Engineer.

Which was read, and on motion of Mr. Robertson, received and filed.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

MOTIONS AND RESOLUTIONS.

Mr. Garland presented:

No. 787.

Whereas, A large number of men from the City of Pittsburgh have entered the Military and Naval services of the United States; some of them now being on the firing line, and although no particular casualties have as yet been reported, they are to be expected: therefore, be it

Resolved, That for the purpose of emphasizing the sacrifice and patriotism in our community making such a wonderful contribution to the cause of Democracy, that the Director of the Department of Public Works, in conference with the Art Commission, be instructed to report on the cost and design of a suitable bulletin board to be hung in front of the City-County Building on which shall be recorded from time to time any casualties that may occur among Pittsburgh men now in the service.

Which was read.

Mr. Garland moved:

The adoption of the resolution.

Which motion prevailed.

Also

No. 788.

Resolved, That the Art Commission be instructed to begin a study of suitable and proper locations for the erection of bronze tablets to perpetuate the memory of the Pittsburgh boys who sacrifice their lives in behalf of Free Government and that the Art Commission report whether this should be in the form of one large central monument or several bronze tablets scattered throughout the City of Pittsburgh.

Which was read.

Mr. Garland moved:

The adoption of the resolution.

Which motion prevailed.

Mr. Burke presented:

No. 789.

Whereas, Service Flags have come to have a meaning in the life of our Nation, and we silently honor and respect the places and the houses in which we see one. Service flags tell without words of the brave men who have given up their all—who have cut themselves loose from all home ties—severed themselves from the places and people dear to them in order that the rights of humanity may be preserved and the world made safe for Democracy.

We today honor the memory and commemorate the patriotic services of our absent colleague, Dr. Kerr. Dr. Kerr

volunteered his services and his medical skill to his country; he has enlisted in a great and worthy work, and is in position to do much good. We are proud of him, and the people of Pittsburgh, too, have reason to feel proud of their public servant, who put aside everything else to aid his country and do his bit. We are not all doctors and we cannot all do the work which he is doing, but we are all patriots, and animated by a feeling of patriotism and respect, we honor Major Kerr, our fellow member of Council, and in our hearts echo the wish that he may return to us safely and well; therefore, be it

Resolved, That this resolution be made a part of the minutes and be spread in full upon the records of Council.

Which was read.

Mr. Burke moved:

The adoption of the resolution.

Which motion prevailed by a unanimous rising vote.

Mr. English presented:

No. 790.

Whereas, Mr. Frank, as the spokesman for the Employers' Association of this vicinity, has notified the members of Council sitting in the Committee on Finance, that the passage of Ordinance No. 428 is contrary to the spirit and the rules adopted by the National War Labor Board; and

Whereas, The National War Labor Board is the body appointed by President Wilson to consider and adjust all differences between employers and employees during the war, and

Whereas, The members of the Council of the City of Pittsburgh desire to help the National Government by all the means in the power of said Council, and do not wish to pass any ordinance or ordinances which could be considered as an obstruction to the winning of the war; therefore, be it

Resolved, That Ordinance No. 428 be submitted to the National War Labor Board, together with the written statements or briefs of the arguments for and against the Bill; and, be it further

Resolved That Council respectfully requests the National War Labor Board to pass its opinion on this ordinance and whether or not it is contrary to the spirit and rules adopted by the said Board as a guide for employers and employees during the war.

Which was read.

Mr. English moved:

The adoption of the resolution.

And the question recurring on the adoption of the resolution, Mr. Eng-

lish demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.
Dailey
English

Garland
Rauh
Robertson

Noes—Messrs.
Burke

Herron (Pres.)
McArdle

Ayes—5.

Noes—3.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Mr. English moved:

That the Chair get in touch with persons who are interested in Bill No. 428 and ask them to prepare briefs to send to Washington.

Upon which motion, Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.
Dailey
English

Garland
Rauh

Noes—Messrs.
Burke
Herron (Pres.)

McArdle
Robertson

When the name of Mr. English was called, he arose and said:

"Mr. President, I vote AYE, because I wish the labor representatives to present a brief of their side of the case so that a complete opportunity will be given the National War Labor Board to thoroughly consider the statements of those for and against the ordinance."

When the name of Mr. McArdle was called, he arose and said:

"Mr. President, I vote NO, because I would not impose upon the labor unions what I regard my obligation and duty as a city councilman."

When the name of Mr. Rauh was called, he arose and said:

"Mr. President, I vote AYE, and want to say that when the time comes to take a vote on the ordinance, I will not be afraid to face responsibility."

Ayes—4.

Noes—4.

And there not being a majority of the votes in the affirmative, the motion did not prevail.

And on motion of Mr. Garland,
Council adjourned.

No. 819.

MAYOR'S OFFICE.

Pittsburgh, May 20th, 1918.

President and Members of Council of the City of Pittsburgh:

Gentlemen:

I herewith hand you a communication dealing with the existence of an emergency relative to coal supply.

The Mayor and the Director of Public Works and the Director of Supplies have had several conferences with National Fuel Administrator Kuhn relative to the subject and in order to get Council working on the scheme I am submitting these papers. When same have been referred to a committee a hearing should be held, when a thorough study of the subject can be gone into.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Pittsburgh, May 18, 1918.

To the Honorable, the Council of the City of Pittsburgh.

Gentlemen:

Whereas, During the year 1917, owing to the war conditions, there was a continuous shortage of coal supply in this locality to such an extent that at various periods meet the present and emergency needs and demands of the City, and to prevent disaster next winter; the Fuel Administration believes that there is municipal works being without coal was in fact avoided only by the direct intervention of the Federal Fuel Administrator in commandeering coal for the use of the municipality; and

Whereas, After a thorough investigation of present conditions and circumstances, and after conference with and advice from the Federal Fuel Administrator for this District, whose communication on the subject I transmit herewith, I am fully satisfied that such an emergency exists at the present time, concerning present and prospective coal supply, as to justify me in certifying, and I do now certify, to your Honorable Body the existence of said emergency, in order that an ordinance of Council to that effect may be duly enacted in the manner provided by law and that your Honorable Body may appropriate the sum of one hundred thousand (\$100,000) dollars at the present time, and such additional sum or sums from time to time as may be considered necessary and advisable for the purpose of purchasing a large supply of coal for fuel to be used and disposed of as authorized by the Act of

Assembly approved the 19th day of July, 1917, P. L. 1105.

Respectfully,

E. V. BABCOCK,

Mayor of the City of Pittsburgh.

I hereby join in recommending the action of His Honor, Mayor Babcock.

E. S. MORROW,

Controller.

May 20, 1918.

FEDERAL FUEL ADMINISTRATION
FOR PITTSBURGH DISTRICT.

Pittsburgh, May 17th, 1918.

Hon. E. V. Babcock,

Mayor of Pittsburgh,

Pittsburgh, Pennsylvania.

Dear Sir:

An emergency exists at the present time for the storing of coal in and around the City of Pittsburgh for the benefit of the City water-works, municipal institutions and for the benefit of residents of the City.

The City water-works at the present time, as well as last winter, has been short of coal, making it necessary on the part of the Fuel Administration to commandeer coal to be used by the water-works. Furnishing coal to the water-works and to the municipal institutions by railroad is uncertain, owing to the difficulties of railroad transportation and inability to buy rail coal.

There exists at the present time an opportunity to secure coal and store it which should be taken advantage of at once, and that is, securing coal from the various wagon mines in and tributary to Pittsburgh.

The Fuel Administration for the Pittsburgh District strongly recommends that the City should make arrangements to acquire and store all available coal tonnage from the wagon mines that may be obtained in and tributary to Pittsburgh, in order to there was imminent danger of a complete stoppage of the City Water Works and other necessary municipal operations, menacing the City and its inhabitants with actual calamity, which grave danger of the water-works and next winter part of the time, unless advantage is taken of the present opportunity to store coal from the wagon mines, which may be hauled from these mines to storage piles to be provided by the City.

In doing this, the City is relieved from the irregularities and uncertainty of railroad delivery, and it insures the City against shut-down of water-works and disaster that would arise through lack of fuel to all municipal institutions and to residents of Pittsburgh next winter.

The Fuel Administration therefore strongly recommends that the City take such action that will provide means and ways to acquire and store coal available from wagon mines that may

be obtained during the summer and fall months of this year.

Very sincerely yours,

D. W. KUHN,

Federal Fuel Administrator Pittsburgh District.

Also

No. 820. An Ordinance declaring an emergency on certificate of the Mayor in relation to the necessity of purchasing coal supply, as provided by the Act of Assembly of July 19, 1917, P. L. 1105, and making an appropriation therefor.

Also

No. 821. No. 835. Whereas, The soldiers and sailors who have enlisted or been drafted from Pittsburgh and other parts of the United States have no general meeting place or temporary home where they can fraternize while stationed in this City or when here on leave, or passing through, have no place which they can make their headquarters and obtain desired information; and

Whereas, Thousands of soldiers and sailors are in the City every day, coming and going, or visiting friends, and an institution of this kind would not only be of general benefit to them, but would add materially to their personal comfort and welfare; and

Whereas, The Cities of New York, Philadelphia, Boston, Baltimore, Chicago and St. Louis have established Army and Navy service clubs; therefore, be it

Resolved, That the Mayor be requested to appoint, by and with the advice of City Council, a Board of Trustees of at least 100 members to found and form a club and to raise by popular subscriptions sufficient funds to equip the same. Be it further

Resolved, That the City of Pittsburgh place at the disposal of the said club for the nominal rental of \$1.00 for the term of the war, such portions of the Public Safety Building as are needed and which is now lying idle. Be it further

Resolved, That the Board of Trustees when appointed, be authorized to re-

model and furnish said portion of said building as they see fit, and provide a place where the soldiers and sailors can find a comfortable library full of good reading matter, billiard room, writing room, lounge rooms and, if feasible, lunch room and lodging quarters to be conducted at nominal charges.

Which was read and referred to the

Committee on Finance.

And the Minutes of the Meeting of Council of May 6th, 1918, being on the desks of the members, Mr. Rauh moved that the same be approved.

Which motion prevailed.

And on motion of Mr. Garland,

MAYOR'S OFFICE.

Pittsburgh, May 23, 1918.

President and Members of Council of the City of Pittsburgh.

Gentlemen:

Bill No. 778 approved. Not having information of the services rendered by Mr. Sprague in December, I take Council's version and approve of it. The "Whereas" relating to Mr. Sprague's receiving \$200.00 a month for additional services prompts me to say that I would be opposed to Mr. Sprague's receiving additionally \$200.00 a month. I serve this notice to all concerned, fearing that this Resolution is intended to establish a precedent.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read.

Mr. Robertson moved

That the communication be received and filed, and a copy be furnished to the City Solicitor for the information of himself and the Special Assistant City Solicitor in charge of the public utility litigation.

Which motion prevailed.

DEPARTMENT OF ART COMMISSION.

Pittsburgh, May 24th, 1918.

Hon. John S. Herron, President, and
Members of City Council, City-County
Bldg., Pittsburgh.

Gentlemen:

I beg to advise you that the Art Commission, in conference with Mr. Roush, Architect of the D. P. W., considered the matter of bulletin board for casualty lists to be placed in front of City-County Building. (Your Resolution No. 787).

A suggestion was made, and agreed to by this Commission, that it would be desirable to place in front of the City-County Building a suitably designed temporary monument of patriotic character, similar to those erected by other cities. The bulletin board could be incorporated therewith. In addition, arrangements might be made for reviewing and speakers' stand, so that the whole would be a focus of patriotic interest for the City for the duration of the war.

In view of the foregoing, and inasmuch as it affects the recommendation that would be made for the bulletin board, I am directed to request that you consider this matter. If you look with favor upon it and will instruct the Director of the Department of Public Works to have Mr. Roush proceed accordingly, this Commission is prepared to immediately collaborate with the latter in the preparation of designs. It is understood that Mr. Roush is prepared to appear before you to discuss the matter of cost.

The Art Commission respectfully suggests, further, that you consider the desirability of decorating in a suitably patriotic manner the loggia and corridor of the City-County Building—perhaps in conference with the County Commissioners—and that if approved the Director of Public Works be requested to submit estimates of cost.

Respectfully,

FREDERICK BIGGER,

Executive Secretary.

DEPARTMENT OF ART COMMISSION.

Pittsburgh, May 24th, 1918.

Hon. John S. Herron, President, and
Members of City Council, City-County
Bldg., Pittsburgh.

Gentlemen:

Pursuant to your Resolution (Bill No. 788) instructing the Art Commission to study the location and design of bronze tablets or other permanent war memorials, this Department begs to report that it is immediately undertaking a thorough study of the matter. This study will be energetically pursued.

May we suggest, if the determination

of a satisfactory solution of these problems should take considerable time, you will take no action? The Art Commission will co-operate to the limit.

In view of the fact that occasions may arise when Council will desire to recognize instances of heroism, it is respectfully suggested that you might in such instances make appropriations but leave the character of the memorial to be determined upon the basis of the Art Commission's final recommendations.

Very respectfully,

JOHN W. BEATTY,

President.

Executive Secretary.

MAYOR'S OFFICE.

Pittsburgh, May 22nd, 1918.

President and Members of Council of
the City of Pittsburgh.

Gentlemen:

Please see enclosed request of the Woman's Historical Society of Western Pennsylvania for the privilege of erecting a bust of Lincoln in the rotunda of the City-County Building.

My opinion is that it should be the policy of the City to discourage the erection of things of this kind in the rotunda of the City-County Building. I should like to know Council's judgment on the matter.

Of course, a bust of Lincoln erected anywhere in the world is honorable from every aspect, but I am of the opinion that we should not allow ourselves to clutter up the rotunda of this great building with things of an ordinary nature, even though they be meritorious.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Accompanied by a communication from the Woman's Historical Society of Western Pennsylvania for the privilege to place a bust of Lincoln in the rotunda of the City-County Building.

5. Committee on Parks and Libraries.
6. Committee on Public Safety.
7. Committee on Charities and Correction.
8. Committee on Health and Sanitation.

Hearings to be held each Wednesday, starting at 1:30 P. M."

Respectfully submitted,

W. H. ROBERTSON,

JOHN H. DAILEY,

Chairman.

Which was read, laid over for one week and a copy ordered furnished to each member.

Mr. Robertson moved

A suspension of the rule in order that the Committees may meet on Tuesday, May 28th, 1918, and Wednesday, May 29th, 1918, at 10:30 A. M., instead of at 1:30 P. M., and that the hearings be held on Wednesday, May 29th, 1918, at 1:30 P. M.

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

Mr. Robertson presented

No. 889.

Whereas, Legions of our fellow citizens have patriotically given up civil employment at high rates of remuneration to enlist in the service of our Country, at nominal compensation, in its hour of need; and

Whereas, It is fitting and proper that in recognition of the financial sacrifices made, and what is more important, the severance of home ties and the risking of their lives that Democracy shall not perish from the earth, that every possible civilian official cognizance and aid be given to them and their necessities; and

Whereas, There has been no action on the part of the Railroad Management of the United States to assist our soldiers and sailors in the matter of reduced fare between the ports and army cantonments of the United States and the homes of these national defenders when on furlough; therefore, be it

Resolved, That we, the Council of the City of Pittsburgh, the Mayor concurring, do respectfully request the Hon. Wm. G. McAdoo, Director-General of the Railroads of the United States, to promulgate an order giving all soldiers and sailors of the United States the right to purchase railroad tickets from port or camp to their homes and return when on a properly authorized furlough, at one-half the regular rates; and, be it further

Resolved, That a copy of this resolution, on its enactment, be forwarded to Director-General, Hon. Wm. G. McAdoo, at Washington, D. C., together

with a letter from the Mayor asking for its careful consideration.

Which was read.

Mr. Robertson moved

The adoption of the resolution.

Which motion prevailed.

The Chair presented

No. 890.

Whereas, Several serious accidents have recently occurred in the Mt. Washington Tunnel, resulting in serious personal injuries and in great loss of life; and

Whereas, The conditions of operation of cars in Mt. Washington Tunnel, by reason of the long grade, by reason of curves and otherwise, is unusually dangerous, and thereby extra and additional precautions should be taken to obviate and minimize risks of operation; and

Whereas, The conditions of operation call for the taking of extra precautions in regard to the matter of safety devices and equipment, such as de-railing switches, additional braking devices or otherwise, and special rules and regulations of operation; now, therefore, be it

Resolved, That the Law Department be authorized and directed to enter complaint before the Public Service Commission against the present manner of operating cars in Mt. Washington Tunnel and to secure such orders as may be necessary from the Public Service Commission to provide for the installation of reasonable safety precautions, such as the installation of additional braking devices and de-railing arrangements, or otherwise.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 891. An Ordinance creating and establishing a Bureau, under the control and direction of the Mayor, to be known as the "Bureau of City Housing," defining and fixing its powers and duties; providing for the employes thereof, and defining and fixing the compensation and duties of said employes."

Which was read and referred to the Committee on Finance.

And on motion of Mr. Robertson

Council adjourned.

BUILDING CODE COMMITTEE.

Pittsburgh, June 1, 1918.

Mr. John S. Herron,
President of Council,
Pittsburgh, Pa.

Dear Sir:—As requested by you in your letter and as cited in our acknowledgment addressed to you, May 28, 1918, the ordinance No. 846, referred to in your letter, was submitted to the Building Code Committee at their meeting May 29, 1918, and as the Committee noted several irregularities and inconsistencies in the ordinance as proposed, a draft of an ordinance has been prepared and passed by this Committee which is more in conformity with good practice and includes practically all of the provisions for this purpose as will be submitted in the General Ordinance.

This Committee feels that it is better in changing regulations to change to those that will be permanent rather than that will be temporary in their nature and require another change when the building code is finally adopted by Council.

Trusting that this is what you desire from the Committee, I am,

Yours very truly,

S. F. HECKERT.

For the Committee.

Also

No. 897. An Ordinance authorizing and regulating brick, hollow building tile, and hollow or solid concrete blocks in the construction of foundation, enclosing, division and party walls for dwelling houses, and fixing the maximum allowable unit stress for timber used for wood joists in the foregoing; and providing penalties for the violation hereof.

Which were read and referred to the Committee on Public Safety.

Mr. McArdle moved

That a copy of Bill No. 896 be sent to the Director of the Department of Public Safety and the Superintendent of the Bureau of Building Inspection, and they be notified of the hearing on Wednesday, June 5th, 1918, at 1:30 o'clock, P. M.

Which motion prevailed

Mr. English presented

No. 898. An Ordinance amending the first line of Section 16, Bureau of Public Improvements, Department of Law, of an ordinance entitled, "An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof; providing for the increase of salary or wages of at least one hundred fifty dollars per annum to all employees of the City engaged in any service or occupation whatsoever, and receiving a salary of fifteen hundred dollars or less on June 7, 1917, and not in excess thereof on January 1, 1918, as required by the Act of Assembly, approved on June 7, 1917," which became a law February 18th, 1918.

Also

No. 899. Resolution authorizing the issuing of a warrant in favor of Mary and Joseph Petronia in the sum of \$500.00, for expense in connection with the raising of building on Graphic street to conform to the grade due to the grading, paving and curbing of said Graphic street, and charging same to Code Account No. 42, Contingent Fund.

Also

No. 900.

Whereas, The war necessities of our National Government require increased production of bituminous coal so greatly needed by munition factories, the navy and our allies; and

Whereas, The municipal corporation of the City of Pittsburgh is the owner of a splendid coal property at Mayview, or Marshalsea, which should be opened up and coal produced at reasonable cost, thereby allowing the National Government and our allies to obtain the thousands of tons of coal the City is compelled to buy in open market; and

Whereas, The Council of the City has authorized a bond issue of \$200,000 for the purpose of obtaining funds with which to equip and operate a municipal coal mine, but is unable to sell the

bonds on account of a legal opinion; therefore, be it

Resolved, That the Council of the City of Pittsburgh hereby declares its support of the National Government by the adoption of the following proceedings in order to help increase the production of coal.

1st. That the Mayor and the Controller join in asking Council to make an emergency appropriation to obtain immediately necessary funds to equip and operate a municipal coal mine and not be hampered, hindered or delayed any longer by an attorney's opinion that municipal bonds cannot be sold to obtain funds for a municipal coal mine because such authority is not expressly granted in the City Charter, or

2nd. Either the Mayor, or with Council joining therein, petition the United States Fuel Administrator or the President of the United States, if need be, to set aside any law or custom, whether expressed in the City Charter or legal barnacles of unwritten laws or opinions regarding this or any other obstruction which hampers or prevents the City of Pittsburgh from giving the National Government all the aid and assistance it can render in this time of stress.

Also

No. 901.

Whereas, The general public, and particularly the taxpayers, expect and demand that the elective officers shall administer and manage the public business in an impartial, non-partisan, non-political manner; and

Whereas, It is customary for candidates for office, when seeking votes, to promise to administer municipal affairs as a private business, employing and retaining only such employees as really work for the City as faithfully and as efficiently as for private employers, and not attempt to control the political opinion of city employees by threats of coercion; and

Whereas, The Civil Service Law is intended to protect employees of the City from any unjust attacks or annoyance at the hands of superiors on account of holding independent political opinions; and

Whereas, As a matter of fact the city employees and particularly the Policemen and Firemen in times past have been subjected to rewards and punishments on account of their political activity; now, therefore, be it

Resolved, That the Council of the City of Pittsburgh is desirous of the full and complete co-operation of His Honor, the Mayor, the Directors of the various departments and all officials appointed by and under the Mayor, together with every city employee in a sincere effort to take the payroll out of politics and serve the people of Pittsburgh by insisting that positions and salaries be fixed by reason of merit, ability and efficiency and that all reference to politics, ability to handle a district or deliver votes be rooted out and banished from the city government.

To attain this result we recommend:

1st. That Policemen and Firemen, who were transferred, reduced or otherwise penalized for political reasons under the guise of the good of the service be given honest consideration and restored to good standing for a new start. This does not mean to go to the other extreme of abolishing honest discipline, but does anticipate placing men in various stations with some regard for length of service, conduct and distance from their homes and not penalize independent political opinion by three hours' street car travel to get to work

2nd. City employees should not be compelled to campaign for the office of district committeeman for two reasons: 1st. It is humiliating if he is defeated for the office and weakens him in the estimation of the ward chairman who may be his immediate superior in the city service, and 2nd, it creates friction between the candidate and any other city employee who does not favor the candidate. These district contests are really battles for favors from the city officials and do not affect the welfare or principles of the political party under whose banner the contests are waged. We suggest that city employees get out of these committees. Winning the war is the great question now and as the primary election is over this is a good time to cut loose from such political committees and serve the nation by serving the City; be it further

Resolved, That the attention of all be directed to the following extracts from the Acts of Assembly which bear directly on the fundamental question of absolute freedom from solicitation and coercion: Act of April 29, 1874, P. L. 115, copy in Section 2323, page 668, of Digest, Act of June 13, 1883, P. L. 96, copy in Section 2325, page 669 of Digest. Be it finally

Resolved, That the City Clerk shall have these resolutions printed and sufficient copies to supply every city employee; said copies to be distributed by the Paymaster and other officials when paying warrants for wages and salaries.

Which were severally read and referred to the Committee on Finance.

Mr. Garland presented

No. 902. Resolution authorizing the Director of the Department of Public Works to place accident insurance in the amount of \$— on the elevators assigned to and maintained by the City of Pittsburgh in the new City-County Building, and authorizing the issuing of warrants in payment of said insurance and charging same to Appropriation No. —.

Also

No. 903.

Whereas, The following bills for materials and equipment were contracted for by the Department of Supplies without competitive bids, and certain requisitions presented to said Department during the week from May 25th, 1918, to June 1st, 1918, to confirm purchases

made by the several Departments, and consequently can be paid only by authority of a resolution passed by Council in conformity with the Act of 1874, and

Whereas, Said supplies were furnished, accepted and used by the City; therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to issue and the City Controller to countersign warrants in favor of the firms and persons in payment of the claim scheduled below, and charge the amounts to the appropriation item as shown respectively in said schedule.

The Chair presented

No. 928.

Pittsburgh, Pa., June 1, 1918.

Hon. John S. Herron,

President of Council.

Pittsburgh, Pa.

Dear Sir:—We, the undersigned Rector and Cemetery Committee of St. Michael's German R. C. Church, of Pittsburgh, Pa., S. S., do hereby stipulate and agree that the property we have on South Eighteenth street extension (otherwise known as Brownsville Road), Seventeenth ward, Pittsburgh, Pa., will never be sold as building lots, but the same are to be used only for Cemetery purposes.

Very respectfully,

REV. FERDINAND IMMEKUS,
Rector.

WILLIAM BUSCH,

GEORGE HILDORFER,

JOHN C. DISENROTH,

Cemetery Committee.

(Seal St. Michael's Church.)

Which was read, and on motion of Mr. English, received and filed and ordered printed in full in the record.

Mr. English arose and said:

Mr. President, notwithstanding the possible technical difference that may be drawn between the ownership of this cemetery—whether it is a corporation separate from the church or whether this cemetery is owned by the church organization alone, in view of the stipulation which has been filed with the Council and which becomes a part of the Council record in this connection, I think it perfectly proper for me to vote for this exoneration instead of forcing the cemetery company to pay this \$2950.00.

In explanation, I wish to state that I have always taken the position that a cemetery company or any other similar organization not run for profit should not be forced to pay if they are not going to obtain any material benefit from any improvement, such as the South Eighteenth street improvement. Everyone knows that the opening of this road to the hilltop has been of immeasurable benefit not only to the people of Pittsburgh, but to those living beyond South Eighteenth street; and I think it proper for Council, in view of the fact that the cemetery did not ask for the improvement and do not materially benefit by it and would put the cemetery to a great hardship if it had to pay the assessment, to relieve this cemetery of this assessment, and that is my only and sole reason for voting for it.

Mr. Rauh arose and said:

Mr. President, I desire to state

at this time that I am opposed to the passage of the resolution. At the October Term of the Court of Common Pleas of Allegheny County, 1913, Judge Brown handed down an opinion in which he stated, among other things, "that St. Michael's Cemetery is not a charitable institution within the meaning of the Act of June, 1901, P. L. 364; that property held by churches, but not used for church purposes, is liable to assessment for street improvement; that under all the facts in this case, St. Michael's Cemetery is liable to an assessment for the improvement of South Eighteenth street." The Court overruled the exceptions filed by the Cemetery and the report and supplemental report of the Board of Viewers were confirmed absolutely. In view of the fact that the entire matter has been passed upon by the learned judge of the Court of Common Pleas, I am opposed to the passage of the resolution. The City Solicitor in his opinion to the Finance Committee concurs in the conclusions reached by Judge Brown. I therefore wish to be recorded as being opposed to the resolution.

Mr. Garland arose and said:

Mr. President, answering the gentleman on my right, I wish to state that the Constitution of the State does not allow the exoneration to be made. I think he ought to know and every councilman does know it. I wish to state also that the letter received here this afternoon does not help the case for affirmative action, because it is not signed by the Cemetery Company. It is from the Church. A cemetery company is exempt from payment of assessments for street improvements if it is not held for profit. That is not the case here. I desire to place this statement on record.

Several attempts have been made to pass the Ordinance or one similar to it, having the same purpose in view.

The Law Department states it is illegal, and I desire to place said opinion on record as follows:

City of Pittsburgh, Penna.,
May 24, 1918.

Department of Law.

To Finance Committee of Council.

Gentlemen:—By communication dated the 23rd inst., Bill No. 822, being a Resolution releasing St. Michael's Cemetery from the assessment of \$2958.00 for the grading, paving and curbing of South Eighteenth street, was referred to this department for an opinion and report. In this connection, please be advised.

That this entire matter has been passed upon so thoroughly and so clearly by Judge Brown, of our Common Pleas Court, that it occurred to me that I cannot make the matter any clearer, nor make any better statement in regard to it than he has done, and I, therefore, hand to you a copy of his opinion, from which you can determine very readily that the Resolution referred to is without merit so far as the

legal propositions involved are concerned.

Respectfully yours,
STEPHEN STONE,
City Solicitor.

The Board of Viewers has turned it down, the Court has ruled against it, and I here place the Court record in Council as follows:

IN THE COURT OF COMMON PLEAS OF ALLEGHENY COUNTY, PA.

In re opening, widening and extending of Eighteenth street, in the City of Pittsburgh.

No. 1199 October Term, 1913.

OPINION.

BROWN, J., May 21, 1914.—The exceptions filed by Saint Michael's Cemetery to the report of the Board of Viewers, allege the viewers erred in their findings of fact and conclusions of law, holding the cemetery property liable for the assessment (\$2,958) charged against it for the grading, paving and curbing of South Eighteenth street.

The regularity of the proceedings is not questioned.

The viewers' report was filed January 16, 1914, and confirmed nisi. To this report the cemetery filed exceptions. Thereafter, upon argument, the Court referred the report back to the Board of Viewers, directing it to make a special report in the matter of the assessment against the cemetery property, with findings of fact and conclusions of law. After due notice, the board on February 24, 1914, took testimony touching all matters relating to said property and assessment; and on March 7, 1914, made report to the Court—including in said report the following findings of fact and conclusions of law.

FINDINGS OF FACT.

1. That burials were made in said cemetery from about the year 1857; and that the original plot, with various additions thereto, has been used for that purpose up to the present time.

2. That about two-thirds of the frontage on South Eighteenth street has never been used for cemetery purposes; and until recently, was not fenced in with the balance of the cemetery.

3. That the portion of the ground lying outside the cemetery fence and fronting on South Eighteenth street has not been dedicated for burial purposes, and has not been used for that purpose.

4. That sales of lots were made to all persons of the Roman Catholic faith, desiring to purchase same, until from five to seven years ago, since which time sales have been made exclusively to members of St. Michael's congregation.

5. That the funds derived from the

sale of lots have been and are at the present time mingled with funds derived from other sources, and expended for general church purposes.

6. That no claims have been made that the property was not actually benefited to the extent of the assessment.

CONCLUSIONS OF LAW.

1. That the burden of proof is on the party claiming, an exemption for a charitable institution.

2. That St. Michael's Cemetery is not a charitable institution within the meaning of the Act of June, 1901, P. L. 364.

3. That property held by churches, but not used for church purposes, is liable to assessment for street improvement.

4. Under all the facts in this case, St. Michael's Cemetery is liable to an assessment for the improvement of South Eighteenth street.

On March 25, 1914, the cemetery filed the exceptions above referred to. On May 6, 1914, these exceptions were argued by counsel for exceptant and counsel for the City.

A careful examination of the record has not convinced us that the Board of Viewers erred in its findings of fact and conclusion of law.

The testimony taken by the board and returned by it in its supplemental report is clear and concise—all the witnessses produced by the cemetery testifying that the proceeds of sales of lots in the cemetery were not separated from the church funds derived from other sources, but mingled and blended with such other funds, and expended for general church purposes.

In the light of these facts, St. Michael's Cemetery has not brought itself within the terms of Section 5 of the Act of June 4, 1901, P. L. 364 (as amended by the Act of March 19, 1903, P. L. 41), exempting from municipal claims "places of burial not used or held for private or corporate profits"; Mount Oliver Boro. vs. First German Evangelical Congregation, 51 Supr., 343.

The exceptions are overruled and dismissed and the report and supplemental report of the Board of Viewers confirmed absolutely.

I desire to place myself upon record as being averse to placing this Council upon a higher plane than the Courts of Common Pleas of Allegheny County.

My opinion is that when the Court has ruled on such questions as these, they are not within our jurisdiction, no matter how great we may consider our power to be. We should not constitute ourselves a Superior Court over the finding of a Judge learned in the law, who makes his decision only after evidence has been submitted and full opportunity given for hearing.

If the cemetery has any thought that it can have this exoneration made, it has the right of appeal to a higher Court, and this could have been done any time within the past four years.

Mr. English arose and said:

Mr. President, I regret very much that we must occasionally take issue with the supposed superior courts such as the Board of Viewers and the learned judges of the Court of Common Pleas. On this very street, known as the South Eighteenth street improvement, it is within my memory that there were several places along this improvement where the Board of Viewers reached certain conclusions, awarded certain amounts for benefits and damages. The Viewers' findings were then affirmed or confirmed by the court. Then after all proceedings were apparently settled the Council of Pittsburgh took upon itself the authority of appropriating some of the taxpayers' money for the purpose of building retaining walls for holding up the sides of the hill along this street in exact opposition to the award of the Viewers which has been confirmed by the Court. Never in one instance have I heard the Council called a second Supreme Court of Pennsylvania in making such allotment of public funds for private property owners along any street improvement after the award of the Viewers. Time after time this Council adopted resolutions paying people or settling claims of the City in the matter of excessive charges for street improvements and never yet has it been said that we were setting up ourselves as the Supreme Court. On many occasions the Board of Viewers made its report and the Courts did its duty in confirming those reports regardless of the protests and appeals from the taxpayers; and nevertheless and notwithstanding on many and various occasions our Law Department and City Solicitor continually came before the Council of the City of Pittsburgh and asked for certain allotments to be made to certain private property owners, in settlement of such cases.

For all practical purposes this case does not differ in principle from many others such as we have even had today in Bill No. 858 for the Granite Improvement Company, a real estate subsidiary of the Pennsylvania Railroad Company.

In this cemetery case the technical objection is based on Judge Brown's statement or decision that this cemetery was not incorporated and therefore does not come within the powers of the Acts of Assembly relating to exonerations for cemeteries, and yet this institution started in 1857, 61 years ago, and we are still laboring with the Pennsylvania Constitution of 1873. I must submit, Mr. President, that there may be a technical difference as to what funds belong to the church and what funds belong to the cemetery, but there cannot be any difference of opinion that there are dead people buried in this cemetery. No one has stated that a large part of this street improvement is on the hillside which is positively of no use to anybody for building lots or even for modern cemetery purposes. It may be 100 years or more before it is found necessary to fill up the valley portion

of the street frontage for which this exoneration is asked. That time may come sooner. I will not question any other man's opinion in view of my own statement that it may be one hundred years before the improvement is made. The cemetery committee, having filed a stipulation with the Council that the property will not be used for profit, or for building purposes, clearly entitles the cemetery to exemption. It seems to me that we should not hide behind any technicalities regarding incorporation, but it is our plain duty to be fair and just; and I say that Judge Brown nor any other judge found in the State of Pennsylvania could make me believe that the improvement of South Eighteenth street benefited to the cemetery property to the amount of \$2900.00. We know technically under the law it is the sworn duty of the Board of Viewers to exempt any church for street improvement assessments. As members of Council, we have in many and various cases reversed the finding of the Board of Viewers where grades had been established detrimental to property. As a matter of plain justice to the people we have exempted them from assessments which we deemed were a hardship. This is one of the cases. South Eighteenth street is a great public highway improved at the expense of the people of Pittsburgh and not at the expense of the abutting property owners. It is true that some street improvements are of interest to the abutting properties only, but no one can dispute the fact that there was a bond issue for the payment of the greater portion of this South Eighteenth street improvement, and for that reason, also, it is very proper for Council to exonerate this particular piece of property.

Mr. Burke arose and said:

Mr. President, by the passage of this resolution I don't consider that we are taking issue with the court or finding fault with the action of the court. I believe the court decided the question when it was before it in accordance with the law, but the cemetery people have appealed to us for charity and we ought to consider it on that basis alone."

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.	Herron (Pres.)
Burke	McArdle
Dalley	Robertson
English	

Noes—Messrs.	Rauh
Garland	

Ayes—6. Noes—2.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Also, with a negative recommendation,

Bill No. 683. Resolution authorizing and directing the Mayor to execute and deliver a deed for piece of

ground situated at the corner of Frankstown avenue and Wheeler street, Thirteenth ward, to J. A. Blair upon the payment of \$1500.00 to the City of Pittsburgh.

No. 963

City of Pittsburgh, Penna.

June 7th, 1918.

President and Members of Council
of the City of Pittsburgh.

Gentlemen:—I herewith return Bill

No. 852, without my approval. This
Bill exonerates the Eighteenth Regi-
ment Armory from a water tax of
\$65.12. The item is small from a stand-
point of dollars and cents, but I can-
not see a sufficient reason for the ex-
oneration. The precedent established
is bad. If you recognize one claim for
exoneration of this kind you should
recognize all and not make fish of one
and meat of another.

The National Guard and its present
substitute have been appropriated city
monies to a reasonable extent and, in
my opinion, should pay this tax. I
cannot see that the fact that the Uni-
versity of Pittsburgh has military stu-
dents in the building has any bearing
on the case.

Very respectfully yours,

E. V. BABCOCK,

Mayor.

Which was read.

And

Bill No. 852. Resolution au-
thorizing and directing the Board of
Water Assessors to issue an exonera-
tion in the sum of \$65.12, account
water rent charged against the Eight-
eenth Regiment Armory, Bayard and
Trackeray streets.

In Council, June 3rd, 1918. Rule sus-
pended, read three times and finally
passed.

Was read.

Mr. Garland moved

That the communication and
resolution be laid over for one week
and that a copy of the communication
be furnished each member.

Which motion prevailed.

Also

No. 964

City of Pittsburgh, Penna.

June 7, 1918.

To the Honorable, the Council
of the City of Pittsburgh.

Gentlemen:—I return you herewith
Bill No. 858, being a resolution author-
izing the refunding of \$2,165.67 taxes
paid by the Granite Improvement Com-
pany on property occupied by St.
Peter's Roman Catholic Church, Forbes
street, without my approval for the
following reasons:

First. This tax was paid by the
Granite Improvement Company, to
which this refund is to be made, be-
cause it was an incumbrance upon the
property purchased by it from St.
Peter's Church. If the property was
not liable for assessment of taxes,
proper measures should have been tak-
en to resist the assessment and ob-
tain relief in the regular and proper
way.

Second. As the property was sold
and the ownership of the church ceased,
although it continued to occupy the
premises temporarily, the right of
exemption from taxation ceased with

the ownership, and the fact that there was an agreement between the church trustees and the purchases of said property that the church would remain liable for such taxes as might be assessed certainly does not entitle the church to exemption, nor can it legally authorize the refunding of the taxes paid by the purchases to avoid the legal penalties resulting from delay in payment.

I deem these reasons sufficient for withholding my approval of this bill.

Respectfully,

E. V. BABCOCK,
Mayor.

Which was read.

And

Bill No. 858. Resolution authorizing the issuing of a warrant in favor of Granite Improvement Company in the sum of \$2165.67, account refund of taxes on property bought from St. Peter's Roman Catholic Church, Forbes street, First ward, and charging to Appropriation No. 41, Refunding Taxes and Water Rents.

In Council, June 3rd, 1918, Rule suspended, read three times and finally passed by a two-thirds vote.

Was read.

Mr. Garland moved

That the communication and resolution be laid over for one week and that a copy of the communication be furnished each member.

Which motion prevailed.

UNFINISHED BUSINESS.

Bill No. 900

Whereas, The war necessities of our National Government require increased production of bituminous coal so greatly needed by munition factories, the navy and our allies; and

Whereas, The municipal corporation of the City of Pittsburgh is the owner of a splendid coal property at Mayview, or Marshalsea, which should be opened up and coal produced at reasonable cost, thereby allowing the National Government and our allies to obtain the thousands of tons of coal the City is compelled to buy in open market; and

Whereas, The Council of the City has authorized a bond issue of \$200,000 for the purpose of obtaining funds with which to equip and operate a municipal coal mine, but is unable to sell the bonds on account of a legal opinion; therefore, be it

Resolved, That the Council of the City or Pittsburgh hereby declares its support of the National Government by the adoption of the following proceedings in order to help increase the production of coal.

1st. That the Mayor and the Controller join in asking Council to make an emergency appropriation to obtain immediately necessary funds to equip and operate a municipal coal mine and not be hampered, hindered or delayed any longer by an attorney's opinion that municipal bonds cannot be sold to obtain funds for a municipal coal mine because such authority is not expressly granted in the City Charter, or

2nd. Either the Mayor, or with Council joining therein, petition the

United States Fuel Administrator or the President of the United States, if need be, to set aside any law or custom, whether expressed in the City Charter or legal barnacles of unwritten laws or opinions regarding this or any other obstruction which hampers or prevents the City of Pittsburgh from giving the National Government all the aid and assistance it can render in this time of stress.
